AMBIT ENERGY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS December 7, 2020 and December 31, 2019

1. Description of Plan

The following description of the Ambit Energy 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective December 31, 2019, the Plan was frozen. Prior to December 31, 2019, all employees of Ambit Energy (Sponsor) who were age 18 or older and had completed 60 days of service were eligible to participate in the Plan.

Effective November 1, 2019, the Sponsor was acquired by Vistra Energy Corp. On December 16, 2019, the governing body of the Sponsor elected to terminate the Plan effective February 1, 2020. The Sponsor worked with the trustee to transfer the assets out of the Plan. As of December 7, 2020, all Plan assets have been transferred out of the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Sponsor's matching contributions, and participant earnings. Administrative expenses and the Sponsor's qualified non-elective contributions are allocated to each participant's account. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and Sponsor contributions plus actual earnings thereon.

Notes Receivable from Participants

Prior to termination, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a fixed rate similar to rates currently charged by commercial lenders for similar loans. Principal and interest is paid by participants in equal payments no less frequently than quarterly.

Payment of Benefits

Effective with the termination, participants are entitled to their vested account balances. Participants can elect to have their balances rolled over into another qualified plan, individual IRA, or to have the benefit paid as a distribution.

NOTES TO FINANCIAL STATEMENTS, Continued December 7, 2020 and December 31, 2019

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting for the period ended December 7, 2020 and the year ended December 31, 2019.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2019, contract value represents the amount expected to be collected for the contract.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 7, 2020 and December 31, 2019. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS, Continued December 7, 2020 and December 31, 2019

2. Summary of Accounting Policies, Continued

Plan Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and certain other expenses are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through July 22, 2021, the date the financial statements were available to be issued.

3. Information Certified by Trustee

For 2020 and 2019, the Plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the amounts for investments and notes receivable from participants and transactions in those assets certified by Principal Financial Group (Principal) in 2020 and 2019, except for comparing such information certified as complete and accurate by the trustee, to information included in the Plan's financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Continued

AMBIT ENERGY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Continued December 7, 2020 and December 31, 2019

4. Fair Value Measurements, Continued

- *Level 2:* Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- *Level 3:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 7, 2020 and December 31, 2019.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. Investments also include money market funds that are valued at NAV based on observable activity.
- *Pooled separate account:* The underlying mutual funds held in the separate account are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held in the separate account are deemed to be actively traded. The pooled separate account is not publicly quoted and the NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.
- *Collective investment funds:* Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

4. Fair Value Measurements, Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value measurements at December 7, 2020 and December 31, 2019:

5. Guaranteed Interest Contract

The Plan participated in a fully benefit-responsive group annuity contract with Principal. Principal maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal was contractually obligated to repay the principal and accumulated interest.

Contract value, as reported to the Plan by Principal, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Distributions to participants as a result of the Plan termination were treated as normal withdrawals from the contract.

6. Related-Party Transactions and Party-In-Interest Transactions

Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third-party administrator of approximately \$28,611, which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan's trustee by a letter dated August 8, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been restated and amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the relevant taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 7, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to possible examination by the taxing authorities. For federal income tax purposes, the tax returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

8. COVID-19

In March 2020, the World Health Organization ("WHO") categorized the novel coronavirus (COVID-19) as a pandemic, triggering volatility in financial markets and significant economic uncertainties. This volatility and related uncertainties could have a material impact on the amounts reported in the statements of net assets available for benefits, changes in net assets available for benefits and the accumulated plan benefits. The duration of these uncertainties and the ultimate financial effects are unknown at this time.
