Note 1 - Description of Plan

The following brief description of the Collibra Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of Collibra Inc. (the Company/Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees who are age 21 and older are eligible to enter and participate in the Plan. For purposes of eligibility, the Plan does not have a service requirement.

Entry Date

Employees may enter the Plan immediately following the date they satisfy the Plan's eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as pre-tax, Roth, post-tax, or a combination of all three. Participants may also contribute amounts representing distributions from other qualified plans (rollover). For the period of January 1, 2020 through June 30, 2020, the Company contributed 100% of the first 1% and 50% of the next 5% of base compensation that a participant contributed to the Plan. Effective July 1, 2020, the Company discontinued employer matching contributions. Additional amounts may be contributed at the discretion of the Company's board of directors. No such additional discretionary contributions were made for the year ended December 31, 2020.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until changed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions, as well as allocations of the Company contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's compensation, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment to the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of credited service as set forth in the following table:

Participant's Years of Service	Vested Percentage	
	Employer Matching	Employer Discretionary
1	0%	0%
2	100%	20%
3	100%	40%
4	100%	60%
5	100%	80%
6	100%	100%

Forfeitures

At December 31, 2020 and 2019, forfeited non-vested accounts totaled $59,128 and $0, respectively. These accounts will be used to reduce future employer contributions and/or offset Plan expenses. During the year ended December 31, 2020, no forfeitures were used to offset Plan expenses or reduce employer contributions.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest as defined in the Plan document upon retirement, termination of service, death, or disability. A terminated employee with a balance of less than $1,000 may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between $1,000 and $5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors, the trustee, and other third parties. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan, that are paid by the Plan, are recorded as deductions in the accompanying statement of changes in net asset available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Common collective fund – Valued at fair value based on the NAV of units held of the collective fund. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. The NAV for the underlying assets of the fund is a readily determinable measure of their fair value and is the basis used by the fund for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,398,871	$ -	$ -	$ 12,398,871
Common collective fund	-	255,026	-	255,026
Investments at fair value	$ 12,398,871	$ 255,026	$ -	$ 12,653,897

	2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,543,755	$ -	$ -	$ 6,543,755
Common collective fund	-	9,860	-	9,860
Investments at fair value	$ 6,543,755	$ 9,860	$ -	$ 6,553,615

Note 4 - Information Certified by Fidelity Management Trust Company

The Plan Administrator has elected the method of compliance permitted by the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by Fidelity Management Trust Company, the trustee, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental schedule H, line 4i – schedule of assets held at end of year.

The trustee has certified its statement of accounts as of December 31, 2020 and 2019, and for the year ended December 31, 2020. The statement of accounts include beginning and ending balances of investments held, and all related investment activity during the period, including investments earnings.

Note 5 - Tax Status

The Plan uses a pre-approved plan document sponsored by Fidelity Management Trust Company which received an advisory letter from the Internal Revenue Service (IRS), dated March 31, 2014, stating that the pre-approved document satisfies the applicable provisions of the IRC. The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Related-Party and Party-in-Interest Transactions

Certain Plan investments consist of mutual funds managed by Fidelity Management Trust Company, the trustee as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Delinquent Participation Contributions

It was noted in 2019 that there were delays by the Company in submitting employee contributions to the trustee in the aggregate amount of $427,338. The Company corrected the lost earnings for the late contributions in 2020.

Note 9 - Plan Amendments

Effective July 1, 2020, the Plan was amended and restated to make Company matching contributions discretionary and effectively suspending the Company matching contributions. Participants should refer to the Plan document and accompanying Adoption Agreements for a more complete description of the Plan's restated provisions.

During 2020, the Plan implemented certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) including increasing distribution limits to $100,000 without the 10% early withdrawal tax. The Plan will be formally amended for the provisions of the CARES Act prior to December 31, 2022.

Note 10 - Excess Contributions Payable

Amounts payable to participants due to error corrections are recorded as a liability with a corresponding reduction to the contributions for the year in which the error occurred. The amount of excess contributions was $15,718 at December 31, 2020 and 2019.

Note 11 - Subsequent Events

Effective January 1, 2021, the Plan was amended and restated to reinstate safe harbor matching contributions at 100% of the first 1% and 50% of the next 5% of base compensation that a participant contributes to the Plan.

Effective February 1, 2021, the Plan's definition of compensation was amended to allow for participant deferral contributions on bonuses and commissions.

Effective May 3, 2021, the Plan was amended to allow for participant loans.

Effective July 23, 2021, the Plan was restated to operate under an updated pre-approved plan document sponsored by Fidelity Management Trust Company. There were no significant changes to the Plan's provisions in connection with this restatement.

Participants should refer to the Plan document and accompanying Adoption Agreements for a more complete description of the Plan's restated provisions.

The Plan Sponsor has evaluated subsequent events through September 29, 2021, the date which the financial statements were available to be issued.

Note 1 - Description of Plan

The following brief description of the Collibra Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of Collibra Inc. (the Company/Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees who are age 21 and older are eligible to enter and participate in the Plan. For purposes of eligibility, the Plan does not have a service requirement.

Entry Date

Employees may enter the Plan immediately following the date they satisfy the Plan's eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as pre-tax, Roth, post-tax, or a combination of all three. Participants may also contribute amounts representing distributions from other qualified plans (rollover). For the period of January 1, 2020 through June 30, 2020, the Company contributed 100% of the first 1% and 50% of the next 5% of base compensation that a participant contributed to the Plan. Effective July 1, 2020, the Company discontinued employer matching contributions. Additional amounts may be contributed at the discretion of the Company's board of directors. No such additional discretionary contributions were made for the year ended December 31, 2020.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until changed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions, as well as allocations of the Company contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's compensation, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment to the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of credited service as set forth in the following table:

Participant's Years of Service	Vested Percentage	
	Employer Matching	Employer Discretionary
1	0%	0%
2	100%	20%
3	100%	40%
4	100%	60%
5	100%	80%
6	100%	100%

Forfeitures

At December 31, 2020 and 2019, forfeited non-vested accounts totaled $59,128 and $0, respectively. These accounts will be used to reduce future employer contributions and/or offset Plan expenses. During the year ended December 31, 2020, no forfeitures were used to offset Plan expenses or reduce employer contributions.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest as defined in the Plan document upon retirement, termination of service, death, or disability. A terminated employee with a balance of less than $1,000 may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between $1,000 and $5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Delinquent Participation Contributions

It was noted in 2019 that there were delays by the Company in submitting employee contributions to the trustee in the aggregate amount of $427,338. The Company corrected the lost earnings for the late contributions in 2020.

Note 9 - Plan Amendments

Effective July 1, 2020, the Plan was amended and restated to make Company matching contributions discretionary and effectively suspending the Company matching contributions. Participants should refer to the Plan document and accompanying Adoption Agreements for a more complete description of the Plan's restated provisions.

During 2020, the Plan implemented certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) including increasing distribution limits to $100,000 without the 10% early withdrawal tax. The Plan will be formally amended for the provisions of the CARES Act prior to December 31, 2022.

Note 10 - Excess Contributions Payable

Amounts payable to participants due to error corrections are recorded as a liability with a corresponding reduction to the contributions for the year in which the error occurred. The amount of excess contributions was $15,718 at December 31, 2020 and 2019.

Note 11 - Subsequent Events

Effective January 1, 2021, the Plan was amended and restated to reinstate safe harbor matching contributions at 100% of the first 1% and 50% of the next 5% of base compensation that a participant contributes to the Plan.

Effective February 1, 2021, the Plan's definition of compensation was amended to allow for participant deferral contributions on bonuses and commissions.

Effective May 3, 2021, the Plan was amended to allow for participant loans.

Effective July 23, 2021, the Plan was restated to operate under an updated pre-approved plan document sponsored by Fidelity Management Trust Company. There were no significant changes to the Plan's provisions in connection with this restatement.

Participants should refer to the Plan document and accompanying Adoption Agreements for a more complete description of the Plan's restated provisions.

The Plan Sponsor has evaluated subsequent events through September 29, 2021, the date which the financial statements were available to be issued.

Note 1 - Description of Plan

The following brief description of the Collibra Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of Collibra Inc. (the Company/Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees who are age 21 and older are eligible to enter and participate in the Plan. For purposes of eligibility, the Plan does not have a service requirement.

Entry Date

Employees may enter the Plan immediately following the date they satisfy the Plan's eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as pre-tax, Roth, post-tax, or a combination of all three. Participants may also contribute amounts representing distributions from other qualified plans (rollover). For the period of January 1, 2020 through June 30, 2020, the Company contributed 100% of the first 1% and 50% of the next 5% of base compensation that a participant contributed to the Plan. Effective July 1, 2020, the Company discontinued employer matching contributions. Additional amounts may be contributed at the discretion of the Company's board of directors. No such additional discretionary contributions were made for the year ended December 31, 2020.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until changed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions, as well as allocations of the Company contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's compensation, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment to the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of credited service as set forth in the following table:

Participant's Years of Service	Vested Percentage	
	Employer Matching	Employer Discretionary
1	0%	0%
2	100%	20%
3	100%	40%
4	100%	60%
5	100%	80%
6	100%	100%

Forfeitures

At December 31, 2020 and 2019, forfeited non-vested accounts totaled $59,128 and $0, respectively. These accounts will be used to reduce future employer contributions and/or offset Plan expenses. During the year ended December 31, 2020, no forfeitures were used to offset Plan expenses or reduce employer contributions.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest as defined in the Plan document upon retirement, termination of service, death, or disability. A terminated employee with a balance of less than $1,000 may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between $1,000 and $5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors, the trustee, and other third parties. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan, that are paid by the Plan, are recorded as deductions in the accompanying statement of changes in net asset available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Common collective fund – Valued at fair value based on the NAV of units held of the collective fund. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. The NAV for the underlying assets of the fund is a readily determinable measure of their fair value and is the basis used by the fund for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,398,871	$ -	$ -	$ 12,398,871
Common collective fund	-	255,026	-	255,026
Investments at fair value	$ 12,398,871	$ 255,026	$ -	$ 12,653,897

	2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,543,755	$ -	$ -	$ 6,543,755
Common collective fund	-	9,860	-	9,860
Investments at fair value	$ 6,543,755	$ 9,860	$ -	$ 6,553,615

Note 4 - Information Certified by Fidelity Management Trust Company

The Plan Administrator has elected the method of compliance permitted by the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by Fidelity Management Trust Company, the trustee, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental schedule H, line 4i – schedule of assets held at end of year.

The trustee has certified its statement of accounts as of December 31, 2020 and 2019, and for the year ended December 31, 2020. The statement of accounts include beginning and ending balances of investments held, and all related investment activity during the period, including investments earnings.

Note 5 - Tax Status

The Plan uses a pre-approved plan document sponsored by Fidelity Management Trust Company which received an advisory letter from the Internal Revenue Service (IRS), dated March 31, 2014, stating that the pre-approved document satisfies the applicable provisions of the IRC. The Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Related-Party and Party-in-Interest Transactions

Certain Plan investments consist of mutual funds managed by Fidelity Management Trust Company, the trustee as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Delinquent Participation Contributions

It was noted in 2019 that there were delays by the Company in submitting employee contributions to the trustee in the aggregate amount of $427,338. The Company corrected the lost earnings for the late contributions in 2020.

Note 9 - Plan Amendments

Effective July 1, 2020, the Plan was amended and restated to make Company matching contributions discretionary and effectively suspending the Company matching contributions. Participants should refer to the Plan document and accompanying Adoption Agreements for a more complete description of the Plan's restated provisions.

During 2020, the Plan implemented certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) including increasing distribution limits to $100,000 without the 10% early withdrawal tax. The Plan will be formally amended for the provisions of the CARES Act prior to December 31, 2022.

Note 10 - Excess Contributions Payable

Amounts payable to participants due to error corrections are recorded as a liability with a corresponding reduction to the contributions for the year in which the error occurred. The amount of excess contributions was $15,718 at December 31, 2020 and 2019.

Note 11 - Subsequent Events

Effective January 1, 2021, the Plan was amended and restated to reinstate safe harbor matching contributions at 100% of the first 1% and 50% of the next 5% of base compensation that a participant contributes to the Plan.

Effective February 1, 2021, the Plan's definition of compensation was amended to allow for participant deferral contributions on bonuses and commissions.

Effective May 3, 2021, the Plan was amended to allow for participant loans.

Effective July 23, 2021, the Plan was restated to operate under an updated pre-approved plan document sponsored by Fidelity Management Trust Company. There were no significant changes to the Plan's provisions in connection with this restatement.

Participants should refer to the Plan document and accompanying Adoption Agreements for a more complete description of the Plan's restated provisions.

The Plan Sponsor has evaluated subsequent events through September 29, 2021, the date which the financial statements were available to be issued.
