December 31, 2020 and 2019**Note 1 - Plan Description**

The following description of KONE Inc. Employees Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of KONE Inc. (the "Company"). An eligible employee may elect to begin participating in the Plan as soon as he or she completes the age and service requirements that apply to such employee based on his or her job classification. If an eligible employee has not already enrolled in the Plan after he or she satisfies such requirements, the eligible employee will be automatically enrolled in the Plan at a pretax contribution rate of 4 percent of his or her eligible compensation, with contributions invested in designated funds until changed by the participant. If an eligible employee does not want to be automatically enrolled in the Plan, the eligible employee must make an affirmative election not to contribute to the Plan or to contribute at a different contribution rate.

If a participant is automatically enrolled in the Plan, his or her pretax contribution rate will automatically increase by 1 percentage point on each April 1, up to a maximum of 15 percent, unless the participant opts out of the Plan or changes his or her contribution rate. However, if a participant is automatically enrolled in the Plan between October 1 and March 31, the automatic annual increase to his or her pretax contribution rate will not become effective until the second April 1 after the participant is automatically enrolled in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC).

Contributions

Participants may contribute between 1 percent and 75 percent of their eligible compensation to the Plan each payroll period as pretax contributions, subject to maximum tax-deferred limitations established by the IRC. Participants may also contribute up to 50 percent of their eligible compensation to the Plan on an after-tax basis. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Rollover contributions were approximately \$2,706,000 and \$3,895,000 for the years ended December 31, 2020 and 2019, respectively.

The Plan provides for employer matching contributions equal to 100 percent of the first 4 percent of the eligible compensation that a participant contributes to the Plan as pretax and catch-up contributions.

The Plan also provides for discretionary nonmatching contributions, as determined by the Company's board of directors, in its discretion, and allocates based on the eligible compensation of each participant during the plan year. The Company did not make nonmatching contributions to the Plan for the plan years ended December 31, 2020 and 2019.

During 2019, certain participant contributions were paid after the time frame required by the Department of Labor. The Company remitted these contributions and related lost earnings to the Plan in 2020.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, and specific participant transactions. The benefit a participant is entitled to receive is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

December 31, 2020 and 2019**Note 1 - Plan Description (Continued)*****Vesting***

Participants are always 100 percent vested in any contributions they make to the Plan and investment earnings, if any, on those contributions. Therefore, pretax, catch-up, after-tax, and rollover contributions credited to participants' accounts are always 100 percent vested. Most participants are also 100 percent vested in the employer contributions, including both matching and nonmatching contributions, made to the Plan on their behalf. However, matching and nonmatching contributions made to the Plan on behalf of certain participants are subject to a vesting schedule based on years of service. For such a participant, vesting occurs at the rate of 20 percent for each year of service beginning after the participant completes his or her second year of service with the Company and its affiliates, until the participant becomes fully vested after six years of service.

A participant will also become 100 percent vested in the matching and nonmatching contributions made to the Plan on his or her behalf if the participant terminates employment with the Company and its affiliates due to death or disability or after reaching his or her early or normal retirement date.

Benefit Payments

A participant may elect to receive his or her benefit in a lump sum or, if a participant is eligible for early, normal, or disability retirement, periodic installments. The beneficiary of a deceased participant may also elect to receive a lump sum or periodic installment payments. Participants are also allowed to make hardship withdrawals under certain circumstances.

In accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) Act, between March and December 31, 2020, eligible participants could request a coronavirus-related distribution (CRD) of up to \$100,000 from their participant accounts without being subject to the Internal Revenue Service 10 percent early distribution tax. Participants may elect to repay some or all of their CRD within three years.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2020 and 2019, forfeited account balances were insignificant.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participants' accounts and bear interest at rates that range from 4.25 percent to 6.50 percent, which are commensurate with local prevailing rates determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

December 31, 2020 and 2019

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common/collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in mutual funds and individual stocks. All other investments are valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by participants through allocations in their participant accounts or paid directly by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 19, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

December 31, 2020 and 2019

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2020 and 2019:

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 16, 2014 indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the IRC. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

December 31, 2020 and 2019**Note 1 - Plan Description**

The following description of KONE Inc. Employees Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of KONE Inc. (the "Company"). An eligible employee may elect to begin participating in the Plan as soon as he or she completes the age and service requirements that apply to such employee based on his or her job classification. If an eligible employee has not already enrolled in the Plan after he or she satisfies such requirements, the eligible employee will be automatically enrolled in the Plan at a pretax contribution rate of 4 percent of his or her eligible compensation, with contributions invested in designated funds until changed by the participant. If an eligible employee does not want to be automatically enrolled in the Plan, the eligible employee must make an affirmative election not to contribute to the Plan or to contribute at a different contribution rate.

If a participant is automatically enrolled in the Plan, his or her pretax contribution rate will automatically increase by 1 percentage point on each April 1, up to a maximum of 15 percent, unless the participant opts out of the Plan or changes his or her contribution rate. However, if a participant is automatically enrolled in the Plan between October 1 and March 31, the automatic annual increase to his or her pretax contribution rate will not become effective until the second April 1 after the participant is automatically enrolled in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC).

Contributions

Participants may contribute between 1 percent and 75 percent of their eligible compensation to the Plan each payroll period as pretax contributions, subject to maximum tax-deferred limitations established by the IRC. Participants may also contribute up to 50 percent of their eligible compensation to the Plan on an after-tax basis. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Rollover contributions were approximately \$2,706,000 and \$3,895,000 for the years ended December 31, 2020 and 2019, respectively.

The Plan provides for employer matching contributions equal to 100 percent of the first 4 percent of the eligible compensation that a participant contributes to the Plan as pretax and catch-up contributions.

The Plan also provides for discretionary nonmatching contributions, as determined by the Company's board of directors, in its discretion, and allocates based on the eligible compensation of each participant during the plan year. The Company did not make nonmatching contributions to the Plan for the plan years ended December 31, 2020 and 2019.

During 2019, certain participant contributions were paid after the time frame required by the Department of Labor. The Company remitted these contributions and related lost earnings to the Plan in 2020.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, and specific participant transactions. The benefit a participant is entitled to receive is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

December 31, 2020 and 2019**Note 1 - Plan Description (Continued)*****Vesting***

Participants are always 100 percent vested in any contributions they make to the Plan and investment earnings, if any, on those contributions. Therefore, pretax, catch-up, after-tax, and rollover contributions credited to participants' accounts are always 100 percent vested. Most participants are also 100 percent vested in the employer contributions, including both matching and nonmatching contributions, made to the Plan on their behalf. However, matching and nonmatching contributions made to the Plan on behalf of certain participants are subject to a vesting schedule based on years of service. For such a participant, vesting occurs at the rate of 20 percent for each year of service beginning after the participant completes his or her second year of service with the Company and its affiliates, until the participant becomes fully vested after six years of service.

A participant will also become 100 percent vested in the matching and nonmatching contributions made to the Plan on his or her behalf if the participant terminates employment with the Company and its affiliates due to death or disability or after reaching his or her early or normal retirement date.

Benefit Payments

A participant may elect to receive his or her benefit in a lump sum or, if a participant is eligible for early, normal, or disability retirement, periodic installments. The beneficiary of a deceased participant may also elect to receive a lump sum or periodic installment payments. Participants are also allowed to make hardship withdrawals under certain circumstances.

In accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) Act, between March and December 31, 2020, eligible participants could request a coronavirus-related distribution (CRD) of up to \$100,000 from their participant accounts without being subject to the Internal Revenue Service 10 percent early distribution tax. Participants may elect to repay some or all of their CRD within three years.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2020 and 2019, forfeited account balances were insignificant.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participants' accounts and bear interest at rates that range from 4.25 percent to 6.50 percent, which are commensurate with local prevailing rates determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2020 and 2019:

Note 1 - Plan Description

The following description of KONE Inc. Employees Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of KONE Inc. (the "Company"). An eligible employee may elect to begin participating in the Plan as soon as he or she completes the age and service requirements that apply to such employee based on his or her job classification. If an eligible employee has not already enrolled in the Plan after he or she satisfies such requirements, the eligible employee will be automatically enrolled in the Plan at a pretax contribution rate of 4 percent of his or her eligible compensation, with contributions invested in designated funds until changed by the participant. If an eligible employee does not want to be automatically enrolled in the Plan, the eligible employee must make an affirmative election not to contribute to the Plan or to contribute at a different contribution rate.

If a participant is automatically enrolled in the Plan, his or her pretax contribution rate will automatically increase by 1 percentage point on each April 1, up to a maximum of 15 percent, unless the participant opts out of the Plan or changes his or her contribution rate. However, if a participant is automatically enrolled in the Plan between October 1 and March 31, the automatic annual increase to his or her pretax contribution rate will not become effective until the second April 1 after the participant is automatically enrolled in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC).

Contributions

Participants may contribute between 1 percent and 75 percent of their eligible compensation to the Plan each payroll period as pretax contributions, subject to maximum tax-deferred limitations established by the IRC. Participants may also contribute up to 50 percent of their eligible compensation to the Plan on an after-tax basis. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Rollover contributions were approximately \$2,706,000 and \$3,895,000 for the years ended December 31, 2020 and 2019, respectively.

The Plan provides for employer matching contributions equal to 100 percent of the first 4 percent of the eligible compensation that a participant contributes to the Plan as pretax and catch-up contributions.

The Plan also provides for discretionary nonmatching contributions, as determined by the Company's board of directors, in its discretion, and allocates based on the eligible compensation of each participant during the plan year. The Company did not make nonmatching contributions to the Plan for the plan years ended December 31, 2020 and 2019.

During 2019, certain participant contributions were paid after the time frame required by the Department of Labor. The Company remitted these contributions and related lost earnings to the Plan in 2020.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, and specific participant transactions. The benefit a participant is entitled to receive is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

December 31, 2020 and 2019**Note 1 - Plan Description (Continued)*****Vesting***

Participants are always 100 percent vested in any contributions they make to the Plan and investment earnings, if any, on those contributions. Therefore, pretax, catch-up, after-tax, and rollover contributions credited to participants' accounts are always 100 percent vested. Most participants are also 100 percent vested in the employer contributions, including both matching and nonmatching contributions, made to the Plan on their behalf. However, matching and nonmatching contributions made to the Plan on behalf of certain participants are subject to a vesting schedule based on years of service. For such a participant, vesting occurs at the rate of 20 percent for each year of service beginning after the participant completes his or her second year of service with the Company and its affiliates, until the participant becomes fully vested after six years of service.

A participant will also become 100 percent vested in the matching and nonmatching contributions made to the Plan on his or her behalf if the participant terminates employment with the Company and its affiliates due to death or disability or after reaching his or her early or normal retirement date.

Benefit Payments

A participant may elect to receive his or her benefit in a lump sum or, if a participant is eligible for early, normal, or disability retirement, periodic installments. The beneficiary of a deceased participant may also elect to receive a lump sum or periodic installment payments. Participants are also allowed to make hardship withdrawals under certain circumstances.

In accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) Act, between March and December 31, 2020, eligible participants could request a coronavirus-related distribution (CRD) of up to \$100,000 from their participant accounts without being subject to the Internal Revenue Service 10 percent early distribution tax. Participants may elect to repay some or all of their CRD within three years.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2020 and 2019, forfeited account balances were insignificant.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participants' accounts and bear interest at rates that range from 4.25 percent to 6.50 percent, which are commensurate with local prevailing rates determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

December 31, 2020 and 2019

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common/collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in mutual funds and individual stocks. All other investments are valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by participants through allocations in their participant accounts or paid directly by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 19, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

December 31, 2020 and 2019

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2020 and 2019:

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 16, 2014 indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the IRC. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
