Note 1. Description of the Plan - The following description of MRB Group Engineering, Architecture, and Surveying, D.P.C. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a participant-directed, defined contribution plan to employees of MRB Group Engineering, Architecture, and Surveying, D.P.C. (the ”Company”) who meet eligible requirements to participate in the Plan. Employees may make contributions to the Plan after meeting the eligibility requirements by the next entry date. Employees are eligible to participate in the matching contributions only if they make deferral contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may make pre-tax contributions from their annual compensation, up to amounts permissible under ERISA and the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Salary deferrals from participants contributions are directed by participants to investment options made available by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contribution invested in a designated balanced fund until changed by the participant. The Company contributes 20% of the amount the participant contributes to the plan. The matching contribution is allocated based on the participants elected allocation. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings (losses), and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Vesting - Participants are immediately vested in their elective and rollover deferral contributions plus actual earnings thereon. Vesting in the Company's matching contribution and employer nonelective contributions plus actual earnings is based on years of continuous service.

Years of Service	Vesting Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prevailing market rates. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to keep vested contributions in excess of $5,000 in the Plan, or receive either a lump-sum amount or various installment packages. Vested amounts less than $5,000 but greater than $1,000 are paid per participant instructions or IRS regulations when participant instructions are not received. Vested amounts less than $1,000 are paid to the participant as a lump sum distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts - At December 31, 2020 and 2019, the balance of forfeitures available to offset employer contributions and administrative expenses was $9,348 and $11,977, respectively. During the year ended December 31, 2020, $14,188 of forfeitures were used to offset employer contributions or administrative expenses.

Note 2. Summary of Significant Accounting Policies

Method of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events - The Plan evaluated subsequent events through the date of the report, which is the date the financial statements were available to be issued.

Note 3. Information Prepared and Certified by the Trustee

The plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the investment information certified by the trustee was not audited by the independent auditors except for comparing such information to the related information included in the accompanying financial statements and schedules. Investments held as of December 31, 2020 of $15,125,822, and net investment income of $1,984,235 for the year ended December 31, 2020, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee. The investments are participant directed.

Note 4. Fair Value Measurements

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value.

Money Market Funds - Valued at the closing price reported on the active market on which the individual money market funds are traded (Level 1).

Mutual funds - Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level1).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	December 31, 2020	
	Level 1	Total
Money market funds	$ 356,802	$ 356,802
Mutual funds	14,769,020	14,769,020
Total assets in the fair value hierarchy	15,125,822	15,125,822
Investments at fair value	$ 15,125,822	$ 15,125,822

	December 31, 2019	
	Level 1	Total
Money market funds	$ 25,377	$ 25,377
Mutual funds	11,854,846	11,854,846
Total assets in the fair value hierarchy	11,880,223	11,880,223
Investments at fair value	$ 11,880,223	$ 11,880,223

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 6. Tax Status

The Plan uses a prototype plan document sponsored by Fidelity Management Trust Company. The Internal Revenue Service ("IRS") has determined and informed Fidelity Management Trust Company, in a letter dated December 5, 2001, that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. The plan administrator believes the Plan is currently designed and is being operated under the prototype plan which is in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Party-In-Interest Transactions

Certain plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment advisory and management services amounted to $3,755 for the year ended December 31, 2020. Participant loans qualify as part-in-interest transactions.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

The United States is presently in the midst of a national health emergency related to the COVID-19 virus. The overall consequences of COVID-19 on a national, regional and local level are unknown, but has the potential to result in a significant economic impact. The impact of this situation on the Plan and its future results and financial position is not presently determinable.

Note 1. Description of the Plan - The following description of MRB Group Engineering, Architecture, and Surveying, D.P.C. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a participant-directed, defined contribution plan to employees of MRB Group Engineering, Architecture, and Surveying, D.P.C. (the ”Company”) who meet eligible requirements to participate in the Plan. Employees may make contributions to the Plan after meeting the eligibility requirements by the next entry date. Employees are eligible to participate in the matching contributions only if they make deferral contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may make pre-tax contributions from their annual compensation, up to amounts permissible under ERISA and the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Salary deferrals from participants contributions are directed by participants to investment options made available by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contribution invested in a designated balanced fund until changed by the participant. The Company contributes 20% of the amount the participant contributes to the plan. The matching contribution is allocated based on the participants elected allocation. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings (losses), and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Vesting - Participants are immediately vested in their elective and rollover deferral contributions plus actual earnings thereon. Vesting in the Company's matching contribution and employer nonelective contributions plus actual earnings is based on years of continuous service.

Years of Service	Vesting Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prevailing market rates. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to keep vested contributions in excess of $5,000 in the Plan, or receive either a lump-sum amount or various installment packages. Vested amounts less than $5,000 but greater than $1,000 are paid per participant instructions or IRS regulations when participant instructions are not received. Vested amounts less than $1,000 are paid to the participant as a lump sum distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts - At December 31, 2020 and 2019, the balance of forfeitures available to offset employer contributions and administrative expenses was $9,348 and $11,977, respectively. During the year ended December 31, 2020, $14,188 of forfeitures were used to offset employer contributions or administrative expenses.

Note 2. Summary of Significant Accounting Policies

Method of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events - The Plan evaluated subsequent events through the date of the report, which is the date the financial statements were available to be issued.

Note 3. Information Prepared and Certified by the Trustee

The plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the investment information certified by the trustee was not audited by the independent auditors except for comparing such information to the related information included in the accompanying financial statements and schedules. Investments held as of December 31, 2020 of $15,125,822, and net investment income of $1,984,235 for the year ended December 31, 2020, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee. The investments are participant directed.

Note 4. Fair Value Measurements

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value.

Money Market Funds - Valued at the closing price reported on the active market on which the individual money market funds are traded (Level 1).

Mutual funds - Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level1).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	December 31, 2020	
	Level 1	Total
Money market funds	$ 356,802	$ 356,802
Mutual funds	14,769,020	14,769,020
Total assets in the fair value hierarchy	15,125,822	15,125,822
Investments at fair value	$ 15,125,822	$ 15,125,822

	December 31, 2019	
	Level 1	Total
Money market funds	$ 25,377	$ 25,377
Mutual funds	11,854,846	11,854,846
Total assets in the fair value hierarchy	11,880,223	11,880,223
Investments at fair value	$ 11,880,223	$ 11,880,223

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 6. Tax Status

The Plan uses a prototype plan document sponsored by Fidelity Management Trust Company. The Internal Revenue Service ("IRS") has determined and informed Fidelity Management Trust Company, in a letter dated December 5, 2001, that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. The plan administrator believes the Plan is currently designed and is being operated under the prototype plan which is in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Party-In-Interest Transactions

Certain plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment advisory and management services amounted to $3,755 for the year ended December 31, 2020. Participant loans qualify as part-in-interest transactions.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

The United States is presently in the midst of a national health emergency related to the COVID-19 virus. The overall consequences of COVID-19 on a national, regional and local level are unknown, but has the potential to result in a significant economic impact. The impact of this situation on the Plan and its future results and financial position is not presently determinable.
