Note 1 - Plan Description

The following descriptions of the Bosch Savings Incentive Plan (the "BSIP"), the Bosch Security Systems Retirement Savings Plan (the "BSSI Plan"), the Robert Bosch Fuel Systems LLC Burlingame Hourly Employees' 401(k) Plan (the "Burlingame Plan"), and the Bosch Braking Systems Thrift Plan (the "BBST Plan") (collectively, the "Plans") provide only general information. Participants should refer to the respective plan agreements or documents for a more complete description of the Plans' provisions.

General

The Plans are defined contribution plans covering eligible full-time and part-time employees as described below.

The BSIP covers eligible employees of Robert Bosch, LLC and participating subsidiaries and affiliates that have adopted the BSIP. Full-time employees are eligible to participate on their date of hire.

The BSSI Plan covers nonunion employees of Bosch Security Systems, Inc. located in the Lancaster, Pennsylvania and Fairport, New York facilities and employees of Telex Communications, Inc., a subsidiary of Bosch Security Systems, Inc. Full-time employees are eligible to participate on their date of hire.

The Burlingame Plan covers all eligible hourly employees of Robert Bosch Fuel Systems, LLC who are represented by the DTC/UAW Local 167 DDC/EMD Labor Agreement and are age 18 or older. The Burlingame Plan also covers inactive, fully vested participants transferred from the Robert Bosch Fuel Systems Corporation New Business Unit 401(k) Plan in 2006. Full-time employees are eligible to participate upon completion of the probationary period defined in the relevant union contract.

The BBST Plan covers employees of specific participating units of Robert Bosch, LLC who are represented by a collective bargaining unit. Currently, the only active participants are individuals represented by collective bargaining agreements that cover UAW Local 383 in St. Joseph, Michigan. Full-time covered employees are eligible to participate upon completion of a 90-day probationary period (including service as a temporary employee).

Subject to the eligibility requirements described above, part-time employees are eligible to participate after one year of service consisting of 1,000 hours of service, as defined in each of the respective plan documents. Robert Bosch, LLC and participating subsidiaries and affiliates; Bosch Security Systems, Inc.; and Robert Bosch Fuel Systems, LLC (collectively, the "Company" or "Companies") are related through common ownership. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Excluding the Burlingame Plan, the Plans provide for employee contributions up to a maximum of 85 percent (18 percent for the Burlingame Plan) of annual eligible compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code (IRC). For the BSIP and BSSI Plan, unless an employee elects otherwise, eligible new employees are automatically enrolled in the respective plan with a 5 percent pretax deferral rate. The deferral rate increases 1 percent each year until it reaches a maximum of 9 percent. Participants may also make contributions to the Plans in the form of a rollover of funds from another qualified plan.

The BSIP provides for variable employer matching contributions ranging from 0 to 100 percent of the first 9 percent of eligible compensation contributed by the participant. The percentage range is generally determined annually. The matching percentage was 75 percent for all participating employers in 2020.

The BSSI Plan provides for employer matching contributions of 50 percent of the first 6 percent of compensation deferred by the participant.

December 31, 2020 and 2019

Note 1 - Plan Description (Continued)

The BSSI Plan also provides for employer profit-sharing contributions on behalf of each eligible Lancaster and Fairport employee hired prior to February 1, 2012, based on the employee's eligible compensation for the plan year as follows:

- (i) 3 percent of eligible compensation earned up to the 5th anniversary of the active participant's profit-sharing start date
- (ii) 4.5 percent of eligible compensation earned between the 5th anniversary and the 10th anniversary of the active participant's profit-sharing start date
- (iii) 6 percent of eligible compensation earned after the 10th anniversary of the active participant's profit-sharing start date

An adjustment may be made to the profit-sharing contribution, based on year-end company financial performance, such that the adjusted profit-sharing contribution is equivalent to between 50 and 150 percent of the original base amounts described above. For 2020, the profit-sharing amounts were adjusted to 70 percent of the base amounts.

Through October 4, 2020, the Burlingame Plan provided for employer contributions equal to 3 percent of eligible compensation to employees hired on or after August 9, 2011 who have completed one year of service. Effective October 5, 2020, the Burlingame Plan provides for employer matching contributions of 50 percent of the first 7 percent of eligible compensation contributed by participants.

The BBST Plan provides for employer matching contributions of 50 percent of the first 7 percent of eligible compensation contributed by participants who have completed one year of service.

In addition, the BSIP and BBST Plan provide for employer contributions subject to maximum amounts established by the IRC, generally ranging from 2.5 to 6.5 percent of a participant's eligible compensation, except as otherwise defined, based on the participant's age at December 31 of the current plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on contributions and or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by each of the Plans.

Benefit Payments

In the event of retirement, termination of service, death, or disability, a participant may elect to receive either a lump-sum payment or various installment payments equal to the value of the participant's vested interest in his or her account. Prior to termination of service, participants may withdraw their after-tax and rollover contributions at any time or any portion of their accounts after attaining the age of 59½.

Participants may request that a portion of their employee contribution accounts be distributed in the case of financial hardship, as defined in the respective plan document.

In accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) Act, between January 1, 2020 and December 31, 2020, eligible participants could request a coronavirus-related distribution (CRD) of up to \$100,000 from their participant accounts without being subject to the Internal Revenue Service (IRS) 10 percent early distribution tax. Participants may elect to repay some or all of their CRD within three years.

December 31, 2020 and 2019**Note 1 - Plan Description (Continued)*****Vesting***

Participants are immediately vested in their employee contributions; rollover contributions; and, for the BSSI Plan, their employer profit-sharing contributions plus actual earnings thereon. Excluding the BBST Plan employer matching contributions, a participant is generally 100 percent vested in the non-profit-sharing employer contribution portion of their account after three years of credited service. Accounts of participants who are actively employed at a location that is closed generally become fully vested on the closure date.

The BBST Plan's employer matching contributions vest according to the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
2 years	20 %
3 years	40
4 years	60
5 years or more	100

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of each of the respective Plans.

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts prescribed in each of the respective Plans and in the IRC. Notes receivable bear interest at a market rate.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) or its affiliates. Fidelity is the trustee of the Plans; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate any of the individual Plans subject to the provisions set forth in the respective plan agreement and ERISA. Upon termination of any of the individual Plans, participants become 100 percent vested in their account balances of the respective terminated plan.

Note 2 - Summary of Significant Accounting Policies***Investments in the Master Trust***

The Robert Bosch Defined Contribution Retirement Plan Trust (the "Master Trust") was established for the investment of assets of certain benefit plans sponsored by the Company and its affiliates. All investments of the BSIP, the BSSI Plan, and the BBST Plan are invested in the Master Trust. The Burlingame Plan participates in the Master Trust for the purpose of sharing only in the custom funds held within the Master Trust.

December 31, 2020 and 2019

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation

The value of the Plans' interests in the Master Trust is based on the beginning of the year value of each of the respective plans' interests in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Plans' and the Master Trust's investments are stated at fair value, except for fully benefit-responsive synthetic guaranteed investment contracts, which are valued at contract value. Contract value represents deposits made to the contracts, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The collective trusts are valued at the net asset value per share (NAV) (or its equivalent), which is based on the fair value of the funds' underlying net assets. There are no unfunded commitments on these investments, and the investments have redemption notice periods ranging from 0 to 30 days with unlimited redemption frequency. All other investments are valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plans' administrator to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plans invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 22, 2021, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

Fidelity holds the Master Trust's investments, the Burlingame Plan's investments, and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and the supplemental schedules of assets held at end of year, including master trust information included in Note 5, are based solely on information certified by Fidelity.

December 31, 2020 and 2019

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust and the Burlingame Plan have the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's and the Plans' assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the net assets, including those measured at fair value on a recurring basis, at December 31, 2020 and 2019:

Net assets of the Master Trust	<u>\$ 3,365,450,528</u>	<u>\$ 3,212,303,602</u>	<u>\$ 144,736,176</u>	<u>\$ 159,840</u>	<u>\$ 8,235,541</u>

The investment income for the Master Trust for the year ended December 31, 2020 is as follows:

Net realized and unrealized gains on investments	\$ 493,547,988
Interest and dividends	<u>30,109,381</u>
Total investment income	<u>\$ 523,657,369</u>

Note 6 - Investment Contracts

The Master Trust holds synthetic investment contracts (synthetic GICs). The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive wrapper contracts issued by insurance companies. The assets underlying the synthetic GICs substantially consist of fixed-income collective trust funds.

The contracts used by the Plans are fully benefit responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk.

December 31, 2020 and 2019

Note 6 - Investment Contracts (Continued)

The interest crediting rate, which is reset monthly and is based on a formula agreed upon with each wrapper contract issuer, can never fall below zero. The crediting rate formula smooths the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark.

Certain events limit the ability of the Master Trust to transact at contract value with the issuers. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust, or other events. The occurrence of one or more employer-initiated events could limit the Master Trust's ability to transact at contract value with the issuers. The Plans' administrator believes that the occurrence of any such event is not probable.

Except for the employer-initiated events above or an event of default (that was not remedied), the wrapper contract issuers may not terminate the contracts at an amount different from contract value.

Note 7 - Tax Status

The Plans have received determination letters from the IRS indicating that the Plans, as designed, are qualified for tax-exempt treatment under the applicable section of the IRC. Although the Plans have been amended since receiving the respective determination letters, management believes that the Plans are designed and are currently being operated in compliance with the applicable requirements of the IRC.

Note 8 - Transfers from Related Plans

Effective September 1, 2020, the Bosch Battery Systems 401(k) Plan for Union Associates (the "Battery Systems Plan") was merged into the BSIP. Accordingly, participants of the Battery Systems Plan became participants of the BSIP, and assets of approximately \$1,180,000 were transferred into the BSIP in 2020.
