Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Plan for Certain Salaried Employees of Alcoa USA Corp., the Pension Plan for Certain Hourly Employees of Alcoa USA Corp., the Alcoa Subsidiaries Merged Inactive Pension Plan, the Employees' Retirement Plan of Suriname Aluminum Company LLC Plan I, and the Employees' Retirement Plan of Suriname Aluminum Company LLC Plan II (collectively referred to as the "Plans"), which comprise the statements of individual plan net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in individual plan net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Bank of New York Mellon, the trustee of the Plans, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plans' investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2020 and 2019 and for the year ended December 31, 2020, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

Covered employees	Every regular employee of a Company authorized by the Board of Directors to participate who is not (1) accruing service countable for pension benefit accrual purposes under another retirement plan of Alcoa or a Subsidiary, (2) in a collective bargaining unit, (3) in temporary or special employment or (4) in receipt of a pension (with certain limited exceptions), commissions, severance pay, retainer or fee under contract is generally covered under the Plan upon reaching age 21 with 1 year of service.
Participation date	Date of becoming a covered employee

Definitions

Service	Based on years, months, and days of continuous regular employment with the Company. Certain locations included do not recognize benefit service for all periods of service with the Company. These limitations are specified in the Plan document. Service will be frozen for all Plan participants effective January 1, 2021.
Other pension	Any pension, other than Social Security or Railroad Retirement benefit that a participant is entitled to from a governmental plan, foreign or domestic, or a benefit from a nongovernmental plan to which Alcoa Corp. or a subsidiary has contributed.
Compensation	Total payments made by the Company other than payments made for specific purposes not in the category of wages or salary. Compensation includes profit sharing amounts paid. Compensation excludes SPP pay and for Rule IM, compensation excludes overtime pay. Compensation will be frozen for all Plan participants effective January 1, 2021.
Average earnings	The average of the five highest calendar years of compensation within the preceding ten years for all but Rule IM and IP. For Rule IM, Average Earnings is the average of the five highest consecutive calendar years of compensation within the preceding ten years. For Rule IP, Average Earnings is the average of the three highest years of compensation within the preceding ten years. In the case of a participant who has been employed for less than five years (three years for Rule IP), Average Earnings shall be based on the Compensation received during the participant's employment.
Social Security Covered Compensation	The average of the taxable wage bases for the 35 calendar years ending with the year an individual terminates service

Rule IP

Plan Provisions

Accrued Benefit	Consists of 1.875% of Average Earnings multiplied by service up to 10 years, plus 1.75% of Average Earnings multiplied by service in excess of 10 years, less Social Security offset when first payable of 1.25% of Social Security benefit multiplied by years of service up to 40 years. Minimum annual benefit is $252 multiplied by years of service. All benefits accrued through December 31, 2003 and December 31, 2004, depending on location, are frozen. Those participants with Rule IP accrued amounts are generally currently covered by Rule IN. Accrued benefits will be frozen effective January 1, 2021.
Normal Retirement	Eligibility: Age 65, except age 60 for flight crew employees Benefit: Accrued Benefit payable immediately
Early Retirement	Eligibility: Within 10 years of Normal Retirement with 1 year of service and age plus service equals 60 or greater Benefit: Accrued Benefit reduced 1/4 of 1% for each of the first 24 months and 5/12 of 1%for each additional month commencement date precedes 3 years prior to the participant's Normal Retirement Date. The Social Security offset will not apply until the participant is first entitled to Social Security benefits. The Social Security offset is determined as the Social Security benefit as if the participant had remained in service to his Normal Retirement Date at his rate of compensation at the time of retirement, multiplied by the ratio of his years of service at retirement to the years of service he would have had at Normal Retirement reduced by 5/9 of 1% for each of the first 36 months and 5/12 of 1% for each additional month by which the participant is younger than the Social Security Retirement Date.
Deferred Vested	Eligibility: 5 years of service Benefit: Accrued Benefit deferred to Normal Retirement, or actuarially reduced pension commencing at early retirement age. If participant terminates within 15 years of his Normal Retirement Date and his age plus service equals 70 or greater, he may receive a benefit commencing at his early retirement age equal to the early retirement benefit.

SCHEDULE SB ATTACHMENTS

Preretirement Surviving Spouse Benefit	Eligibility: Death after 5 years of service or becoming eligible for Early Retirement Benefit: If eligible for Early Retirement at death, 100% of Accrued Benefit actuarially reduced for surviving spouse coverage payable immediately. If not eligible for Early Retirement but has at least 5 years of service at death, 55% of Accrued Benefit actuarially reduced for surviving spouse coverage payable at the later of the date of death or early retirement age.
Child Benefit	Eligibility: For an active participant eligible for an early or normal retirement benefit or a retired participant eligible for a deferred early retirement benefit for whom no spouse's benefit is payable Benefit: The benefit payable to a surviving child is 82% of the benefit that would have been payable for the participant's life, until such child is age 21. If there is more than one child, the benefit is divided equally amongst them and payable until the youngest child is age 21.
Forms of Payment	■ 100%, 55%, 50% joint and survivor annuity–reduced benefit to retiree until death and then X% of benefit payable to spouse. ■ Straight life–payments to retiree until death. ■ Lump sum payment. Economic Assumptions

Interest rate basis

■ Applicable Month	September
■ Interest rate basis	3-Segment Rates

Interest rates	**Reflecting Stabilization**	**Not Reflecting Stabilization**
■ First segment rate	4.75%	2.79%
■ Second segment rate	5.50%	3.92%
■ Third segment rate	6.27%	4.38%
■ Effective interest rate	5.62%	3.97%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and the PBGC 4010 FS.

  Rule IC: Date of death

  Rule IJ: Date of death

  Rule IM: The later of the death of the active participant or the date the participant would have attained age 55

  Rule IN: Date of death

  Rule IP: The later of the death or the early retirement age of the active participant

- Deferred vested benefit: Normal retirement age or earliest age for unreduced benefits
- Disability benefit: Upon disablement
- Retirement benefit: Upon termination of employment

Form of payment

Rule IC, Rule IJ and Rule IN: 10% of participants are assumed to elect a life annuity, 30% are assumed to elect a 50% joint and survivor pop-up annuity and 60% are assumed to elect a lump sum.

Rule IP: 100% of participants are assumed to elect a lump sum

Rule IM: 20% of participants are assumed to elect a life annuity, 20% are assumed to elect a 50% joint and survivor annuity and 60% are assumed to elect a lump sum.

Percent married

80% of participants are assumed to be married at death

Spouse age

Wife 3 years younger than husband

SCHEDULE SB ATTACHMENTS

Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation Date	First day of plan year
Funding Target	Present value of accrued benefits as required by regulations under IRC §430.
Accumulated Benefit Obligations (ASC 960)	The benefit obligations were determined by discounting the plan's projected benefit payments, beginning in FY2020, using the spot rates on the December 31, 2019 Willis Towers Watson RATE:Link 60:90 yield curve. The projected benefit payments were developed based on January 1, 2020 census data and reflect the key assumptions and plan provisions at December 31, 2019. We are not aware of any other significant changes in the plan demographics since the census date.
Target Normal Cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2020. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Lump sum conversion rate

As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Rates of increase in compensation

Assumed increases were chosen by the plan sponsor and, as required by U.S. GAAP they represent an estimate of future experience.

Assumptions Rationale – Significant Demographic Assumptions

PPA mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

Termination rates were based on an experience study conducted in 2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement

Retirement rates were based on an experience study conducted in 2019, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

Benefit commencement date for deferred benefits:

■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
■ Deferred vested benefit	Commencement ages for deferred vested participants were based on an experience study conducted in 2019.

Form of payment

The percentage of retiring participants assumed to take the various optional forms of payment available are based on observed experience during a study performed in 2019.

Marital assumptions:

■ Percent married	The assumed percentage married is based on the marital status of plan participants.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

SCHEDULE SB ATTACHMENTS

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

Discount rates for purposes of ASC 960 calculations reflect the change in the yield curve from FYE 2018 to FYE 2019.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

The following assumptions were modified based on results of an experience study conducted during 2019:

- The termination and retirement assumptions were updated to reflect past experience and future expectations
- The form of payment assumptions were updated to reflect past experience and future expectations

Change in methods since prior valuation

None.

The substitute mortality table applies to all groups of plan participants and thus there are no groups that use the prescribed mortality tables for the 2020 plan year. The mortality ratio used to develop the table is 1.1017515, and applies to both males and females. The tables are based on full credibility. The substitute mortality tables have been approved beginning with the plan year commencing January 1, 2019 and ending with the plan year commencing January 1, 2028.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Reconciliation of differences between valuation results and amounts used to calculate AFTAP as of January 1, 2020

The AFTAP reported on line 15 is the final certified AFTAP for the plan year and does not correspond to the valuation results reported on this SB.

In determining the certified AFTAP, Alcoa USA Corp. elected to use the plan's AFTAP from the 2019 plan year to determine whether benefit restrictions applied for the 2020 plan year in accordance with the CARES Act provisions.

The certified AFTAP was completed without the reflection of the interest rate provisions of the American Rescue Plan Act that was signed into law in March 2021, as the plan sponsor did not elect to recertify the AFTAP reflecting those provisions since the change was not a material change.

Prior Year's Excess Contributions to be Added to Prefunding Balance as of January 1, 2020

The 2019 Schedule SB as filed does not reflect the plan sponsor's election to apply the 15-year amortization provisions of the American Rescue Plan Act of 2021 to the 2019 plan year. As allowed by IRS Notice 2021-48, the plan sponsor chose not to refile the 5500 for the 2019 plan year to reflect that election. As a result of this decision, Line 11a of the 2020 Schedule SB will not match line 38a of the filed 2019 Schedule SB. Additionally, the calculations for line 11b cannot be derived based on the information shown in lines 38a and 38b of the filed 2019 Schedule SB.

Had the 2019 plan year Schedule SB been refiled, the 15-year amortization would have resulted in item 32a reflecting an installment of $31,251,799. This change would have flowed into subsequent results for lines 34, 36, and 38.

1. Description of Plans

The following description of each Plan's provisions provides only general information. Participants should refer to each Plan document for a more complete description of each Plan's provisions.

General

The Alcoa USA Corp. and Subsidiary Companies' ("Alcoa Corp." or the "Company") Pension Plan for Certain Salaried Employees of Alcoa USA Corp. (Alcoa Corp. Salary Plan), Pension Plan for Certain Hourly Employees of Alcoa USA Corp. (Alcoa Corp. Hourly Plan), Alcoa Subsidiaries Merged Inactive Plan (Alcoa Subsidiaries Merged Inactive Plan), Employees' Retirement Plan of Suriname Aluminum Company LLC Plan I (Suriname Plan I) and Employees' Retirement Plan of Suriname Aluminum Company LLC Plan II (Suriname Plan II) (each referred to as the "Plan") are noncontributory defined benefit plans that cover eligible United States employees and certain employees in foreign countries and participate in the Pension Plans Master Trust for Alcoa USA Corp. ("Master Trust").

The investments of the Plans are maintained under one trust pursuant to a "Master Trust Agreement" with the trustee, The Bank of New York Mellon ("trustee").

All fiduciary responsibility for the Plans is maintained by the Alcoa Corp. Benefits Management Committee. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plans provide, in general, for monthly pensions upon retirement at or after age 65, or earlier upon disability, incapacity, special circumstances, or with certain minimum age and service requirements. Pension benefits generally depend upon length of service, job grade or remuneration, and certain social security and other benefits.

Eligibility and Vesting

Employees hired before March 1, 2006 are eligible to participate in the Alcoa Corp. Salary Plan after they have attained age 21 with one year of service. Certain new employees hired after March 1, 2006 are not eligible to participate in the Alcoa Corp. Salary Plan. Certain hourly employees are eligible to participate in the Alcoa Corp. Hourly Plan after they have attained age 21 with one year of service.

Suriname salaried employees hired after December 31, 2011 are no longer eligible to participate in Suriname Plan I. Suriname hourly employees hired after December 31, 2012 are no longer eligible to participate in Suriname Plan II. If hired prior to these dates, employees are eligible to participate in Suriname Plan I and Suriname Plan II after they have attained age 21 with one year of service.

There are no longer any active participants accruing benefits in the Alcoa Subsidiaries Merged Inactive Plan. Benefits are being provided to retired participants and will be provided to deferred vested participants in accordance with Plan provisions applicable at the time of their termination.

All eligible participants currently accruing benefits in the Plans fully vest after a five-year period.

Benefit Provisions

The benefit provisions for the Alcoa Corp. Salary Plan and the Suriname Plan I determine the retirement benefit on a compensation-based formula.

The Alcoa Corp. Hourly Plan and the Suriname Plan II determine the retirement benefits on a factor times years of service.

Benefit provisions for certain participants of the Alcoa Subsidiaries Merged Inactive Plan determine the retirement benefit on a compensation-based formula while the remaining is based on hypothetical account balances.

Normal retirement for the Alcoa Corp. Salary Plan, the Alcoa Corp. Hourly Plan and the Alcoa Subsidiaries Merged Inactive Plan is age 65 with five years of service.

Normal retirement for the Suriname Plan I is age 60 with 18 months of service or age 55 with 30 years of service.

Normal retirement for the Suriname Plan II is the earlier of the date of (i) age 60, or (ii) the later of the date of age 65 or 18 months of service.

Risks and Uncertainties
The Plans invest in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Individual Plan Net Assets Available for Benefits and Statements of Changes in Individual Plan Net Assets Available for Benefits.

Plans' contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the individual Plans' financial statements.

Termination of Plans
Benefits under the Plans (except for the Suriname Plans, which are not subject to Title IV of ERISA) are insured by the Pension Benefit Guaranty Corporation ("PBGC"). Should the Plans terminate at some future time, the net assets of the Plans generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

A full description of each Plan's termination priorities is available in each Plan document.

2. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plans are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Plans' interest in the Master Trust Investment income includes the Plans' unrealized and realized gains and losses on investments, dividends, interest income, and investment management/trustee fees.

The fair value of the Plans' interest in the Master Trust are based on the beginning-of-year value of the Plans' interest in the Master Trust plus actual contributions and allocated investment income less actual distributions, allocated investment loss, and administrative expenses.

The individual Plans participate in the operations of the Master Trust through the purchase and sale of units. Cash inflows and outflows between the Plans and the Master Trust are accounted for at the beginning-of-the-month unit value. Units are revalued monthly to reflect changes in the investment values. Net investment income and losses are allocated to the Plans that participate in the Master Trust based on each Plan's units held.

Benefit Payments
Benefit payments to participants are recorded when paid.

Administrative Expenses
Trustee, audit, legal, actuarial, recordkeeping, and other administrative expenses are paid by the Plans. Expenses for services provided for the Master Trust are allocated to the Plans ratably. Expenses for services provided directly to a specific plan are attributed only to that plan.

Investment Management Fees
Investment management fees are paid by the Plans and are included in Plans' interest in the Master Trust's Investment income.

Employer Contributions Receivable
Employer contributions receivable represent the remaining funding amounts the Company is required to contribute to meet the minimum contribution levels established by law or as a result of a formal commitment by the Company to make a contribution into the respective Plans.

Funding Policy
The Plans are defined benefit pension plans. No employee contributions to the Plans are required or permitted. The Company contributes such amounts as are necessary on an actuarial basis to provide the individual Plans with assets sufficient to meet the benefits to be paid to current and future retirees or their beneficiaries. The minimum contributions required, if any, for the Plans are designed to fund the Target Normal cost and an amortization installment towards any funding shortfalls. A funding shortfall occurs when there is an excess of Funding Target liability over the Actuarial Value of Plan Assets. The amortization installment is designed to fully fund the funding shortfall in a given year over a 7-year period. The Company may also voluntarily contribute amounts in excess of those minimum required amounts to meet certain funding thresholds or company objectives.

The actuarial determined pension contribution is calculated using the Unit Credit Cost Method. The Funding Target liability is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected expenses to be paid from plan assets during the year.

The Plans have met the minimum funding requirements under the provisions of ERISA in 2020 and 2019.

Investment Policy and Strategy
The Master Trust's investment policy at December 31, 2020 and 2019, by asset category, are as follows:

Asset Category	Policy Range
Equity securities	25-35 %
Fixed income securities	40-65 %
Other investments	10-25 %

The principal objectives underlying the investment of the pension plan assets are to ensure that the Company can properly fund benefit obligations as they become due under a broad range of potential economic and financial scenarios, maximize the long-term investment return with an acceptable level of risk based on such obligations, and broadly diversify investments across and within various asset classes to protect asset values against adverse movements. Investment risk is controlled by rebalancing to target allocations on a periodic basis and ongoing monitoring of investment manager performance.

The portfolio includes an allocation to investments in long-duration government debt, long-duration corporate credit, real estate, high yield bonds, emerging market debt, global-listed infrastructure and public and private market equities. The target asset allocation is approximately 30% in equities, approximately 50% in fixed income, and approximately 20% in other investments.

Investment practices comply with the requirements of applicable laws and regulations in the respective jurisdictions, including ERISA in the United States.

4. Fair Value Measurements

The Financial Accounting Standard Board (FASB) Accounting Standards Codification No. 820, *Fair Value Measurements and Disclosures* (ASC 820), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

Cash and Cash Equivalents
Interest-bearing cash is valued at carrying value which approximates fair value.

Cash and cash equivalents held within commingled funds (institutional short-term investment funds) are fully liquid within 30 days and are valued at the closing Net Asset Value ("NAV") of shares held at year end as a practical expedient.

Cash and cash equivalents held within commingled funds (short-term investment funds) that are publicly traded are valued at the closing price reported on an active market (included in Level 1).

Fixed Income Securities
U.S. government debt is valued at the closing price reported on an active market on the last business day of each period presented (included in Level 1).

U.S. and non-U.S. fixed interest obligations (principally corporate bonds and debentures) are valued through consultation and evaluation with brokers in the institutional market using quoted prices and other observable market data (included in Level 2).

Emerging market debt registered with investments companies is generally valued at the last quoted sale or trade price on the primary market or exchange on which they are traded (included in Level 1). In the absence of such data, emerging market debt would be valued at the closing NAV of shares held at year end as a practical expedient.

Structured credit securities are valued by institutional pricing services using publicly available market quotations (included in Level 1). In the absence of such data, structured credit securities are valued at the closing NAV of shares held at year end as a practical expedient.

Equity Securities – Common Stocks
Valued at the closing price reported on an active market on the last business day of each period presented (included in Level 1).

Equity Securities – Commingled Trust Funds
Valued at the closing NAV of shares held at year end as a practical expedient. These funds are not publicly listed.

Equity Securities – Registered Investment Companies
Valued at the closing NAV of shares held at year end. These funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. They are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded with readily determinable fair values (included in Level 1).

Alternative Investments
Valued primarily at the closing NAV of shares held at year end as a practical expedient as reported in audited financial statements. In the event that audited financial statements for these investments are not available in time to prepare the financial statements or management believes the value reported by the investment advisor does not accurately reflect fair value due to an event in the market place, management will adjust the reported value to fair value based upon information provided by the investment manager and independent valuation experts. The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust assets at fair value as of December 31, 2020:

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy.

The Master Trust uses the NAV as a practical expedient for all of the underlying investments which (a) do not have a readily determinable fair value and (b) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principals of an investment company.

There have been no transfers between levels during the year.

The following table sets forth a summary of liquidity consideration of the investments classified as commingled trust funds and alternative investments.

(A) Redemption not permitted during life of funds. Sale or transfer subject to approval of the general partner.
(B) Hedge Fund Redemption terms vary by fund. Under normal conditions, most funds are available within one year. As of December 31, 2020, the single remaining hedge fund in the Long/Short Equity strategy consists of designated investments that are locked up for an indefinite period.
(C) Redemption terms vary by fund. Redemption notice periods vary by fund and range from 1-30 days.

5. Derivatives

Derivatives Policy

The Master Trust enters into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to (1) manage interest rate risk within the portfolio, (2) manage exposure to a market more efficiently than could be accomplished through the use of cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments. The Master Trust may utilize exchange traded instruments such as interest rate futures and foreign currency forward contracts. The Master Trust is subject to enforceable master netting arrangements, or netting arrangements, with certain counterparties. Master netting agreements may not be specific to each different asset type; in such instances, they would allow the Master Trust to close out and net its total exposure to a specified counter party in the event of a default. The Master Trust's derivative holdings at December 31, 2020 and 2019 and the activity for the year ended December 31, 2020 were not material to the Plans' financial statements.

6. Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments that are attributable, under each Plan's provisions, to employees' service rendered to the benefit information date. Accumulated plan benefits comprise benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The Plans' actuary made this determination.

Based upon actuarial estimates at December 31, 2020, the present value of accumulated plan benefits for the Plans are as follows:

	Actuarial Present Value of Accumulated Plan Benefits at December 31, 2020			
	Vested Benefits of Participants Currently Receiving Benefits	Other Vested Benefits	Nonvested Benefits	Total Present Value of Accumulated Plan Benefits
Alcoa Corp. Salary Plan	$ 1,799,938,782	$ 278,749,285	$ 9,065,308	$ 2,087,753,375

Suriname Plan II	74,376,475	16,321,044	—	90,697,519

Based upon actuarial estimates at December 31, 2019, the present value of accumulated plan benefits for the Plans are as follows:

	Actuarial Present Value of Accumulated Plan Benefits at December 31, 2019			
	Vested Benefits of Participants Currently Receiving Benefits	Other Vested Benefits	Nonvested Benefits	Total Present Value of Accumulated Plan Benefits
Alcoa Corp. Salary Plan	$ 1,703,835,753	$ 325,019,947	$ 12,582,680	$ 2,041,438,380

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company that the Plans and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

The Plans have been amended since receiving the determination letters. However, the Plans' administrator believes that the Plans are currently designed and operating in compliance with the applicable requirements of the IRC. Therefore, the Plans' administrator believes the Plans were qualified and the related trust was tax-exempt as of the financial statements date.

Determination letters received were dated as follows:

Alcoa Corp. Salary Plan	May 8, 2017
Alcoa Corp. Hourly Plan	May 8, 2017
Alcoa Subsidiaries Merged Inactive Plan	December 8, 2016
Suriname Plan I	April 24, 2017
Suriname Plan II	May 4, 2017

U.S. GAAP requires the Plans' management to evaluate tax positions taken by the Plans and recognize a tax liability (or asset) if the organization has taken an uncertain position that would not be sustained upon examination by the IRS. The Plans' administrator has analyzed the tax positions taken by the Plans' and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure to the financial statements. As such, no reserve is required under U.S. GAAP. The Plans are subject to audit by the IRS; however, there are no current IRS audits for any tax periods in progress. The Plans' administrator believes the Plans are no longer subject to IRS audits outside the statutory audit period.

8. Information Certified by the Plans' Trustee

The information included in the Plans' financial statements and Note 3 was prepared by Bank of New York Mellon, the trustee of the Plans, as of December 31, 2020 and 2019 and for the period ended December 31, 2020 and furnished to the Plans' administrator. The Plans' administrator has obtained a certification from the trustee that such information is complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plans' management relies on third party valuation statements in valuing its alternative investments. In substantiating the reasonableness of the valuation information provided, management considers a variety of factors including review of methods and assumptions used by external sources, economic conditions, and market developments.

9. Related Party Transactions

The Plans invest in funds managed by The Bank of New York Mellon. The Bank of New York Mellon is the trustee as defined by the Plans; therefore, these transactions, and expenses paid to The Bank of New York Mellon, qualify as party-in-interest transactions.

The Company makes minimum funding contributions, and at times discretionary contributions, to the Plans; therefore, these transactions qualify as party-in-interest transactions.

10. Plan Specific Activities

In October 2020, the Company offered lump sum buyouts to specific participants in its Alcoa Corp. Salary and Hourly Plans. As a result, the Company paid approximately $33 million from plan assets on December 31, 2020 to approximately 430 participants and was relieved of the corresponding pension obligation.

Alcoa Corp. Salary Plan
On January 17, 2018, the Company announced the freeze of its U.S. defined benefit pension plans for salaried employees. Effective January 1, 2021, benefit accruals for future service and compensation under all the Company's qualified and non-qualified defined benefit pension plans for U.S. salaried employees ceased. In connection with this change, effective January 1, 2021, impacted employees transitioned to defined contribution plans, in which the Company contributes 3% of these participants' eligible earnings on an annual basis. Such contributions are incremental to any employer savings match the employees may receive under existing defined contribution plans. Participants already collecting benefits under the defined benefit pension plan, as well as those currently covered by collective bargaining agreements, were not affected by these changes.

Alcoa Corp. Hourly Plan
As a result of the collective bargaining agreement ratified on September 19, 2019, the Company and the United Steelworkers union agreed to discontinue defined benefit pension accruals for employees hired or rehired on or after January 1, 2020. Instead, the Company will contribute 3% of these employees' eligible earnings on an annual basis to an existing defined contribution plan. Such contributions will be incremental to any employer savings match the employees may receive under the existing defined contribution plan. Participants already accruing or collecting benefits under the defined benefit pension plan are not affected by these changes.

In January 2020, the Company announced the sale of Elemental Environmental Solutions LLC ("EES"), a wholly owned Alcoa subsidiary that operated the waste processing facility in Gum Springs, Arkansas, to a global environmental firm. On the date of the sale, EES employees became ineligible to participate in the Alcoa Corp. Hourly Plan. As a result of the transaction, pension assets of approximately $2 million were transferred from the Alcoa Corp. Hourly Plan to a defined benefit pension plan sponsored by the purchasing firm with respect to the accrued benefits of active EES pension plan participants. The Company was relieved of the corresponding pension obligation.

Suriname Plan I
In November 2019, the Company signed a group annuity contract to transfer assets and related obligations for certain Trinidadian participants in Suriname Plan I. As part of the annuity contract, approximately $3 million in assets were transferred to Sagicor Life Insurance Company. Sagicor assumed benefit payments for approximately 70 participants. Those payments began in January of 2020; participants did not see any change in the amount of their benefits.

In February 2020, participants of Suriname Plan I were notified by the Company that benefit accruals for future service and compensation ceased effective January 1, 2021. In connection with this change, effective December 31, 2020, impacted employees transitioned to a defined contribution plan, in which the Company contributes 10% of these participants' eligible earnings on an annual basis. Such contributions are incremental to any employer savings match the employees may receive under existing defined contributions plans. Participants already collecting benefits under Suriname Plan I were not affected by these changes.

Suriname Plan II
On December 31, 2019, the Afobaka hydroelectric dam in Suriname was transferred to the Government of the Republic of Suriname. In connection with the transfer, effective December 31, 2019, benefit accruals for future service and compensation under Suriname Plan II ceased. Participants already collecting benefits were not affected by these changes.

11. Commitments and Contingencies

The Master Trust has capital commitments of $13,813,960 and $14,064,592 at December 31, 2020 and 2019, respectively, in relation to additional funding for Limited Partnerships in which it invests.

12. Subsequent Events

Management has evaluated the events and transactions that have occurred through September 28, 2021, the date the financial statements were available to be issued, and noted no items requiring adjustment of the financial statements or additional disclosures, other than that which is described below.

On January 4, January 15, and April 1, 2021, the Company made cash contributions of $4,577,581, $50,703,922, and $500,000,000, respectively, to its Plans and were applied to the 2020 plan year. These employer contributions are reflected as receivable on the Statements of Individual Plan Net Assets Available for Benefits and as employer contributions on the Statements of Changes in Individual Plan Net Assets Available for Benefits.

Effective March 31, 2021, the Company sold its interest in Alcoa Warrick LLC to Kaiser Aluminum Corporation. On the date of the sale, Alcoa Warrick LLC employees became ineligible to participate in the Alcoa Corp Salary and Hourly Plans. The Company paid approximately $33M in lump sum distributions during April through July 2021 from the Alcoa Corp Salary Plan assets to approximately 60 former salaried participants and was relieved of the corresponding pension obligation.

As a result of improving funded status, management implemented a change in asset allocation in accordance with a de-risking glidepath. The target asset allocation strategy adjusted to approximately 20% in equities, approximately 70% in fixed income, and approximately 10% in other investments. The new asset allocation strategy was substantially implemented by the end of the second quarter 2021.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
