Note 1 - Description of Plan

The following description of Thornton Tomasetti, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all nonunion employees of Thornton Tomasetti, Inc. (the "Company") who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's administrative committee is responsible for oversight of the Plan. The administrative committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

Contributions

Each year, participants may contribute amounts from 1% to 60% (in whole percentages) of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 7% of eligible compensation, which will increase by an additional 1% in each subsequent Plan year to a maximum of 10%, and their contributions invested in a designated balanced fund until changed by the participant. Effective April 29, 2009, the employer matching contributions were made discretionary. The discretionary contribution is made by the Board of Director's resolution for each Plan year. For Plan years ended 2020 and 2019, the Plan Sponsor contributed a matching contribution to the Plan equal to 50% of employee contributions up to 7% of employee compensation. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. The Company, at its discretion, may also make discretionary nonelective contributions in an amount to be determined by the board for each plan year. The Plan also provides for participants to make contributions to a Roth 401(k) component which is includable in the participant's gross income. Effective July 17, 2017, participants are limited to contributing a combined total of after-tax and deferral contributions of 80.00%.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is vested 20% for each year of service after the completion of two years, being 100% vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts up to a maximum of $50,000, subject to provisions set forth in the Plan agreement. The loans are secured by the balance in the participant's account

and bear interest at rates that range from 4.25% to 7.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Payment of benefits
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments, as defined. A participant also has the option to postpone payment of his or her account balance until the first day of the Plan year following the calendar year in which the participant attains the age of 72. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

CARES Act
In March 2020, the Plan adopted all relevant provisions of the Coronavirus Aid, Relief, and Economic Security Act (**"**CARES Act**"**). No formal plan amendment to the plan document was made as of December 31, 2020, however, the plan sponsor intends to amend the plan document by the last day of the plan year ended December 31, 2022, in accordance with regulations.

Under the CARES Act, required minimum distributions (**"**RMD**"**) for the 2020 calendar year are temporarily waived; however, plan participants may still request to receive a distribution equal to the RMD in 2020. Additionally, impacted participants may receive up to $100,000 in aggregate for in-service withdrawals before December 31, 2020 and the 10% penalty tax for early withdrawal is waived; and the taxes will be included in the impacted participant**'**s taxable income over a three-year period. There are no limits to the number of such withdrawals each impacted participant can make; and the repayment of the withdrawal amount is permitted if repayment occurs within three years of distribution.

Loan provision changes under the CARES Act allow impacted participants to borrow up to the lesser of $100,000 or 100% of their vested balance for 180 days, beginning March 27, 2020. Additionally, impacted participants may defer loan payments that are due from March 27, 2020 through December 31, 2020, and any subsequent loan payments will be adjusted appropriately to reflect the payment delay and interest accruing during the delay and the revised loan term.

Forfeited accounts
At December 31, 2020 and 2019, forfeited nonvested accounts totaled $53,369 and $39,762, respectively. These accounts will be used to reduce future employer contributions or administrative expenses in accordance with the Plan agreement. Also in 2020, employer contributions were reduced by $292,942 from forfeited nonvested accounts.

Note 2 - Summary of significant accounting policies

Basis of presentation
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019.

Payment of benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through September 24, 2021, which is the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage account: Accounts primarily consist of mutual funds and common stock that are valued on the basis of readily determinable market prices.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at fair value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total

Note 4 - Fully benefit-responsive investment contracts

The Plan portfolio holds a traditional investment contract with New York Life Insurance Company ("New York Life"). This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses.

The guaranteed interest account ("GIA") is a stable value product that guarantees principal and accumulated interest. The GIA seeks to provide participants with competitive crediting rates and limited volatility consistent with preservation of principal. The GIA has a contractual minimum crediting rate and allows daily liquidity at full book value for participant-initiated requests.

Contributions to the GIA are invested in a fixed income portfolio within New York Life's general account. The general account is invested primarily in a conservative array of securities and cash-equivalent investments in accordance with the investment restrictions in New York Insurance Law. The primary investment objective of the general account is to ensure that New York Life can meet its obligations to contract holders and policyholders. Participants may deposit and withdraw on a daily basis at contract value. Participants may also transfer to other investment options in the Plan as long as the transfer is not to competing funds. The GIA offers a guaranteed minimum crediting rate that can never fall below 1%, and participant-initiated withdrawal requests are allowed daily at contract value. The crediting rate is reviewed semi-annually for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events may limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.

2. Premature termination of the contracts.

3. Plan termination or merger.

4. Changes to the Plan's prohibition on competing investment options.

5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers, and that also would limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 5 - Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds and other investments managed by Fidelity Management Trust Company ("Fidelity"). Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative and investment management services amounted to approximately $215,000 for the year ended December 31, 2020.

Note 6 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 7 - Tax status

On March 31, 2014, the IRS stated that the Volume Submitter Profit Sharing Plan with CODA adopted by the Plan, as then designed, qualifies under the IRC Section 401(a). The Plan has not received a determination letter specified to the Plan itself; however, the Plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In early 2020, an outbreak of a novel strain of coronavirus ("COVID-19") emerged globally. As a result, events have occurred domestically in United States and globally, including mandates from federal, state and local authorities, leading to an overall decline in economic activity. The continuation of the effects of COVID-19 could result in significant disruption of global financial markets; however, the ultimate impact of COVID-19 on the financial performance of the Plan's investments cannot be reasonably estimated at this time. Due to COVID-19, the CARES Act was enacted in 2020. Portions of the CARES Act make changes to existing law including relating to the amount and circumstances permitting penalty-free distributions.

Note 9 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2020 and 2019, and investment income and interest income on notes receivable from participants for the year ended December 31, 2020, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee of the Plan.
