Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Waikem Management Services, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all qualifying employees of Waikem Management Services, Inc. (the Company), which includes George Waikem Ford, Inc., Waikem Motors, Inc. and National Car Leasing, Inc. All employees are eligible to be participants in the Plan on the first day of the calendar quarter after completing six months of service and reaching age 21. Six months of service is defined as having 1,000 hours of service during the 12-month period that coincides with the employee's anniversary date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participant contributions are voluntary. Contributions of earned compensation are either tax deferred or after-tax deferred up to a maximum as established by the Internal Revenue Service (IRS). The contributions of highly compensated employees as defined by the IRS may be further limited. Eligible employees are automatically enrolled in the Plan with an elective pre-tax deferral rate of 4% of compensation unless the participant affirmatively elects out of the automatic deferral feature or elects a different deferral rate. Participants may be eligible to contribute rollover amounts received as a lump-sum distribution from a qualified retirement plan of another employer if transferred to this Plan directly or by the participant within 60 days of receipt of the distribution from the previous plan. Such amount shall have no effect on the limits for maximum benefits and contributions as defined by the Plan. The Company may make a discretionary match contribution to all participants who are employed at the end of the Plan year. The Company also has the option to make discretionary nonelective contributions to the Plan each year. These contributions are allocated to the individual accounts of participants who are eligible for an allocation for the Plan year based upon the participants' elective deferrals. No Company matching contributions were made for the year ended December 31, 2020.

Participant's accounts: An account is maintained in the name of each participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are allocated to the participants in the same manner as the employer's contribution. For the year ended December 31, 2020, no forfeitures were allocated to the participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account for which the participant is vested.

Vesting: Each participant is fully vested with respect to their voluntary contributions and related income allocated to their account. Employer contributions vest at a rate of 20% per year after two years of service and reaching 100% after six years of service or upon reaching the normal retirement age. Participants may not withdraw their tax-deferred contributions prior to reaching age 59½ except for reasons of financial hardship, disability, death or termination of employment.

Investment options: Upon enrollment in the Plan, a participant may direct employer and employee contributions in any percentage increments into any of the available investment options. Participants may change their investment options in accordance with the rules established by the Plan Administrator.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts once each calendar year with a maximum of two outstanding notes receivable at any one time. The minimum note receivable is \$1,000 with the maximum note receivable not to exceed the lesser of \$50,000 or 50% of the vested account value. The note receivable amount will process as a reduction of the elected investment funds on a pro-rated basis. Note receivable terms may extend to a maximum of five years or up to thirty years for the purchase of a primary residence. The notes receivable have a fixed interest rate determined by the Plan Administrator. Principal and interest is paid ratably through payroll deduction.

Payment of benefits: On termination of service, a participant may receive a lump-sum amount equal to the vested amount of his or her account or upon death, disability or retirement. Participants may also elect to have distributions paid in the form of an annuity. Employees may withdraw their vested interest in the Plan under certain hardship conditions as defined in the Plan agreement.

Administrative expenses: A portion of the Plan's administrative costs are paid by the Plan. Other administrative costs are paid by the Company at the Company's discretion.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become fully vested in their accounts.

Recently adopted accounting pronouncements: Effective January 1, 2020, the Plan adopted the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures.

The following disclosure requirements were removed from Topic 820:

1. The amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy.
2. The policy for timing of transfers between levels.
3. The valuation processes for Level 3 fair value measurements.
4. For nonpublic entities, the changes in unrealized gains and losses for the year included in earnings for recurring Level 3 fair value measurements held at the end of the reporting year.

The following disclosure requirements were modified in Topic 820:

1. In lieu of a roll forward for Level 3 fair value measurements, a nonpublic entity is required to disclose transfers into and out of Level 3 of the fair value hierarchy and purchases and issues of Level 3 assets and liabilities.
2. For investments in certain entities that calculate net asset value (NAV), an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions form redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly.
3. The amendments clarify that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurements as of the reporting date.

Subsequent events: The Plan Administrator has evaluated subsequent events through August 19, 2021, the date the financial statements were available to be issued.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Contributions: Participant contributions and Company matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Additional discretionary contributions approved by the Company's board of directors are recognized in the year of service.

Payment of benefits: Distributions are recognized when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 3. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by Transamerica Financial Insurance Company (Transamerica), the trustee of the Plan and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

The trustee also certified the completeness and accuracy of the following for the year ended December 31, 2020:

Net appreciation in fair value of investments	<u>\$ 891,945</u>
Interest income on notes receivable from participants	<u>\$ 3,916</u>

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Shares of registered investment companies: Valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Shares of stable value account: The stable value account is valued at NAV. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

	2020			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 6,640,189	\$ -	\$ -	\$ 6,640,189
Total assets in the fair value hierarchy	\$ 6,640,189	\$ -	\$ -	6,640,189
Investments measured at NAV ^(a)				371,662
Investments at fair value				\$ 7,011,851

	2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 5,691,145	\$ -	\$ -	\$ 5,691,145
Total assets in the fair value hierarchy	\$ 5,691,145	\$ -	\$ -	5,691,145
Investments measured at NAV ^(a)				191,665
Investments at fair value				\$ 5,882,810

^(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investments measured using the NAV per share practical expedient: The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2020 and 2019. There are no participant or Plan redemption restrictions for these investments.

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2020	2019

Notes to Financial Statements

Note 5. Tax Status

Effective January 1, 2015, the Plan adopted a standardized form of a prototype plan sponsored by the Company. The prototype plan received an opinion letter dated June 30, 2020, from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 6. Party-in-Interest Transactions

Transamerica is the trustee as defined by the Plan. Fees paid by the Plan for administrative services provided by Transamerica amounted to \$39,037 for the year ended December 31, 2020.

Note 7. COVID-19 Pandemic, Economic Uncertainty

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it a pandemic. The coronavirus and actions taken to mitigate the spread of it have and are expected to have an adverse impact on the economies and financial markets of many countries, including the United States of America. On March 27, 2020, the Coronavirus Aid, Relief, Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The Plan has implemented certain provisions allowed by the CARES Act, which allows special coronavirus-related distributions. The features with this act were implemented during the year, as required by the IRS. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance. It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan.
