Plan Administrator and Retirement Plan Committee
Integral Consulting Inc. 401(k) Profit Sharing Plan

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Integral Consulting Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Voya Institutional Trust Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2020 and 2019 and for the year ended December 31, 2020, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter—Supplemental Schedule
The supplemental schedule, Schedule H—Part IV, Line 4i—schedule of assets (held at end of year) as of December 31, 2020, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Integral Consulting Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Voya Institutional Trust Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2020 and 2019 and for the year ended December 31, 2020, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter—Supplemental Schedule
The supplemental schedule, Schedule H—Part IV, Line 4i—schedule of assets (held at end of year) as of December 31, 2020, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Note 1. Description of Plan

The following description of the Integral Consulting Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary Plan description for more complete information.

General and eligibility: The Plan is a defined contribution plan established by Integral Consulting Inc. (the Company) effective November 1, 2002. All part and full-time non-union employees of the Company who have attained the age of 18 are eligible to make employee contributions on the first day of the month following their hire date. Employees are automatically enrolled as participants in the plan with an automatic deferral of 4%, which, unless otherwise directed by the employee, is deposited in the applicable target date fund based on the retirement age of 65. Each year employees may contribute a percentage of their annual compensation but not more than the maximum allowable limits established by the Internal Revenue Code (IRC). Employees are eligible for employer matching contributions on the date in which the employee becomes eligible to the Plan. For the year ended December 31, 2020, the Company made safe harbor matching contributions equal to 100% of participants' deferrals that did not exceed 4% of his or her compensation.

The Company may also make profit sharing contributions to the Plan each year and in such amount, if any, as it may determine. Participants will be eligible to receive an allocation of the profit sharing contributions regardless of the hours of work during the plan year. The discretionary contribution is based on the relationship of the participant's year-to-date compensation to the total compensation of all Participants. There were no such contributions made during the year ended December 31, 2020.

Participants in the Plan direct their contributions and Company contributions into various investment options offered by the Plan. Participants may change their elections daily. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's contributions, Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Elective deferral pre-tax and post-tax (Roth) contributions and earnings thereon are fully vested and nonforfeitable. Any employer contributions are also fully vested upon the contribution date.

Payment of benefits: On termination of service due to retirement, death or disability, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or an annuity which provides for annual installments over a specified period. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution less applicable taxes, or the participant may elect to roll over his or her account balances into another qualified retirement savings account.

Participants with vested account balances less than $5,000 but greater than or equal to $1,000 will automatically have their vested account balance rolled into an individual retirement account unless they otherwise instruct the third-party administrator and take a lump-sum distribution as soon as practicable following termination. Participants with vested account balances less than $1,000 must take a lump-sum distribution as soon as practicable following termination.

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their participant accounts a minimum of $1,000 to a maximum of the lesser of $50,000 or 50% of their average vested balance over the past 12 months. The number of outstanding loans for a participant shall be limited to one. The notes bear interest at rates determined by the custodian with the intention of providing the Plan with a return commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Notes receivable are collateralized by the participant's vested account balance. The repayment period is limited to five years, except for a note used for the purchase of a principal residence, which may exceed five years. The repayment period may not extend beyond the participant's normal retirement date. Principal and interest is paid ratably through payroll deductions. Notes receivable outstanding as of December 31, 2020, bear interest at 3.25% to 5.25% and are due through August 2025.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Insurance company pooled separate accounts are invested in mutual funds, which are exposed to various risks, such as interest rate and credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment valuation and income recognition: The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contact value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment custodian and insurance company. See Note 4 for discussion of fair value measurements. See Note 5 for discussion of the guaranteed investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments to participants are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. All administrative fees, other than loan fees, are paid by the Plan or the Company.

Recently adopted accounting pronouncement: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The adoption of ASU 2018-13 did not have a material impact on the financial statements.

Subsequent events: The Plan Administrator evaluated subsequent events through September 29, 2021, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Custodian

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Voya Institutional Trust Company (the Custodian) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodian that information provided to the Plan Administrator by the Custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2020	2019
Investments, at fair value, using net asset value per share:		
Pooled separate accounts	$ 32,173,147	$ 26,858,333
Investments, at contract value:		
Guaranteed investment contract	631,684	520,187
	$ 32,804,831	$ 27,378,520

The custodian also certified to the completeness and accuracy of the investment income information (including investments bought, sold and held during the year) and interest income on notes receivable from participants for the year ended December 31, 2020, included on the statement of changes in net assets available for benefits.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under *FASB Accounting Standards Codification* (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts: Unit value calculated based on the observable net asset value (NAV) of the underlying investment. NAV, as provided by the custodian, is used as a practical expedient. This practical expedient is not used when it is determined to be probable that the fund will sell for an amount different than the reported NAV.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	Level 2	Level 3	Total
Total assets at fair value	$ -	$ -	$ -	$ -
Investments measured at net asset value (a)	-	-	-	32,173,147
Investments, at fair value				$ 32,173,147

	2019			
	Level 1	Level 2	Level 3	Total
Total assets at fair value	$ -	$ -	$ -	$ -
Investments measured at net asset value (a)	-	-	-	26,858,333
Investments, at fair value				$ 26,858,333

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV practical expedient as of December 31, 2020 and 2019. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	2020	2019	Unrestricted Commitment	Redemption Frequency	Redemption Notice Period

	$ 32,173,147	$ 26,858,333			

(a) The investment seeks to maximize long-term total return. The fund invests in investment-grade fixed income securities or unrated securities that are determined by the adviser to be of similar quality, securities rated below investment grade, or fixed income securities regarded as bonds.

Note 4. Fair Value Measurements (Continued)

(b) The investment seeks a high level of current income consistent with liquidity and safety of principal through investment primarily in securities issued by the U.S. government and its agencies and instrumentalities.

(c) The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income. The category seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks.

(d) The investment seeks long-term capital growth. The fund invests in common stocks of large-capitalization companies and companies that have above-average growth prospects.

(e) The investment seeks to provide an above-average level of current income and reasonable long-term capital appreciation. The category invests primarily in common stocks of mid-size and large companies whose stocks typically pay above-average levels of dividend income and are undervalued relative to similar stocks.

(f) The investment seeks to track the performance of a benchmark index that measures the investment return of mid-capitalization stocks. Investments attempt to track the performance of the CRSP US Mid Cap Index, a broadly diversified index of stocks of mid-size U.S. companies.

(g) The investment seeks to provide long-term capital growth. The category invests in small to mid-cap stocks, or companies having market capitalizations within the range of companies comprising the Russell 2500 Index.

(h) The investment seeks long-term capital appreciation and income. The category invests mainly in the stocks of mid-size U.S. companies considered to be undervalued. Undervalued stocks are generally those that are out of favor with investors and are trading at prices that the advisor believes are below average in relation to measures such as earnings and book value. These securities often have above-average dividend yields.

(i) The investment seeks to track the performance of a benchmark index that measures the investment return of small-capitalization stocks. Investments attempt to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies.

(j) The investment seeks long-term growth of capital by investing primarily in common stocks of small growth companies. The category invests in equity securities issued by small-cap U.S. growth companies. Investments may be comprised of foreign stocks, including securities of emerging market issuers.

(k) The investment seeks long-term growth of capital. The category invests in equity securities of small capitalization companies, and in derivatives and other instruments that have economic characteristics similar to such securities. The category invests in securities of small capitalization companies that the adviser believes are undervalued.

(l) The investment seeks long-term high total return consistent with preservation of capital and prudent investment risk. Under normal market conditions, the category pursues an active asset allocation strategy whereby investments are allocated among three asset classes: equity securities, debt instruments and money market instruments.

(m) The investment seeks long-term capital appreciation. The fund purchases readily marketable equity securities of companies whose principal activities include ownership, management, development, construction or sale of residential, commercial or industrial real estate.

Note 4. Fair Value Measurements (Continued)

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

There were no transfers between Level 1, 2 or 3 assets during the year ended December 31, 2020.

Note 5. Guaranteed Investment Contract

The Plan has a traditional, fully benefit-responsive guaranteed investment contract (GIC) with the Custodian. Contributions made to the GIC are maintained in a general account. The contract is credited with earnings on the underlying investments and is charged for participant withdrawals and applicable withdrawal charges. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. This contract is included in the financial statements at contract value as reported to the Plan by the Custodian. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract values for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the Custodian, but generally may not be less than 1.00%, depending on the underlying contract. Such interest rates are reviewed for resetting on an annual basis, and more frequently, as appropriate.

Certain events limit the Plan's ability to transact at contract value with the issuers. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestiture or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date unless a 90-day notice is provided to the issuer.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at its discretion. In the event of termination, the net assets of the Plan, after payment of any expenses properly charged, will be distributed to each participant according to the amount then credited to his or her account.

Note 7. Tax Status

Effective January 1, 2012, the Plan adopted a standardized form of a prototype plan sponsored by the custodian. The prototype plan has received an opinion letter from the Internal Revenue Service dated September 1, 2014, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan applies the standards on accounting for uncertainty in income taxes. The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustments to the financial statements; therefore, no provision of liability for income taxes has been included in the financial statements.

Note 8. Party-In-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and the GIC, which are managed by the Custodian and therefore qualify as party-in-interest transactions. Service charges paid by the Plan for investment management services amounted to $31,165 for the year ended December 31, 2020, and are included in administrative expenses on the statement of changes in net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2020	2019

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Integral Consulting Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Voya Institutional Trust Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2020 and 2019 and for the year ended December 31, 2020, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter—Supplemental Schedule
The supplemental schedule, Schedule H—Part IV, Line 4i—schedule of assets (held at end of year) as of December 31, 2020, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Note 1. Description of Plan

The following description of the Integral Consulting Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary Plan description for more complete information.

General and eligibility: The Plan is a defined contribution plan established by Integral Consulting Inc. (the Company) effective November 1, 2002. All part and full-time non-union employees of the Company who have attained the age of 18 are eligible to make employee contributions on the first day of the month following their hire date. Employees are automatically enrolled as participants in the plan with an automatic deferral of 4%, which, unless otherwise directed by the employee, is deposited in the applicable target date fund based on the retirement age of 65. Each year employees may contribute a percentage of their annual compensation but not more than the maximum allowable limits established by the Internal Revenue Code (IRC). Employees are eligible for employer matching contributions on the date in which the employee becomes eligible to the Plan. For the year ended December 31, 2020, the Company made safe harbor matching contributions equal to 100% of participants' deferrals that did not exceed 4% of his or her compensation.

The Company may also make profit sharing contributions to the Plan each year and in such amount, if any, as it may determine. Participants will be eligible to receive an allocation of the profit sharing contributions regardless of the hours of work during the plan year. The discretionary contribution is based on the relationship of the participant's year-to-date compensation to the total compensation of all Participants. There were no such contributions made during the year ended December 31, 2020.

Participants in the Plan direct their contributions and Company contributions into various investment options offered by the Plan. Participants may change their elections daily. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's contributions, Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Elective deferral pre-tax and post-tax (Roth) contributions and earnings thereon are fully vested and nonforfeitable. Any employer contributions are also fully vested upon the contribution date.

Payment of benefits: On termination of service due to retirement, death or disability, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or an annuity which provides for annual installments over a specified period. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution less applicable taxes, or the participant may elect to roll over his or her account balances into another qualified retirement savings account.

Participants with vested account balances less than $5,000 but greater than or equal to $1,000 will automatically have their vested account balance rolled into an individual retirement account unless they otherwise instruct the third-party administrator and take a lump-sum distribution as soon as practicable following termination. Participants with vested account balances less than $1,000 must take a lump-sum distribution as soon as practicable following termination.

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their participant accounts a minimum of $1,000 to a maximum of the lesser of $50,000 or 50% of their average vested balance over the past 12 months. The number of outstanding loans for a participant shall be limited to one. The notes bear interest at rates determined by the custodian with the intention of providing the Plan with a return commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Notes receivable are collateralized by the participant's vested account balance. The repayment period is limited to five years, except for a note used for the purchase of a principal residence, which may exceed five years. The repayment period may not extend beyond the participant's normal retirement date. Principal and interest is paid ratably through payroll deductions. Notes receivable outstanding as of December 31, 2020, bear interest at 3.25% to 5.25% and are due through August 2025.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Insurance company pooled separate accounts are invested in mutual funds, which are exposed to various risks, such as interest rate and credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment valuation and income recognition: The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contact value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment custodian and insurance company. See Note 4 for discussion of fair value measurements. See Note 5 for discussion of the guaranteed investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments to participants are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. All administrative fees, other than loan fees, are paid by the Plan or the Company.

Recently adopted accounting pronouncement: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The adoption of ASU 2018-13 did not have a material impact on the financial statements.

Subsequent events: The Plan Administrator evaluated subsequent events through September 29, 2021, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Custodian

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Voya Institutional Trust Company (the Custodian) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodian that information provided to the Plan Administrator by the Custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2020	2019
Investments, at fair value, using net asset value per share:		
Pooled separate accounts	$ 32,173,147	$ 26,858,333
Investments, at contract value:		
Guaranteed investment contract	631,684	520,187
	$ 32,804,831	$ 27,378,520

The custodian also certified to the completeness and accuracy of the investment income information (including investments bought, sold and held during the year) and interest income on notes receivable from participants for the year ended December 31, 2020, included on the statement of changes in net assets available for benefits.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under *FASB Accounting Standards Codification* (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts: Unit value calculated based on the observable net asset value (NAV) of the underlying investment. NAV, as provided by the custodian, is used as a practical expedient. This practical expedient is not used when it is determined to be probable that the fund will sell for an amount different than the reported NAV.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	Level 2	Level 3	Total
Total assets at fair value	$ -	$ -	$ -	$ -
Investments measured at net asset value (a)	-	-	-	32,173,147
Investments, at fair value				$ 32,173,147

	2019			
	Level 1	Level 2	Level 3	Total
Total assets at fair value	$ -	$ -	$ -	$ -
Investments measured at net asset value (a)	-	-	-	26,858,333
Investments, at fair value				$ 26,858,333

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV practical expedient as of December 31, 2020 and 2019. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	2020	2019	Unrestricted Commitment	Redemption Frequency	Redemption Notice Period

	$ 32,173,147	$ 26,858,333			

(a) The investment seeks to maximize long-term total return. The fund invests in investment-grade fixed income securities or unrated securities that are determined by the adviser to be of similar quality, securities rated below investment grade, or fixed income securities regarded as bonds.

Note 4. Fair Value Measurements (Continued)

(b) The investment seeks a high level of current income consistent with liquidity and safety of principal through investment primarily in securities issued by the U.S. government and its agencies and instrumentalities.

(c) The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income. The category seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks.

(d) The investment seeks long-term capital growth. The fund invests in common stocks of large-capitalization companies and companies that have above-average growth prospects.

(e) The investment seeks to provide an above-average level of current income and reasonable long-term capital appreciation. The category invests primarily in common stocks of mid-size and large companies whose stocks typically pay above-average levels of dividend income and are undervalued relative to similar stocks.

(f) The investment seeks to track the performance of a benchmark index that measures the investment return of mid-capitalization stocks. Investments attempt to track the performance of the CRSP US Mid Cap Index, a broadly diversified index of stocks of mid-size U.S. companies.

(g) The investment seeks to provide long-term capital growth. The category invests in small to mid-cap stocks, or companies having market capitalizations within the range of companies comprising the Russell 2500 Index.

(h) The investment seeks long-term capital appreciation and income. The category invests mainly in the stocks of mid-size U.S. companies considered to be undervalued. Undervalued stocks are generally those that are out of favor with investors and are trading at prices that the advisor believes are below average in relation to measures such as earnings and book value. These securities often have above-average dividend yields.

(i) The investment seeks to track the performance of a benchmark index that measures the investment return of small-capitalization stocks. Investments attempt to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies.

(j) The investment seeks long-term growth of capital by investing primarily in common stocks of small growth companies. The category invests in equity securities issued by small-cap U.S. growth companies. Investments may be comprised of foreign stocks, including securities of emerging market issuers.

(k) The investment seeks long-term growth of capital. The category invests in equity securities of small capitalization companies, and in derivatives and other instruments that have economic characteristics similar to such securities. The category invests in securities of small capitalization companies that the adviser believes are undervalued.

(l) The investment seeks long-term high total return consistent with preservation of capital and prudent investment risk. Under normal market conditions, the category pursues an active asset allocation strategy whereby investments are allocated among three asset classes: equity securities, debt instruments and money market instruments.

(m) The investment seeks long-term capital appreciation. The fund purchases readily marketable equity securities of companies whose principal activities include ownership, management, development, construction or sale of residential, commercial or industrial real estate.

Note 4. Fair Value Measurements (Continued)

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

There were no transfers between Level 1, 2 or 3 assets during the year ended December 31, 2020.

Note 5. Guaranteed Investment Contract

The Plan has a traditional, fully benefit-responsive guaranteed investment contract (GIC) with the Custodian. Contributions made to the GIC are maintained in a general account. The contract is credited with earnings on the underlying investments and is charged for participant withdrawals and applicable withdrawal charges. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. This contract is included in the financial statements at contract value as reported to the Plan by the Custodian. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract values for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the Custodian, but generally may not be less than 1.00%, depending on the underlying contract. Such interest rates are reviewed for resetting on an annual basis, and more frequently, as appropriate.

Certain events limit the Plan's ability to transact at contract value with the issuers. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestiture or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date unless a 90-day notice is provided to the issuer.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at its discretion. In the event of termination, the net assets of the Plan, after payment of any expenses properly charged, will be distributed to each participant according to the amount then credited to his or her account.

Note 7. Tax Status

Effective January 1, 2012, the Plan adopted a standardized form of a prototype plan sponsored by the custodian. The prototype plan has received an opinion letter from the Internal Revenue Service dated September 1, 2014, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan applies the standards on accounting for uncertainty in income taxes. The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustments to the financial statements; therefore, no provision of liability for income taxes has been included in the financial statements.

Note 8. Party-In-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and the GIC, which are managed by the Custodian and therefore qualify as party-in-interest transactions. Service charges paid by the Plan for investment management services amounted to $31,165 for the year ended December 31, 2020, and are included in administrative expenses on the statement of changes in net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2020	2019
