Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Participants and Plan Administrator
of the Luvata Ohio, Inc. Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Luvata Ohio, Inc., Retirement Plan (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2019, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by PNC Bank, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2020 and 2019 that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held (at end of year) and reportable transactions as of or for the year ended December 31, 2020 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Plan
Notes to Financial Statements
December 31, 2020 and 2019

1. Description of the Plan

The following brief description of the Luvata Ohio, Inc. Retirement Plan (the "Plan") is provided for general information purposes only. For more complete information, participants should refer to the plan document.

General – The Plan was established effective January 1, 1973 and is sponsored by Luvata Ohio, Inc. (the "Company"). The Plan is a noncontributory defined benefit pension plan and covers substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility – Employees over the age of 20 become eligible to participate in the Plan on the date on which they complete six months of service.

Pension Benefits – Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65). The Plan permits early retirement at ages 60 to 64 if the employee has completed at least 10 years of service. If an employee terminates before rendering five years of service or reaching age 65, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Employees may elect to receive the value of their accumulated plan benefits as a life annuity, a joint and survivor annuity, a life annuity with 60 or 120 guaranteed payments, a life annuity with a contingent annuitant benefit payable monthly at retirement, or a lump-sum payment provided the present value of the accrued benefit is less than \$5,000.

Death and Disability Benefits – If an active employee dies after becoming vested, but prior to retirement, a death benefit equal to 50% of the participant's accrued benefit is payable to the surviving spouse. Active employees who become totally disabled are eligible for disability benefits. The amount of their disability benefit is their accrued benefit, actuarially reduced to reflect payments prior to normal retirement.

Income Taxes – The Plan has received a determination letter from the Internal Revenue Service dated December 18, 2017 stating that the Plan is qualified under the applicable Sections of the Internal Revenue Code. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in accordance with the Internal Revenue Code. Accordingly, no provision has been recorded for income taxes.

Luvata Ohio, Inc.
Retirement Plan
Notes to Financial Statements (continued)
December 31, 2020 and 2019

1. Description of the Plan (continued)

Income Taxes (continued) – Accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Plan Termination – Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

Should the Plan terminate at some future time, its net assets may not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all. Participants should refer to the plan document for further discussion on the priority of participant claims.

2. Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. GAAP.

Cash and Cash Equivalents – The Plan considers all liquid investments with original maturities of three months or less to be cash equivalents.

Valuation of Investments – Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Investment Income – Net appreciation or depreciation in the fair value of investments includes both realized gains and losses and unrealized appreciation and depreciation on the fair value of investments. Interest and dividend income are recognized as earned. Investment transactions are accounted for on the trade date.

Luvata Ohio, Inc.
Retirement Plan
Notes to Financial Statements (continued)
December 31, 2020 and 2019

2. Significant Accounting Policies (continued)

Benefit Payments – Benefits are recorded when paid.

Expenses – In 2020 and 2019, the necessary expenses to administer the Plan were paid by the Company. Investment related expenses are included in net appreciation or depreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits. These transactions are allowable party-in-interest transactions.

Management Estimates – The preparation of financial statements in accordance with U.S. GAAP requires plan management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits, changes therein, disclosure of contingent net assets and the actuarial present value of accumulated plan benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term could have a material impact to the accompanying financial statements.

The COVID-19 outbreak continues as of the date of this report. There are economic uncertainties related to the COVID-19 global pandemic that could negatively affect the Plan's financial statements. The Plan's individual investments fluctuate in response to changing market conditions, therefore the effect of the COVID-19 pandemic on its investment values in subsequent periods, if any, cannot be determined.

Actuarial Present Value of Accumulated Plan Benefits – The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrement such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

2. Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits (continued) –

The following actuarial cost method and significant actuarial assumptions were used in the valuation as of December 31, 2019.

Actuarial Cost Method – Traditional unit credit cost method was used for purposes of the valuation. Projected unit credit cost method was used for purposes of developing the maximum contribution and the at-risk liabilities, if applicable.

Mortality – Static mortality table described in IRS Section 1.430(h)(3)-1 and IRS Notice 2019-26 for plan years beginning in 2020 for Pension Protection Act (“PPA”) funding. PRI-2012 Healthy Annuitant tables projected generationally based on scale MP-2019 with separate rates for males and females for Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 960 accounting. In the prior valuation, RP-2014 Healthy Annuitant tables projected generationally based on scale MP-2018 for FASB ASC 960 accounting with separate tables for males and females were used.

Retirement Age – The following retirement rate assumptions were used:

<u>Age</u>	<u>Rate</u>
60	10%
61	10%
62	20%
63	20%
64	20%
65+	100%

Disability – None assumed.

Discount Rates – The discount rate assumptions utilize the Moving Ahead for Progress in the 21st Century Act (“MAP-21”), as modified by the Highway and Transportation Funding Act (“HATFA”) alternative basis for interest rates to value pension liabilities for minimum contribution purposes. The Plan’s effective rate, based upon the segment rates, is 5.46%. The interest rate assumption is 7.0% for FASB ASC 960 accounting purposes.

Expected Rate of Return on Plan Assets – The expected return assumption is the applicable third segment rate as detailed in Internal Revenue Bulletin Notice 2009-22 and was 5.94%.

2. Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits (continued) –

Expenses – None assumed.

Asset Valuation Method – The actuarial value of the assets is determined by using the average fair market value of the Plan’s assets at the valuation date over a 24-month period adjusted for contributions, distributions, expected earnings and includes discounted contributions receivable. The asset value determined under this method is adjusted to be no greater than 110% and no less than 90% of the fair market value of assets.

Funding Policy – The Company’s funding policy is to make annual contributions to the Plan in amounts sufficient to ensure participant benefits will be fully provided for by the time they retire. The Company’s contributions for 2020 and 2019 met the minimum funding requirements of ERISA.

Subsequent Events – The Plan has evaluated subsequent events through September 21, 2021, the date the financial statements were available to be issued and has identified no subsequent events for recognition or disclosure.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Retirement Plan
Notes to Financial Statements (continued)
December 31, 2020 and 2019

3. Fair Value Measurements (continued)

Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly such as:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs that are unobservable for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2020 and 2019.

The Plan's investments are stated at fair value, based on the following methodology.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Accordingly, these investments have been included in Level 1 of the fair value hierarchy.

Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020.

5. Recent Accounting Pronouncements

In August 2018, the FASB issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820), Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which removes or modifies disclosure requirements on fair value measurements. The guidance is effective for fiscal years beginning after December 15, 2019. The provisions of this updated standard were adopted by the Plan and did not have a material impact on the Plan's financial statement disclosures.

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

Actuarial Cost Methods:

Traditional Unit Credit

The actuarial cost method used in the valuation was the traditional unit credit cost method.

The normal cost is the sum of all the individual normal costs for each participant. For active participants, the individual normal cost is the present value of the benefit earned during the year being valued. The normal cost is zero for active participants whose credited service equals or exceeds the plan maximum, and for non-active participants.

The actuarial accrued liability is the sum of the individual accrued liabilities for all participants. The individual accrued liability for an active participant is the present value of the accrued benefit as of the valuation date. For non-active participants, the individual accrued liability is the present value at the current age of future benefits. The unfunded liability is the actuarial accrued liability less the valuation assets.

The total annual cost of the plan is the normal cost plus an amount to amortize the shortfall amount.

The mortality table assumption is based upon the RP-2000 Mortality Table for males and females and is projected with mortality improvements by scale AA seven years beyond the valuation date for annuitants and fifteen years beyond the valuation date for non-annuitants. Plans with less than 500 participants can use an optional combined table which is the table incorporated in this report. An additional year of mortality improvements is reflected in the mortality assumptions.

Projected Unit Credit

The actuarial cost method used in the development of the maximum contribution and the at-risk liabilities, if applicable, was projected unit credit cost method.

Under this method, the normal cost is the sum of the individual normal costs for all participants. For an active participant, the individual normal cost is the present value at the current age of the projected benefit at the assumed retirement age, based on the actuarial assumptions, divided by the participant's expected years of credited service at that age. For a non-active participant, the normal cost is zero.

The actuarial accrued liability is the sum of the individual accrued liabilities for all plan participants. For an active participant, the individual accrued liability is the product of the normal cost and the total years of credited service at the current age. For non-active participants, the individual accrued liability is the present value at the current age of future benefits. The unfunded actuarial accrued liability equals the actuarial accrued liability less the valuation assets.

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods (continued)

Asset Valuation Method:

The actuarial value of the assets is determined by using the average value of the fair market value of the plan's assets at the valuation date over a 24 month period adjusted for contributions, distributions, expected earnings, and includes discounted contributions receivable. The asset value determined under this method is adjusted to be no greater than 110% and no less than 90% of the fair market value of assets.

Participants included in valuation:

All employees who are eligible to participate as of the valuation date, plus retirees, beneficiaries and terminated participants entitled to current or future benefits.

Discount Rates: HATFA basis Interest rate basis for the 2020 valuation is 3.64% / 5.21% / 5.94%. The Plan's effective rate, based on the segment rates, is 5.46% for 2020.

Expected Rate of Return on Plan Assets: The expected rate of return on plan assets is the applicable 3rd segment rate each year as detailed in Notice 2009-22 (5.94% for 2020).

Mortality: Static mortality table described in IRS Section 1.430(h)(3)-1 and IRS Notice 2019-26 for plan years beginning in 2020.

Schedule SB, Part V – Summary of Plan Provisions

Eligibility

All regular, full-time employees are eligible on the January 1 following six months of continuous employment and attainment of age 20.

Benefit Service

Credited service prior to January 1, 1976 is granted in accordance with the provisions of the prior plan. Credited service after January 1, 1976, for employees hired before January 1, 1985, is granted for the years and months of employment. For employees hired on or after January 1, 1985, credited service is granted for the years and months of service as an active participant.

Final average compensation

Monthly average of highest five consecutive calendar years of the last ten calendar years prior to date of retirement or termination.

Normal Retirement

Eligibility

Age 65 with 5 years of service

Amount of Benefit

The accrued benefit at time of normal retirement is: (0.95% of final average salary + 0.75% of the excess of final average salary over covered compensation) multiplied by credited service at normal retirement to a maximum of 25 years.

If the participant's year of birth is between 1938 and 1954, the 0.95% in the above formula is changed to 1.0% and the 0.75% is changed to 0.70%.

If the participant's year of birth is after 1954, the 0.95% in the above formula is changed to 1.05% and the 0.75% is changed to 0.65%.

For employees who were participants on or before December 31, 1985, the normal retirement benefit is the greater of the above benefit and (0.75% of the final average salary multiplied by credited service at normal retirement to a maximum of 40 years) + (0.65% of the excess of final average salary over covered compensation multiplied by credited service at normal retirement to a maximum of 35 years of service).

If a participant's year of birth is between 1938 and 1954, the 0.75% in the above formula is changed to 0.80% and the 0.65% is changed to 0.60%. If a participant's year of birth is after 1954, the 0.75% in the above formula is changed to 0.85% and the 0.65% is changed to 0.55%.

Normal retirement benefit will be no less than 0.75% of the final average salary multiplied by credited service earned after December 31, 1993.

Schedule SB, Part V – Summary of Plan Provisions (Continued)

Early Retirement

Eligibility

Age 60 with 10 years of service.

Amount of Benefit

The accrued benefit, reduced 1/180 for each month that early retirement date precedes the normal retirement date.

Deferred Vested Benefit

Eligibility

Five years of service

Amount of Benefit

A monthly retirement income commencing at normal retirement date equal to the accrued retirement income.

Disability Benefit

Eligibility

Total and permanent disability prior to age 65 and receiving disability benefits under the Federal Social Security Act from date of disability to age 65.

Amount of Benefit

For participants eligible for long-term disability payments, a normal retirement benefit starting at normal retirement date assuming credited service to that date and further assuming that compensation remains at the level of the calendar year prior to disability.

Pre-retirement Death Benefit

A married vested participant who dies shall be eligible for a death benefit. The amount of the death benefit shall be the monthly pension due to the spouse had the joint and 50% survivor option been elected immediately before the death of the participant.

Normal Form of Payment

A monthly pension payable for life. For married participants the benefit is paid in an actuarially equivalent Joint and 50% Survivor form, unless otherwise elected.

Schedule SB, Part V – Summary of Plan Provisions (Continued)

Optional Forms of Payment

In lieu of the pension otherwise payable under the normal form, a participant may elect to receive a reduced pension in the form of a life annuity with 60 or 120 payments guaranteed or a life annuity with a contingent annuitant benefit of 50%, 66-2/3%, 75%, or 100% of the benefit amount payable upon the participant's death, or a lump sum distribution if the value is less than \$5,000. In December, 2014 the lump sum threshold was temporarily raised to \$100,000.

Assumptions for Optional Forms of Payment

Optional forms of payment are actuarially equivalent to the normal form of payment for single participants, i.e. the life annuity. The conversion factors are based on the RP-2000 Combined Active/Retiree Healthy Mortality Table for Males Blended 75% Blue Collar and Projected to Year 2015, and an interest rate of 7.0%.

The lump sum value is calculated using the IRS 2020 Lump Sum Mortality Table and the 417(e) segment rates published for October, 2019 (2.01% / 3.06% / 3.65%).

Accrued retirement benefit

The participant's normal retirement pension based on service-to-date, and final average compensation determined at the date of termination.
