INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants
L3Harris Salaried Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the L3Harris Salaried Pension Plan (the "Plan"), which comprise the statements of net assets available for pension benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding L3Harris Salaried Pension Plan's net assets available for pension benefits as of December 31, 2020, and the changes therein for the year then ended and its financial status as of December 31, 2019 and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 10 to the financial statements, eight other plans merged into the Plan, effective December 31, 2020. Our opinion is not modified with respect to that matter.

Notes to the Financial Statements

Note 1 - Description of Plan

The following description of the L3Harris Salaried Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit plan covering salaried employees of Harris Corporation (the “Company”). On June 29, 2019, Harris Corporation completed its merger with L3 Technologies, Inc. (“L3”) to create L3Harris Technologies, Inc. The Company continues to be the plan sponsor of the Plan. Also, effective December 31, 2019, the assets of the L-3 Communications Corporation Master Trust were transferred to the L3Harris Pension Master Trust. See Note 3 for further information regarding the Master Trust. Retirement income is provided through a percentage formula using final average compensation, benefit service, and an adjustment for social security. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Master Trust

The Northern Trust Company (the “Trustee” or “Northern Trust”) serves as trustee of the Plan and administers the Plan’s investment assets. The Plan’s assets consist of an undivided interest in an investment account of the L3Harris Pension Master Trust, EIN 36-6668234, a master trust established by the Company and administered by the Trustee. The Master Trust includes the combined assets of the Plan, as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan’s proportionate share of such assets at December 31, 2020 and 2019.

Eligibility

All Company salaried employees that were hired prior to December 31, 2011, are eligible to participate in the Plan upon the completion of one year of service and are at least age 21.

Note 1 - Description of Plan (Continued)

Pension Benefits

Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by multiplication of the participant's final average compensation by a benefit rate, which depends upon the period of credited service, by the total number of years of credited service, not to exceed 40 years, less applicable social security offset. A participant is 100% vested after three years of service. Prior to that time, the participant is not vested.

The amount of the pension benefit accruals with respect to benefit service and compensation for all persons entitled to benefits under the Plan are frozen as of December 31, 2016. As a result, the Plan implemented a new cash balance formula that will apply to certain active participants which will provide credits to each participant's cash balance account equal to a percentage of compensation plus interest. The credits will cease upon termination of employment and interest will continue to accrue until the cash balance is distributed.

Participants are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of ten years of service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date.

Death and Disability Benefits

A married covered employee who is a vested participant is automatically covered by the vested spouse's benefit that provides for spousal survivorship benefits in the event of the employee's death prior to becoming eligible for early or normal retirement benefits. Also, a participant who is eligible for early or normal retirement is automatically covered by a preretirement survivor's benefit that provides for survivorship benefits payable to the participant's named beneficiary in the event of the participant's death prior to benefit commencement date.

Note 1 - Description of Plan (Continued)

401(h) Account

The Plan includes a medical benefit (health and welfare) component in addition to normal retirement benefits, to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (IRC or the "Code"). A separate account has been established and maintained in the Plan for the net assets related to the health and welfare component ("401(h) Account"). In accordance with Section 401(h) of the Code, the Plan's investments in the 401(h) Account may not be used for, or diverted to, any purpose other than providing health and welfare benefits to retirees and participants. Any assets transferred to the 401(h) Account from the Plan in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the plan year must be transferred out of the account to the Plan. The related obligations for health and welfare benefits are not included in the Plan's actuarial present value of accumulated plan benefits but are reflected as obligations in the financial statements of Harris Corporation Retiree Health and Welfare Plan, the Company's health and welfare benefit plan. Plan participants do not contribute to the 401(h) Account. Employer contributions or qualified transfers to the 401(h) Account are determined annually at the discretion of the plan sponsor.

In December 2012, the 401(h) Account was segregated into two 401(h) subaccounts. One for the funding designated for retiree medical expenses and the other for retiree prescription drug expenses. The Company began drawing down funds from the 401(h) Account to pay for qualified retiree medical and prescription costs in December 2012 and anticipates continuing drawing funds from the 401(h) Account going forward.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Notes to the Financial Statements (Continued)
December 31, 2020 and 2019

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The Plan, through the Master Trust, utilizes various investment instruments, including common and preferred stocks, U.S. government securities, corporate debt instruments, partnerships/joint ventures, common collective trusts, hedge funds, cash and cash equivalents, registered investment companies, and other investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the Plan document and the Master Trust agreement. Administrative expenses generally consist of consulting fees, auditing fees, recordkeeping fees, and investment management fees.

Subsequent Events

The Plan evaluated its December 31, 2020 financial statements for subsequent events for recognition or disclosure through October 6, 2021, the date the financial statements were available to be issued.

Note 3 - Interest in Master Trust

The fair value of the assets and liabilities of the Master Trust at December 31, 2020 and 2019 is presented in the table below. The Plan's percentage interest in the Master Trust was approximately 87.02% and 54.11% at December 31, 2020 and 2019, respectively. The 401(h) Account's percentage interest in the Master Trust was approximately 2.90% and 2.43% at December 31, 2020 and 2019, respectively.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within its hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

L3HARRIS SALARIED PENSION PLAN
Notes to the Financial Statements (Continued)
December 31, 2020 and 2019
(In Thousands)

Note 4 - Fair Value Measurements (Continued)

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

Asset Valuation Techniques

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Domestic and international equity:

Domestic and international equity includes common and preferred stocks, domestic listed and foreign listed equity securities, unit trust equities, stapled securities, open-ended and closed-ended mutual funds, exchange-traded funds (registered investment companies), and these are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date.

REITs:

Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

Fixed income investments:

Fixed income investments include U.S. Government securities, corporate bonds and municipal obligations, which are generally valued using pricing models that use verifiable, observable market data such as interest rates, benchmark yield and bids provided by brokers or dealers, or quoted prices of securities with similar characteristics.

The fair value of the Level 3 investments is determined using the discounted cash flow method. The unobservable inputs used in this valuation to determine the pricing yield for each security include the 30-year treasury base yield, ranging between 0.11% and 1.53% as of December 31, 2020, and 1.58% and 2.34% as of December 31, 2019. Additional unobservable inputs used include a broker spread, ranging between 1.55% and 5.00% as of December 31, 2020, and 1.65% and 2.75% as of December 31, 2019.

L3HARRIS SALARIED PENSION PLAN
Notes to the Financial Statements (Continued)
December 31, 2020 and 2019
(In Thousands)

Note 4 - Fair Value Measurements (Continued)

Short-term investments:

Short-term investments are primarily comprised of short-term money market funds, which invest primarily in short-term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit which are valued at cost, which approximate fair value, or valued at quoted market prices of identical instruments.

Limited partnerships:

Limited partnership funds include buy-out (developing companies), mezzanine (funds providing mezzanine loans to companies), venture capital (start-up companies), distressed asset (distressed companies undergoing bankruptcies, etc.), commodities (businesses in commodity related sectors), real estate (residential, commercial, and industrial real estate), international equity and venture capital, and are typically limited partnership investment structures and/or joint ventures. Limited partnership valuations are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows and market-based comparable data. Net asset value (NAV) is used as a practical expedient to estimate fair value.

Hedge funds:

Hedge funds include equity long/short, event driven, multi-strategy and fund of funds, and are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on net asset value (NAV) calculated by the funds and are not publicly available. NAV is used as a practical expedient to estimate fair value.

Common collective trusts:

Common collective trusts (CCTs) are valued at NAV and are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at NAV, as of the measurement date. NAV is used as a practical expedient to estimate fair value.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following table sets forth a summary of certain changes in fair value of the Plan's Level 3 assets for the years ended December 31, 2020 and 2019:

Note 4 - Fair Value Measurements (Continued)

- (a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party. Distributions are generally received through the liquidation of the underlying assets of the funds. Other partnerships include distressed asset investments, venture capital funds, mezzanine funds, These partnerships (except for commodities, real estate, and international equity) are expected to be liquidated in approximately the next three to ten years.
- (b) Redemption restrictions vary, within 30 to 91 days, by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any. In certain cases, full redemption may be extended over a period of time.
- (c) Fund of funds hedges invest in a variety of investments, mainly other hedge funds, of different styles with the goal of generating diversified returns in all types of market environments.
- (d) Other hedge funds include multi-strategy and event driven funds. Multi-strategy funds have an objective to add value from mispriced securities. These funds have entered into full redemption requests and are expected to be liquidated over the next year. Event driven funds are single direct funds attempting to generate returns in all types of market environments with appropriate amounts of risk.

Note 5 - Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2020 and 2019.

Note 6 - Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries.

Notes to the Financial Statements (Continued)

Note 6 - Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, early retirement, and disability.

The actuarial cost method used to measure the present value of accumulated plan benefits is the accrued benefit method. The significant actuarial assumptions used in the valuations as of January 1, 2020 and 2019, respectively, were:

Mortality: For 2020, the mortality assumption used is based on the PRI-2012 Total Employee and Retiree Mortality Tables with the Buck Modified 2019 Improvement Scale. For current beneficiaries the mortality assumption used is based on the PRI-2012 Contingent Survivor Mortality Tables projected with Buck Modified 2019 Improvement Scale. The Buck Modified Projection Scale is a modified version of MP-2019 improvement scale using a long-term improvement rate of 0.75%. For 2019, the mortality assumption used is based on the RP-2014 Mortality Table with the Buck Modified MP-2018 Projection Scale. The Buck Modified Projection Scale is a modified version of MP-2018 Improvement Scale using a long-term improvement rate of 0.75%.

Retirement age: Retirement starting at 50 through 70, at varying rates, with 100% by age 70. The retirement assumption at age 65 was 50%.

Investment return: 7.75% per annum

Discount rate: 7.75% per annum

Note 6 - Accumulated Plan Benefits (Continued)

The following amounts were calculated as of the latest actuarial valuation date, which was January 1, 2020. The actuarial present value of accumulated plan benefits as of January 1, 2020 is as follows:

Vested accumulated plan benefits:	
Retired participants and/or beneficiaries currently receiving benefits	\$ 2,821,904
Other participants	837,195
	<hr/>
Total vested accumulated plan benefits	3,659,099
Nonvested accumulated plan benefits	10,476
	<hr/>
Total actuarial present value of accumulated plan benefits	<u>\$ 3,669,575</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2020, are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2019	\$ 3,758,454
Increase (decrease) during the year attributable to:	
Benefits accumulated and other	4,386
Benefits paid	(344,337)
Assumption changes	(27,114)
Interest	278,186
	<hr/>
Actuarial present value of accumulated plan benefits at January 1, 2020	<u>\$ 3,669,575</u>

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial present value and the actuarial value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change which may have an impact on the Plan contributions. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

Note 7 - Exempt Party-in-Interest Transactions

Certain Master Trust investments are shares of common collective trusts managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain accounting and other administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

Note 8 - Tax Status

The Plan obtained its latest determination letter on August 25, 2021, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Notes to the Financial Statements (Continued)

Note 9 - Plan Termination (Continued)

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 10 - Plan Transfers

The following plans were merged into the Plan, effective December 31, 2020:

L3Harris Integrated Systems Pension Plan	\$	1,170,053

L3Harris Salaried Pension Plan

EIN/PN: 34-0276860 / 001

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

January 1, 1976

Eligibility for Membership

All salaried employees age 21 with one year of service. The plan has been closed to new participants effective January 1, 2012.

Normal Retirement Allowance

Eligibility

Age 65.

Benefit

For the first 40 years of benefit service, a participant may elect either of the following benefit accruals:

1) Traditional Pension Formula

2% of final average salary (1.5% for employees who became participants after January 1, 2000) during the 5 years of service in the last 10 years giving the highest average, for each of the first 25 years of traditional formula service, plus 1.5% of such final average salary for traditional formula service between 25 and 40 years, reduced by 1.25% of the Social Security benefit multiplied by traditional formula service up to 40 years. An amendment effective January 1, 2012 provided employees a choice to accrue future benefits under (1) the Traditional Pension Formula, or (2) an age-based defined contribution plan. Effective December 31, 2016, accruals under the Traditional Pension formula ceased.

2) Pension Equity (PEP) Formula

Lump sum benefit based on the following percentages of final average salary: under age 30, 3% per year of service, age 30 - age 39, 4% per year of service, age 40 - age 49, 5% per year of service, age 50 and over, 6% per year of service. Total years credited cannot exceed 40. Effective January 1, 2012 (October 31, 2011 for ITT/Xylem employees), accrued percentage of final average salary and final average salary were frozen. Also, effective January 1, 2012, the pension equity formula accruals option was no longer available and the rate of interest to be credited towards the lump sum benefit for Harris employees shall be the 10-year Treasury rate as in effect on December 31 of the prior calendar year but not less than 3.25%.

3) Cash Balance Formula

Effective January 1, 2017, a Cash Balance formula was added for certain eligible employees who were non-highly compensated employees on December 31, 2016. Participants accumulate a Cash Balance Account equal to 1% of each year's compensation plus interest credited monthly based on the 30-year Treasury rate as in effect for the month of November of the prior calendar year.

Special Early Retirement Allowance

Eligibility

For employees who became participants before January 1, 2000, age 55 and 15 years of service or age 50 with age and service totaling 80 or more years. For employees who became participants after December 31, 1999 but before January 1, 2005, age 55 and 15 years of service.

Benefit

For pre-January 1, 2000 participants; accrued pension under the traditional formula can commence as early as age 50 and is reduced 5/12 of 1% for each month that payments commence prior to age 60, but not less than 75% of the unreduced benefit that would have been payable at age 60. For post-December 31, 1999 participants; accrued pension under the traditional formula can commence as early as age 55 and is reduced 5/12 of 1% for each month up to 48 months that payments commence prior to age 62, and further reduced 1/3

L3Harris Salaried Pension Plan

Schedule SB, Part V – Summary of Plan Provisions (continued)

of 1% for each month up to 12 months that payments commence prior to age 58, and further reduced 1/4 of 1% for each month that payments commence prior to age 57. Social Security reduction is not applied before age 62. Accrued pension under PEP and Cash Balance formulas shall be payable in the form of a single lump sum equal to the Account Balances or an actuarially equivalent annuity.

Standard Early Retirement Allowance

Eligibility

Age 55 and 10 years of service.

Benefit

Accrued pension under the traditional formula deferred to age 65 or an immediate benefit reduced 1/4 of 1% for each month that payments commence prior to age 65. (For post- December 31, 2004 participants, the reduction is 6.67% per annum for retirements between ages 60 to 65, and further reduced 3.33% per annum for retirements before age 60.) Social Security reduction is not applied before age 62 for pre-January 1, 2005 participants. Accrued pension under PEP and Cash Balance formulas shall be payable in the form of a single lump sum equal to the Account Balances or an actuarially equivalent annuity.

Vested Benefit

Eligibility

3 years of service.

Benefit

Accrued pension under the traditional formula deferred to age 65 or reduced pension after age 55. Reduction is the same as for the post-December 31, 2004 Standard Early Retirement. Accrued pension under PEP and Cash Balance formulas shall be payable in the form of a single lump sum equal to the Account Balances or an actuarially equivalent annuity.

Vested Spouse Benefit

Eligibility

Death after becoming eligible for a vested benefit and prior to Benefit Commencement. Benefit commences no earlier than earliest retirement date which could have been elected by deceased participant.

Benefit

Traditional Pension Formula - Accrued pension under traditional formula at time of death, adjusted as if participant had retired on date payments to spouse commence under joint and 50% survivorship option, and then died. For a terminated vested participant there is a charge for each year coverage is in effect after termination date up to age 65. Coverage for which a charge is made may be waived with consent of the spouse.

PEP and Cash Balance Formulas - Accrued pension under PEP and Cash Balance formulas payable to the spouse in the form of actuarially equivalent annuity over the spouse's lifetime or as a lump sum equal to the Account Balances.

Automatic Pre-Retirement Survivor Benefit

Eligibility

Death after earlier of age 65 or age 55 with 10 years of service and prior to Benefit Commencement.

Benefit

50% of accrued traditional pension at time of death, no adjustment for early commencement. Accrued pension under PEP and Cash Balance formulas in the form of actuarially equivalent annuity or lump sum payment equal to participant's full Account Balance.

Supplemental Survivor's Benefit

Eligibility

Election available upon the earlier of age 65 or age 55 with 10 years of service. Charge for coverage is 1/2 of 1% for each year in effect.

Benefit

25% of accrued traditional pension, adjusted if beneficiary is more than 5 years younger. Payable to same beneficiary as under Automatic Pre-Retirement Survivor Benefit.

Normal Form of Benefit

Single

Life annuity.

Married

Actuarial equivalent 50% joint and survivor annuity, unless elects otherwise, for vested participants and post-December 31, 2004 participants; 90% Spouse's Contingent Annuity Option for pre- January 1, 2005 participants.

Spouse's Contingent Annuity Option

- (1) 90% (adjusted for difference in ages of more than 5 years) of benefit with 50% of the unreduced benefit payable to spouse after retired member's death.
- (2) 80% (adjusted for difference in ages of more than 5 years) of benefit with the reduced benefit payable to spouse after retired member's death.

Spouse's Contingent Annuity options are not available for vested benefits or for participants hired on or after January 1, 2005.

Standard Contingent Annuity Option

- (1) 100% joint and survivor annuity
- (2) 50 % joint and survivor annuity
- (3) 75 % joint and survivor annuity
- (4) 10 year certain and life

Small Lump Sum

Present value of accrued benefit totaling \$5,000 or less, paid in the form of lump sum.

Maximum Benefit

ERISA maximum as amended by the Tax Reform Act of 1986, the Retirement Protection Act of 1994 (RPA '94) and the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) and IRC Section 401(a)(17) compensation limitations as amended by the Omnibus Budget Reconciliation Act of 1993 and EGTRRA.

Special Benefits

This summary does not include special benefit provisions which may apply to a limited group of employees covered under former plans, certain frozen status members and retirement members. These provisions are taken into account in the valuation.

Summary of Changes from the January 1, 2019 Valuation

None.

Mortality

Mortality tables mandated by current legislation as specified in IRS Regulation 1.430(h)(3)-1, as amended in IRS Notice 2019-26, applied on a static basis.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under the applicable provisions of the Internal Revenue Code and associated regulations. These assumptions are based on the plan sponsor's anticipated experience. Actual experience is reviewed each year and compared to the assumption. Changes are then made, as appropriate, based on this review.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting Limit
2020 Expected Return	7.75%	5.94%	5.94%
2019 Expected Return	7.75%	6.11%	6.11%
2018 Expected Return	7.75%	6.29%	6.29%

The expected asset return assumption was based on an analysis of long term expected returns for the asset classes in which the plan's assets were invested as of the measurement date.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this attachment.

Summary of Changes from the January 1, 2019 Valuation

- The interest rate basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with relevant legislation.
- The mortality assumption was updated according to the projection as specified by IRS Regulation Section 1.430(h)(3)-1, applied on a static basis.
- The assumption changes listed above increased the Funding Target by approximately \$135.9 million.

The amount in line 19b, \$13,389, reflects a payment to the plan's trust to correct an overpayment of benefits. This amount was not made to avoid benefit restrictions as the line's title suggests but instead it is correcting an earlier overpayment.

L3Harris Salaried Pension Plan

EIN/PN: 34-0276860 / 001

Schedule SB, Line 8 – Explanation of Discrepancy in Election to Apply Balances.

The amount shown on the 2020 Schedule SB, line 8 of \$89,846,188 differs from the amount shown on the 2019 Schedule SB, line 35 of \$180,639,448 due to an election made under the American Rescue Plan Act of 2021 (ARPA) to implement the fresh start 15-year amortization provision of ARPA in plan year 2019. As the result of the election, the amount of prefunding balance elected for use to offset funding requirement was decreased.

L3Harris Salaried Pension Plan

EIN/PN: 34-0276860 / 001

Schedule SB, Line 15 – Reconciliation of differences between valuation results and amounts used to calculate AFTAP

The AFTAP of 89.47% that was certified by the Enrolled Actuary on September 29, 2020 cannot be directly calculated from the final valuation results shown on the Schedule SB because an election has been made under the American Rescue Plan Act of 2021 (ARPA) to implement the fresh start 15-year amortization provision of ARPA in plan year 2019. The AFTAP of 89.47% was not re-certified since the change was deemed immaterial.

The following plan values as of January 1, 2020 were taken into account for purposes of the AFTAP certification:

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
