1. Description of Plan

General

Lone Star Communications, Inc. 401(k) Profit Sharing Plan (Plan) is a defined contribution plan that has been established to provide retirement benefits to eligible employees of Lone Star Communications, Inc. (Company). The Plan was established January 1, 1995 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following descriptions provide only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

On March 27, 2020 the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law. The CARES Act allows for certain provisions to participants impacted by COVID-19 such as in-service distributions up to $100,000, loan borrowings up to $100,000, and suspension of loan payments and required minimum distributions. In accordance with the CARES Act, the Plan has until December 31, 2022 to formally amend the plan documents.

Contributions

Participants may contribute pretax annual compensation up to the maximum percentage allowable under the Internal Revenue Code. In addition, any participant, with the Plan administrator's written consent, may contribute to the trust, other than as a voluntary contribution, if the contribution is from another qualified plan. The Company makes safe harbor contributions to the Plan. The Company can make discretionary matching contributions to the Plan in an amount determined by the Company's board of directors. During the year ended December 31, 2020 no discretionary contributions were made.

Participant Accounts

Employees 21 years old and older are eligible to become participants in the Plan after 60 days of employment with the Company. Separate accounts are established for each participant. Participants' accounts are credited with the participants' contributions and allocation of contributions by the Company and Plan earnings.

Vesting

Participants are immediately vested in their contributions and Company safe harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. Participants vest in the Company discretionary contributions in accordance with the following table:

Year of Vesting Service	Percentage
Less than 1 year	0%
1	0%
2	25%
3	50%
4	75%
5	100%

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, employees become fully vested in their accounts.

Distributions to Participants

Distribution of a participant's vested account is available upon the participant's retirement, death, disability, termination of employment or attainment of age 59½. Distributions are available to satisfy a financial hardship meeting the requirements of the Internal Revenue Service (IRS) regulations.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses, and to offset employer contributions to the Plan. During the year ended December 31, 2020, $14,808 of forfeitures were used to offset employer contributions to the Plan. The value of forfeited, non-vested accounts totaled $1 and $14,362 as of December 31, 2020 and 2019, respectively.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net depreciation in fair value of mutual funds.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with U.S. generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities. Actual results could vary from the estimates used in preparing the accompanying financial statements.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. The Plan presents the net change in fair value of investments, which consists of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distributions from such investments, in the accompanying statement of changes in net assets available for benefits.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants

Benefits to participants are recorded when paid.

Risks and Uncertainties

The Plan provides for various investment options in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

3. Fair Value Measurements

Under the Fair Value Measurements and Disclosures topic of the Codification, ASC 820, disclosures are required about how fair value is determined for assets and liabilities and a hierarchy for which these assets and liabilities must be grouped is established, based on significant levels of inputs as follows:

Level 1 quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; and model-derived valuations in which all significant inputs are observable in active markets.

Level 3 valuations derived from valuation techniques in which one or more significant inputs are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are valued using Level 1 inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

Mutual Funds

These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying asset owned by the fund, less its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan also holds other assets not measured at fair value on a recurring basis, including employer and participant contributions receivable. The fair value of these assets approximates the carrying amounts in the accompanying financial statements due to the short maturity of the instruments.

The following table sets forth the Plan's investments at fair value as of December 31:

	2020	2019
Mutual funds	$ 12,165,608	$ 9,648,186

4. Financial Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the trustees, parties-in-interest as defined by ERISA, as of December 31, 2020 and 2019 and for the year ended December 31, 2020, except for comparing such information certified by the trustees to information included in the Plan's financial statements and supplemental schedules. This information consists of the following:

	2020	2019
Investments at fair value	$ 12,165,608	$ 9,648,186
Notes receivable from participants	183,766	233,854
Total	$ 12,349,374	$ 9,882,040
Interest income on notes receivable from participants	$ 12,241	
Interest and dividends	$ 319,902	
Net appreciation in fair value of investments	$ 1,230,670	

5. Tax Status of the Plan

The prototype plan sponsor has received an opinion letter from the IRS dated March 31, 2014, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (IRC) and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three year from the date of filing.

6. Subsequent Events

Plan management has evaluated subsequent events through the date the financial statements were available to be issued and concluded that no additional disclosures are required.

1. Description of Plan

General

Lone Star Communications, Inc. 401(k) Profit Sharing Plan (Plan) is a defined contribution plan that has been established to provide retirement benefits to eligible employees of Lone Star Communications, Inc. (Company). The Plan was established January 1, 1995 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following descriptions provide only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

On March 27, 2020 the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law. The CARES Act allows for certain provisions to participants impacted by COVID-19 such as in-service distributions up to $100,000, loan borrowings up to $100,000, and suspension of loan payments and required minimum distributions. In accordance with the CARES Act, the Plan has until December 31, 2022 to formally amend the plan documents.

Contributions

Participants may contribute pretax annual compensation up to the maximum percentage allowable under the Internal Revenue Code. In addition, any participant, with the Plan administrator's written consent, may contribute to the trust, other than as a voluntary contribution, if the contribution is from another qualified plan. The Company makes safe harbor contributions to the Plan. The Company can make discretionary matching contributions to the Plan in an amount determined by the Company's board of directors. During the year ended December 31, 2020 no discretionary contributions were made.

Participant Accounts

Employees 21 years old and older are eligible to become participants in the Plan after 60 days of employment with the Company. Separate accounts are established for each participant. Participants' accounts are credited with the participants' contributions and allocation of contributions by the Company and Plan earnings.

Vesting

Participants are immediately vested in their contributions and Company safe harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. Participants vest in the Company discretionary contributions in accordance with the following table:

Year of Vesting Service	Percentage
Less than 1 year	0%
1	0%
2	25%
3	50%
4	75%
5	100%

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, employees become fully vested in their accounts.

Distributions to Participants

Distribution of a participant's vested account is available upon the participant's retirement, death, disability, termination of employment or attainment of age 59½. Distributions are available to satisfy a financial hardship meeting the requirements of the Internal Revenue Service (IRS) regulations.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses, and to offset employer contributions to the Plan. During the year ended December 31, 2020, $14,808 of forfeitures were used to offset employer contributions to the Plan. The value of forfeited, non-vested accounts totaled $1 and $14,362 as of December 31, 2020 and 2019, respectively.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net depreciation in fair value of mutual funds.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with U.S. generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities. Actual results could vary from the estimates used in preparing the accompanying financial statements.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. The Plan presents the net change in fair value of investments, which consists of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distributions from such investments, in the accompanying statement of changes in net assets available for benefits.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants

Benefits to participants are recorded when paid.

Risks and Uncertainties

The Plan provides for various investment options in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

3. Fair Value Measurements

Under the Fair Value Measurements and Disclosures topic of the Codification, ASC 820, disclosures are required about how fair value is determined for assets and liabilities and a hierarchy for which these assets and liabilities must be grouped is established, based on significant levels of inputs as follows:

Level 1 quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; and model-derived valuations in which all significant inputs are observable in active markets.

Level 3 valuations derived from valuation techniques in which one or more significant inputs are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are valued using Level 1 inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

Mutual Funds

These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying asset owned by the fund, less its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan also holds other assets not measured at fair value on a recurring basis, including employer and participant contributions receivable. The fair value of these assets approximates the carrying amounts in the accompanying financial statements due to the short maturity of the instruments.

The following table sets forth the Plan's investments at fair value as of December 31:

	2020	2019
Mutual funds	$ 12,165,608	$ 9,648,186

4. Financial Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the trustees, parties-in-interest as defined by ERISA, as of December 31, 2020 and 2019 and for the year ended December 31, 2020, except for comparing such information certified by the trustees to information included in the Plan's financial statements and supplemental schedules. This information consists of the following:

	2020	2019
Investments at fair value	$ 12,165,608	$ 9,648,186
Notes receivable from participants	183,766	233,854
Total	$ 12,349,374	$ 9,882,040
Interest income on notes receivable from participants	$ 12,241	
Interest and dividends	$ 319,902	
Net appreciation in fair value of investments	$ 1,230,670	

5. Tax Status of the Plan

The prototype plan sponsor has received an opinion letter from the IRS dated March 31, 2014, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (IRC) and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three year from the date of filing.

6. Subsequent Events

Plan management has evaluated subsequent events through the date the financial statements were available to be issued and concluded that no additional disclosures are required.
