Notes to Financial Statements

December 31, 2020 and 2019

Note 1: Description of Plan

The following description of Dairy Union Employees Benefit Fund (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a multiemployer defined contribution plan covering employees of contributing employers who are subject to the collective bargaining agreements between Teamsters Local Union No. 293 (the “Union”) and the related employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Board of Trustees determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Contributions

Contributions to the Plan are made by employers based upon each day or partial day an employee is paid by an employer, as defined by the Plan. The contribution rates are agreed upon between each employer and the Union pursuant to the plan agreement and the specific collective bargaining agreement. Contributions are remitted monthly by employers and include an employer paid portion and a participant paid portion. Employers withhold the participant’s portion of the contribution from the participant’s pay (after-tax) and remit both portions to the Plan. The participant paid contribution rate is set by the specific collective bargaining agreement for each employer. Participants may not elect a different contribution rate and may not make additional contributions to the Plan.

Participant Accounts

Each participant’s account is credited with the contributions and an allocation of the Plan’s earnings. Participant accounts are charged with an allocation of expenses incurred by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants have 100% immediate vested rights to their accounts.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a life annuity, life 10 year certain annuity, installments payable over a period of years specified by the participant until the participant’s account is exhausted, or as a lump sum amount equal to the value of the participant’s vested interest in his or her account.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Modifications to the cash basis of accounting include reporting investments at fair market value; consequently, contributions are recognized when received rather than when earned and operating expenses are recognized when paid rather than when the obligation is incurred.

Use of Estimates

The preparation of financial statements in accordance with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value and are nonparticipant-directed investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through June 22, 2021, the date the financial statements were available to be issued.

Notes to Financial Statements

December 31, 2020 and 2019

Note 3: Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2020 and 2019, and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2020 and 2019, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Huntington Bank (the custodian of the Plan).

Note 4: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Money market fund: Valued at amortized cost plus accrued interest, which approximates fair value.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Dairy Union Employees Benefit Fund

Notes to Financial Statements

December 31, 2020 and 2019

Note 4: Fair Value Measurements (continued)

Corporate bonds and U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019.

Note 6: Related-Party Transactions and Party-in-Interest Transactions

The Union contributes to the Plan on behalf of its employees to obtain benefits. The Union is an employer organization whose members were covered by the Plan under a participation agreement. During the years ended December 31, 2020 and 2019, the Union contributed to the Plan \$21,500 and \$22,800, respectively.

The Plan reimburses the Union for expenses incurred by the Union in administering the Plan. These expenses include an allocation of rent and office expenses, based mainly upon the percentage of space utilized by the Plan in the Union office. For the years ended December 31, 2020 and 2019, the Plan paid \$7,434 and \$7,403, respectively, for these services.

The Plan reimburses Teamsters Union Local 293 Pension Plan (the "Teamsters Plan") for expenses incurred by the Teamsters Plan personnel in administering the Plan. These expenses are based upon the time spent by the Teamsters Plan personnel. For the years ended December 31, 2020 and 2019, the Plan paid \$1,879 and \$2,645, respectively, for these services.

The Plan has several arrangements with service providers. These transactions are party-in-interest transactions under ERISA.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Plan can terminate subject to provisions of ERISA. If the Plan is terminated, or if all employer and participant contributions end, the total plan assets, after providing for plan expenses, shall be distributed in the same ratio as the participant's individual account to the total individual accounts of all participants.

December 31, 2020 and 2019

Note 8: Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated October 8, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

The modified cash basis of accounting requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (modified cash basis).

In early calendar 2020, the Union began dealing with the effects of the Coronavirus pandemic (COVID-19). Disruptions to business operations, including government mandated actions and employee, supplier and customer related challenges have impacted many businesses. The financial markets have experienced high volatility. The Union's membership base has experienced layoffs and reductions in working hours during the year ended December 31, 2020. These contributions have resulted in the Plan experiencing decreases in contributions revenue and decreased net appreciation in fair value of investments. The effect of COVID-19 has continued subsequent to year-end and management is unable to determine the impact it will have on the Plan.

Note 10: Concentrations

During the year ended December 31, 2020, two employers each contributed over 30% of total contributions made to the Plan for a total of over 93% of total contributions. The total contributed was \$70,000 and is considered to be a concentration. During the year ended December 31, 2019, two employers each contributed over 30% of total contributions made to the Plan for a total of over 83% of total contributions. The total contributed was \$74,970 and is considered to be a concentration.
