Notes to Financial Statements

December 31, 2020 and 2019

(1) Description of the Plan

The following description of the Association Member Benefits Advisors, LLC 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all employees of Association Member Benefits Advisors, LLC ("AMBA") and AMBA Employment Corporation (collectively, the "Company" or the "Plan Sponsor") who have one month of service and are age 21 and older. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2019, the Plan was amended and restated, and a new custodian and record-keeper were appointed. The conversion initiated a blackout period whereby funds could not be applied to the participant-selected funds with the custodian or withdrawn from the Plan until the custodian had time to accurately complete the conversion. Additionally, during this period, participant contributions continued to be made through payroll deductions until completion of the blackout period. At the end of the blackout period, these funds were transferred to the investment options requested by each participant. Plan assets transferred to the new custodian were transferred on March 19, 2019 into funds comparable to those offered by the previous custodian, where available.

(b) Contributions

Each year, participants may contribute up to 90 percent of pretax annual compensation, as defined in the Plan, not to exceed a specific dollar amount determined by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Effective October 1, 2019, the Company provides a safe harbour matching contribution as follows: the Company matches participant deferrals at 100% of the first 1% of compensation, plus 50% of participant deferrals on the next 5% of compensation. Additional profit sharing amounts may be contributed at the discretion of the Company's board of directors. During the years ended December 31, 2020 and 2019, the Company did not make additional profit sharing plan contributions to the Plan. Excess contributions are returned to certain active participants to satisfy certain nondiscrimination provisions of the Plan, and are reflected as a reduction in participants' contributions.

(1) Description of the Plan (continued)

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Effective March 1, 2019, the participant is 100% vested in employer matching contributions upon entering the Plan. Company safe-harbor matching contributions are 100% vested to the participant after two full years of service. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Full vesting in employer contributions also occurs upon death, total disability, or retirement at or after age sixty-five.

(e) Notes Receivable from Participants

Participants may borrow from the vested portion of their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. Loan terms generally may not exceed five years. The loans are secured by the participant's account and bear interest at a rate determined by the plan administrator. The loan interest rates range from 5.5% to 6.5%. Principal and interest are paid ratably by payroll deductions.

(f) Payment of Benefits

The Plan provides that distributions of amounts of $5,000 or less be paid as a lump-sum. For account balances greater than $5,000, on termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or various installment options over extended periods of time.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are paid. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Administrative Expenses

The plan document allows for the expenses of maintaining the Plan to be satisfied directly out of the Plan's assets. A portion of the administrative expenses of the Plan is paid by the Company. Also, certain transaction charges are paid by the participants involved. Investment related expenses are included in net appreciation in fair value of investments.

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies (continued)

(f) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(g) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

(3) Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

- Level 3 inputs are unobservable inputs for the asset or liability.

Notes to Financial Statements
(Continued)

(3) Investments and Fair Value Measurements (continued)

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U. S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage account (through June 2020): The mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-ended mutual funds that are registered with the U. S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

		Fair Value Measurements at Reporting Date Using		
	Fair Value December 31, 2020	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(4) Information Certified by the Custodian

The financial information as of December 31, 2020 and 2019 and for the period from March 19, 2019 to December 31, 2020 included in the Plan's financial statements, except for the self-directed brokerage account, contributions receivables, contributions, benefits paid to participants, and administrative expenses, has been derived from information certified as complete and accurate by the custodian of the Plan, in accordance with Section 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

(5) Tax Status

The Plan is using a non-standardized prototype profit sharing plan document. In a letter dated July 16, 2014, the Internal Revenue Service ("IRS") indicated the standardized form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the "Code"). The opinion of the IRS on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code section 401(a). Although the Plan has been amended since receiving the acceptability letter, the Plan Administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and that the related trust is tax-exempt.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(7) Party-In-Interest Transactions

The Plan has not considered contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
