1. DESCRIPTION OF PLAN

The following description of the FFF Enterprises 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General

The Plan is a defined contribution Plan. The Plan was established effective January 1, 1994. The Plan covers all employees of FFF Enterprises (the "Company") who are at least 18 years of age and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants' contributions are made to the Plan by means of a salary deferral agreement under which the participant is entitled to defer the lesser of 100% of their compensation or a fixed amount determined annually by the Internal Revenue Service. The Company, at its option, may make discretionary matching contributions. For the year ended December 31, 2020, the Company matched voluntary participant contributions at a rate of 25% of the participants' compensation that is deferred up to a maximum of 5% of the participant's compensation. For the year ended December 31, 2020, discretionary matching contributions of $424,542 were allocated to the Plan. In addition, the Company, at its option, may contribute a portion of its current profits. For the year ended December 31, 2020, no discretionary profit-sharing contributions were allocated to the Plan.

Automatic Enrollment

Beginning July 1, 2019, Automatic Enrollment provides that, in the absence of an employee election to the contrary, the employer automatically withholds a 4.0% 401(k) deferral from the employee's paycheck. The deferral rate will be increased by 1.0% annually, with a cap at 10.0%. This applies to all newly-eligible employees, eligible rehired employees, and all active participants without a deferral election on file beginning July 1, 2019.

Participant Accounts

Participant accounts are credited with each participant's contribution, as well as any Company contributions and an allocation of the Plan earnings or losses. Participant accounts are reduced for withdrawals, losses, administrative expenses and forfeitures, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Vesting

Participants are fully vested and entitled to receive their full account balance upon retirement, disability or death. Normal retirement date is the date at which the participant reaches 65 years of age. Participants who terminate employment other than by retirement, disability or death will be entitled to all of their contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. The employer's contributions vest according to the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

Notes Receivable from Participants
The Plan allows participants to borrow up to 50% of their vested account balances, but not less than $1,000 and no more than $50,000. The loan repayment period must be no more than five years with the interest rate determined based on the rate a bank or professional lender would charge. Home loans can be repaid over a reasonable period of time that may exceed five years. The loans bear interest at rates of 3.25% to 9.25% at December 31, 2020 and mature at various dates through March 2029.

During 2020, the Plan operated in conformity with loan provisions set forth under the Coronavirus Aid, Relief, and Economic Security ("CARES") Act. Such provisions included the ability for participants to obtain a loan of up to the lesser of $100,000 or 100% of the participant's vested balance between March 27, 2020 and September 23, 2020 if the participant determined he or she was a qualified individual under the CARES Act. A qualified individual could also delay repayments for up to 1 year for loan payments due between March 27, 2020 and December 31, 2020.

Forfeited Accounts
Participants terminating employment with the Company will forfeit any nonvested employer profit sharing contributions. Forfeitures will be used to reduce employer matching discretionary contributions and administrative expenses. During the year ended December 31, 2020, forfeitures used to reduce employer contributions and administrative expenses were $5,713 and $775, respectively. At December 31, 2020 and 2019, there were forfeited non-vested accounts of $11,165 and $3,809.

Investments
Each participant directs the allocation of his or her contribution, and employer matching and discretionary contributions to a variety of investment options offered by the Plan. Participants may change their investment elections at any time by telephone or internet as allowed by the Plan administrator.

Benefit Payments
Upon termination of service due to death, permanent disability, retirement or early retirement, as defined by the Plan document, a participant may elect to receive a distribution of his or her vested account balance as either a lump-sum amount or as installments. The Plan also allows for hardship and in-service distributions, as defined in the Plan document.

During 2020, the Plan operated in conformity with distribution provisions set forth under the CARES Act. Such provisions included the ability for participants to withdraw up to $100,000 tax-free and penalty-free between March 27, 2020 and December 31, 2020 if the participant determined he or she was a qualified individual under the CARES Act.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020, or 2019. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value with the exception of fully benefit responsive contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Administrative expenses are paid by the Plan. Certain administrative expenses associated with in-service withdrawals, payment of benefits, and participant loan initiations are charged directly against the participant's account. In addition, certain investment related expenses have been offset with investment income and are not readily determinable.

Corrective Distributions Payable
Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2020 excess contributions to the applicable participants prior to March 15, 2021.

Risks and Uncertainties
The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level or risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the statements of net assets available for benefits.

The 2019 novel coronavirus (or "COVID-19") has adversely affected and may continue to adversely affect economic activity globally, nationally, and locally. Following the COVID-19 outbreak in March 2020, the values of investment securities have experienced significant volatility. These economic and market conditions and other effects of the COVID-19 outbreak may continue to cause volatility. The extent of the adverse impact of the COVID-19 outbreak on the Plan participants' account balances cannot be predicted at this time.

Subsequent Events
The Plan evaluated subsequent events through September 22, 2021, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification 820 ("FASB ASC 820"), *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Following is a description of the valuation methodologies used for assets measured at NAV as the practical expedient to estimate fair value:

Common/Collective Trusts ("CCT"): Valued at NAV which is based on the fair value of the underlying investments of the CCT, less any liabilities. CCT are composed of a stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded commitments at December 31, 2020 and 2019.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies	$ 16,923,834	$ -	$ -	$ 16,923,834
Investments measured at NAV (a)	-	-	-	16,589,431
Total assets at fair value	$ 16,923,834	$ -	$ -	$ 33,513,265

	2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies	$ 13,006,387	$ -	$ -	$ 13,006,387
Investments measured at NAV (a)	-	-	-	12,554,246
Total assets at fair value	$ 13,006,387	$ -	$ -	$ 25,560,633

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2020 and 2019, there were no transfers between levels.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds an investment contract with Fidelity Management Trust Company. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The investment contract held by the Plan is summarized as follows:

	2020	2019
Guaranteed interest contract	$ 1,770,531	$ 1,554,271

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a semi-annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code ("IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contract
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer.

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

No auditing procedures were performed by the independent auditor as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by Fidelity Management Trust Company, the custodian, except for comparing such information with information reported in the financial statements. Based on information provided and certified by the custodian as follows, there are no fixed income obligations, leases, or debt instruments in default or deemed uncollectible, as defined by ERISA, for the year ended December 31, 2020.

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, as well as the supplemental schedule of assets (held at end of year) as of December 31, 2020.

- Net appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100% of his or her account balance as of the date of termination.

7. TAX STATUS

The Plan document is a volume submitter profit sharing Plan sponsored by Fidelity Management Research Company that received a favorable opinion letter from the IRS on March 31, 2014, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designated and being operated in compliance with the applicable requirement of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. There are no tax related penalties or interest reflected in these financial statements.

8. PARTY-IN-INTEREST TRANSACTIONS

The Company, which qualifies as a party-in-interest, absorbs certain administrative expenses of the Plan. Additionally, notes receivable from participants are considered exempt party-in-interest transactions. Such transactions qualify for a statutory exemption.

Certain Plan investments are managed by Fidelity Investments. Fidelity Investments is an affiliate of the Fidelity Management Trust Company. Fidelity Management Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which a statutory exemption exists.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the Form 5500 to the Financial Statements at December 31, 2020 and 2019:

	2020	2019

Net assets available for benefits per the financial statements	$ 35,936,973	$ 27,937,957

The following is a reconciliation of the corrective distributions per the Form 5500 to the financial statements for the year ended December 31, 2020:
