INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants
L3Harris Communication Systems - West Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of L3Harris Communication Systems - West Pension Plan (the "Plan"), which comprise the statement of net assets available for pension benefits as of December 31, 2020 and 2019 and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the 2020 Financial Statements

Our responsibility is to express an opinion on the 2020 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2020 financial statements.

Auditor's Responsibility for the 2019 Financial Statements

Our responsibility is to express an opinion on the 2019 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion on the 2019 Financial Statements* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the 2019 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the investment assets held by Bank of New York Mellon, the trustee of the Plan, and transactions in those assets were excluded from the scope of our audit of the Plan's 2019 financial statements, except for comparing the information provided by the trustee, which is summarized in Note 10, with the related information included in the financial statements.

Disclaimer of Opinion on the 2019 Financial Statements

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion on the 2019 Financial Statements* paragraph, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statements. Accordingly, we do not express an opinion on the 2019 financial statements referred to in the first paragraph.

Opinion on the December 31, 2020 Financial Statements

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding L3Harris Communication Systems - West Pension Plan's net assets available for pension benefits as of December 31, 2020, and the changes therein for the year then ended and its financial status as of December 31, 2019, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Form and Content in Compliance With DOL Rules and Regulations – 2019 Financial Statements

The form and content of the information included in the 2019 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1 - Description of Plan

The following description of the L3Harris Communication Systems - West Pension Plan (formerly L3 Communications Systems-West Retirement Plan) (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan was established effective May 1, 1997 in connection with the acquisition of certain entities, including the L-3 Communication Systems-West division by L3 Technologies, Inc. ("L3"), from Lockheed Martin Corporation ("Lockheed Martin"). On that date, certain participants in the Lockheed Martin Tactical Defense Systems Retirement Plan became participants in the Plan. Lockheed Martin transferred the assets under the Lockheed Martin Tactical Defense Systems Retirement Plan attributable to the accrued benefits of the participants. The Plan's assets were transferred from the Lockheed Martin Tactical Defense Systems Retirement Plan in 1997. The Company transferred the Engineering & Technical Services ("E&TS") business segment from Communication Systems West ("CSW") to the National Security Solutions ("NSS") business segment, formerly known as Stratis. As a result, the definition of eligible employee was changed to include employees of E&TS who were participants while employed by CSW prior to the business transfer and who were employed by NSS.

On June 29, 2019, L3 completed its merger with Harris Corporation (Harris) to create L3Harris Technologies, Inc. (the "Company"). In 2019, investment assets of the Plan were maintained in the L-3 Communications Corporation Master Trust, administered by Bank of New York Mellon ("BNY"), as trustee through December 31, 2019. Effective December 31, 2019, the Plan's funds were transferred to the L3Harris Pension Master Trust. See Note 3 for further information regarding the Master Trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

If a Plan participant is transferred to any business unit within the Company at any time after the effective date of the Plan, any service and compensation earned by the participant of the Plan from the date of transfer until the date of the participant's termination of employment with the Company will be treated as though earned by the participant at the business unit of the Plan. The Company entered into a definitive agreement to sell its NSS business to CACI International, Inc. on December 7, 2015. The transaction was completed on February 1, 2016. There was no impact to the Plan as a result of the sale of NSS as all benefit accruals ceased, effective January 1, 2014, for service performed after December 31, 2013 for employees of E&TS who were participants of the Plan while employed by CSW. The Plan is a non-contributory defined benefit plan covering employees at certain locations of the Company.

(In Thousands)

Note 1 - Description of Plan (Continued)

General (Continued)

Effective December 31, 2020, the Plan was merged into the L3Harris Salaried Pension Plan. The net assets of \$357,067 and related accumulated benefit of the Plan of \$227,877 were transferred to the L3Harris Salaried Pension Plan.

Master Trust

The Northern Trust Company (the "Trustee" or "Northern Trust") serves as trustee of the Plan and administers the Plan's investment assets. The Plan's assets consist of an undivided interest in an investment account of the L3Harris Pension Master Trust, EIN 36-6668234, a master trust established by the Company and administered by the Trustee. The Master Trust includes the combined assets of the Plan, as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan's proportionate share of such assets at December 31, 2020 and 2019.

Eligibility

Effective May 1, 1997, the Plan is frozen to new participants. Effective January 1, 2016, employees who earn in excess of \$180 in the plan year prior to the year under consideration cease to accrue future benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Effective January 1, 2020, benefit accruals under the prior formula have been frozen. Certain participants will accrue under a cash balance formula.

Pension Benefits

The Plan provides a normal retirement benefit for employees at age 65 based on the sum of three formulas, of which two of the formulas use percentage of Final Average Compensation and years of service earned within specified time periods and one formula uses a percentage of compensation earned during the plan year. There is a minimum benefit formula as well which is also calculated using a percentage of the Final Average Compensation and years of service, in addition to a percentage of the integration level. The Integration Level is 50% of the average of the last five years social security wage bases. Benefits vest 100% after 5 years of cumulative service and are payable at age 65. Service in the Prior Plan is considered as service under the Plan.

Note 1 - Description of Plan (Continued)

Pension Benefits (Continued)

The Plan permits early retirement for participants at ages 55 to 64 with at least 5 years of service. The benefit may begin at the date of early retirement, reduced by 6% for each year by which commencement of benefits precedes the normal retirement date (age 65 or age 62 for a participant with 20 or more years of service).

Death Benefits

Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant receives benefits equal to 50% of the amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing 5 years of service, they forfeit the right to receive their accumulated benefits. An additional pre-retirement death benefit of \$5,000 is paid to the beneficiary of a participant who has died after terminating after attaining age 55 with ten years of vesting service.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties (Continued)

The Plan, through the Master Trust, utilizes various investment instruments, including common and preferred stocks, U.S. government securities, corporate debt instruments, partnerships/joint ventures, common collective trusts, hedge funds, cash and cash equivalents, registered investment companies, and other investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the Plan document and the Master Trust agreement. Administrative expenses generally consist of consulting fees, auditing fees, recordkeeping fees, and investment management fees.

Subsequent Events

The Plan evaluated its December 31, 2020 financial statements for subsequent events for recognition or disclosure through October 6, 2021, the date the financial statements were available to be issued.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within its hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

(In Thousands)

Note 4 - Fair Value Measurements (Continued)

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

Asset Valuation Techniques

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Domestic and international equity:

Domestic and international equity includes common and preferred stocks, domestic listed and foreign listed equity securities, unit trust equities, stapled securities, open-ended and closed-ended mutual funds, exchange-traded funds (registered investment companies), and these are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date.

REITs:

Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

Fixed income investments:

Fixed income investments include U.S. government securities, corporate bonds and municipal obligations, which are generally valued using pricing models that use verifiable, observable market data such as interest rates, benchmark yield, and bids provided by brokers or dealers, or quoted prices of securities with similar characteristics.

The fair value of the Level 3 investments is determined using the discounted cash flow method. The unobservable inputs used in this valuation to determine the pricing yield for each security include the 30-year treasury base yield, ranging between 0.11% and 1.53% as of December 31, 2020, and 1.58% and 2.34% as of December 31, 2019. Additional unobservable inputs used include a broker spread, ranging between 1.55% and 5.00% as of December 31, 2020, and 1.65% and 2.75% as of December 31, 2019.

Notes to Financial Statements (Continued)
December 31, 2020 and 2019
(In Thousands)

Note 4 - Fair Value Measurements (Continued)

Short-term investments:

Short-term investments are primarily comprised of short-term money market funds, which invest primarily in short-term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit which are valued at cost, which approximate fair value, or valued at quoted market prices of identical instruments.

Limited partnerships:

Limited partnership funds include buy-out (developing companies), mezzanine (funds providing mezzanine loans to companies), venture capital (start-up companies), distressed asset (distressed companies undergoing bankruptcies, etc.), commodities (businesses in commodity related sectors), real estate (residential, commercial, and industrial real estate), international equity and venture capital, and are typically limited partnership investment structures and/or joint ventures. Limited partnership valuations are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows and market-based comparable data. Net asset value (NAV) is used as a practical expedient to estimate fair value.

Hedge funds:

Hedge funds include equity long/short, event driven, multi-strategy and fund of funds, and are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on net asset value (NAV) calculated by the funds and are not publicly available. NAV is used as a practical expedient to estimate fair value.

Common collective trusts:

Common collective trusts (CCTs) are valued at NAV and are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at NAV, as of the measurement date. NAV is used as a practical expedient to estimate fair value.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

- (a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party. Distributions are generally received through the liquidation of the underlying assets of the funds. Other partnerships include distressed asset investments, venture capital funds, mezzanine funds. These partnerships (except for commodities, real estate, and international equity) are expected to be liquidated in approximately the next three to ten years.
- (b) Redemption restrictions vary, within 30 to 91 days, by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any. In certain cases, full redemption may be extended over a period of time.
- (c) Fund of funds hedges invest in a variety of investments, mainly other hedge funds, of different styles with the goal of generating diversified returns in all types of market environments.
- (d) Other hedge funds include multi-strategy and event driven funds. Multi-strategy funds have an objective to add value from mispriced securities. These funds have entered into full redemption requests and are expected to be liquidated over the next year. Event driven funds are single direct funds attempting to generate returns in all types of market environments with appropriate amounts of risk.

Note 5 - Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2020 and 2019.

Note 6 - Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Note 6 - Accumulated Plan Benefits (Continued)

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2020 and 2019, respectively were:

Mortality basis: For 2020, Pri-2012 mortality tables adjusted to reflect socioeconomic status as of December 22, 2017. Mortality rates are increased by 10%, with this adjustment tapering linearly to 0% starting at age 85 and ending at age 95. These assumed rates are projected generationally with the 2019 Buch projection scale. For 2019, Total Collar RP-2014 Mortality Table (adjusted back to 2006), with mortality rates reduced by 10%, with this adjustment tapering linearly to 0% starting at age 85 and ending at age 95. These assumed rates are projected generationally with the 2017 SSA Intermediate - Cost Projections Scale.

Retirement: Retirement starting at 55 through 70, at varying rates, with 100% by age 70. The retirement assumption at age 65 was 25%.

Discount Rate: 7.75%

The actuarial present value of accumulated plan benefits as of January 1, 2020 is as follows:

Vested accumulated plan benefits:

Retired participants and/or beneficiaries currently receiving benefits	\$ 158,895
Other participants	<u>68,979</u>

Note 7 - Exempt Party-in-Interest Transactions

Certain Master Trust investments are shares of common collective trusts managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain accounting and other administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

Note 8 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 25, 2021, that the Plan is designed in accordance with the applicable sections of the IRC. The plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

L3HARRIS COMMUNICATION SYSTEMS - WEST PENSION PLAN
Notes to Financial Statements (Continued)

(In Thousands)

Note 8 - Tax Status (Continued)

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

Note 9 - Plan Termination

While the Company has not expressed any intent to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.
- d. All vested and non-vested benefits.

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC"), up to specified limits.

**Certain Highly
Compensated
Employees**

Any participant who had "Section 415 earnings" (as defined in Section 5.5(d) of the L3 Technologies Master Savings Plan) in excess of \$180,000 in 2014, ceased to accrue benefits under the Plan as of December 31, 2015. Any other participant who has "Section 415 earnings" in excess of \$180,000 in any calendar year thereafter shall cease to accrue benefits under the Plan as of December 31 of the immediately following calendar year. Any participant who ceases to accrue benefits under the provisions of this paragraph is referred to as a "Frozen HCE".

Any Frozen HCE will resume accruing benefits under the Plan (and will cease to be treated as a Frozen HCE) on the first day of any calendar year following a calendar year in which the "Section 415 earnings" is less than \$160,000.

Service while a Frozen HCE will be treated as cumulative service under the Plan for determining early retirement.

- The "Additional Death Benefit" will not be payable to a participant who is a Frozen HCE at the time of termination.

Forms of Benefit

- *Normal Form:* If married, pension benefits are paid in the form of a 50% joint and survivor annuity unless employee and spouse waive this form. If not waived, the benefit amount otherwise payable is reduced to reflect the joint and survivor coverage. If waived by employee and spouse, or if not married, benefits are payable for the life of the employee without reduction or in any other available optional form elected by the employee in an actuarially equivalent amount.
- *Optional Forms:*
 - Life annuity
 - Joint and 100% survivor annuity – benefit is reduced by the factor equal to 85% plus / (minus) 0.5% for each year a participant is younger / (older) than 65 plus / (minus) 0.5% for each year the beneficiary is older / (younger) than the participant. The factor cannot exceed 95%.
 - Joint and 75% survivor annuity – benefit is reduced by the factor equal to 88.5% plus / (minus) 0.5% for each year a participant is younger / (older) than 65 plus / (minus) 0.5% for each year the beneficiary is older / (younger) than the participant. The factor cannot exceed 96%.
 - Joint and 50% survivor annuity – benefit is reduced by the factor equal to 92% plus / (minus) 0.5% for each year a participant is younger / (older) than 65 plus / (minus) 0.5% for each year the beneficiary is older / (younger) than the participant. The factor cannot exceed 97.5%.
 - Age 62 Social Security adjustment optional form – projected Social Security benefit at age 62 is increased by the appropriate factor from the table below.

Years to 62	Factor
7	.485
6	.535
5	.590
4	.655
3	.725
2	.805
1	.900

- Life annuity with period certain guarantee of 120 or 180 months – For 120 month guarantee, benefit is reduced by the factor equal to 93.5% plus / (minus) 0.5% for each year a participant is younger / (older) than 65. The factor cannot exceed 98.5%. For 180 month guarantee, benefit is reduced by the factor equal to 88% plus / (minus) 1.0% for each year a participant is younger / (older) than 65. The factor cannot exceed 98%.
- *Lump Sum Benefits:* Benefits with a present value less than or equal to \$1,000 are automatically cashed out. Benefits with a present value greater than \$1,000 but less than or equal to \$5,000 are eligible for a lump sum distribution but it will not be paid to the participant prior to his Normal Retirement Age without the participant's consent. If the present value of the benefit is greater than \$5,000 but less than or equal to \$20,000, the participant may elect to receive a lump sum or an annuity.

Actuarial Assumptions and Methodologies

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations. Segal's report as of December 22, 2017 shows a recent analysis upon which these assumptions are based.

Interest:

The interest rates used for the 2020 plan year are the 24-month average corporate bond segment rates for September 2019 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2020, the stabilization corridor is 10%. Under current law, it is scheduled to increase by 5% per year until it reaches 30% for 2024. The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization	3.64%	5.21%	5.94%	5.32%
Current Year, without stabilization	2.79%	3.92%	4.38%	4.01%
Prior Year, reflecting stabilization	3.74%	5.35%	6.11%	5.48%
Prior Year, without stabilization	2.28%	3.81%	4.46%	3.96%

The plan sponsor elected not to apply the segment rates under the American Rescue Plan Act of 2021 ("ARPA") for all purposes for the 2020 plan year.

The interest rates used to determine the PBGC variable-rate premium are the same as those used for funding without reflecting stabilization. These interest rates are based on the plan sponsor's election for the 2020 plan year (an election that can next be changed for the 2025 plan year) and are subject to the constraints established by law.

Mortality Rates

RP-2006 separate employee and annuitant healthy mortality tables, projected through the valuation date plus a number of years that varies by age using scale MP-2018. This assumption is one of the choices allowed by the regulations. This reflects an update to the mandated mortality projection assumption.

Salary Increases

3.25% per year (previously, 3.50% per year).

This assumption is based on historical and current data, adjusted to reflect the economic conditions of the area and/or industry, advice from the sponsor, and estimated future experience and professional judgment.

Description of Weighted Average Retirement Age	Age 64, determined as follows: The weighted-average retirement age is calculated as the sum of the product of each potential past or future retirement age times the probability of surviving to that age and then retiring at that age, assuming no other decrements.			
Retirement From Inactive Status	100% at age 65			
Percent Married	70% for male participants and 55% for female participants. Spouse is assumed to be the opposite gender.			
Age Difference	Male spouses are assumed to be three years older than female spouses.			
Administrative Expenses	<p>An expense assumption is required under the funding rules. Plan-related expenses of \$460,000 are expected to be paid by the plan during the year (previously, \$1,180,000 was assumed).</p> <p>This assumption is based on recent historical data, adjusted to reflect PBGC variable-rate premium changes, advice from the plan sponsor, and estimated future experience and professional judgment.</p>			
Asset Method	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50%, not to exceed the applicable third segment rates of 6.29% for 2018 and 6.11% for 2019.			
Funding Method	<p>Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.</p> <p>If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within seven years. Once that is achieved, or for overfunded plans, the required contribution will generally equal the target normal cost reduced by any overfunding.</p>
