Guthy-Renker Ventures, LLC 401(k) Plan
Notes to Financial Statements
December 31, 2020 and 2019

1. DESCRIPTION OF THE PLAN

The following description of Guthy-Renker Ventures, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Guthy-Renker Ventures, LLC (the "Company" or "Employer"), excluding leased employees, nonresident aliens and employees covered by a collective bargaining agreement who have been credited with three months service and attained the age 18. The Plan is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code ("IRC").

Plan administration

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA and by the IRC. The Company has delegated certain responsibilities for the operation and administration of the Plan. Principal Trust Company ("Principal" or the "Trustee") provides directed trustee, custodial and recordkeeping services pursuant to a service agreement.

Contributions

Participants may contribute up to 100 percent of their annual wages up to the maximum allowed under the IRC, which for 2020 was $19,500. Employees who attained the age of 50 could also contribute an additional $6,500 to the Plan for 2020 as catch up contributions. Participant contributions may be made on a pre-tax basis or on an after-tax basis as Roth contributions. Participants are also allowed to rollover contributions to the Plan from other qualified employer-sponsored retirement plans. Company contributions are discretionary. During 2020, the Company matched 50 percent of the participant's deferrals up to a maximum participant contribution of 5 percent of compensation, but suspended Company contributions effective April 19, 2020.

Eligible participants are automatically enrolled in the Plan at a deferral rate of 3% of their compensation on a pre-tax basis. Participants may complete a salary reduction agreement and cease deferrals or select an alternative deferral rate at any time.

Participant accounts

Each participant's account is credited with the participant's contribution (including rollovers from the participant's previous plan), and allocations of the Company's contribution, an allocation of forfeitures, if any, and Plan earnings (losses), and are charged with an allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The participants' vested percentage in Company contributions plus actual earnings are based on participants' years of service. Participants vest at a rate of 25 percent per annum and a participant is fully vested after four years of service.

Forfeitures

Forfeitures of a terminated participant's non-vested account balance may be utilized to pay for ordinary and necessary administrative expenses of the Plan in the current year or used to reduce Company matching contributions. At December 31, 2020 or 2019, forfeited nonvested accounts totaled approximately $9,000 and $920, respectively. During 2020, the Company used approximately $9,000 and $113,000 of forfeitures to reduce Company contributions and pay for Plan expenses, respectively.

Notes receivable from participants

Participants may borrow from their fund accounts subject to a minimum of $1,000 and a maximum of $50,000 or 50 percent of their vested balance, whichever is less, for any purpose. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Loan terms are from six months to five years, unless 1) the participant is on authorized leave for military service for a period which extends the maturity date of the loan beyond five years or 2) the loan is to purchase a principal residence. Principal and interest are paid through bi-weekly payroll deductions.

Payment of benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum distribution or installment payments under various options equal to the value of the participant's vested interest of his or her account. For termination of service for other reasons, a participant may leave the account in the Plan or may elect to receive the value of vested interest in his or her account as a lump-sum distribution or in the form of periodic installment cash payments. If a terminated participant's total vested account balance is $5,000 or less, but, greater than $1,000, the Plan sponsor may distribute the account by rolling the amount into an Individual Retirement Account for the benefit of the participant. If a terminated participant's total vested account balance is $1,000 or less, the Plan sponsor may distribute the account to the participant in a lump-sum payment.

Under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and financial statement presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the change therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments and income recognition

The Plan's investments are stated at fair value, except for the guaranteed interest account, which is reported at contract value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 3). Contract value is the amount the participant receives under the terms of the contract as set by the contract issuer (Note 4).

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Contributions and receivables

Contributions from participants are recorded in the period during which the Company makes payroll deductions from the participant's earnings based on the date the contributions have been separated from a participant's pay by the Company, which is the pay date. The Plan records receivables for participant deferrals based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year.

Company contributions are recorded in the year they are earned and coincide with the year in which the Company records the contribution in its general ledger and takes the tax deduction for the contribution. The Plan records receivables for Company contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year.

Contributions representing participant rollovers from other qualified defined benefit or defined contribution plans, or other contributions are recorded when received.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Services are recorded as a liability with a corresponding reduction to contributions.

Payment of benefits

Benefits are recorded when paid.

Risk and uncertainties

The Plan provides for various investment options in any combination of fixed-income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

On March 11, 2020, the World Health Organization declared the novel strain of coronavirus ("COVID-19") a global pandemic and recommended containment and mitigation measures worldwide. The COVID-19 outbreak in the United States has caused economic disruption through mandated and voluntary closings of businesses and shelter-in-place orders. As a result, equity markets have experienced significant volatility. In response, the U.S. Government enacted the Coronavirus Aid, Relief and Economic Security ("CARES") Act, which includes provisions to provide relief and assistance to affected organizations including tax qualified retirement plans and their participants. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings and shelter-in-place orders and the impact of the CARES Act and other government initiatives.

Effective April 8, 2020, the Plan allowed impacted participants, as defined by the U.S. Treasury Department, to take COVID-19 related distributions and loans according to the CARES Act provisions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New accounting pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2018-13 ("ASU 2018-13"), Fair Value Measurement (Topic 820) Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement. The amendments eliminate, adds, and modifies certain fair value disclosure requirements. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019 and interim periods within those fiscal years. The Plan elected to adopt ASU 2018-13 as of and for the year ended December 31, 2020. The adoption of this standard did not have a material effect on the Plan's financial statements.

Subsequent events

The Plan has evaluated subsequent events through June 10, 2021, the date the financial statements were available to be issued.

On April 9, 2021, the Company reinstated the discretionary matching contribution of 50 percent of the participant's deferral up to a maximum participant contribution of 5 percent of compensation retroactively from January 1, 2021.

No subsequent events have occurred that would have a material impact on the presentation of the Plan's financial statements.

3. FAIR VALUE MEASUREMENTS

Accounting standards defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Such standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value within a fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

- *Level 1* - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access at the measurement date.
- *Level 2* - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

3. FAIR VALUE MEASUREMENTS (continued)

- *Level 3* - inputs are unobservable inputs for the asset or liability and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest account: The Plan's investment in a guaranteed interest account ("GIA") with Principal is a fully benefit-responsive investment contract valued at contract value, as determined by the contract issuer and is not disclosed within the fair value hierarchy table.

Pooled separate accounts: Valued at NAV as a practical expedient to fair value and as determined by the fund issuer, based on the market value of underlying investments. While the majority of the underlying asset values are quoted prices, the net asset value of the pooled separate accounts are not publicly quoted. Investments valued at NAV practical expedient are not disclosed within the fair value hierarchy but are disclosed as a reconciling amount to the Plan's financial statements.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Fair Value
Mutual funds	$ 47,753,972	$ -	$ -	$ 47,753,972
Investments measured at net asset value *				3,260,376
				$ 51,014,348

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Fair Value
Mutual funds	$ 40,646,830	$ -	$ -	$ 40,646,830
Investments measured at net asset value *				2,948,501
				$ 43,595,331

* In accordance with Subtopic 820-10, certain investments that were measured at NAV (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. GUARANTEED INTEREST ACCOUNT

The Plan's investment in the GIA is considered a fully benefit-responsive investment contract. Contributions into the GIA are held with the general assets of Principal. For investment contracts that are fully-benefit responsive, contract value is the relevant measurement attributable to amounts held within the investment contract. Contract value represents accumulated cash contributions made under the contract, plus interest credited to the contracts, less distributions, transfers and expenses. Principal is bound to transact with the Plan and participants at contract value.

4. GUARANTEED INTEREST ACCOUNT (continued)

The Plan administrator is not aware of reserves against contract value for credit risk of the contract issuers or otherwise. Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable.

The contracts do not permit the issuer to terminate the agreements prior to the scheduled maturity date nor to transact with the Plan at an amount less than contract value. The crediting rate is based on the investment performance of a large, diversified portfolio, is correlated with the highest debt security yields, and is adjusted for contract liquidity.

5. PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

6. INCOME TAX STATUS

The Plan utilizes a prototype plan document (the "Prototype plan") provided by Principal Life Insurance Company, an affiliate of the Trustee. The Prototype plan has received an opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Prototype plan design complies with the applicable requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, no provision for income taxes has been included in the Plan's financial statements.

7. INFORMATION PREPARED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of ERISA. Accordingly, the Trustee has certified the Plan's investment and notes receivable from participants information, and related activity, as accurate and complete.

As permitted under such election and as requested by the Plan administrator, the Plan's independent auditors performed no auditing procedures on the certified information, other than to agree such information to the corresponding information included in the Plan's financial statements and supplemental schedule.

8. PARTY-IN-INTEREST

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain fund level fees incurred by the funds in which the Plan invests for such services as record-keeping are paid through fund level revenue sharing agreements. These fees reduce the fund earnings thereby impacting the investment return applied to the participants' accounts.

The Trustee retains as compensation for services provided to the Plan, any interest (or "float") on amounts earned while certain transactions are pending. This applies to both contributions and distributions. Earnings are at institutional money market rates.

Certain Plan transactions conducted by the Trustee and its affiliates qualify as exempt party-in-interest transactions
