Note 1 - Plan Description

General

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan provisions.

The Plan was established as a defined contribution plan on May 15, 2012 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and Section 401 (k) of the Internal Revenue Code of 1986 (IRC). Substantially all employees of the company are eligible to participate in the Plan subject to the eligibility criteria discussed below.

Funding

The Plan is a defined contribution plan wherein participants elect to reduce their compensation and have such reductions contributed to the Plan on their behalf. Participants direct their investments in numerous investment options managed by ADP Retirement Services.

Participants may contribute a total of 1% to 86% of their base salary through payroll deductions to the maximum amount permitted under applicable Internal Revenue Service Provisions. Participants can split their contributions between their pre-tax and/or after-tax accounts. Participants who are age 50 or older may make a "catch-up" contribution in excess of Internal Revenue Code or plan limits.

Allocation

Each participant's account is credited with the participant's contribution and the Organization's non-discretionary matching contributions. Investment income or loss is allocated daily based on the ratio of each participant's account balance at the end of each day. Any discretionary or profit-sharing contribution is made annually to participants employed on the last day of the Plan year.

Eligibility and Contributions

Employees are eligible to participate in the Plan after reaching 21 years of age and providing 3 months of service to the Company.

There may be special requirements for participants to be eligible for company matching contributions.

Rollover contributions to the plan are allowed.

Vesting

Contributions, any amounts rolled into the plan, and company contributions are adjusted for gains and losses, and are 100% vested.

If an eligible employee is entitled to receive a supplemental contribution, the contribution amount will be based on years of service from the most recent date of hire as follows:

Years of Service	Vested Interest
1	20%
2	40%
3	60%
4	80%
5+	100%

Loans
Active participants may borrow from their savings with a maximum repayment period of five years, unless for the purchase of a primary residence, with interest rate Prime +2%. Fees may be applied.

Termination
Although the Organization has not expressed any intent to do so, management may terminate the Plan at any time. Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or one of various installment payments available under the Plan. In addition, upon termination of the Plan, participant's vested interested in employer contributions shall be 100%.

Payment of Benefits
Upon retirement, death, disability, or termination of service benefits are payable to the participant.

Administrative Expenses
Fees and expenses of the Plan for legal, accounting, and other administrative services may be paid directly by the Company, or, at the Company's discretion, may be paid in whole or in part from Plan assets.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
This summary of significant accounting policies of the Plan is presented to assist in understanding the financial statements. The financial statements and notes are representations of the Plan's administrator, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America (GAAP) and have been consistently applied in the preparation of the financial statements.

Estimates
The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amount reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investments Valuation and Income Recognition
Investment contracts held by a defined contribution plan are required to be reported at fair value. Fair value of a financial instrument is the price that would be received to sell and asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Note 3 - Income Tax Status

The Plan received a letter dated July 8, 2008 from the IRS identifying the Plan as acceptable under section 401 of the IRC. In the opinion of the plan administrator, the plan is currently being operated in accordance with the Plan agreement and in conformity with the applicable provisions of the IRC and therefore exempt from federal income taxes. Therefore, no provisions for income taxes has been included in the Plan's financial statements.

GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability or asset if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 4 - Information Certified by Trustee

The following is a summary of the unaudited information regarding the Plan, as included in the Plan's financial statements schedule prepared by or derived from information reported by the trustee of the Plan for 2020 and 2019. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate at December 31, 2020 as follows:

Note 6 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable input (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Unadjusted quoted prices available in active markets for identical investments as of reporting date.

Level 2: Observable inputs to the valuation methodology are other than Level 1 inputs, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3: Inputs to the valuation methodology are unobservable inputs in situation where there is little or no market activity for the asset or liability, and the reporting entity makes estimates and assumptions related to the proving of the asset or liability including assumptions regarding risk.

Note 6 - Fair Value Measurements (continued)

The tables below present the balances of investments measured at fair value on a recurring basis by hierarchy level:

	12/31/2020			
	Level 1	Level 2	Level 3	Total
Investment at Fair Value				
Income	$ 1,863,324	$ -	$ -	$ 1,863,324

Total Investments	$ 6,650,180	-	-	$ 6,650,180

Note 7 - Party-In-Interest

No transactions qualify as party-in-interest transactions; however, they would be exempt from the ERISA prohibited transaction rules.

Note 8 - Subsequent Events

Subsequent events have been evaluated for recognition in the December 31, 2020 and 2019 financial statements through September 13, 2021 the date on which the financial statements were available to be issued.
