NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Stock Development Associates, Inc. 401(k) Profit Sharing Plan (the Plan) provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is a defined contribution plan established for the benefit of the employees of Stock Development Associates, Inc. (the Company).

General

The Plan is a defined contribution plan originally effective January 1, 2008. The Plan has been amended throughout the years to comply with tax legislation and most recently amended effective October 30, 2020. The Plan excludes leased employees, nonresident aliens and employees covered by a collective bargaining agreement. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective April 1, 2020, the Plan adopted certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") due to the COVID-19 global pandemic, which allows participants to take special withdrawals and defer loan repayments as permitted under the CARES Act.

Eligibility

All employees are eligible to participate in the Plan after the completion of six months of service and attaining age 20. The employee enters the Plan on the first day of the fiscal quarter following the completion of the eligibility requirement.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as either pre-tax 401(k) contributions or post-tax contributions (Roth) to the Plan. Participants age 50 or older are allowed to make catch-up contributions.

The Company matching contribution was 50% of deferral contributions up to 6% of eligible compensation. The Company may, at its discretion, elect to make a profit sharing contribution to the Plan. For the year ended December 31, 2020, there was no profit sharing contribution made by the Company.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or IRAs. Contributions are subject to certain limitations. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's salary deferral, the Company's matching contribution, an allocation of the Company's profit sharing contribution, and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances as defined. Income is allocated daily based on the shares in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Participants also become fully vested in their account in the event of death, disability, or upon attaining the Plan's normal retirement age, all as defined in the plan document. Vesting in the Company's discretionary non-elective contributions, plus actual earnings thereon, is based upon years of service with the Company. Participants vest in Company contributions based upon the following schedule:

Years of Service	Vested Percentage
0 years	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Investment Options

Participants direct the investment of their contributions plus actual earnings thereon into various investment options offered by the Plan. Participants may change their investment options daily.

Forfeited Accounts

Forfeited nonvested accounts may be used to reduce employer contributions or to pay administrative expenses, at the discretion of the Company. Forfeited nonvested accounts as of December 31, 2020 and 2019 totaled $8,341 and $110, respectively. There were $21,839 of forfeitures used to reduce employer contributions for the year ended December 31, 2020.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance and may not exceed more than two loans at a time. The Plan allows participants to borrow funds from the Plan based on certain conditions. Notes receivable are repaid through payroll deductions. Note terms are up to five years, except for notes used to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years but may not extend beyond 10 years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. The interest rates charged on all participant loans outstanding ranged from 4.25% to 6.50% for the years ended December 31, 2020 and 2019. Principal and interest are paid ratably through payroll deductions.

Benefit Payments

The benefit to which a participant is entitled is the benefit that can be provided by the participant's account. Upon termination of service, death, disability, or retirement (age 65), the participant will receive the value of the vested interest in his or her account. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant's account balance does not exceed $5,000, the Plan administrator will authorize the benefit payment without the participant's consent.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investment options such as, but not limited to, a variety of investment securities. Investment securities in general are exposed to various risks, such as interest rate, market volatility, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

COVID-19, a global pandemic, has adversely impacted the global economy by disrupting supply chains, lowering equity market valuations, creating significant volatility and disruption in financial markets, and increasing unemployment levels. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. As of the date of issuance, the ultimate length and future severity of this pandemic cannot be reasonably estimated.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Company pays certain administrative expenses on behalf of the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. No allowances for credit losses have been recorded as of December 31, 2020 and 2019.

Recent Accounting Pronouncements

In July 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-09, *Codification Improvements*, which made changes to a variety of topics, to clarify, correct errors in, or make minor improvements to the Accounting Standards Codification. The Plan adopted the standard for the 2020 plan year. Adoption of the standard did not have a material impact on the financial statements.

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement - Disclosure Framework* (Topic 820). The updated guidance improves the disclosure requirements for fair value measurements. The Plan adopted the standard for the 2020 plan year. Adoption of the standard did not have a material impact on the financial statements.

Reclassifications

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 5, 2021, the date the financial statements were available to be issued. Based on such evaluation, no events have occurred, that in the opinion of management, warrant disclosure in or adjustment to the financial statements.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (the "Trustee") certified that the following data included in the financial statements and supplemental schedule is complete and accurate.

a) Investments, at fair value and notes receivable from participants, shown in the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019.

b) Net investment income and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020.

c) Schedule H, line 4i - schedule of assets (held at end of year), as of December 31, 2020.

The Plan's independent certified public accountants did not perform auditing procedures with respect to the information, except for comparing such information certified by the Trustee to the related information included in the financial statements and supplemental schedule.

NOTE 4 - FAIR VALUE OF MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds - Valued at the net asset value (NAV) of shares held by the Plan at year-end. The mutual funds provide for daily redemptions by the Plan at reported NAVs with no advance notice requirement.

Money market funds - Valued at cost plus accrued interest, which approximate fair value. The funds have no restrictions from redemption

Common stock - Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,321,977	$ -	$ -	$ 7,321,977
Money market fund	1,130,055	-	-	1,130,055
Common stock	19,740	-	-	19,740
Total investments at fair value	$ 18,471,772	$ -	$ -	$ 18,471,772

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,274,767	$ -	$ -	$ 15,274,767
Money market fund	198,854	-	-	198,854
Common stock	17,406	-	-	17,406
Total investments at fair value	$ 15,491,027	$ -	$ -	$ 15,491,027

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

NOTE 6 - TAX STATUS

The Plan was placing reliance on an opinion letter dated March 31, 2014 received from the Internal Revenue Service (IRS) on the prototype plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The prototype plan has been amended since receiving the opinion letter, and The Plan obtained a new opinion letter dated June 30, 2020. Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by the Trustee and affiliates; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment administrative services were $58,261 for the year ended December 31, 2020. Certain administrative expenses of the Plan are paid by the Company. . Notes receivable from participants are considered party-in-interest transactions, because they are transacted with plan participants.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Stock Development Associates, Inc. 401(k) Profit Sharing Plan (the Plan) provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is a defined contribution plan established for the benefit of the employees of Stock Development Associates, Inc. (the Company).

General

The Plan is a defined contribution plan originally effective January 1, 2008. The Plan has been amended throughout the years to comply with tax legislation and most recently amended effective October 30, 2020. The Plan excludes leased employees, nonresident aliens and employees covered by a collective bargaining agreement. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective April 1, 2020, the Plan adopted certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") due to the COVID-19 global pandemic, which allows participants to take special withdrawals and defer loan repayments as permitted under the CARES Act.

Eligibility

All employees are eligible to participate in the Plan after the completion of six months of service and attaining age 20. The employee enters the Plan on the first day of the fiscal quarter following the completion of the eligibility requirement.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as either pre-tax 401(k) contributions or post-tax contributions (Roth) to the Plan. Participants age 50 or older are allowed to make catch-up contributions.

The Company matching contribution was 50% of deferral contributions up to 6% of eligible compensation. The Company may, at its discretion, elect to make a profit sharing contribution to the Plan. For the year ended December 31, 2020, there was no profit sharing contribution made by the Company.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or IRAs. Contributions are subject to certain limitations. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's salary deferral, the Company's matching contribution, an allocation of the Company's profit sharing contribution, and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances as defined. Income is allocated daily based on the shares in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Participants also become fully vested in their account in the event of death, disability, or upon attaining the Plan's normal retirement age, all as defined in the plan document. Vesting in the Company's discretionary non-elective contributions, plus actual earnings thereon, is based upon years of service with the Company. Participants vest in Company contributions based upon the following schedule:

Years of Service	Vested Percentage
0 years	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Investment Options

Participants direct the investment of their contributions plus actual earnings thereon into various investment options offered by the Plan. Participants may change their investment options daily.

Forfeited Accounts

Forfeited nonvested accounts may be used to reduce employer contributions or to pay administrative expenses, at the discretion of the Company. Forfeited nonvested accounts as of December 31, 2020 and 2019 totaled $8,341 and $110, respectively. There were $21,839 of forfeitures used to reduce employer contributions for the year ended December 31, 2020.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance and may not exceed more than two loans at a time. The Plan allows participants to borrow funds from the Plan based on certain conditions. Notes receivable are repaid through payroll deductions. Note terms are up to five years, except for notes used to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years but may not extend beyond 10 years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. The interest rates charged on all participant loans outstanding ranged from 4.25% to 6.50% for the years ended December 31, 2020 and 2019. Principal and interest are paid ratably through payroll deductions.

Benefit Payments

The benefit to which a participant is entitled is the benefit that can be provided by the participant's account. Upon termination of service, death, disability, or retirement (age 65), the participant will receive the value of the vested interest in his or her account. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant's account balance does not exceed $5,000, the Plan administrator will authorize the benefit payment without the participant's consent.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investment options such as, but not limited to, a variety of investment securities. Investment securities in general are exposed to various risks, such as interest rate, market volatility, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

COVID-19, a global pandemic, has adversely impacted the global economy by disrupting supply chains, lowering equity market valuations, creating significant volatility and disruption in financial markets, and increasing unemployment levels. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. As of the date of issuance, the ultimate length and future severity of this pandemic cannot be reasonably estimated.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Company pays certain administrative expenses on behalf of the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. No allowances for credit losses have been recorded as of December 31, 2020 and 2019.

Recent Accounting Pronouncements

In July 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-09, *Codification Improvements*, which made changes to a variety of topics, to clarify, correct errors in, or make minor improvements to the Accounting Standards Codification. The Plan adopted the standard for the 2020 plan year. Adoption of the standard did not have a material impact on the financial statements.

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement - Disclosure Framework* (Topic 820). The updated guidance improves the disclosure requirements for fair value measurements. The Plan adopted the standard for the 2020 plan year. Adoption of the standard did not have a material impact on the financial statements.

Reclassifications

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 5, 2021, the date the financial statements were available to be issued. Based on such evaluation, no events have occurred, that in the opinion of management, warrant disclosure in or adjustment to the financial statements.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (the "Trustee") certified that the following data included in the financial statements and supplemental schedule is complete and accurate.

a) Investments, at fair value and notes receivable from participants, shown in the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019.

b) Net investment income and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020.

c) Schedule H, line 4i - schedule of assets (held at end of year), as of December 31, 2020.

The Plan's independent certified public accountants did not perform auditing procedures with respect to the information, except for comparing such information certified by the Trustee to the related information included in the financial statements and supplemental schedule.

NOTE 4 - FAIR VALUE OF MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds - Valued at the net asset value (NAV) of shares held by the Plan at year-end. The mutual funds provide for daily redemptions by the Plan at reported NAVs with no advance notice requirement.

Money market funds - Valued at cost plus accrued interest, which approximate fair value. The funds have no restrictions from redemption

Common stock - Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,321,977	$ -	$ -	$ 7,321,977
Money market fund	1,130,055	-	-	1,130,055
Common stock	19,740	-	-	19,740
Total investments at fair value	$ 18,471,772	$ -	$ -	$ 18,471,772

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,274,767	$ -	$ -	$ 15,274,767
Money market fund	198,854	-	-	198,854
Common stock	17,406	-	-	17,406
Total investments at fair value	$ 15,491,027	$ -	$ -	$ 15,491,027

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

NOTE 6 - TAX STATUS

The Plan was placing reliance on an opinion letter dated March 31, 2014 received from the Internal Revenue Service (IRS) on the prototype plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The prototype plan has been amended since receiving the opinion letter, and The Plan obtained a new opinion letter dated June 30, 2020. Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by the Trustee and affiliates; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment administrative services were $58,261 for the year ended December 31, 2020. Certain administrative expenses of the Plan are paid by the Company. . Notes receivable from participants are considered party-in-interest transactions, because they are transacted with plan participants.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2020 and 2019 to Form 5500:

	2020	2019
