Note 1 - Description of Plan

The following brief description of the Sonnenalp Properties Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of Sonnenalp Properties, SPI Golf, Inc., SPI Property Management Grille at Singletree LLC and Swiss Chalet LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to participate in the Plan if they have completed 6 months of service, are 21 years of age or older, and are not a member of the following classes of employees:

- Non-resident aliens
- Any citizen or resident of a foreign country, except those who work in the United States under the following VISA or NAFTA categories:
 - All categories are excluded except as expressly required by United States Immigration Law
- Effective January 1, 2016, on-call employees, J-1 employees, Q-1 employees, temporary employees, part-time employees and part-time seasonal employees (unless a temporary, part-time or part-time seasonal employee completes 1 year of service, meaning 12 consecutive months and 1,000 hours)

A year of service for purposes of eligibility is a consecutive 6-month period during which the employee has 1,000 or more hours of service.

Entry Date

Employees may enter the Plan on the first day of the quarter coinciding with or following the date they satisfy the Plan's eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan Document. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Company may make a discretionary matching contribution equal to a uniform percentage of each participant's salary deferrals, with the discretionary percentage determined annually by the Company (not to exceed 4% of annual compensation). For 2020, the Company elected to match 50% of the employee's contributions up to 6% (up to 3% of annual compensation). Additional profit sharing contributions may be made at the discretion of the Company. No such additional discretionary contributions were made for the year ended December 31, 2020.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions, as well as an allocation of the Company's discretionary contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's earnings, account balances or specific participant transactions, as defined by the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Vesting is based on years of credited service as set forth in the following table:

<u>Participant's Years of Service</u>	<u>Vested Percentage</u>
1	25%
2	50%
3 or more	100%

Forfeitures

At December 31, 2020 and 2019, forfeited non-vested accounts totaled \$-0-. During the year ended December 31, 2020, employer contributions were reduced by \$8,699 from forfeited non-vested accounts.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the Plan Document upon retirement, termination, death or disability. A terminated employee with a balance of less than \$5,000 may be automatically paid out by the Plan upon termination. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan Document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and other third parties. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan Document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Plan Sponsor has evaluated subsequent events through July 12, 2021, the date which the financial statements were available to be issued

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

Sonnenalp Properties Profit Sharing Plan

Notes to Financial Statements

December 31, 2020 and 2019

Pooled separate accounts: Valued at fair value based on the net asset value (NAV) of units as determined by the insurance company. The NAV is based on the observable market prices of the underlying assets within the account less liabilities. The NAV for the underlying assets of the account is a readily determinable measure of their fair value and is the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments that are measured at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 7,252,698	\$ -	\$ 7,252,698
Investments at fair value	<u>\$ -</u>	<u>\$ 7,252,698</u>	<u>\$ -</u>	<u>\$ 7,252,698</u>
	2019			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 6,637,598	\$ -	\$ 6,637,598
Investments at fair value	<u>\$ -</u>	<u>\$ 6,637,598</u>	<u>\$ -</u>	<u>\$ 6,637,598</u>

Note 4 - Information Certified by the Plan Custodian

The Plan Administrator has elected the method of compliance permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by American United Life Insurance Company (AUL), the custodian, except for comparing such information certified by the custodian with information included in the Plan's financial statements and supplemental schedule H, line 4i-schedule of assets held at end of year.

The custodian has certified its statement of accounts as of December 31, 2020 and 2019 and for the year ended December 31, 2020. The statement of accounts includes beginning and ending balances of investments held, and detail of all transactions during the period, including investment earnings.

Note 5 - Tax Status

The Plan uses a pre-approved plan document sponsored by AUL, which received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2014, stating that the pre-approved document satisfies the applicable provision of the IRC. The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Contract with Insurance Company

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract (GIC) with AUL. AUL maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. AUL is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00%. Such interest rates are reviewed on a quarterly basis for resetting. The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Because the GIC is fully benefit-responsive, contract value is the relevant measure for the GIC, as this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the investment contract at December 31, 2020 and 2019 was \$761,144 and \$295,550, respectively.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) the Plan Sponsor rejects a modification to the contract proposed by the issuer, (2) the issuer ceases to issue contracts of this type and intends to terminate substantially all contracts similar in nature to this contract, (3) after the first 3 contract years the aggregate value of the contract is below than \$100,000, (4) the Plan is disqualified, unlawful or violates ERISA or IRC or exposes the issuer to potential liability, or (5) the Plan Sponsor files for protection under federal bankruptcy law, is deemed insolvent, dissolves, closes, or shuts down its business, or ceases operations. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would limit the ability of the Plan to transact at contract value with the participants.

Note 7 - Related Party and Party-in-Interest Transaction

A certain Plan investment is a guaranteed investment contract managed by AUL, the custodian as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - Plan Amendments

Effective April 1, 2020 the Plan was amended to allow for Roth elective deferrals.

As required by the Setting Every Up for Retirement Enhancement Act of 2019 (SECURE Act), the Plan implemented the following provisions effective January 1, 2020: increase the age requirement for required minimum distributions from age 70 ½ to age 72, for participants born after June 20, 1949; change in the distribution rules for benefits payable upon the death of a participant to generally require distributions within 10 years after the participant's death unless the beneficiary is the participant's spouse or an "eligible designated beneficiary".

Sonnenalp Properties Profit Sharing Plan

Notes to Financial Statements

December 31, 2020 and 2019

As required under the Bipartisan Budget Act of 2019, as of January 1, 2020 the Plan eliminated the suspension of employee elective deferrals for participants who obtain hardship distributions. In addition, the Plan now requires participants to represent they have insufficient cash or liquid assets available to satisfy their financial needs as a condition for obtaining a hardship distribution
