TRIMAS CORPORATION
SALARIED RETIREMENT PROGRAM
NOTES TO FINANCIAL STATEMENTS
December 31, 2020 and 2019

A. Description of Plan

The following description of the TriMas Corporation Salaried Retirement Program ("Plan") provides only general information. Participants should refer to the Plan document or summary Plan description for a more complete description of the Plan's provisions.

General - The Plan, established on January 1, 2003, is a defined contribution plan covering eligible employees of TriMas Corporation and its subsidiaries (the "Company" or "TriMas") and allows employee 401(k) deferrals, employer matching contributions and employer profit sharing contributions per the Plan provisions. Eligible employees may participate in the 401(k) deferral feature and the related employer matching contribution feature of the Plan on their date of hire. Employees are eligible for the employer profit sharing contribution on the first day of the month following their one-year anniversary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On December 20, 2019, the Company completed the sale of its Lamons business ("Lamons"). As of December 20, 2019, the Company's Plan was amended to establish it as a multiple employer plan to allow the former employees of Lamons to participate in it through the transition period. On March 31, 2020, the Company's Plan was amended to terminate the former Lamons employees participation in the Plan and thereby ceasing the Plan's multiple employer plan status.

Contributions - Participants may contribute up to 75% of their pretax or post tax annual compensation as defined by the Plan, subject to applicable legal limits. Newly hired employees are automatically enrolled into the Plan at 5% with automatic annual increases of 1% up to a cap of 10%, unless they opt out or elect a different deferral rate within 45 days. Participants may also make rollover contributions representing distributions from other tax-qualified plans. The Company provides a matching contribution of 75% of the participant's first 5% contributed, up to a maximum of 3.75% of their eligible compensation. Matching contributions are subject to certain limitations in accordance with Plan provisions, and are invested pursuant to the participant's investment election.

Participants may direct employee and employer contributions in one percent increments in the investment options available under the Plan. These options are professionally managed mutual funds and a guaranteed investment contract ("GIC"), and vary in their respective strategies, risks and goals. Participants may change their investment options daily. Certain administrative expenses of the Plan may be paid by the Company.

Participant Accounts - Each participant's account is credited with the participant's own contributions and the related employer matching contributions, Company profit sharing contributions and an allocation of Plan earnings or losses based upon participant's elections, net of administrative expenses and debited with participant's own withdrawals. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their contributions as well as employer matching contributions and earnings thereon. Participants vest in Company profit sharing contributions upon three years of service. In addition, a participant is 100% vested upon attainment of normal retirement age (age 65), death or disability as defined under the Plan.

Payment of Benefits - After separation from service due to termination, death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments over a period not to exceed ten years.

Notes Receivable from Participants - The Plan provides that participants can borrow funds from their account balances, as defined by the Plan. These loans are limited to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years and up to 10 years for the purchase of a primary residence. The loans are

collateralized by the participant's vested account balances and bear interest at the prime rate plus 1%. Loan principal and interest are paid ratably through payroll deductions.

Forfeited Accounts - Plan forfeitures resulting from terminated participants' non-vested accounts may be used to reduce the Company's contribution or to fund plan expenses. Accumulated forfeitures available at December 31, 2020 and 2019 were \$60,456 and \$115,488, respectively. During 2020, accumulated forfeitures of \$50,000 were used to fund employer contributions and none were used to pay plan expenses. In 2019, accumulated forfeitures of \$25,000 were used to fund employer contributions and \$1,000 were used to pay plan expenses.

Transfer of Assets - During 2020, asset transfers from the Plan totaled \$13,113,866, which included \$15,567,751 related to the transfer out of assets of the former Lamons employees into the Lamons 401(k) Plan, \$1,976,138 related to the transfer in of the assets of RSA Engineered Products, LLC formally in the Oasis Retirement Savings Plan, as well as \$477,747 related to net assets transferred into the Plan from the TriMas Corporation Hourly Retirement Program due to a change in employment status. During 2019, the Plan transferred net assets of \$367,237 into the Plan for participants that transferred from the TriMas Corporation Hourly Retirement Program due to a change in employment status.

B. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Estimates - The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Risks and Uncertainties - The Plan provides for various investment options in mutual funds and a GIC. Investments are exposed to various risks, including interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is reasonably possible that changes in values of investments in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

In December 2019, a novel strain of coronavirus surfaced in Wuhan, China, and has spread around the world, with resulting business and social disruption. In March 2020, the President of the United States declared the coronavirus outbreak a national emergency, as the World Health Organization determined it was a pandemic. The ultimate impact of the coronavirus on the Plan and the Company will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others.

Investment Valuation and Income Recognition - Investments in mutual funds are reported at fair value. Mutual funds are valued using quoted market prices from nationally recognized securities exchanges (Level 1 inputs).

Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recognized on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis.

The GIC investment is fully benefit-responsive and is reported at contract value, which represents contributions made under the plan, plus earnings, less participant withdrawals and administrative fees. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contract because contract value is the amount the Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions.

TRIMAS CORPORATION
SALARIED RETIREMENT PROGRAM
NOTES TO FINANCIAL STATEMENTS
December 31, 2020 and 2019

Notes Receivable from Participants - Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Revenue sharing - Revenue sharing amounts for investments that generate such amounts for Fidelity are returned to the Plan and credited to the accounts of participants who are invested in those funds. These credits are included in other income in the statement of changes in net assets available for benefits.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Expenses - Investment management fees and operating expenses for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

C. Investments and Notes Receivable from Participants - Unaudited

Fidelity Management Trust Company ("the Trustee") holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee. This certified information has not been audited by independent accountants.

D. Fair Value Measurement

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are as follows:

- Level 1: Inputs which use quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access as of the measurement date;
- Level 2: Inputs which use other inputs that are observable, either directly or indirectly;
- Level 3: Inputs which are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

Assets and liabilities of the Plan measured at fair value on a recurring basis and corresponding fair value hierarchy level consisted of the following as of December 31, 2020:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments subject to leveling				
Mutual funds	\$ 93,188,192	\$ 93,188,192	\$ —	\$ —

Assets and liabilities of the Plan measured at fair value on a recurring basis and corresponding fair value hierarchy level consisted of the following as of December 31, 2019:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments subject to leveling				
Mutual funds	\$ 98,008,432	\$ 98,008,432	\$ —	\$ —

E. Fully Benefit-Responsive Investment Contract

The Plan holds a separate account investment option with MassMutual Life Insurance Company ("MassMutual"), which is considered a traditional guaranteed investment contract. The contract is considered to be fully benefit-responsive and is reported at contract value. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options for deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The contract limits the circumstances under which MassMutual may terminate the contract. Circumstances that would allow MassMutual to terminate the contract include: (i) the Plan's loss of its qualified status, (ii) termination or partial termination of the Plan, or (iii) investor breach of a provision of the Agreement. If one of these events were to occur, the issuer could terminate the contract at an amount less than contract value. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

F. Income Tax Status

Effective January 1, 2017, the Plan was amended and restated onto a volume submitter type of plan document sponsored by Fidelity Management & Research Company ("FMR"). The underlying volume submitter plan document has been approved by the Internal Revenue Service ("IRS") pursuant to an opinion letter issued on March 31, 2014 by the IRS to FMR regarding the volume submitter plan's tax qualification under Section 401 of the Internal Revenue Code ("IRC"), and therefore the Plan is tax-exempt. Plan management believes that the Plan is currently being operated in accordance with the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor ("DOL") or Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

G. Party-In-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds investments that are managed by Fidelity Investments and Fidelity Management Trust Company. Fidelity Management Trust Company, an affiliate of Fidelity Investments, is the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Additionally, the Plan holds notes receivable from participants which qualify as party-in-interest transactions.

Effective January 1, 2013, the Plan adopted the Fidelity Investments Revenue Credit ("RC") program. The Fidelity RC program was used to reimburse the Company for fees and expenses associated with the services of the Plan, or pay such vendors including the Trustee and third parties, accordingly. Effective October 1, 2019, the RC program was terminated and Fidelity no longer contributes to the account. The total amount paid by the Trustee to the Plan for the year ended December 31, 2019 totaled \$46,199. The Plan's record keeping fees are no longer paid through revenue sharing and rather are charged to certain participants in the plan. As of December 31, 2020, \$60,244 remains in the RC program account, which will continue to be used for fees and expenses until fully utilized.

During 2020 and 2019, the Plan paid administrative expenses to the following parties-in-interest:

Name of Party in Interest	Relationship	2020	2019
