NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

1. DESCRIPTION OF PLAN

The following description of the Morneau Shepell Limited Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the official Plan document for complete information.

General

The Plan is a defined contribution plan which was established by Morneau Shepell Limited (the Company). The Plan covers all employees of the Company. All eligible employees, as defined, are immediately eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Great-West Life & Annuity Insurance Company (Great-West) served as the custodian of the Plan assets as of December 31, 2020 and 2019. Effective January 1, 2021, Prudential Bank & Trust, FSB (Prudential) was appointed trustee of the Plan. Great-West began liquidating the investments for the transfer to Prudential as of the close of business on December 31, 2020. As such, \$51,930,282 of investments were liquidated and held by Great-West in pending cash as of December 31, 2020, and subsequently transferred and investment by Prudential on January 4, 2021.

Merged Plans

Effective with the close of business on December 31, 2020, the LifeWorks US Inc. Retirement Savings Plan and the MorningStar Health, Inc. 401(k) Plan merged into the Plan. The Plan mergers are reflected in the statement of net assets as a receivable to the Plan as of December 31, 2020 and as a transfer into the Plan in the statement of changes in net assets available for benefits for the year ended December 31, 2020.

Contributions

The Company is required to contribute 3% of all participants' compensation annually to the Plan (the safe harbor contribution). The Company may also make additional discretionary contributions to the Plan each year. In 2020, the Company contributed a one-time elective contribution of \$435,677 to certain employees as an additional discretionary contribution.

Eligible employees may make voluntary tax deferred contributions up to 100% of their eligible compensation, subject to a maximum allowable annual contribution determined by the Internal Revenue Code (IRC). Participants may designate all or a portion of their salary deferral as Roth elective deferrals. Catch-up contributions are permitted. Participants may also rollover amounts representing distributions from other qualified plans. Prior to September 16, 2019, any eligible employee hired on or after January 1, 2014 was automatically enrolled in the Plan and treated as having elected to make a 3% contribution to the Plan. Effective September 16, 2019, the Plan ceased the automatic enrollment feature in the Plan.

1. DESCRIPTION OF PLAN – CONTINUED

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and allocations of Plan earnings. Each participant account is charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocation of the Plan's investment results is based on relative account balances, as defined. Participants may allocate their contributions, at their discretion, among various investment options offered by the Plan.

Vesting

Participants are immediately vested in their voluntary contributions and safe harbor contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service, as defined. Vesting in the Company's discretionary contributions is as follows:

<u>Years of Service</u>	<u>Percentage</u>
1	25%
2	50%
3+	100%

Participants also become fully vested upon death, disability or retirement.

Payment of Benefits

A participant's vested account balance may be withdrawn due to death, disability, retirement or termination of employment. In-service withdrawals are permitted after the age of 59-1/2 or due to financial hardship, as defined. A participant may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump sum payment, or in annual installments over a specified payment of time. If the vested amount is \$5,000 or less, a lump-sum distribution is required.

In 2020, the Plan adopted the distribution provision of the Coronavirus Aid, Relief, and Economic Security (CARES) Act that was signed into law on March 27, 2020. A CARES Act distribution allows the Plan's participants to take a COVID-19 related distribution up to \$100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020.

Forfeitures

As of December 31, 2020 and 2019 forfeited non-vested participant accounts totaled \$0 and \$3, respectively. In 2020, the Company used \$3,781 to offset Plan administrative expenses.

Revenue Sharing Account

The Plan holds a revenue sharing account (Revenue Credit Account) which is credited by Great-West with the return of certain excess revenue generated by certain investments. The Revenue Credit Account may be used to pay reasonable expense or to be allocated to participants. During the year ended December 31, 2020, \$76,098 of Plan expenses were paid out of the Revenue Credit Account. The Plan did not have any Revenue Credit Account funds available as of December 31, 2020 or 2019.

1. DESCRIPTION OF PLAN – CONTINUED

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are repaid through payroll deductions over a term not-to-exceed five years. Loan transactions are treated as a transfer to (from) the investment funds from (to) the Participant Loan Fund. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%.

In 2020, the Plan adopted the temporary loan repayment deferral provision of the CARES Act. The deferral provision adopted allows qualified Plan participants who have Plan loan repayments to defer such repayments until December 31, 2020.

Administrative Expenses

Certain expenses related to the administration of the Plan are paid by the Company or through the Plan expense account. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses, and certain fees for investment advisory services are paid through the Plan revenue sharing account.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates and Risks and Uncertainties

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Notes Receivable from Participants

Notes receivable from participants represent participant loans which are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Investment Valuation and Income Recognition

The Plan's investments, with the exception of the fully benefit-responsive investment contract, are stated at fair value. The fully benefit-responsive investment contract is valued at contract value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Notes 3 and 4 for valuation methodology of the Plan's investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. FIXED ANNUITY CONTRACT

At December 31, 2020 and 2019, the Plan held investments in a fully benefit-responsive fixed account option issued by Great-West. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made, plus interest at the contract rate, less funds used to pay participants' benefits. The fixed investment contract (the Fixed Account) held by the Plan is fully benefit-responsive; therefore, contract value reporting is required.

The Fixed Account is part of the general account of Great-West and is guaranteed against loss of principal, less all withdrawals, including surrender charges and market value adjustments. The Fixed Accounts does not permit Great-West to terminate the agreement prior to the scheduled maturity date. Interest is credited daily at an interest rate that will not be less than the Fixed Account's minimum interest rates, per the contract specifications.

The crediting interest rates are set at the beginning of each calendar quarter and are periodically reviewed for adjustment. The guarantees are based on Great-West's ability to meet its financial obligations from the general assets of Great-West.

4. FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement* are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2019.

Variable annuities: The fair values of accumulated units held by the Plan in variable annuity accounts are based on each account's daily net asset value (NAV), which is considered by Plan management to be the best approximation of fair value. Data for NAVs are distributed to Plan administrators and client investors and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the annuity accounts, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts.

The valuation methodologies described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENT – CONTINUED

The Plan's investments at fair value represent investments in variable annuity accounts which are valued using NAV practical expedient. Due to the adoption of Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan does not hold any investments requiring categorization within the fair value hierarchy.

^(a)In accordance with Subtopic 820-10, certain investments that were measured at NAV (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

8. TAX STATUS

The Plan uses a prototype plan document sponsored by Great-West. The prototype plan document received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The prototype plan document has been amended since receiving the opinion letter. However, Great-West and the Company, believe that the prototype plan document is currently designed and operated in compliance with the applicable requirements of the IRC. The Plan itself has not received a determination letter from the IRS. However, Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, including the IRS. The Plan is not currently under IRS examination for any Plan years.
