INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
the UPS Retirement Plan:

We have audited the accompanying financial statements of the UPS Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the UPS Retirement Plan's net assets available for benefits as of December 31, 2019, and the changes therein for the year then ended and its financial status as of December 31, 2018, and the changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2019, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such schedule directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedule is fairly stated in all material respects in relation to the financial statements as a whole.

UPS RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

1. DESCRIPTION OF THE PLAN

The following description of the UPS Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General—The Plan was established on September 1, 1961, and has been amended periodically. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is a noncontributory defined benefit pension plan for substantially all employees of United Parcel Service, Inc. (UPS or the “Company”), who are not members of a collective bargaining unit, or, if they are, whose bargaining unit agreement specifically provides for their participation in the Plan.

Contributions—Contributions to the Plan are made by UPS. UPS’ funding policy is to contribute amounts that will at least satisfy the minimum funding requirements of ERISA, but do not exceed the maximum tax-deductible requirements of the Internal Revenue Code (IRC) as provided by the Plan’s independent actuary. In accordance with this funding policy, UPS contributed \$0 million and \$490 million to the Plan for the years ended December 31, 2019 and 2018, respectively. UPS met the minimum funding requirements of ERISA for the years ended December 31, 2019 and 2018.

Closed Plan—The Plan was closed to new non-union participants effective July 1, 2016. The Company amended the UPS 401(k) Savings Plan so that employees who previously would have been eligible for participation in the Plan will, in addition to current benefits under the UPS 401(k) Savings Plan, begin receiving a UPS Retirement Contribution. For employees eligible to receive the Retirement Contribution, UPS will generally contribute 3% to 8% of eligible pay to the UPS 401(k) Savings Plan based on years of vesting service and business unit. Contributions will be made annually in cash to the accounts of participants.

On June 23, 2017, the Plan was amended to reflect the freeze in benefit accruals under the Plan effective January 1, 2023. The Company amended the UPS 401(k) Savings Plan so that non-union employees who currently participate in the UPS Retirement Plan will, in addition to current benefits under the UPS 401(k) Savings Plan, earn a UPS Retirement Contribution beginning January 1, 2023. UPS will contribute 5% to 8% of eligible compensation to the UPS 401(k) Savings Plan based on years of vesting service. The amendment also provides for transition contributions for certain participants.

Pilots—There are approximately 2,900 pilots covered by the Plan (not impacted by the freeze in benefit accruals above) who are employed under a collective bargaining agreement with the Independent Pilots Association (IPA).

Participation—Participants in the Plan fall into three broad categories: Final average compensation formula, pilots, and Portable Account Formula (PAF) participants. Each of these categories is described below:

	Final Average Compensation Formula	Pilots	Portable Account Formula
Eligibility for Participation	<ul style="list-style-type: none"> Hired before January 1, 2008 At least 21 years old Completed at least 750 paid hours of service during the first 12 months of hire or during any calendar year thereafter 	<ul style="list-style-type: none"> January 1 or July 1 following attainment of age 21 Completion of one vesting year 	<ul style="list-style-type: none"> All eligible employees, except pilots, hired, rehired, or newly eligible on or after January 1, 2008, but before July 1, 2016.
Benefits and Vesting			
Normal Retirement	<ul style="list-style-type: none"> Benefits commence at age 65 Benefits are based upon years of service, age, and final average earnings Single life as well as joint and survivor annuity options are available 	<ul style="list-style-type: none"> Benefits commence at age 65 Benefits are based upon rank, years of service, age, and final average earnings Single life as well as joint and survivor annuity options are available 	<ul style="list-style-type: none"> Benefits commence at age 65. Participants receive annual compensation and interest credits while a participant in the Plan. Annual compensation credits are a percentage of pensionable pay based on the sum of the participant's age plus vesting service.
Normal Retirement (Continued)			<ul style="list-style-type: none"> The interest credit percentage is the annual rate of interest on the 30-year treasury securities for the month of August preceding the applicable Plan year, but not less than 2.5% per year.

	Final Average Compensation Formula	Pilots	Portable Account Formula
			<ul style="list-style-type: none"> Participants can take the PAF balance as a single lump sum or actuarially equivalent annuity.

All benefits and compensation for any calendar year may not exceed the maximum limitation for that year as defined in the IRC. The Plan provides for increasing the dollar limits automatically as such changes become effective.

Lump Sum Distribution—During the fourth quarter of 2019, certain plan participants and surviving spouses were offered the option to receive a one-time payment of their vested benefit. Approximately 8,400 participants accepted this option, accelerating \$529 million in benefit payments during 2019 while reducing the number of participants who are due future payments from the Plan.

401(h) Account—The Plan was amended on January 1, 1976, to include a medical benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligation for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code ("IRC"). A separate account has been established and maintained in the Plan for the net assets related to the medical benefit component ("401(h) account"). The related obligations for health and welfare benefits are not included in this Plan's obligations, but are reflected as obligations in the financial statements of the UPS Retired Employees Health Care Plan. Plan participants reimburse the 401(h) account for certain health and welfare benefits received, which are not covered under the Plan. Participant reimbursements to the 401(h) account were \$13.2 million and \$8.3 million in 2019 and 2018, respectively. Certain of the Plan's net assets are restricted to fund a portion of postretirement health benefits for retirees and their beneficiaries in accordance with IRC Section 401(h).

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Master Trust—See Note 5.

Risks and Uncertainties—The Plan and the Master Trust utilize various investment securities, including common and preferred stocks, corporate debt instruments, U.S. government securities, money market funds, collective trust funds, registered investment companies, 103-12 investment entities, partnerships, joint ventures, and real estate. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition—Investments are stated at fair value. If available, quoted market prices are used to value investments. Certain investments' estimated fair values are based on unobservable inputs that are not corroborated by observable market data and are thus classified as Level 3. Investments that do not have a readily determinable fair value, but which provide a net asset value ("NAV") (or its equivalent) developed consistent with Financial Accounting Standards Board ("FASB") measurement principles as of December 31, are valued using NAV as a practical expedient. These investments are not classified in Levels 1, 2, or 3 of the fair value hierarchy, but are included in the totals in the tables shown in Note 7. Purchases and sales are recorded on a trade-date basis. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Expenses—Administrative expenses of the Plan are paid by the Plan, as provided in the Plan document.

Subsequent Events—For the year ended December 31, 2019, subsequent events were evaluated through October 8, 2020, the date the financial statements were available to be issued.

3. PLAN TERMINATION

Although it has not expressed any intention to do so, UPS has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and, subject to collective bargaining for represented employees, to terminate the Plan.

In the event of termination of the Plan, the Plan assets shall be allocated in accordance with priorities specified in Section 4044 of ERISA. Generally, Section 4044 provides the following priorities:

- The lowest benefit in pay status for at least three years (or which would have been if the participant had retired that long ago)

- Other insured benefits
- Other noninsured and nonforfeitable benefits
- All other benefits

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”), if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors’ pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, the priority of those benefits to be paid, and may also depend on the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided at all.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan’s provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2019 and 2018, are as follows:

	2019	2018
Mortality	Pri-2012 healthy no collar mortality table, separate tables for retirees and contingent survivors, with MP-2019 improvements after 2012 assuming the long-term rate of mortality improvement phases down to 0.5% by 2024.	RP-2014 healthy no collar mortality table with MP-2018 mortality improvements after 2007 assuming the long-term rate of mortality improvement phases down to 0.5% by 2023.
Discount rate	7.20 %	7.20 %
Average retirement age	62.40	62.40

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present values of the Plan's accumulated plan benefits as of December 31, 2019 and 2018, are as follows (in millions):

	2019	2018
Vested benefits:		
Other participants	\$ 6,895	\$ 7,225
Participants and/or beneficiaries currently receiving benefits	<u>9,881</u>	<u>9,072</u>

Nonvested benefits	<u>995</u>	<u>1,062</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 17,771</u></u>	<u><u>\$ 17,359</u></u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the years ended December 31, 2019 and 2018, are as follows (in millions):

Actuarial present value of accumulated plan benefits—December 31, 2017	\$ 16,265
Increase (decrease) during the year attributable to:	
Additional benefits accumulated	455
Benefits paid	(850)
Decrease in the discount period	1,174

Actuarial assumption changes ¹	<u>(12)</u>
Actuarial present value of accumulated plan benefits—December 31, 2018	17,359

Actuarial loss	276
Actuarial assumption changes ³	<u>(70)</u>
Actuarial present value of accumulated plan benefits—December 31, 2019	<u><u>\$ 17,771</u></u>

¹ The assumption changes include a \$41 million increase in the present value of accumulated plan benefits related to the voluntary retirement program offered in 2018 and a \$53 million decrease in the present value of accumulated plan benefits due to updates to the mortality improvement scale.

² Benefit payments reflect the lump sum elections of \$530 million made as part of the lump sum opportunity offered to certain deferred vested participants in December 2019.

- ³ The assumption changes include a \$57 million decrease in the present value of accumulated plan benefits due to updates to the mortality tables and a \$13 million decrease in the present value of accumulated plan benefits due to a decrease in the Interest Crediting Rate.

5. INTEREST IN MASTER TRUST

As of December 31, 2019 and 2018, the majority of the Plan's investment assets are maintained in trust accounts at Bank of New York Mellon (the "Trustee").

As of December 31, 2018, these accounts consisted of an undivided interest in an investment account of the UPS Group Trust (the "Master Trust"), a master trust established by the Plan Sponsor and administered by the Trustee. The undivided interest was held in master trust units ("Existing Master Trust Units") owned by the participating plans and represented the entire Master Trust.

On July 1, 2019, the Plan Sponsor transferred the Plan's interest in the investment account into interest in multiple investment accounts of the Master Trust. The Master Trust was restructured with multiple master trust units ("New Master Trust Units") representing shares of particular asset class sleeves within the Master Trust. Each Existing Master Trust Unit was exchanged for equivalent New Master Trust Units to maintain the same pro-rata ownership percentage for the participating plans.

Each participating plan owns master trust units of individual investment sleeves in accordance with its investment policy statement.

As of December 31, 2019, the following plans participate in the Master Trust:

- (1) the Retirement Plan,
- (2) the Pension Plan and
- (3) the IBT Plan.

Each participating plan has an undivided interest in the Master Trust's various investment sleeves. At December 31, 2019 and 2018, the Plan's interest in the net assets of The Master Trust was 56.21% and 49.57%, respectively.

The following table presents each investment sleeve and the percentage of ownership by participating plans within the sleeve as of December 31, 2019 and 2018:

	Retirement Plan		Pension Plan		IBT Plan

Although assets of multiple plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income and administrative expenses are allocated by the Trustee to each participating plan based on the relationship of the interest of each plan in each asset class sleeve to the total of the interests of the participating plans in the respective asset class sleeves.

The net investment earnings of the Master Trust for the years ended December 31, 2019 and 2018, are summarized below (in millions):

	2019	2018
Dividend and interest income	\$ 542	\$ 522
Net appreciation (depreciation) in fair value of investments	4,980	(1,601)

¹ Excludes interest income of \$66 million and net appreciation of \$1,594 from investments outside of the Master Trust.

6. INVESTMENTS

As of December 31, 2019 and 2018, the Plan's investments are presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Pension assets utilizing Level 1 inputs include fair values of equity investments and U.S. government securities that were determined by closing prices for those securities traded on national stock exchanges, while securities traded in the over-the-counter market and listed securities for which no sale was reported on the valuation date are valued at the mean between the last reported bid and ask prices.

Level 2 assets include certain bonds that are valued based on yields currently available on comparable securities of other issues with similar credit ratings, mortgage-backed securities that are valued based on cash flow and yield models using acceptable modeling and pricing conventions, certain equity instruments and certain investments that are pooled with other investments held by the trustee in a commingled employee benefit trust fund. The investments in the commingled funds, including collective trust funds, are valued by taking the percentage owned by the respective plan in the fair value of the underlying investments of the trust fund, which was determined in accordance with the paragraph above.

Certain investments' estimated fair values are based on unobservable inputs that are not corroborated by observable market data and are thus classified as Level 3.

Investments that do not have a readily determinable fair value, and which provide a NAV (or its equivalent) developed consistent with FASB measurement principles, are valued using NAV as a practical expedient. These investments are not classified in Levels 1, 2, or 3 of the fair value hierarchy, but are included in the totals in tables shown in Note 7. These investments include fixed income, hedge funds, private equity, credit and real estate. Investments in hedge funds are valued using reported NAVs as of December 31. Investments in fixed income, private equity, credit and real estate are valued using fair values per the most recent audited financial statements, adjusted, as appropriate, for any activity between the date of the financial reports and December 31. The fair values may, due to the inherent uncertainty of valuation for those alternative investments, differ significantly from the values that would have been used had a ready market for the alternative investments existed, and any differences could be material.

Approximately \$7,766 million and \$5,656 million of the Master Trust assets are held in commingled funds that each hold US and international public market securities for the years ended December 31, 2019 and 2018, respectively. The Master Trust held the right to liquidate its positions in these commingled funds at any time, subject only to a brief notification period. No unfunded commitment existed with respect to these commingled stock funds at December 31, 2019 and 2018.

The Master Trust held approximately \$5,993 million and \$5,570 million of its investments in interests in various private equity, credit and real estate funds as of December 31, 2019 and 2018, respectively. Limited provision exists for the redemption of these interests by the general partners that invest these funds until the end of the term of the interests, typically ranging between 10 and 15 years from the date of inception. An active secondary market exists for similar interests, although no particular value (discount or premium) can be guaranteed. At December 31, 2019 and 2018, unfunded commitments to such interests totaling approximately \$2,241 million and \$2,090 million, respectively, are expected to be contributed over the remaining investment period, typically ranging between three and six years.

The Master Trust held certain investments in interests in various fixed income funds as of December 31, 2019 and 2018. No unfunded commitments existed with respect to fixed income funds as of December 31, 2019 and 2018.

As of December 31, 2019 and 2018, approximately \$2,212 million and \$3,006 million of the Master Trust investments are held in hedge funds that pursue multiple strategies to diversify risk and reduce volatility. Most of the funds require between two and three months' notice and allow redemptions either quarterly or semiannually while some allow for redemption after only a brief notification period with no restriction on redemption frequency. No unfunded commitments existed with respect to hedge funds as of December 31, 2019 and 2018.

As of December 31, 2019 and 2018, approximately \$25 million and \$6,561 million, respectively, of Plan assets were held outside of the Master Trust. These amounts are held in interest-bearing cash and certain fixed-income instruments.

7. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified as Levels 1, 2 or 3 in the below fair value hierarchy, but are included in the total.

Investments held by the plan outside of the Master Trust as of December 31, 2019 included cash equivalents of \$25 million. Investments held by the plan outside of the Master Trust as of December 31, 2018 included cash equivalents of \$89 million and U.S. government securities of \$6,472 million. Level 1 inputs are used to determine the fair value of these investments.

The following table sets forth by level, within the fair value hierarchy, a summary of the Master Trust investment assets at fair value (in millions) at December 31, 2019.

- ² The Investment Committee of the Master Trust has established and instituted the Investment Policy Statement (IPS) to implement and monitor investment strategies and/or guidelines across asset classes. The Master Trust's IPS addresses the below items such as establishing appropriate governance provisions; defining investment objectives; determining strategic asset allocation; monitoring and reporting the investments on a regular basis; appointing/dismissing investment managers, custodians, consultants, advisors; risk management (including various measures used to evaluate risk tolerance); determining/defining the mandates for investment managers; rebalancing of assets; and determining investment restrictions/prohibited investments.
- ³ The Retirement Plan's IPS prior to the sleeve transition, anticipated holding fixed income outside of the Master Trust to further hedge the Plan's liabilities.

Pension assets are invested in accordance with applicable laws and regulations. The primary long-term investment objectives for pension assets are to: (1) provide for a reasonable amount of long-term growth of capital given prudent levels of risk exposure while minimizing permanent loss of capital, and (2) match the duration of the liabilities and assets of the Plan to reduce funded status volatility. The Master Trust meets these objectives by employing investment managers who are engaged to actively manage assets within the guidelines and strategies set forth by the Investment Committee of the Master Trust. Active managers are monitored regularly and their performance is compared to applicable benchmarks.

The valuation methods as described in Note 6 may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions, and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at prearranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the Master Trust to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty.

The following is a summary by counterparty of the Master Trust's net exposure to derivative assets and liabilities, by financial instrument type, available for offset and net of collateral under master agreements at December 31, 2019 (in millions):

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 15, 2015, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, the Company and the Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan and Master Trust investments are managed by Bank of New York Mellon. Bank of New York Mellon is the trustee as defined by the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management and associated trustee/custodian services were \$1.0 million and \$0.9 million for the years ended December 31, 2019 and 2018, respectively.

The Plan Sponsor provides accounting and administrative services to the Plan. The Company is the Plan Sponsor, and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for administrative services were \$0.7 million and \$0.5 million for the years ended December 31, 2019 and 2018, respectively.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of amounts reported in the Plan's financial statements to amounts reported in the Form 5500 is required by ERISA. The following is a reconciliation of net assets available for pension benefits per the financial statements to the Form 5500 for the years ended December 31, 2019 and 2018.

	2019	2018
Net assets available for pension benefits per the financial statements	\$ 25,961	\$ 23,415
Net assets held in 401(h) account included as assets in the Form 5500	<u>189</u>	<u>196</u>
Net assets available for pension benefits per the Form 5500	<u>\$ 26,150</u>	<u>\$ 23,611</u>

The net assets of the 401(h) account included in the Form 5500 are not available to pay pension benefits, but can be used only to pay retiree health benefits.

The following is a reconciliation of the changes in net assets available for pension benefits per the financial statements to the Form 5500 (in millions):

	2019		
	Amounts per Financial Statements	401(h) Account	Amounts per Form 5500
Employer contributions	\$ -	\$ 180	\$ 180
Employee contributions	-	13	13

¹ Amounts include interest income (\$66 million per Financial Statements and \$2 million per 401(h) account) and net appreciation in fair value of investments (\$3,989 million per Financial Statements).

² Amounts include interest income (\$178 million per Financial Statements) and net depreciation in fair value of investments (\$698 million per Financial Statements).

11. SUBSEQUENT EVENTS

On March 11, 2020, the World Health Organization declared COVID-19 to be a pandemic. The outbreak of the COVID-19 pandemic has severely impacted global economic activity and caused significant volatility and negative pressure in financial markets. The severity, magnitude and duration of the pandemic, and the resulting economic consequences, remain uncertain, rapidly changing and difficult to predict. As a result, our accounting estimates, including any impacts on assets of the Plan, may change over time as a consequence of the effects of COVID-19; therefore, additional contributions to the Plan could be required.

On March 31, 2020, a two-year contract extension was ratified by the IPA, resulting in the collective bargaining agreement becoming amendable September 1, 2023.

Assumptions Rationale - Significant Economic Assumptions

PAF Interest Credit Rate

The plan credits interest to cash balance accounts using the 30-year Treasury rate for the month of August preceding the applicable plan year, with a minimum interest credit rate of 2.50%. Our long term estimate of the 30-year Treasury rate is 2.98%, based on guidance from UPS to reflect linkage to the year-end discount rate used for company financial reporting. The rate was determined as the maximum of the 2.50% minimum interest crediting rate and the UPS Retirement Plan discount rate as of December 31, 2018 less 150bps. The 150bps spread is a long-term assumption and was chosen based the Willis Towers Watson capital market assumed normative spread between 30-year corporate Aa bonds and the 30-year Treasury rate and the additional spread between the Retirement Plan discount rate chosen and a comparable corporate bond index rate. This assumption will remain consistent from year-to-year unless financial indicators are significantly different.

Rates of increase in:

■ Compensation

Assumed compensation increases are based on a combination of assumed future (i) cost-of-living increases (CPI), (ii) productivity increases and (iii) promotional increases. CPI increases assumed are as described below. Productivity increases are consistent with the assumed real increases in NAW described below (i.e., increases in assumed NAW less increases in assumed CPI).

A flat rate of 4.5% is assumed. This assumption is comprised of three components: assumed inflation (CPI) of 2.75%, real wage growth of 1% to 1.25% and merit/promotion increases of 0.5% to 0.75%. Assumed compensation increases are reviewed annually by Willis Towers Watson and UPS.

Actual compensation increases are reviewed annually and compared to the assumed increase of 4.5% (total compensation for non-MIP participants and base compensation for MIP participants). Generally, increases for the total population have been in line with the assumption. However, there are years where losses or gains result from increases different than expected. Some of these losses or gains are driven by economic factors such as changes in hours worked for the hourly non-union population. Despite these losses or gains, UPS's long-term expectation of merit/promotional and overall compensation increases remains at 0.5% to 0.75% and 4.5% annually, respectively.

Non-union participants may be eligible for the Management Incentive Plan (MIP/IMIP) in addition to base compensation. For those eligible for these payments, future payouts are assumed to be made as a percentage of target payout based on past experience and an expectation from the company about future payments.

For union participants with pay-related benefits (pilots), annual compensation increase assumptions are linked to increases

	<p>negotiated in the current collective bargaining agreements. This is an annual increase of 3.0%.</p> <p>In addition, for pilots, a 40% increase in compensation is assumed upon reaching 16 years of service. This is the assumed duration for a pilot to be promoted from First Officer to Captain. Both the 16 year service period and the 40% increase have been determined based upon a review of experience for pilots from 2012 through 2014 and plan sponsor expectations.</p> <p>The resulting compensation increase assumptions are composite rates that reflect both current conditions and future expectations.</p>
<ul style="list-style-type: none">■ National average wages (NAW) (e.g., Social Security wage bases)	<p>The National Average Wage (NAW) increase assumption is used to project the Social Security Wage Base (SSWB) and Social Security Primary Insurance Amounts (SSPIA) to future dates. For certain UPS Retirement Plan participants, their benefits are integrated with Social Security via either the SSWB or the SSPIA.</p> <p>The assumed NAW of 3.75% is based on assumed CPI as shown above, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on forecasts by economists, a combination of historical averages and a combination of recent rates and an expectation that future rates will be higher than current rates.</p> <p>The NAW assumed increases are consistent with those reflected in the non-union compensation increase assumption.</p>
<ul style="list-style-type: none">■ CPI	<p>The assumed CPI increase of 2.75% is reviewed annually and set based on Willis Towers Watson's annual capital market assumptions. The October 1, 2018 Willis Towers Watson capital market assumptions (neutral model) indicate that the normative, nominal price inflation is expected to be 2.5%. In addition, the 20-year average annual rate of projected price inflation is 2.71%. These price inflation indicators have been consistent in the Towers Watson neutral model back to January 1, 2012 (ranging from 2.69% to 2.80%). As these indicators change, UPS and Willis Towers Watson assess the need to potentially change the inflation assumption. The practice has been to leave this assumption consistent from year-to-year unless financial indicators are significantly different.</p> <p>In addition, the inflation (CPI) assumption is used implicitly in the determination of the NAW increase assumption, non-union compensation increase assumption, and PAF interest crediting rate assumption.</p>
Plan-related expenses	<p>As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).</p>

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on an experience study conducted in 2012. Annual consideration is given to whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2012 and were further updated in 2014 based on additional experience during 2012 and 2013 and updated future participant behavior expectations. Annual consideration is given to whether any conditions have changed that would be expected to produce different results in the future.
Form of payment and percent married	The combined percent married and form of payment assumptions were based on an experience study conducted in 2012.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	Market value of assets
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with UPS and is not aware of any significant benefits that should have been valued and were not.

Change in Methods and Assumptions Since Prior Year

The segment rates used to calculate the funding target and target normal cost were updated.

The interest crediting rate for PAF balances was updated to 2.98% from 2.50%.

The valuation reflects the updated static mortality tables provided in final regulations under IRC §430 issued in October 2017.

Assumed administrative expenses were changed from \$25,000,000 in 2018 to \$27,000,000 in 2019.

The commencement assumption for PAF participants is 70% immediate commencement and 30% deferred commencement to age 63.

Data Sources

Willis Towers Watson used asset data supplied by UPS. UPS furnished participant data as of January 1, 2019. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. Assumptions and estimates were made by Willis Towers Watson actuaries when data were not available, and UPS confirmed the appropriateness of these assumptions and estimates in 2019 Retirement Plan Questions Responses received on June 9, 2019. Willis Towers Watson is not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor United Parcel Service of America, Inc.

EIN/PN 95-1732075/001

Plan Name UPS Retirement Plan

Valuation Date January 1, 2019

Enrolled Actuary Timothy Hoppin

Enrollment Number 20-07404

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

This 2019 plan year Schedule SB has been revised to reflect changes to 2019 plan year contributions and the shortfall amortization period. The provisions of the American Rescue Plan Act that was signed into law in March 2021 allowed plan sponsors to shift contributions due for the 2019 plan year to the 2020 plan year and to elect to adopt the 15-year amortization provision as early as the 2019 plan year. In Notice 2021-48 section VIII. A. the IRS instructed plan sponsors to complete an amended filing if the contribution(s) shown on the 2019 plan year Schedule SB have been changed. The plan sponsor has elected to apply additional contributions to the plan year and to adopt the 15-year amortization provision as of the 2019 plan year. This amended Schedule SB filing includes the contribution revisions and shortfall amortization change.
