The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Voya Retirement Life Insurance and Annuity Company (Voya Retirement) serves as the insurance company for the Plan and Voya Institutional Trust Company (Voya Trust) is the custodian of the Plan. The Plan is administered by the Retirement Oversight Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

The Plan permits eligible employees, through a salary deferral election, to have the Organization make annual contributions of up to 50% of eligible compensation. Employee rollover and catch-up contributions are permitted. The Plan allows for the Organization to make matching contributions for employees with a minimum of one year of elapsed time. The Organization makes matching contributions to the eligible employees of 100% of employees' salary deferral amounts up to 5% of employees' compensation. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Organization's contribution, and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon. Vesting in the Organization's matching contribution portion of their accounts, plus earnings thereon, is based on years of service. A participant is fully vested after five years of service. The non-vested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum payment, partial distributions, installment payments (joint and survivor annuity), or purchase of an annuity contract equal to the value of his or her account.

Participants may withdraw amounts from their accounts subject to certain limitations imposed by the Plan. Such withdrawals are also subject to certain taxes and penalties as assessed by the Internal Revenue Service (IRS).

Notes Receivable From Participants

The plan document includes provisions authorizing loans from the Plan to active, eligible participants and in accordance with the plan document's established loan procedures. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are secured by the participant's vested interest in the Plan and are repayable over a period not to exceed 60 months (except for loans used to acquire or construct a principal residence). Payments are automatically deducted from payroll. Interest on the loans is based on the prime rate as published in *The Wall Street Journal*.

Plan Termination

Although it has not expressed an intention to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination in accordance with the Internal Revenue Code (the Code), participants will become 100% vested in their accounts.

Forfeited Accounts

At December 31, 2020 and 2019, forfeited non-vested accounts totaled \$101,460 and \$726,683, respectively. These accounts will be used at the election of the employer to reduce the Organization's contributions, reduce reasonable and necessary expenses or are otherwise allocable under the Plan. During the year ended December 31, 2020, forfeitures of \$750,000 were used to pay for reasonable and necessary expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 5 for further discussion and disclosures related to fair value measurements.

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value of shares held by the Plan at year-end.

Yavapai Regional Medical Center Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Separate accounts are valued at estimated fair value as provided by Voya Retirement.

Fully benefit-responsive investment contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administration expenses. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Organization or the Plan, at the Organization's discretion.

3. Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2020 and 2019, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2020, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Voya Trust, the custodian of the Plan.

4. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in several mutual funds and separate accounts managed by Voya Retirement, which is the insurance company of the Plan and an affiliate of the custodian of the Plan. The fixed accounts are held in the general account of Voya Retirement. The Plan paid \$196,677 and \$185,404 of record-keeping fees to Voya Retirement during 2020 and 2019, respectively.

The Plan incurs expenses related to general administration and record-keeping. The Organization pays these expenses and certain accounting and auditing fees relating to the Plan and provides administrative services at no cost to the Plan.

5. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Yavapai Regional Medical Center Retirement Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

6. Disclosures About Fair Value of Plan Assets and Liabilities

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

6. Disclosures About Fair Value of Plan Assets and Liabilities (continued)

- (A) In accordance with Subtopic 820-10, *Fair Value Measurement – Overall*, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented on the statements of net assets available for benefits. This category of investments includes separate accounts that seek investment returns consistent with the underlying mutual fund. There are no unfunded commitments or redemption restrictions.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized on the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2020. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

7. Fully Benefit-Responsive Investment Contracts

The Plan has entered into various fully benefit-responsive traditional investment contracts with Voya Retirement. Voya Retirement maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

Yavapai Regional Medical Center Retirement Plan

Notes to Financial Statements (continued)

7. Fully Benefit-Responsive Investment Contracts (continued)

As described in the basis of accounting disclosure, because the guaranteed investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by Voya Retirement, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuers or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Subject to the terms of the contract, the guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2020	2019
Voya Fixed Plus Account III	\$ 30,405,802	\$ 31,926,820
Voya Fixed Plus Account II	209,145	215,179
Voya Fixed Account	1,745	8,975
Voya Fixed Plus Account	9,255	1,757
	<u>\$ 30,625,947</u>	<u>\$ 32,152,731</u>

Notes to Financial Statements (continued)

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported on the statements of net assets available for benefits.

9. Income Tax Status

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2017, stating that the form of the underlying specimen plan is qualified under Section 403(b) of the Code. Any employer adopting this form of the plan will be considered to have a plan qualified under Section 403(b) of the Code, and, therefore, the related custodial accounts are tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code, and will also take necessary steps, if any, to maintain compliance and, therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Subsequent Events

Plan management has evaluated subsequent events for the Plan through September 17, 2021, the date the accompanying financial statements were available to be issued.
