1. Description of Plan

General

The Hi-Tech Electric, Inc. Savings and Investment Plan (Plan) is a defined contribution plan that was established to provide retirement benefits to eligible employees of Hi-Tech Electric, Inc. (Employer or Company). The Plan was established September 1, 1991 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following descriptions provide only general information.

Participants should refer to the Plan document for a more complete description of the Plan's provisions.

On March 27, 2020 the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law. The CARES Act allows for certain provisions to participants impacted by COVID-19 such as in-service distributions up to $100,000, loan borrowings up to $100,000, and suspension of loan payments and required minimum distributions. In accordance with the CARES Act, the Plan has until December 31, 2022 to formally amend the plan documents.

Contributions

Participants may contribute a percentage of their pretax annual compensation not to exceed Internal Revenue Service (IRS) limitations. In addition, any participant, with the Plan administrator's written consent, may contribute to the trust other than as a voluntary contribution, if the contribution is a "rollover contribution" from another qualified plan. The company makes matching contributions equal to 40% of the employees' contribution, up to 6% of compensation.

Eligibility and Participant Accounts

Qualified employees age 21 years of age or older are eligible to become participants in the Plan after one year of employment with the Company. Separate accounts are established for each participant. Participants' accounts are credited with the participants' contributions and allocations of (a) the Company's contribution, (b) Plan earnings, (c) forfeitures of terminated participants' nonvested accounts and (d) charged with an allocation of administrative expenses.

Administrative Expenses

The Company pays substantially all administrative costs for the Plan.

Vesting

Participants vest in the Employer contribution in accordance with the following table:

Years of Vesting Service	Vesting Percentage
After one year of service	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

Benefits Paid to Participants

A participant's account balance is paid to the participant or the participant's beneficiary in a lump sum payment, periodic payments or an annuity upon the participant's retirement, death or disability. The vested portion of a participant's account can be withdrawn by the participant upon termination of employment with the Employer or upon withdrawal from the Plan. In-service withdrawals of after-tax accounts and hardship withdrawals of pre-tax accounts are also available.

Notes Receivable from Participants

Under the Plan, participants may obtain loans in amounts up to 50% of their vested account balance not to exceed $50,000. Repayment periods may not exceed five years unless used for the purchase of a residence. Loan interest rates are based on financial institution lending rates for loans of a similar nature. Principal and interest are paid ratably through automatic payroll deductions. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make loan repayments and the Plan administrator deems the loan to be a distribution, notes receivable from participants is reduced and a benefit payment is recorded.

Termination of the Plan

The Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, in compliance with the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants would become fully vested. The Company, however, has no intentions to terminate the Plan.

Forfeitures

Forfeited non-vested amounts are used to offset administrative expenses and future Company contributions. At December 31, 2020 and 2019, $8,985 and $7,177, respectively, were available for future use. No forfeitures were used during the year ended December 31, 2020.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles.

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with U.S. generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could vary from the estimates used in preparing the accompanying financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. The Plan presents the net change in fair value of investments, which consists of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distributions from such investments, in the accompanying statement of changes in net assets available for benefits.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Benefits Paid to Participants

Benefits are recorded when paid.

Risks and Uncertainties

The Plan provides for various investment options in mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

3. Fair Value Measurements

Under the Fair Value Measurements and Disclosures topic of the Codification, ASC 820, disclosures are required about how fair value is determined for assets and liabilities and a hierarchy for which these assets and liabilities must be grouped is established, based on significant levels of inputs as follows:

Level 1	Quoted prices in active markets for identical assets or liabilities as of the reporting date;
Level 2	Observable inputs other than Level 1 prices, such as quoted prices in active markets for similar assets or other inputs that are observable or can be corroborated by observable market date for substantially the full term of the assets;
Level 3	Unobservable inputs that are supported by little or no market activity and the reporting entity makes estimates or assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value:

Mutual Funds

These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying asset owned by the fund, less its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Collective Investment Trust

The Plan holds investments which are managed by Hand Benefits & Trust Company and invests in assets, typically securities or bond funds, and may include derivative instruments such as futures contracts and swap agreements. The fair values of the units of these investments are based on the fair value of the underlying investments traded in active markets. Income is calculated daily and the amount of income is dependent on contract interest rates, contract maturities, and new investments in the funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020:

	Level 1	Total
Mutual funds	$ 34,301,048	34,301,048
Collective trust measured at NAV*	-	1,276,816
	$ 34,301,048	$ 35,577,864

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Level 1	Total
Mutual funds	$ 28,471,712	28,471,712
Collective trust measured at NAV*	-	876,074
	$ 28,471,712	$ 29,347,786

*Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

4. Financial Information Certified by the Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by Hand Benefits & Trust Company, the trustee and a party-in-interest as defined by ERISA, as of December 31, 2020 and 2019 and for the year ended December 31, 2019, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule. This information consists of the following:

	2020	2019
Mutual funds	$ 34,301,048	$ 28,471,712
Collective investment trust	1,276,816	876,074
Notes receivable from participants	636,148	678,570
	$ 36,214,012	$ 30,026,356
Dividends	$ 1,154,576	
Interest income on notes receivable from participants	$ 34,385	
Realized gains on investments	$ 4,836,636	
Net appreciation in fair value of investments	$ 474,107	

5. Tax Status

The Plan uses a prototype plan document sponsored by Hand Benefits & Trust Company. The prototype plan sponsor has obtained an opinion letter from the IRS dated March 31, 2008, which states that the prototype plan document satisfies the applicable provisions of the Internal Revenue Code. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's financial statements.

The Plan had no significant uncertain tax positions for the year ended December 31, 2020. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three years from the date of filing.

6. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the 2020 financial statements to the 2020 Form 5500:

Net assets available for benefits per the financial statements	$ 36,214,012
Less: deemed distributions	(47,459)
Net assets available for benefits per the Form 5500	$ 36,166,553

The Form 5500 has certain income and expense items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon the net assets available for benefits as of December 31, 2020.

7. Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds and collective investment trusts managed by Hand Benefits & Trust Company. Hand Benefits & Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investments, as they are paid through revenue sharing rather than by direct payment.

8. Uncertainty

In March 2020, the World Health Organization recognized the novel strain of coronavirus, COVID-19, as a pandemic. The coronavirus outbreak has severely restricted the level of economic activity nationwide. Given the uncertainty of the spread of the coronavirus, the related financial impact to the Plan, if any, cannot be determined at this time.

9. Subsequent Events

Plan management has evaluated subsequent events through the date the financial statements were available to be issued and concluded that no additional disclosures are required.
