1. Plan Description

The following description of Fireside Contracting Services, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. The Plan's most recent restatement was effective January 1, 2020.

General

The Plan is a 401(k) defined-contribution plan which was adopted January 1, 2006. The Plan covers substantially all employees (except union employees) of Fireside Contracting Services, LLC dba Fireside Home Solutions (the Employer) who have completed six months of service. Eligible participants may enter the Plan the first day of each month upon the fulfillment of these requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator oversees the governance of the Plan.

Contributions

Each year, participants may contribute a portion of their compensation up to the limits provided by the Internal Revenue Code (IRC). Participants may elect their deferrals to be treated as pre-tax or after-tax (Roth). Individuals who attain age 50 by the end of the Plan year are eligible to make additional "catch-up" contributions. Participants may also contribute amounts representing rollover distributions from other qualified retirement plans. All participant contributions shall be fully vested at all times.

The Plan does allow the Employer to make a discretionary profit sharing contribution. There were no Employer discretionary profit sharing contributions for the years ended December 31, 2020 and 2019.

The Plan was amended to adopt a safe harbor provision effective January 1, 2020. The Employer safe harbor contribution is 3 percent of eligible compensation plus 50 percent matching on any additional deferrals above 3 percent up to 5 percent of eligible compensation.

The Plan's investments are held in a trust fund administered by Equitable Financial Life Insurance Company (formerly AXA Equitable Life Insurance Company), the custodian of the Plan. Upon enrollment in the Plan, a participant may direct employee contributions in any investment option provided by the Plan. Descriptions of the individual investment options are available from the Plan Administrator. Participants may change investment options at any time.

Participant Accounts

The account of each participant is credited with the participant's contribution and allocation of (a) the Employer's contribution and (b) Plan earnings. Each participant's account is charged with any fees or expenses related to individual investment options. Allocations of Plan earnings (losses) are based on individual participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

1. Plan Description, continued

Payments of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or direct rollover to an eligible retirement plan. On termination of service other than due to death, disability, or retirement, a participant may elect a lump-sum distribution or direct rollover to an eligible retirement plan. In-service distributions are allowed if the participant has reached 59½ years old.

The Plan provides for hardship withdrawals in the event of an immediate and heavy financial need in an amount not to exceed the lesser of the participant's elective deferrals, or the amount of the financial need. In the event of a hardship withdrawal, participant contributions will be automatically suspended and the participant will be ineligible to resume such contributions for six months following the date of distribution.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 and a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from one to five years, unless the loan is used to purchase a principal residence, in which case the loan must be repaid within a reasonable period of time not to exceed 10 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll dedications.

Vesting

Participants are immediately vested in their contributions and rollovers as well as Employer contributions and earnings thereon.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 9 for a discussion of fair value measurements.

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition, continued

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Net change in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investment in unallocated insurance contracts, which are not fully benefit-responsive, are reported at fair value.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded in the financial statements when paid.

Administrative Expenses

Certain administrative expenses of the Plan are paid by Plan assets or may be paid by the Employer. Plan expenses paid by the Employer are excluded from these financial statements. Investment related expenses are included in net change in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Excess Contributions

At December 31, 2019, a liability of $82,379 was recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the IRS. This amount is included in total excess contribution payable on the accompanying statements of net assets available for benefits. The excess contributions were distributed during the 2020 Plan year.

3. Information Certified by the Plan Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the custodian, Equitable Financial Life Insurance Company, as of and for the years ended December 31, 2020 and 2019, except for comparing such information with information included in the Plan's financial statements and supplemental schedule:

3. Information Certified by the Plan Custodian, continued

	2020	2019
Investments, at fair value:		
Pooled separate accounts	$ 3,272,285	$ 2,853,177
Unallocated insurance contracts	242,471	269,147
Notes receivable from participants	77,043	42,019
Net change in fair value of investments	292,667	559,050
Interest income	5,014	4,617
Interest income on notes receivable from participants	5,719	2,244

4. Party in Interest Transactions

Certain Plan investment options are funds managed by Equitable Financial Life Insurance Company, the custodian of the Plan. These transactions qualify as exempt party in interest transactions. Total fees paid by the Plan to Equitable Financial Life Insurance Company for the years ended December 31, 2020 and 2019 totaled $18,989 and $20,503, respectively. These party in interest transactions are exempt from the prohibited transaction rules of ERISA.

5. Plan Termination

Although the Employer has not expressed any intent to discontinue its contributions and terminate the Plan Agreement, it may do so at any time subject to the provisions set forth in ERISA.

6. Tax Status

The Employer has adopted a Volume Submitter Profit Sharing Plan with AXA Equitable Life Insurance Company, the sponsor of the Volume Submitter plan, and it has received an opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the Plan was designed in accordance with applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and tax counsel believe the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities.

In December 2017, the Plan Administrator was informed by the Internal Revenue Service (IRS) that the Plan, for the year ended December 31, 2015, had been selected for a document review and examination. The Plan Administrator believes the examination to be a random selection. During 2018, the IRS expanded their examination to also include the years ended December 31, 2014 and 2016. During their examination, it was determined the Plan failed the Average Deferral Percentage (ADP) test for all three years and the Employer is required to make a qualified non-elective contribution (QNEC).

6. Tax Status, continued

The Plan Administrator reached a settlement agreement with the IRS in January 2020 and funded required QNEC contributions of $24,237 and $59,336 for 2014 and 2015 Plan years, respectively. The Employer receivable on the statement of net assets available for benefits as of December 31, 2019 totaled $83,573 for the accrued QNEC contribution. These amounts were corrected on January 30, 2020.

7. Insurance Contracts

The Plan's unallocated insurance contract represents a contract with Equitable Financial Life Insurance Company and is valued at fair value, which approximates contract value. The insurance contract does not provide for a defined maturity date; however, it provides for a minimum guaranteed interest rate. The actual rate of interest credited during the time over which funds are invested is declared periodically and therefore is subject to change. The average interest rate for the contract was approximately 1.5 percent and 1.75 percent for the years ended December 31, 2020 and 2019, respectively.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

For the Plan year ended December 31, 2020, the COVID-19 coronavirus pandemic has resulted in significant economic uncertainties. As of the date of the independent auditor's report, there has not been a significant impact to the Employer or the Plan as a result of this health crisis. The Plan has continued to fully fund all employee and required Employer contributions and participant access to accounts has not been disrupted. However, there still exists certain economic uncertainties related to the pandemic, and the full extent of the economic impact on the Employer and the Plan cannot be reasonably estimated at this time.

9. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

9. Fair Value Measurements, continued

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts: Recorded at fair value based on the stated net asset value (NAV) of the separate account, which is used as a practical expedient to estimate fair value. Participant transactions may occur daily at NAV. Pursuant to Accounting Standards Update (ASU) 2015-07, *Fair Value Measurements*, the pooled separate accounts measured at NAV have not been classified in the fair value hierarchy. All pooled separate account investments held by the Plan have no unfunded commitments, and the investments may be redeemed by participants on a daily basis with no required notice period.

Insurance contracts: Contracts held by the Plan are not considered fully benefit-responsive at the Plan level and are stated at fair value, which materially approximates contract value. Contract value is increased by contributions and earnings on the contracts, and reduced by participant withdrawals and administrative expenses. Fair value is assessed based on analysis of interest rates, maturities, discounted cash flows, and other observable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Investments at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Unallocated insurance contracts	$ -	$ 242,471	$ -	$ 242,471
Investments measured at NAV practical expedient:				
Pooled separate accounts				3,272,285
Total investments, at fair value				$ 3,514,756

9. Fair Value Measurements, continued

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Unallocated insurance contracts	$ -	$ 269,147	$ -	$ 269,147
Investments measured at NAV practical expedient:				
Pooled separate accounts				2,853,177
Total investments, at fair value				$ 3,122,324

10. Subsequent Events

Management evaluates events and transactions that occur after the statement of net assets available for benefits date as potential subsequent events. Management has performed this evaluation through the date of the independent auditor's report.
