WATERFALL ASSET MANAGEMENT LLC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2020 AND 2019, AND FOR THE YEAR ENDED DECEMBER 31, 2020

1. DESCRIPTION OF THE PLAN

The following description of the Waterfall Asset Management LLC 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's information.

General — The Plan is a defined contribution plan covering substantially all employees of Waterfall Asset Management LLC (the "Company") who are not covered by another plan. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company serves as the custodian of the Plan and Principal Life Insurance Company serves as the insurance carrier of the Plan. Prime Pensions, Inc. serves as the administrator of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions — Contributions to the Plan include (i) salary reduction contributions authorized by participants, (ii) safe harbor matching contributions made by the Company, (iii) discretionary contributions made by the Company; and (iv) participant rollovers from another qualified plan. Participants have the option to make Roth elective salary reduction contributions to the plan.

Participants may elect to contribute a percentage or dollar amount of their compensation, to the Plan each year, subject to the limitations, as defined in the plan document. Traditional contributions are excluded from the participant's taxable income for federal income tax purposes until received as a withdrawal or distribution from the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

In order for the Plan to maintain "safe harbor" status, the Company will make a safe harbor matching contribution equal to 100% of the participant's elective deferrals that do not exceed 4% of their compensation. This safe harbor matching contribution is 100% vested. The Company may also make a discretionary profit-sharing contribution. During the year-ended December 31, 2020, the Company made a $1,256,727 profit sharing contribution to the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts — Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contribution and related Company contributions and Plan earnings. Participant accounts are also charged with withdrawals and an allocation of plan losses and administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

In accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) Act, qualified Participants could withdraw up to $100,000 between April 29, 2020 and December 30, 2020. The minimum distribution age was updated to 72.

Investments — Participants may direct the investment of their contributions, safe harbor match, and discretionary profit-sharing contributions and/or account balances into various investment options offered by the Plan and may change investments and transfer amounts between funds daily.

Vesting — All employer and employee contributions as well as earnings on such contributions are vested 100% at time of contribution.

Notes Receivable from Participants — Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of one-half of the vested account balance or $50,000. The loans are secured by the participant's vested interest in the Plan, and bear interest at a rate commensurate with local prevailing rates at the time funds are borrowed as determined by the Plan administrator plus 1%. Principal and interest are paid ratably through payroll deductions or as a lump sum for the outstanding loan balance. Loan terms range from 1 to 5 years; however, terms may exceed 5 years for the purchase of a primary residence. As of December 31, 2020, participant loans have maturities through 2033 at interest rates ranging from 4.25 percent to 6.25 percent.

Payment of Benefits — On termination of service with the Company (including termination of service due to death, disability, or retirement), a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly or annual installments. Benefit payments in the form of installments are only available for participants who are required to receive lifetime minimum distributions.

Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships.

Forfeited Accounts — Because all contributions are vested immediately, there is no provision for forfeited accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan provides various investment options to its participants. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

In March 2020, the World Health Organization classified the COVID-19 outbreak as a pandemic. As a result, global financial markets have experienced, and may continue to experience, significant volatility resulting from the spread of COVID-19. The values of the Plan's individual investments have and will fluctuate in response to changing market conditions and therefore, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The extent of the impact of COVID-19 on the Plan's net assets available for benefits and contributions will depend on future developments, including the duration and continued spread of the outbreak. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value, except for the fully benefit-responsive guaranteed investment contract (the "GIC"), which is reported at contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan (see Note 6). See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the plan document**.**

Administrative Expenses — Administrative expenses of 0.44% per participant are deducted from participant accounts each month. Participants also pay administrative costs for loans, distributions and qualified domestic relation orders.

All investment management and transaction fees directly related to the Plan investments are paid by the Plan. Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no participants, who elected to withdraw from the Plan, but had not yet been paid at December 31, 2020 or 2019.

Excess Contributions Payable — The Plan is required to return contributions received during the Plan year in excess of the IRC limits.

Subsequent Events — Subsequent events were evaluated through September 27, 2021, the date the financial statements were available to be issued.

New Accounting Standard

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, Fair Value Measurement (Topic 820) – *Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which amends certain disclosure requirements of ASC 820. ASU 2018-13 removed the requirement to disclose the amount of and reasons for transfers between level 1 and level 2 of the fair value hierarchy as well as the policy for timing of transfers between levels. The ASU also modified the disclosure for investments in certain entities that calculate NAV to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the Plan or announced the timing publicly. It also clarified the disclosure requirements for communicating information about measurement uncertainty as of the reporting date. The guidance was adopted for the year ended December 30, 2020, and did not have a significant impact on the Plan's financial statements.

3. INFORMATION CERTIFIED BY THE CUSTODIAN AND INSURANCE CARRIER

The following is a summary of the unaudited information regarding the Plan as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included in the Plan's financial statements and supplemental schedules that were prepared by or derived from information prepared by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodian of the Plan, and Principal Life Insurance Company and Principal Life Insurance Company on behalf of Principal Global Investors Trust Company, collectively, the insurance carrier for the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian and insurance carrier that such information is complete and accurate.

4. FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques — Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds — Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Account — The NAV as provided by the insurance carrier, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Collective Investment Trust Funds – Valued at the NAV of units of a bank collective trust. The NAV as provided by the insurance carrier is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to confirm that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2020 and 2019.

6. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

A portion of the Plan's assets are held in a GIC with Principal Life Insurance Company. The GIC is included in the financial statements at contract value. Contract value represents contributions made under the contract, plus income earned, less funds used to pay benefits to participants and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Limitations on the Ability of the GIC to Transact at Contract Value — Amounts invested in the GIC may be subject to certain restrictions if the contract is terminated. Principal Life Insurance Company has control of the assets held under the GIC. The value of the GIC is subject to the financial stability of Principal Life Insurance Company. There are no reserves against contract value for credit risk of the contract issuer or otherwise. If the Plan exercises a termination option available under the GIC, a surrender charge would apply, and participant transactions would no longer be at

contract value. Plan management does not intend to terminate the contract. Principal Life Insurance Company may not terminate the contract at any amount less than the contract value.

Principal Life Insurance Company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate of the GIC is reset quarterly as determined by Principal Life Insurance Company. The rate that is credited to participant accounts will be the greater of the actual crediting rate or a minimum 1.5% floor rate.

7. NONEXEMPT PARTY-IN-INTEREST TRANSACTIONS

For the years ended December 31, 2020, and December 31, 2019, the Company remitted $1,664,488, and $1,546,896, respectively, of participant contributions to the custodian later than required by Department of Labor (DOL) Regulation 2510.3 102. The Company has filed 5330 with the Internal Revenue Service (IRS) and paid the required excise tax on the transactions. In addition, participant accounts have been credited with the amount of investment income that would have been earned had the participant contributions been remitted on a timely basis.

8. RELATED PARTY TRANSACTIONS AND EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Trust Company or an affiliate of Principal Trust Company. Principal Trust Company is the custodian, as defined by the Plan. Therefore, these transactions qualify as exempt party in interest transactions. Fees paid for investment management services were included as a reduction of the return earned on each fund. The Plan issues loans to participants, which are secured by the vested balances in the participants' accounts.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

10. FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Prime Pension Inc. Prime Pensions Inc. received an opinion letter from the IRS, dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.
