Berg Companies, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Berg Companies, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a 401(k) defined contribution plan originally effective January 1, 2003, sponsored by Berg Companies, Inc. (the Company). The Plan was restated February 1, 2018. The Plan, which is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and all statutory revisions thereto, was created for the benefit of all eligible employees of the Company. The Plan excludes union employees.

On March 27, 2020, the President of the United States signed into law the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act), a significant tax-and-spending package intended to provide economic stimulus to address the impact of the COVID-19 pandemic. The CARES Act includes a number of provisions affecting qualified retirement plans. The Plan adopted certain provisions of the CARES Act including permitting qualified employees affected by COVID-19 to withdraw up to \$100,000 from their eligible retirement plans, including IRAs, between January 1, 2020 and December 31, 2020.

These coronavirus-related distributions were not subject to the additional ten percent tax that generally applies to distributions made before reaching 59 1/2 years old, however distributions were still subject to regular income tax. Participants may include those distributions as income on tax returns over a three-year period. Participants may repay the distributions to the Plan within three years. Also, the Plan relaxed its loan repayment terms allowing deferments until January 1, 2021.

Contributions: Each year, participants may contribute voluntary pre-tax traditional and Roth contributions of up to 100% of their eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company is required to make a safe harbor employer matching contribution equal to 100% of participant contributions up to 4% of compensation, as defined in the Plan agreement. The Company may also authorize discretionary non-elective contributions to the Plan for the related year. There were no discretionary non-elective contributions authorized for the year ended December 31, 2020. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the employer contributions and Plan's earnings and is charged with an allocation for administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately 100% vested in their employee contributions and the employer's contributions plus actual earnings thereon.

Notes receivable from participants: Participants may borrow money within certain limits from their individual accounts. The notes are secured by the balance in the participant's account. Such notes bear interest at a reasonable rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money. Principal and interest is paid ratably through payroll deductions.

Berg Companies, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Payment of benefits: Upon termination of service due to death, disability, or retirement, a participant may elect to receive a partial withdrawal of any portion of the participant's vested interest in his or her account or a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the participant's account balance is less than \$1,000, the plan administrator may direct the trustee to make a lump-sum distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions of a participant's 401(k) account balance may be authorized at any time under certain hardship conditions.

Administrative expenses: When applicable, the Plan's administrative expenses are paid either by the Plan or the Company as provided by the Plan agreement.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value as reported by Fidelity Management Trust Company (Fidelity), the trustee of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Benefit payments: Benefits are recorded when paid.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of December 31, 2020 and 2019, three mutual funds comprised approximately 51% and 62%, respectively, of the Plan's total investments. This is considered a concentration of credit risk.

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. This pronouncement, which was adopted by the Plan on January 1, 2020, did not have a material impact to the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through August 31, 2021, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019 and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2020	2019
Investments, at fair value:		
Mutual funds	\$ 9,016,871	\$ 7,031,392
Money market account	41,422	19,277
	<u>\$ 9,058,293</u>	<u>\$ 7,050,669</u>

Fidelity also certified to the completeness and accuracy of the following for the year ended December 31, 2020:

Interest and dividend income	<u>\$ 434,566</u>
Net appreciation in fair value of investments	<u>\$ 871,601</u>

Berg Companies, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market account: Valued at cost which approximates fair value and is generally \$1 per share/unit.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Party-In-Interest Transactions

Certain Plan investments are managed by affiliates of Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity for the year ended December 31, 2020 were approximately \$22,906.

Note 6. Tax Status

The Plan has adopted a volume submitter plan sponsored by Fidelity. The volume submitter plan provider has received an advisory letter from the IRS as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan has been amended since the volume submitter plan received the advisory letter. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
