Brotherhood of Locomotive Engineers 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2020 and 2019

Note 1: Description of Plan

The following description of Brotherhood of Locomotive Engineers 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Brotherhood of Locomotive Engineers and Trainmen (the “Union”) and other employers electing to participate in the Plan (the “Affiliates”) (together, referred to as the “Employers”), as identified in the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan’s Board of Trustees is responsible for oversight of the Plan. The Plan’s Board of Trustees, with the assistance from professional advisors, determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

During the year ended December 31, 2020, the Plan was amended to waive, for calendar year 2020, the required minimum distributions payable to those participant who have reached their required beginning date. Additionally, the Plan was amended to allow for the Coronavirus-Related distribution if a participant met the definition of a qualified individual. All the amendments are consistent with the relief provided pursuant to the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”).

During the year ended December 31, 2020, the Plan was amended to comply with the Setting Every Community Up for Retirement Enhancement Act of 2019 (the “SECURE Act”). The amendment changed the legally required minimum distributions from April 1st of the calendar year following the year which the participant turns 70 ½ to April 1st of the calendar year following the year the participant turns 72. This change also applies if the participant turns age 70 ½ after December 31, 2019.

Contributions

A participant’s total deferrals from his or her annual compensation in any taxable year may not exceed the dollar limits that are set by the Internal Revenue Service (IRS) annually. The voluntary deferral limits for 2020 is \$19,500 and the additional catch-up contributions limit, applicable to a participant age 50 or older (or will attain age 50 before the end of a calendar year), is \$6,500. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

December 31, 2020 and 2019

Note 1: Description of Plan (continued)

Contributions (continued)

The Employers can make matching contributions equal to a uniform percentage of each participant's elective deferrals. This percentage is to be determined each year by the Employers on a discretionary basis. During the year ended December 31, 2020, the Union made an annual discretionary non-matching contribution equal to 3% of each eligible participant's salary, as defined in the plan agreement. During the same year, the Affiliate employers made matching contributions of varying amounts, as defined in each Affiliate's By-Laws. Additional profit sharing amounts may be contributed at the option of the Employers. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with contributions and investment earnings. Participant accounts are charged a fee based upon specific participant transactions such as distribution and loan processing. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested immediately in their salary deferral contributions, rollover contributions, and Employers' contributions, plus the actual earnings thereon.

Notes Receivable from Participants

During 2020, the Plan was amended to comply with the CARES Act to increase the maximum loan amount for qualified individuals from the lesser of 50% of the participant's vested account balance or \$50,000 to the lesser of 100% of the participant's vested account balance or \$100,000. Additionally, the Plan adopted the suspension of loan repayments to comply with the CARES Act, which allows a qualified individual to delay any loan repayments under existing or new loans that are due on or after March 27, 2020 through December 31, 2020. The repayment period of a loan would be extended by the length of time that your loan repayments are delayed. The loans are secured by the balance in the participant's account. The loan interest rate is established by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Note 1: Description of Plan (continued)

Forfeited Accounts

At December 31, 2020 and 2019, forfeited non-vested accounts totaled \$7,021 and \$6,982, respectively. These accounts can be used to pay plan expenses and reduce future employer contributions. No forfeited account balances were used to pay plan expenses or reduce employer contributions during the year ended December 31, 2020.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board (FASB), which established the FASB Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2: Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. There were no contributions in excess of amounts allowed by the IRS at December 31, 2020. The Plan distributed the 2019 excess contributions to the applicable participants prior to March 15 of 2020.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Employers and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distribution requests are charged directly to the participant's account and are included in administrative expenses. Each participant account is also charged a monthly record-keeping fee. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through July 13, 2021, the date the financial statements were available to be issued.

Note 3: Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2020 and 2019, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2020, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Bank of America, N.A. (the custodian of the Plan).

Note 4: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Common Stocks: Valued at the daily closing price reported on the active market on which the individual securities are traded.

Common/collective trusts: Valued at the net asset value (NAV) of units of the trust. The NAV, as provided by the fund's investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*In accordance with the "Fair Value Measurement" topic of the FASB ASC, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value was measured using the NAV per share practical expedient as of December 31, 2020 and 2019, respectively.

Notes to Financial Statements

December 31, 2020 and 2019

Note 5: Rollover Contributions

Effective April 30, 2017, the Union amended its single-employer defined benefit plan to freeze future benefit accruals and to close the plan to future participants. On November 26, 2019, the plan participants of the single-employer defined benefit plan were notified of the Union's intent to terminate the plan effective January 30, 2020. After receiving approval from the IRS and the PBGC, all assets of the plan were distributed. Participants in the Union's single-employer defined benefit plan were provided the option to have their account balances rolled into any qualified plan (including the Plan). An aggregate of \$3,440,179 was rolled into the Plan during the year ended December 31, 2020 and is included in rollover contributions on the statement of changes in net assets available for benefits.

Note 6: Party-in-Interest Transactions

Merrill Lynch is a third-party administrator and a record keeper to the Plan. Merrill Lynch provides non-discretionary investment advice and acts as a fiduciary, as defined by ERISA, and provides certain administrative services to the Plan pursuant to an agreement between the Employers and Merrill Lynch. These transactions qualify as party-in-interest transactions.

Note 7: Plan Termination

Although they have not expressed any intent to do so, the Employers have the right under the Plan to discontinue their contributions at any time and the Plan's Board of Trustees has the right to terminate the Plan subject to the provisions of ERISA.

Note 8: Tax Status

The IRS has determined and informed the Plan by a letter dated December 31, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

December 31, 2020 and 2019

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In early calendar 2020, the Plan began dealing with the effects of the Coronavirus pandemic (COVID-19). Disruptions to business operations, including government mandated actions and employee, supplier and customer related challenges have impacted many businesses. The financial markets have experienced high volatility. The effect of COVID-19 has continued subsequent to year-end and management is unable to determine the impact it will have on the Plan.
