(EIN: 98-0226610 Plan #001)

Notes to Financial Statements

December 31, 2020

1 Description of the Plan

The following description of the TELUS International (US) Corp. 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a safe harbor 401(k) plan, sponsored and administered by TELUS International (US) Corp. and certain participating employers under common control, as listed in the Plan’s provisions (collectively, the “Employer”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan was created with an effective date of January 1, 2015.

Effective May 1, 2016, the Plan was converted to a multiple employer plan (note 8).

The Plan’s trustee and record keeper are Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company, respectively.

Participation

Eligible employees may become participants in the Plan if they are at least 21 years of age and have completed six months of service.

Participants direct the investment of all contributions into various investment options offered by the Plan. If no investment options are selected, participants will default into the Qualified Default Investment Alternative.

Participant accounts

Each participant’s account is credited with the participant’s contribution and allocations of the Employer’s contributions and Plan earnings and charged with applicable administrative expenses. Allocations are based on participant compensation or account balances, as defined in the Plan documents.

Employee contributions

Eligible employees may elect to contribute up to 75% of their pre-tax compensation or \$19,000, whichever is less, as defined in the Plan document, as allowable under Section 401(k), 402(g) and 414(v) of the Internal Revenue Code (“IRC”).

Participants will be automatically enrolled at 3%, or 4% for participants whose entry date is prior to January 1, 2020, unless a different amount is specified on or after 30 days from the participation date. Contributions will increase by 1% each year to a maximum default contribution of 10%.

(EIN: 98-0226610 Plan #001)

Notes to Financial Statements

December 31, 2020

Employer contributions

As this is a safe harbor 401(k) plan, the Employer will make a safe harbor matching contribution equal to 100% of elective deferrals that do not exceed 4% of compensation. This safe harbor matching contribution is 100% vested.

Due to the impact of COVID-19 on the business and allowable under the Internal Revenue Code, the Committee approved on April 21, 2020 a mid-year suspension, effective June 1, 2020, of the Employer match for the remainder of the 2020 Plan year, which was approved the TELUS International US Board of Directors. As such, this will eliminate the Plan's safe harbor status for 2020 and for each following year until a safe harbor match contribution is reinstated. All other Plan design attributes remain the same.

Vesting

Contributions are immediately 100% vested for the following:

- elective deferrals including Roth 401(k) deferrals and catch up contributions;
- rollover contributions; and
- safe harbor contributions.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans have to be repaid by five years or 15 years for the purchase of a primary residence. The loans are secured by the balance of the participant's account. There is a \$75 origination fee for each loan that is deducted from the loan proceeds, plus an ongoing annual \$50 fee deducted quarterly from the participant's account of \$12.50.

For a General Purpose Loan, the interest rate is 1.000% over the Prime Rate published in the Wall Street Journal on the first business day of the month the loan is originated.

For a Principal Residence Loan, the interest rate is 1.000% over the Prime Rate published in the Wall Street Journal on the first business day of the month the loan is originated.

Distributions

No amounts may be distributed to participants from their accounts prior to the termination of employment, death, disability or attainment of age 59 ¹/₂ unless the participant has incurred a hardship, as defined by the Plan documents.

Upon distribution, a participant may roll over their vested account balance to another eligible government 547(b), 401(k), 403(b) or 401(a) plan or an Individual Retirement Account.

Notes to Financial Statements

December 31, 2020

Administrative expenses

The Employer pays substantially most administrative expenses associated with the Plan, with the exception of certain investment management fees, which are paid by the Plan. Certain redemption and loan distribution and administration fees are paid directly by the Plan participants.

Forfeitures

Upon termination of employment, employer contributions not vested will be forfeited by the member under the terms of the Plan. Amounts forfeited and all earnings of the Plan that are reasonably attributable to the forfeited amounts will be available to the Employer as a credit against subsequent contributions. All forfeitures may be used to pay Plan expenses, or allocated as Discretionary Additional Matching Contributions. Forfeitures as at December 31, 2020 totalled \$2,465 (2019 – \$nil).

Transfer in from another plan

On January 1, 2020, VoxPro Group LLC and Xavient Digital LLC became participating employers in the Plan. An aggregate of \$9,728,629 was transferred into the Plan during the year ended December 31, 2020, and is included in the transfer in from another plan on the statement of changes in net assets available for benefits.

Rollover contributions

Rollover contributions are from employees transferring into the Plan from other plans. Rollover contributions of \$183,934 (2019 – \$701,250) were transferred into the Plan by individual employees during the year ended December 31, 2020.

2 Summary of significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and in accordance with generally accepted accounting principles in the United States (“US GAAP”).

Use of estimates

The preparation of financial statements in conformity with US GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. The most significant estimates relate to the determination of fair value of investments.

Investment valuation and investment income

Investments held in mutual funds and funds indirectly investing in fully benefit responsive investment contracts are reported at fair value. Fair value is defined as the price that would be received to sell an asset or

Notes to Financial Statements

paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements. The fair value of the common collective trust is determined by the trustee of the common collective trust based on the underlying assets, which represent the net asset value, a practical expedient to fair value, of units held by the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Distributions are recorded on the effective date.

The Plan presents in the statement of changes in net assets available for benefits the net change in fair value of its investments, which consists of the realized and unrealized gains and losses.

Deemed distributed loans

The Plan administrator will treat a loan to be in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled repayment. On a loan default, the participant will incur a taxable deemed distribution, but the Plan will not reduce the participant's account to discharge the loan unless the participant has also incurred a distributable event under the Plan. The total of loans in default during 2020 was \$22,391 (2019 – \$1,852).

Excess contributions payable

Excess contributions payable are amounts payable to participants for contributions in excess of amounts allowable.

Contributions

Employer and employee contributions are recorded when due to the Plan.

Payment of benefits

Benefits payments are recorded when they have been paid by the Plan.

Loans receivable from participants

Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Evaluation of subsequent events

For purposes of the preparation of these financial statements in conformity with US GAAP, management has considered transactions or events occurring through August 19, 2021, which represents the date that the financial statements were available to be issued.

Changes in accounting policies**Standards effective in current period**

In August 2018, the FASB issued ASU No. 2018-13, "Fair Value Measurements (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement". The purpose of the update is to modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the concepts in the Concepts Statement, including the consideration of costs and benefits. For all entities, the amendments are effective for interim and annual reporting periods beginning after December 15, 2019. The adoption of this standard did not have any impact on the Plan's financial statements.

3 Information certified by the trustee

The Plan's fair value investments, common collective trust, loans receivable from participants, loan interest income, dividend income, change in fair value of investments, purchases and sales of investments, net gains and net investment gain from common collective trust were certified by Great-West Trust Company, LLC, the trustee of the Plan, as at December 31, 2020 and 2019 and for the year ended December 31, 2020. Therefore, in accordance with the request of the Plan's administrator and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure, this information was not subjected to US generally accepted auditing procedures by the Plan's independent auditor. This information is disclosed in the following:

5 Fair value measurements

FASB Accounting Standards Codification (“ASC”) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for the identical assets or liabilities in active markets that the Plan has the ability to access as at the measurement date.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of the unobservable inputs.

The following is a description of the valuation methodologies used at December 31, 2020 to measure assets at fair value:

Mutual funds: Valued at quoted market prices held by the Plan as at year-end.

Common Collective Trusts: Putnam Stable Value Fund (the “Fund”) is a common/collective trust that invests in fully benefit responsive investments and seeks to provide income while protecting investors’ wealth by maintaining a stable fund net asset value. The investments in the Fund are non-transferable but provide for benefit responsive withdrawals by Plan participants at contract value. Contract value represents invested principal plus contractual interest earned thereon.

The fair value of the common collective trust is determined by the trustee of the common collective trust based on the underlying assets, which represent the net asset value, a practical expedient to fair value, of units held by the Plan and are excluded from the fair value hierarchy table.

Certain events may limit the ability of the Plan to transact at contract value. Such events include, but may not be limited to, the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund; or (3) an amendment to the Plan or a change in

Notes to Financial Statements

the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of group layoffs or early retirement programs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as at December 31, 2020:

6 Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7 Income tax status

The Plan is a qualified retirement safe harbor 401(k) Plan. The Plan is subject to federal laws, such as the ERISA and the IRC, as well as some state laws. The provisions of the Plan are subject to revision due to a change in laws or due to pronouncements by the Internal Revenue Service ("IRS") or Department of Labor. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and thus, the Plan is exempt from federal income taxes.

US GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. No uncertain tax positions were taken by the Plan as at December 31, 2020 or 2019. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan remains subject to tax examinations from 2015 to the current year.

Notes to Financial Statements

9 Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The outbreak of COVID-19 has resulted in increased volatility in financial and equity markets globally; which in particular have experienced significant declines. While the extent and duration of the impact of COVID-19 on global and local economies, financial markets and sectors and issuers in which the Plan may invest is uncertain at this point, the outbreak has the potential to adversely affect the future fair value of the Plan's investment portfolio.

10 Subsequent events

The Plan's safe harbor status was reinstated effective January 1, 2021.

In December 2020, the Committee approved the addition of TELUS International AI Inc. (formerly Lionbridge Global Sourcing Solutions Inc.) as a participating employer in the Plan effective January 1, 2021. The Committee also decided to amend the Plan to exclude part-time employees (i.e., working less than 1,000 hours annually) from the Plan due to inability to accommodate TELUS International AI Inc.'s large and shifting population part-time employees.
