MTD PRODUCTS INC
SALARIED 401(k) AND DC RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the MTD Products Inc Salaried 401(k) and DC Retirement Plan (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The Plan, established in July 1985, is a defined contribution savings plan providing benefits for the eligible salaried employees of MTD Products Inc (the Company) and its subsidiaries. The Company is the plan sponsor and administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Reliance Trust Company is the trustee of the Plan and Massachusetts Mutual Life Insurance Company (MassMutual) is the Plan's custodian.

Participation

Employees become eligible to participate in the Plan following attainment of age 21 and the completion of 90 days of service. Upon attaining eligibility status, participants are automatically enrolled at a 3% deferral rate unless they elect not to participate or to participate at a different deferral percentage.

Participant Accounts and Contributions

Each participant's account is credited with the participant's contributions, company contributions, and investment fund earnings. Plan participants may make tax-deferred and/or Roth contributions to the Plan of 1% to 70% of their total compensation up to the maximum amounts allowed under the Internal Revenue Code (IRC).

Effective January 1, 2019, the Plan was amended to provide for safe harbor matching contributions for eligible participants. The safe harbor matching contribution is calculated as 100% of participant contributions up to 3% of eligible compensation plus 50% of participant contributions that exceed 3% of eligible compensation but that do not exceed 5% of eligible compensation. In order to qualify for the safe harbor matching contribution, a participant must complete twelve months of service.

Additionally, following attainment of age 21 and the completion of 12 consecutive months of service under the elapsed time method, the Company will make discretionary contributions to the Plan equal to a specified percentage of each participant's base compensation, as defined. For 2020 and 2019, the discretionary contribution represented 4% of the participant's base compensation.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Participants may direct the manner in which their contributions, rollover contributions and employer contributions are allocated among the investment options available under the Plan.

Plan Expenses

The Plan pays certain of the administrative expenses.

Party-in-Interest Transactions

Certain plan investments are managed by and administrative expenses are paid to MassMutual, the custodian of the Plan. These transactions qualify as party-in-interest transactions.

The Plan participated in a plan expense reimbursement account with MassMutual whereby funds are received to pay certain administrative fees of the Plan. Funds received during 2020 and 2019 totaled approximately \$133,000 and \$120,000, respectively. During the years ended December 31, 2020 and 2019, approximately \$133,000 and \$127,000, respectively, of these funds were used to pay plan expenses or allocated to participants.

Vesting

Participants are immediately vested in their contributions and earnings thereon. Through December 31, 2017, vesting in the company contributions and earnings thereon occurred ratably over 5 years of vesting service at which time they will be 100% vested. As a result of a plan amendment, effective January 1, 2018, participants are immediately vested in company contributions and earnings thereon.

Forfeitures

Forfeitures of non-vested account balances shall be used to reduce employer contributions or pay plan expenses. As of December 31, 2020 and 2019, forfeited non-vested accounts totaled approximately \$145,000 and \$67,000, respectively. For the years ended December 31, 2020 and 2019, approximately \$0 and \$13,000 of forfeitures were used to offset employer contributions or pay plan expenses, respectively.

Notes Receivable from Participants

The Plan allows for eligible employees to borrow from their accounts, a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The interest rate must be a reasonable rate as determined by the Plan administrator. Loans bear interest at the prime rate at the time of issuance plus 1%. Maturities on these loans may not exceed five years. The term may be for any period of time not exceeding 15 years if the purpose of the loan is to acquire the participant's principal residence. A participant may have only one loan outstanding at any given time. The interest rates on loans outstanding as of December 31, 2020 range from 4.25% to 6.50%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments

Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. In-service withdrawals are permitted as well, as defined in the Plan. A participant may elect to make a direct rollover, receive a lump-sum amount or periodic payments, subject to the provisions of the Plan. Benefit payments are recorded upon distribution.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA. Upon termination, all amounts credited to participant accounts shall become fully vested and participants will receive a distribution of their total participant account balance.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statements

The financial statements are prepared on the accrual basis of accounting.

Investments

Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As described in Accounting Standards Codification (ASC) 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The MassMutual Fixed Interest Fund is a fully benefit-responsive investment contract.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The trustee has certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment gain (loss) and interest and dividends on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year).

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds: Valued at the net asset values of shares held by the Plan at year end.

Pooled Separate Accounts: Valued using the net asset value per share as determined by the trustee. The value is based on a pro rata share of the market value of the underlying investments in the separate account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2020				
Mutual Funds	\$ <u>199,251,006</u>	\$ <u>-</u>	\$ <u>-</u>	\$ 199,251,006
Measured at net asset value				<u>30,836,308</u>
				\$ <u>230,087,314</u>
December 31, 2019				
Mutual Funds	\$ <u>169,798,386</u>	\$ <u>-</u>	\$ <u>-</u>	\$ 169,798,386
Measured at net asset value				<u>24,962,001</u>
				\$ <u>194,760,387</u>

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in a benefit-responsive investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events generally include significant changes in the operation, or investment strategies of the Plan or significant events impacting the plan sponsor. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

6. FEDERAL INCOME TAXES

In a letter dated March 31, 2014, the Internal Revenue Service (IRS) notified MassMutual that MassMutual's Volume Submitter Profit Sharing Plan is designed in accordance with applicable sections of the IRC.

The Plan was adopted under the above mentioned prototype design and the Company has decided to rely on this letter with respect to qualification of its plan under the applicable sections of the IRC.

The Plan has been amended since its initial adoption. However, the plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no IRS audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

7. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through August 27, 2021, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
