(Wells Fargo) functions as trustee and investment manager. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

On May 25, 2021, Principal Financial Services, Inc. (Principal) closed the acquisition of Wells Fargo Institutional Retirement & Trust's (IRT) business unit. The transition, transfer, and conversion of IRT's business operations, employees, and clients will occur over 12-24 months subsequent to the transaction. During the transition period, Wells Fargo Bank, N.A. will continue to operate and service the IRT business for the benefit of Principal, including providing record-keeping, trustee, and/or custody services.

Contributions

Participants may make before-tax contributions up to 100 percent of their annual eligible compensation, not to exceed $19,500, as limited by the IRS, which is adjusted annually by the secretary of the Treasury for inflation. This maximum percentage may be reduced by the plan administrator in certain circumstances. Participants who are 50 years of age or will reach the age of 50 by the end of the calendar year may make additional catch-up contributions up to $6,500 during the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions.

Certain participant contributions in 2019 and 2020 were paid after the time frame required by the Department of Labor. The Company remitted these contributions during 2020 and remitted related lost earnings to the Plan in 2020.

The Plan provides for a discretionary matching contribution equal to a uniform percentage or dollar amount of elective deferrals each plan year. Each year, the Plan will determine the formula for the discretionary matching contribution. For January to February 2020, the formula for the discretionary matching contribution was 33 percent of elective deferrals up to 3 percent of the employee's compensation. Discretionary matching contributions were funded on a per payroll basis. In March 2020, the discretionary employer match was suspended through June 2021.

Employees are eligible to defer on an after-tax basis through payroll deductions up to 100 percent of annual eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax free. A participant's combined pretax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Note 1 - Plan Description (Continued)

Vesting

Participants are 100 percent vested in their voluntary contributions and rollover contributions and any allocated earnings or losses thereon.

Any discretionary employer contributions and the earnings and losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vesting Percentage
Less than 1	- %
1	20 %
2	40
3	60
4	80
5	100

Participant Loans

Participants are not permitted to take loans from the Plan.

Benefit Payments

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum, partial payment, or installment payments in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. The Plan allows in-plan Roth conversions. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Company.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. At December 31, 2020 and 2019, forfeited account balances totaled $155 and $165, respectively.

The Plan used approximately $33,399 for the year ended December 31, 2020 to reduce administrative fees.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Wells Fargo or its affiliates. Wells Fargo is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common/collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. All other investments are valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Additionally, some investments held by Wells Fargo are invested in the securities of foreign companies, which involves special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practice, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the year ended December 31, 2020, three investments accounted for 39 percent of investment income. At December 31, 2020 and 2019, four investments accounted for 51 and 52 percent, respectively, of total investments at fair value.

Administrative Expenses

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 24, 2021, which is the date the financial statements were available to be issued.

On May 25, 2021, the Company transitioned this plan from IRT as trustee to Principal as trustee to the Plan. On that date, Principal assumed responsibility to manage plan assets and maintain the Plan's records. This transition was the result of the 2019 sale of certain divisions of Wells Fargo to Principal.

Note 3 - Assets Certified by the Trustee

Wells Fargo has certified in writing to the plan administrator that the stated amounts for investments at fair value as of December 31, 2020 and 2019 and the income earned or losses incurred thereon for the year ended December 31, 2020, as reflected in the accompanying financial statements and the supplemental schedule of assets held at end of year, are complete and accurate.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2020 and 2019:

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.
