Report of Independent Auditors

To the Plan Participants and the Plan Administrator of the
AMETEK, Inc. Selected Defined Benefit Pension Plans

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of each of the AMETEK, Inc. Selected Defined Benefit Pension Plans, which comprise the statements of net assets available for benefits, listed on pages 3 and 4, as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits, listed on pages 5 and 6, for the years then ended, and the statements of accumulated plan benefits, listed on page 7, as of December 31, 2019, and the related statements of changes in accumulated plan benefits, listed on page 8, for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2020 and 2019, and for the years ended December 31, 2020 and 2019, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of nonexempt transactions as of December 31, 2020 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Plan Amendments

Effective September 1, 2022, the Chemical Products (Nesquehoning) Plan was amended to close the Plan to new employees and to freeze benefit accruals.

In April 2020, the Company sold its Chemical Products (Wapakoneta) facility and all participants were terminated. Effective June 1, 2020, the Chemical Products (Wapakoneta, Ohio Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan was amended to close the Plan and freeze benefit accruals.

Plan Termination

Should the Plans terminate at some future time, their net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing net assets and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Allocation of the Master Retirement Trust

At December 31, 2020 and 2019, the assets of the Plans were held by The Bank of New York Mellon/BNY Mellon, N.A. ("Trustee") as Trustee of the Trust.

Assets attributable to the individual plans participating in the Trust are equitable shares, which are based on each plan's proportionate share of total net assets of the Trust as of the end of each month, excluding unpaid contributions. Contributions received, benefits paid and direct administrative expenses are accounted for as direct cash flows designated to the individual plans during the period. The Trustee allocates earned income, realized and unrealized gains and losses, and Trust expenses to individual plans based on each plan's pro rata share of the fair value of the Trust's net assets at the end of the reporting period.

Investment Valuation and Income Recognition

The Plans' investments are stated at fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. See Note 6 for further discussion and disclosures related to fair value measurements.

Portfolio managers of the Trust may enter into certain types of futures and option contracts in order to enhance liquidity or protect the total return of the Trust's portfolio from market volatility. Realized and unrealized gains and losses from these contracts are included in investment income.

Purchases and sales of securities are reflected on the trade dates. Gains and losses on sales of securities are based on the average cost of securities. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. Net appreciation includes the Plans' realized and unrealized gains and losses as well as investments held at year-end.

Actuarial Plan Benefits Valuation

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

AMETEK, Inc.
Selected Defined Benefit Pension Plans
Notes to Financial Statements
December 31, 2020 and 2019

The actuarial present value of accumulated plan benefits under the Plans was calculated by the consulting actuaries, based on the latest available data as of December 31, 2019. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Administrative Expenses

Specific expenses incurred by the Plans are reported on the statements of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the Trust are allocated to the Plans and are reflected in the change in value of plan interest in net assets of the Trust.

Payments of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates and assumptions.

Risks and Uncertainties

The Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

In March 2020, the World Health Organization classified the COVID-19 outbreak as a pandemic. As a result, global financial markets have experienced, and may continue to experience, significant volatility resulting from the spread of COVID-19. The impact of the COVID-19 pandemic on the fair value of investment securities continues to evolve rapidly and its future effects on the Plans' net assets available for benefits remains uncertain.

3. Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board ("FASB") issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 modifies certain disclosure requirements on fair value measurements in Topic 820. The Plans adopted ASU 2018-13 prospectively, effective January 1, 2020 and the adoption did not have an impact on the Plans' financial statements.

4. Accumulated Plan Benefits

Significant assumptions underlying the actuarial valuation at December 31, 2019 are as follows:

Assumed Rate of Return on Investments 7.00% at December 31, 2019, compounded annually, net of investment expenses. 7.50% at December 31, 2018, compounded annually, net of investment expenses.

Mortality Basis At December 31, 2019, mortality reflects the Pri-2012 gender-specific mortality table with generational projection using Scale MP-2020, no collar (Retirement Plan) and blue collar (all other plans) adjustments. At December 31, 2018, mortality reflects the Pri-2012 gender-specific mortality table with generational projections using Scale MP-2019, no collar (Retirement Plan) and blue collar (all other plans) adjustments.

Retirement Rates Assumed retirement at ages ranging from 62 to 65.

These actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Investment and Master Trust Information

All investment information disclosed in the accompanying financial statements including plan interest in the Trust at December 31, 2020 and 2019 and change in value of plan interest in net assets of the Trust for the years ended December 31, 2020 and 2019, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

6. Fair Value Measurements

The Plans utilize a valuation hierarchy for disclosure of the inputs to the valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Plans' own assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Level 1 investments are unadjusted, observable inputs from active markets. Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. Registered investment companies are valued at quoted market prices which represent the net asset values of shares held by the Trust at year-end.

Level 2 investments are equity funds and fixed income funds that are valued by the vendor using observable market inputs. Fixed income securities such as certain government, municipal, and corporate obligations are primarily measured using a

AMETEK, Inc.
Selected Defined Benefit Pension Plans
Notes to Financial Statements
December 31, 2020 and 2019

market approach pricing methodology, where observable prices are obtained by market transactions involving identical or comparable securities of issuers with similar credit ratings. Corporate obligations are all investment grade quality.

Alternative investments are considered level 3 investments as their values are determined by the sponsor using unobservable market data. The Plans' investment policy, developed by the Pension Investment Committee, limits the amount the Plans may invest in investments that are difficult to value. As of December 31, 2020 and 2019, the Plans hold no alternative investments.

Common collective trusts, which include temporary cash investments, are valued based on the Trust's unit of ownership and net asset value of the investment entity's underlying investments. These investments have no unfunded commitments and no limits as to the frequency of redemptions. However, the investments have various redemption terms and notice periods.

A summary of the fair value of plan assets at December 31, 2020 and 2019 was as follows (in thousands):

(a) - In accordance with subtopic 820-10, common collective trusts are measured at net asset value practical expedient and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the accompanying statements of net assets available for benefits.

The objectives of the Plans' investment strategies are to maximize the Plans' funded status and minimize Company contributions and plan expenses. Because the goal is to optimize returns over the long-term, an investment policy that favors equity holdings has been established. Since there may be periods of time where both equity and fixed-income markets provide poor returns, allocations to alternative assets may be made to improve the overall portfolio's diversification and return potential.

Notes to Financial Statements
December 31, 2020 and 2019

The Pension Investment Committee periodically reviews the Trust's asset allocation, taking into consideration plan liabilities, plan benefit payment streams and the investment strategy of the pension plans. The actual asset allocation is monitored frequently relative to the established targets and ranges and is re-balanced when necessary.

The equity portfolio is diversified by market capitalization and style. The equity portfolio also includes an international component.

The objective of the fixed-income portion of the pension assets is to provide interest rate sensitivity for a portion of the assets and to provide diversification. The fixed-income portfolio is diversified within certain quality and maturity guidelines in an attempt to minimize the adverse effects of interest rate fluctuations.

Other than investments in certain alternative investment collective trusts and pooled investments funds, certain investments are prohibited. Prohibited investments include venture capital, private placements, unregistered or restricted stock, margin trading, commodities, short selling and rights and warrants. Foreign currency futures, options and forward contracts may be used to manage foreign currency exposure.

7. Income Tax Status

The Plans have received determination letters from the Internal Revenue Service ("IRS") dated as follows:

Employees' Retirement Plan of AMETEK, Inc. (001)	January 21, 2016
Chemical Products (Wapakoneta, Ohio Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan (012)	October 19, 2015
Chemical Products (Nesquehoning, Pennsylvania Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan (032)	January 21, 2016
AMETEK, Inc. Aerospace Division Pension Plan (043)	October 27, 2015
AMETEK, Inc. Monthly Formula Pension Plan (035)	January 21, 2016

The determination letters state that each of the Plans qualifies under Section 401(a) of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letters, all of the Plans were amended. Once qualified, the Plans are required to operate in conformity with the IRC to maintain their qualification. The Plan Sponsor believes the Plans are being operated in compliance with the applicable requirements of the IRC and therefore believes these Plans, as amended, are qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken. The Plans have recognized no interest or penalties related to uncertain tax positions. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related Party and Party-in-Interest Transactions

At December 31, 2020 and 2019, the Trust held an investment in AMETEK common stock, consisting of 384,788 shares with a cost of \$190,757. At December 31, 2020 and 2019, the market value was \$46,536,261 and \$38,378,755, respectively. For the years 2020 and 2019, the Trust received \$277,047 and \$268,603, respectively, in related dividends.

Certain of the Trust's assets are invested in funds managed by the Trustee of the Plans. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

9. Subsequent Events

The Plans have evaluated, for consideration of recognition or disclosure, subsequent events that have occurred through the date the financial statements were available to be issued and have determined that, except for the matters noted below, no significant events occurred after December 31, 2020 that would have a material impact on its financial statements.

Effective January 1, 2021, AMETEK, Inc. Monthly Formula Pension Plan was amended to close the Plan to employees of Measurement and Calibration Technologies Division, Largo, FL, Advanced Motions Solutions Division, Dynamic Fluid Solutions Business Unit, Whitsett, NC and Measurement and Power Systems Division, Binghamton, NY.

On September 7, 2021, the Nesquehoning, Pennsylvania Plant was sold and the Chemical Products (Nesquehoning, Pennsylvania Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan was amended and restated to fully vest all participants as of the closing date.

Spouse age	Wife three years younger than husband
Valuation pay	Base pay for the year preceding the valuation date plus the average of the bonuses accrued for the two years preceding the valuation date, adjusted to the valuation year using the assumed salary increase rate.
Covered pay	Base pay for the year preceding the valuation date plus the average of the bonuses accrued for the two years preceding the valuation date, adjusted to the valuation year using the assumed salary increase rate.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Decrement timing	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.11% (with such expected earnings limited by the prior year's third segment rate as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2019 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA).</p>

These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

Certain plans pay small benefits with a present value up to \$5,000 in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

All benefits described in the Plan Provisions section of this report were valued except for the Special Supplement for the Aerospace Union Plan. Due to the small window of eligibility, and de minimis value of the benefit, the Special Supplement benefit is not reflected for current active participants in the valuation (only reflected for retirees upon commencement).

Willis Towers Watson has reviewed the plan provisions with AMETEK, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in Assumptions and Methods

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2019 to January 2020.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

Plan-related expenses were updated to reflect the most recent experience.

Compensation

W-2 earnings plus any amounts deducted in accordance with section 125, 132(f)(4), 401(k) of the IRC and any differential wage payments made by the employer in accordance with sections 3401(h) and 414(u)(12) of the IRC, but excluding any other deferred compensation, taxable fringe benefits, expense reimbursements, allowances, and severance payments. Compensation is limited to the dollar limitation under section 401(a)(17) of the IRC with respect to the plan year.

Normal Retirement Date (NRD)

First of month coinciding with or next following attainment of age 65.

Benefit

Non-union: An account balance is established for each participant. The account shall be increased as of the last day of each calendar month of employment with a percentage of compensation in accordance with the age plus service points schedule below, where age and service is the sum of the whole and fractional years of age and service:

Age plus Service Points	Percentage of Compensation
Less than 30	4.0%
30 but less than 40	5.0%
40 but less than 55	6.0%
55 and greater	7.0%

The account shall be increased each day of employment with interest credits. Interest on the account balance is calculated as the greater of:

- (i) average monthly yield on 10-year US Treasury securities at constant maturity for the second month preceding each calendar year quarter, and
- (ii) 2.25%.

Interest is credited prior to the addition of compensation credits on applicable dates.

Account balances revert back to zero if a participants terminates employment prior to attaining 5 years of service and returns to service after a period of 5 or more breaks-in-service.

Union: Accrued benefit payable monthly as a life annuity is determined by multiplying the participant's total credited service and the multiplier in effect during the time of termination, based on the schedule below:

Date of Termination	Benefit Multiplier	
	Service accumulated prior to January 1, 2007	Service accumulated after January 1, 2007*
January 1, 2007 – December 31, 2007	\$5.00	\$35.00
January 1, 2008 – December 31, 2008	\$6.00	\$36.00
January 1, 2009 – March 14, 2010	\$7.00	\$37.00
March 15, 2010 – March 17, 2013	\$10.00	\$40.00
March 18, 2013 and after	\$10.00**	\$42.00

*Credited service used for calculating the accrued benefit was frozen as of March 17, 2014

**For those who terminated during the period between March 18, 2013 and March 17, 2014 and had provided notice of intention to leave to the employer prior to January 1, 2014, a multiplier of \$12.00 for service accumulated prior to January 1, 2007 was used.

Actuarial Equivalence

Non-union: The conversion factors for optional forms of payment are determined according to IRC §417(e) assumptions using the second month prior to the plan year as the lookback month.

Union: The conversion factors for optional forms of payment are determined using the 1994 Group Annuity Reserving Table (blended 50% male and 50% female) projected to 2002 using Scale AA and an interest rate of 6.5%. The conversion factor for single sum present value of accrued benefits of less than \$5,000 are determined according to IRC §417(e) assumptions using the second month prior to the plan year as the lookback month.
