Note 1—Description of the Plan

The following description of the G Treasury SS, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established by the G Treasury SS, LLC (the "Company" or "Employer" or "Plan Sponsor") on January 1, 1996, and was most recently amended and restated effective October 28, 2019. The Plan is a safe harbor defined contribution plan covering all of the employees except leased employees and interns. Employees who have completed at least 90 days of service and are at least age 21, or completed 1,000 hours of service in an Eligibility Computation Period, as defined in the Plan document, are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company. The Plan administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities. The Plan's assets are held in the custody of Capital Bank and Trust Company, (the "custodian") of the Plan.

On March 27, 2020, Congress signed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). The CARES Act took immediate effect and allows the Plan's participants to take a COVID-19 related distribution up to $100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020. Loan limits were increased to the lesser of $100,000 or 100% of the participants' vested account balance. In addition, the Plan adopted the temporary loan repayment deferral provision of the CARES Act. The deferral provision adopted by the Plan allowed qualified Plan participants who have Plan loan repayments to defer such repayments until December 31, 2020.

Participant Contributions – Eligible employees will enter the Plan on the first day of the month that coincides with or follows the date that they first satisfy the eligibility requirement. Participants may contribute a percentage of their eligible compensation, as defined in the Plan, up to the lesser of 90% of their compensation or $19,500 for the year ended December 31, 2020. In addition, participants 50 years of age or older may elect to make a catch up deferral contribution up to $6,500 for the year ended December 31, 2020. Roth contributions are permitted by the Plan and may be subject to certain Internal Revenue Code ("IRC") limitations. Distributions from other qualified retirement plans can also be contributed to the Plan and retained as a rollover contribution.

Employer Contributions – The Company will make a safe harbor matching contribution equal to 100% of the first 3% and 50% of the next 2% of eligible compensation contributed by each participant. Employer matching contributions totaled $374,582 for the year ended December 31, 2020.

Vesting – Participants are immediately 100% vested in all contributions, plus actual earnings thereon.

Participant Accounts – Individual accounts are maintained for each participant and include participants' salary deferral contributions, rollover contributions, related employer matching contributions, and an allocation of Plan earnings (losses), including realized and unrealized gains and losses on investments, and administrative expenses, if not paid by the Plan Sponsor. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options – Participants may direct American Funds, (the "record keeper") as to the investment of their account balance into various investment options offered by the Plan. Participants may change their investment directions at any time, subject to such restrictions and procedures as established by the record keeper, Plan, and Company.

Note 1—Description of the Plan (continued)

Benefits Paid to Participants – Upon termination of service, a participant (or designated beneficiary) may elect to receive an amount equal to the value of the participant's vested interest in his or her account. The Plan allows for distributions upon termination of service, death, disability, attainment of age 59½, or in certain hardship situations while actively employed. A participant may elect to receive a lump sum payment or roll over the value of their account into another qualified plan. If the vested account balance payable to an individual is less than or equal to $5,000, the Plan Sponsor may require a distribution of the entire account balance in a lump sum. Hardship withdrawals are subject to IRC restrictions and penalties.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum amount that is equal to the lesser of 50% of their vested account balance or $50,000 reduced by the highest outstanding loan balance in their account during the prior twelve month period. Note terms range from 1-5 years (or up to 15 years for the purchase of a primary residence). All loans are secured by the balance in the participant's account and bear interest based on the prime rate published by The Wall Street Journal on the first business day of each month, plus 1%. The interest shall remain fixed throughout the duration of the loan. At December 31, 2020, the outstanding note receivable had an interest rate of 5.75% and had a maturity date of March 2022.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

Administrative Expenses – The Plan is administered by the Plan Sponsor. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Plan Sponsor.

Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties – The Plan provides for various investment fund options. Investments are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 2—Summary of significant accounting policies (continued)

As a result of the spread of the coronavirus ("COVID-19"), economic uncertainties have arisen triggering volatility in financial markets and a significant negative impact on the global economy. As the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of potential losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

Fair Value Measurements – U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following are descriptions of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Mutual Funds – These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Money Market Fund – These investments are valued at closing price reported on the active market on which the individual securities are traded and are classified within Level 1 of the valuation hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There was no change in valuation methodologies during the year ended December 31, 2020.

Note 3—Information prepared and certified by the custodian (unaudited)

The Plan administrator has elected the method of compliance permitted by 20 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan has certified to the completeness and accuracy of the following data included in the accompanying financial statements as of December 31, 2020, and for the year ended December 31, 2020:

- Investments, at fair value, interest bearing cash, and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2020.
- Net appreciation in fair value of investments, dividend income, other income, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2020.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2020.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Tax status

The Plan adopted a prototype standardized plan which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March, 31, 2014, which stated that the prototype Plan is designed in accordance with applicable sections of the IRC. The Plan has not received a determination letter specific to the Plan itself, and the Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to business income tax and, therefore, the Plan continues to be tax-exempt.

U.S. GAAP requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5—Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 6—Parties-in-interest

Certain Plan assets at December 31, 2020, are invested in funds sponsored by the record keeper. Transactions involving these investments are considered party-in-interest transactions for which statutory exemption exists under DOL Regulations. Fees paid by the Plan to the record keeper amounted to $6,756 for the year ended December 31, 2020. Fees incurred by the Plan for investment management services are paid directly by the Plan and, therefore, also qualify as party-in-interest transactions for which a statutory exemption exists. Fees paid to the Plan's investment management services provider totaled $13,539 for the year ended December 31, 2020. Notes receivable from participants also qualify as party-in-interest transactions.

Note 7—Other income

The Plan had a revenue-sharing agreement with their investment advisor which ended in 2020. The Plan received funds based on the investment balances held by the Plan. The funds were placed into a "fee recapture" account which accumulated investments earnings and (losses), and were to be used for plan purposes.

During 2020, the Plan received income of $7,803 for the fee recapture account, and utilized $5,386 for Plan investment management services. As of December 31, 2020 and 2019, the fee recapture account balance totaled $15,010 and $12,547, respectively.

Note 8—Fair value measurements

Below are the Plan's financial instruments carried at fair value on a recurring basis by the fair value hierarchy levels as of December 31:

Note 9—Subsequent events

In accordance with U.S. GAAP related to subsequent events, the Plan's Management has evaluated all events subsequent to the statements of net assets available for benefits date of December 31, 2020 through September 17, 2021, which is the date these financial statements were available to be issued.

Note 1—Description of the Plan

The following description of the G Treasury SS, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established by the G Treasury SS, LLC (the "Company" or "Employer" or "Plan Sponsor") on January 1, 1996, and was most recently amended and restated effective October 28, 2019. The Plan is a safe harbor defined contribution plan covering all of the employees except leased employees and interns. Employees who have completed at least 90 days of service and are at least age 21, or completed 1,000 hours of service in an Eligibility Computation Period, as defined in the Plan document, are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company. The Plan administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities. The Plan's assets are held in the custody of Capital Bank and Trust Company, (the "custodian") of the Plan.

On March 27, 2020, Congress signed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). The CARES Act took immediate effect and allows the Plan's participants to take a COVID-19 related distribution up to $100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020. Loan limits were increased to the lesser of $100,000 or 100% of the participants' vested account balance. In addition, the Plan adopted the temporary loan repayment deferral provision of the CARES Act. The deferral provision adopted by the Plan allowed qualified Plan participants who have Plan loan repayments to defer such repayments until December 31, 2020.

Participant Contributions – Eligible employees will enter the Plan on the first day of the month that coincides with or follows the date that they first satisfy the eligibility requirement. Participants may contribute a percentage of their eligible compensation, as defined in the Plan, up to the lesser of 90% of their compensation or $19,500 for the year ended December 31, 2020. In addition, participants 50 years of age or older may elect to make a catch up deferral contribution up to $6,500 for the year ended December 31, 2020. Roth contributions are permitted by the Plan and may be subject to certain Internal Revenue Code ("IRC") limitations. Distributions from other qualified retirement plans can also be contributed to the Plan and retained as a rollover contribution.

Employer Contributions – The Company will make a safe harbor matching contribution equal to 100% of the first 3% and 50% of the next 2% of eligible compensation contributed by each participant. Employer matching contributions totaled $374,582 for the year ended December 31, 2020.

Vesting – Participants are immediately 100% vested in all contributions, plus actual earnings thereon.

Participant Accounts – Individual accounts are maintained for each participant and include participants' salary deferral contributions, rollover contributions, related employer matching contributions, and an allocation of Plan earnings (losses), including realized and unrealized gains and losses on investments, and administrative expenses, if not paid by the Plan Sponsor. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options – Participants may direct American Funds, (the "record keeper") as to the investment of their account balance into various investment options offered by the Plan. Participants may change their investment directions at any time, subject to such restrictions and procedures as established by the record keeper, Plan, and Company.

Note 1—Description of the Plan (continued)

Benefits Paid to Participants – Upon termination of service, a participant (or designated beneficiary) may elect to receive an amount equal to the value of the participant's vested interest in his or her account. The Plan allows for distributions upon termination of service, death, disability, attainment of age 59½, or in certain hardship situations while actively employed. A participant may elect to receive a lump sum payment or roll over the value of their account into another qualified plan. If the vested account balance payable to an individual is less than or equal to $5,000, the Plan Sponsor may require a distribution of the entire account balance in a lump sum. Hardship withdrawals are subject to IRC restrictions and penalties.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum amount that is equal to the lesser of 50% of their vested account balance or $50,000 reduced by the highest outstanding loan balance in their account during the prior twelve month period. Note terms range from 1-5 years (or up to 15 years for the purchase of a primary residence). All loans are secured by the balance in the participant's account and bear interest based on the prime rate published by The Wall Street Journal on the first business day of each month, plus 1%. The interest shall remain fixed throughout the duration of the loan. At December 31, 2020, the outstanding note receivable had an interest rate of 5.75% and had a maturity date of March 2022.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

Administrative Expenses – The Plan is administered by the Plan Sponsor. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Plan Sponsor.

Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties – The Plan provides for various investment fund options. Investments are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 2—Summary of significant accounting policies (continued)

As a result of the spread of the coronavirus ("COVID-19"), economic uncertainties have arisen triggering volatility in financial markets and a significant negative impact on the global economy. As the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of potential losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

Fair Value Measurements – U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following are descriptions of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Mutual Funds – These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Money Market Fund – These investments are valued at closing price reported on the active market on which the individual securities are traded and are classified within Level 1 of the valuation hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There was no change in valuation methodologies during the year ended December 31, 2020.

Note 3—Information prepared and certified by the custodian (unaudited)

The Plan administrator has elected the method of compliance permitted by 20 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan has certified to the completeness and accuracy of the following data included in the accompanying financial statements as of December 31, 2020, and for the year ended December 31, 2020:

- Investments, at fair value, interest bearing cash, and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2020.
- Net appreciation in fair value of investments, dividend income, other income, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2020.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2020.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Tax status

The Plan adopted a prototype standardized plan which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March, 31, 2014, which stated that the prototype Plan is designed in accordance with applicable sections of the IRC. The Plan has not received a determination letter specific to the Plan itself, and the Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to business income tax and, therefore, the Plan continues to be tax-exempt.

U.S. GAAP requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5—Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 6—Parties-in-interest

Certain Plan assets at December 31, 2020, are invested in funds sponsored by the record keeper. Transactions involving these investments are considered party-in-interest transactions for which statutory exemption exists under DOL Regulations. Fees paid by the Plan to the record keeper amounted to $6,756 for the year ended December 31, 2020. Fees incurred by the Plan for investment management services are paid directly by the Plan and, therefore, also qualify as party-in-interest transactions for which a statutory exemption exists. Fees paid to the Plan's investment management services provider totaled $13,539 for the year ended December 31, 2020. Notes receivable from participants also qualify as party-in-interest transactions.

Note 7—Other income

The Plan had a revenue-sharing agreement with their investment advisor which ended in 2020. The Plan received funds based on the investment balances held by the Plan. The funds were placed into a "fee recapture" account which accumulated investments earnings and (losses), and were to be used for plan purposes.

During 2020, the Plan received income of $7,803 for the fee recapture account, and utilized $5,386 for Plan investment management services. As of December 31, 2020 and 2019, the fee recapture account balance totaled $15,010 and $12,547, respectively.

Note 8—Fair value measurements
