NOTE A – Description of Plan

The following description of Samson Controls, Inc. 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established October 1, 1995 covering generally all employees of Samson Controls, Inc. (the Sponsor or Company) who have attained the age of 21. Eligible employees may enter the Plan at their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent related amendments and revisions.

On March 27, 2020, Congress passed the Coronavirus, Aid, Relief, and Economic Security ("CARES") Act which is intended to provide economic relief to retirement plan sponsors and participants in the midst of the global COVID-19 pandemic. Under the CARES Act, changes were made impacting certain provisions of qualified retirement plans, including participant loans and distributions. Among other things, the CARES Act provisions, which were adopted by the Plan, increased the limit on participant loans, extended repayment terms, and waived penalties for certain early withdrawals.

Contributions

The Plan is intended to satisfy the requirements to be a "qualified automatic contribution arrangement" (QACA) within the meaning of Code Sections 401(k)(13) and 401(m)(12), as well as an "eligible automatic contribution arrangement" (EACA) within the meaning of Code Section 414(w). The QACA is a safe harbor plan design that allows the Plan to automatically satisfy annual nondiscrimination tests (the actual deferral percentage (ACP) and the actual contribution percentage (ACP) tests.

Under the safe harbor design, once a participant becomes eligible to participate in the Plan, the participant is automatically enrolled at a 2% deferral rate unless opting out of the automatic deferral feature. Participant's who have opted out or are deferring less than 6%, are reenrolled on January 1 of each year and must opt out or change their deferral election. The automatic deferral percentage increases by 1% each year up to a maximum automatic deferral of 6%.

A participant's contribution may not exceed an amount determined by the Internal Revenue Service each calendar year. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investing of the contributions in any of the Plan's available investment options.

NOTE A – Description of Plan – continued

The Plan allows for the Company to make discretionary matching contributions at an amount determined by the Company each year. For year ending December 31, 2020, the Company made discretionary matching contributions of $140,692. In years in which the Plan is top-heavy, additional discretionary contributions shall be allocated as of the last day of the plan year for any employee active on the last day of the plan year and with a minimum of 1,000 hours of service.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's discretionary match, and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of their account into any of the investment options offered by the Plan.

Vesting

Participants are immediately vested in their voluntary contributions including rollover contributions plus actual earnings thereon. The portion of the participants' accounts attributable to the Company's discretionary matching contribution vests 20% after 1 year and continues to vest at a rate of 20% each successive year until reaching 100% after five years. Non-vested participants become 100% vested upon death or disability.

Payment of Benefits

Subsequent to termination of service, a participant may request to receive payment either in a lump sum amount equal to the value of his or her vested account balance or to continue in the Plan in such a manner as though the employee had not terminated employment, if the participant's account balance is greater than $5,000. If the participant's account balance is less than $5,000, the participant will either receive payment in a lump sum amount, or the funds will be placed in an Individual Retirement Account (IRA) for the participant in an amount equal to the value of his or her vested account balance. In addition to benefit payments made due to termination of service, the Plan also allows for hardship distributions from the participant's vested balance. In-service distributions are permitted from all fully-vested participant accounts for all participants who have attained age fifty nine and one-half.

NOTE A – Description of Plan – continued

Forfeited Accounts

Participants possess a completely vested interest in any contributions they make, and the earnings thereupon, to their personal benefit account, and build a vested interest in their Company discretionary matching contributions and earnings through years of service. Upon a participant's withdrawal from the Plan, the participant receives only that portion of the benefit account in which the participant is vested and forfeits any unvested portion.

Unclaimed benefits are treated as forfeitures as allowed by the Plan. The Plan stipulates that forfeitures shall be made available for allocation to each participant that was active during the plan year. There were no material unapplied forfeitures as of December 31, 2019 and 2018.

Participant Loans

Subject to the provisions of the Plan, a participant may borrow against their vested account balance provided that the amount requested is at least $1,000 but not more than the lesser of 50% of the vested balance or $50,000 (taking into account the outstanding balance of all Plan loans made within the prior twelve months). Each loan will bear an interest rate as prescribed by the Plan's applicable provisions. Principal and interest are repaid ratably through payroll deductions.

Administrative Expenses

To the extent the Company is required by law or elects to pay such expenses, the Plan Sponsor shall be responsible for paying such Plan expenses. All expenses of the Plan shall, to the extent permitted by law, be paid by the Plan, unless the Company elects to pay such expenses.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE B – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit responsive guaranteed interest contracts which are reported at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. Participant loans are valued at their outstanding balances, which approximates fair value.

Benefit Payments

Benefits are recorded when paid.

NOTE B – Summary of Significant Accounting Policies - continued

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Recently Issued Accounting Standards

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The adoption of ASU 2018-13 is not expected to have a material impact on the financial statements.

NOTE C – Investments Certified by the Trustees

The investments presented as of December 31, 2020 were certified as complete and accurate by Principal Life Insurance Company. Principal Life Insurance Company also certified to the completeness and accuracy (including gains and losses on investments bought and sold, as well as held during the year) of $1,178,050 of net appreciation in the fair value of investments and $5,607 of interest for the year ended December 31, 2020.

NOTE D- Principal Fixed Income Guarantee Option

The Plan invests in the Principal Fixed Income Guarantee Option (the "Contract"), a benefit-responsive group annuity contract issued by Principal Life Insurance Company. The Contract is not a portfolio of contracts whose yields are based on changes in the fair value of underlying assets, but is rather a single group annuity contract with a fixed rate of interest. As a result, the average yield earned by the Plan is the yield earned, or the interest credited, on the group annuity contract as a whole. As of December 31, 2020 and 2019, the contract value of the investment was $77,690 and $93,169, respectively.

The interest crediting rate is determined on a semiannual basis and is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and purchases and redemptions by unit holders. An employer-level surrender of the Plan's interest in the Principal Fixed Income Option or employer-initiated transfer will be subject to either a 12-month irrevocable advance notice or a 5% surrender charge, whichever the employer chooses.

The rate credited is the rate in effect on the day when each deposit is directed to the account. To simplify reporting to plan participants, all rates credited during the 12-month 'deposit year' are averaged into a single composite rate.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Although the existence of certain conditions or transactions outside the normal operations of the Contract could limit the Plan's ability to transact at contract value, management has determined that as of December 31, 2020 these conditions or transactions are not considered probable.

NOTE E – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 – Quoted prices in markets that are not active or values based on inputs that are observable either directly or indirectly for substantially the full term of the asset or liability: Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Stated at readily determinable fair value. Fair value is determined daily based on the net unit value which is based on the fair value of the underlying assets of the account.

NOTE E – Fair Value Measurements - continued

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020.

	2020			
	Level 1	Level 2	Level 3	Total
Investments				
Pooled separate accounts	$ -	$ 9,662,383	$ -	$ 9,662,383
	$ -	$ 9,662,383	$ -	$ 9,662,383

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019.

	2019			
	Level 1	Level 2	Level 3	Total
Investments				
Pooled separate accounts	$ -	$ 8,593,055	$ -	$ 8,593,055
	$ -	$ 8,593,055	$ -	$ 8,593,055

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no transfers between Level 1 and Level 2 for the years ended December 31, 2020 and 2019. The Plan's policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

NOTE F – Tax Status

The Plan has not received a determination letter from the Internal Revenue Service (IRS) stating that the Plan is qualified under section 401(a) of the Internal Revenue Code. However, the Plan has adopted a prototype non-standardized profit sharing plan that is qualified under section 401(a) of the Internal Revenue Code. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2020, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G – Transactions with Parties-In-Interest

Certain plan investments are managed by Principal Life Insurance Company, the trustee of the Plan. As the trustee, these transactions qualify as party-in-interest transactions.

The Plan incurs expenses related to general administration and recordkeeping. These expenses and certain accounting and auditing fees relating to the Plan are paid directly by the Company as the Plan Sponsor.

NOTE H – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I – Reconciliation of Financial Statements to Form 5500
