For 2020 and 2019 the total annual participant deferral contribution was limited to $19,500 and $19,000 ($26,000 and $25,000 for employees age fifty or older), respectively.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes safe harbor matching employer contributions on behalf of eligible participants equal to 100% of the first 3% of the eligible participant's compensation contributed to the Plan and 50% of the next 2% of the eligible participant's compensation contributed to the Plan. The Company may make an additional matching employer contribution on behalf of each eligible participant in an amount equal to a percentage of the eligible contributions made by each eligible participant during the plan year. The Company contributions are invested based on each participant's investment elections.

Participant Accounts:

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's matching and discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:
Participants are immediately vested in their elective contributions plus actual earnings thereon. In addition, participants are immediately vested in employer matching and profit sharing contributions.

Forfeited Accounts:
Any forfeitures occurring during a plan year are used to reduce future employer contributions.

Payment of Benefits:
Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum or partial distribution up to the value of the participant's vested interest in his or her account, or may receive a direct rollover to an individual retirement account or another employer plan. A participant may elect to withdraw all or part of his or her elective contributions due to financial hardship, in accordance with the provisions specified in the Plan document. In-service distributions are allowed when the employee reaches 59.5 years of age.

Notes Receivable from Participants:
A participant may borrow from their fund accounts in the form of a note. Participants are permitted to have only one loan outstanding at any time and the maximum loan amount available is limited to an amount equal to $50,000 (reduced by their highest outstanding loan balance in the previous 12 months) or one-half of their vested account balance in the Plan (reduced by their current outstanding loan balance, if any), whichever is less. No notes will be issued for less than $1,000. The loans are secured by the balance in the participant's vested account balance equal to the amount borrowed divided by their vested individual account balance and bear interest at a rate commensurate with local prevailing rates as determined periodically by the Plan administrator. Interest rates on outstanding loans, based on the prime rate plus two percent. Principal and interest is paid ratably through payroll deductions over a 5 year period unless the note is to be used for the purchase of a principal residence, for which the maximum term is 30 years. A loan becomes immediately due and payable upon a participant's termination of employment or death.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:
The financial statements of the Plan are presented on the accrual method of accounting.

Use of Estimates:
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants:
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2020 and 2019, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition:
Investments are stated at fair value as determined by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year. The fixed account is not considered to be benefit responsive since the investment contract prevents immediate and full payout of the contract value for plan initiated transactions.

Administrative Expenses:
Administrative expenses, including legal and accounting fees, not paid from Plan assets are paid by the Company. Administrative expenses recorded in the Plan represent trustee fees and other fees paid directly from the Plan.

Payment of Benefits:
Benefits are recorded when paid.

Subsequent Events:
Management evaluated all activity of the Plan through August 18, 2021 the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes, except as described below:

The Company changed recordkeepers from Ascensus to John Hancock in June 2021.

NOTE C - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of compliance permitted pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Ascensus Trust Company, the trustee, has certified that all of the investments and investment-related activity presented in the statements of net assets available for benefits, statement of changes in net assets available for benefits and supplemental schedule of assets held for investment purposes as of December 31, 2020 and 2019 and for the year ended December 31, 2020 are complete and accurate. Such information has not been audited by independent auditors except for comparing such information with the related information included in the financial statements and supplemental schedule as of December 31, 2020 and 2019 and for the year ended December 31, 2020.

NOTE D - PARTIES-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and a common/collective trust managed by Ascensus Trust Company the trustee of the Plan as defined by the Plan and, therefore, these transactions qualify as party-in interest transactions as defined in Section 3(14) of ERISA. Fees paid by the Plan for the investment management services amounted to $11,366 for the year ended December 31, 2020. Transactions conducted with the Company, the Plan sponsor, also qualify as party-in-interest transactions.

NOTE E - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and/or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions. The Plan administrator will facilitate the distribution of account balances in single lump sum payments to each participant in accordance with the Plan provisions until all assets have been distributed by the trustee.

NOTE F - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2015 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE G - RISKS AND UNCERTAINTIES

During the 2020 plan year, plan management identified potential ERISA and IRS operational failure related to applying the proper definition of compensation. The plan sponsor has utilized the IRS' Voluntary Compliance Program (VCP) to correct the operational failure for the plan years from 2016 through 2020. In December 2020 the Sponsor remitted $82,644 to the Plan to correct the missed deferral opportunity and safe harbor match, including lost earnings.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: Valued at net asset value (NAV) of units held by the Plan at year-end. The NAV is used as a practical expedient to estimate fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

Assets at Fair Value as of December 31, 2020

	Level 1	Level 2	Level 3	Total
Mutual funds	$3,117,101	–	–	$3,117,101
Total	3,117,101	–	–	3,117,101
Investments measured at NAV (a)				41,310
Total investments at fair value				$3,158,411

Assets at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$1,786,251	–	–	$1,786,251
Total	1,786,251	–	–	1,786,251
Investments measured at NAV (a)				12,073
Total investments at fair value				$1,798,324

(a) In accordance with the Fair Value Measurements Topic 820-10, certain investments that are measured at NAV per share as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table above are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2020 and 2019. There are no participant redemption restrictions for these investments.

	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
December 31, 2020				
Stable value fund	$41,310	N/A	Daily	1 day
December 31, 2019				
Stable value fund	$12,073	N/A	Daily	1 day
