Wilmington College Defined Contribution Retirement Plan
Notes to Financial Statements
December 31, 2020 and 2019

Note A - Description of Plan

The following description of the Wilmington College Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General: The Plan is a defined contribution plan covering all eligible employees of Wilmington College (the "College"). Employees are immediately eligible to participate in the Plan as a contributing participant upon commencement of employment with the College. Students who are employed by the College are generally excluded from participation in the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act ("CARES Act") was signed into law. Plans were permitted to adopt these provisions immediately provided the Plan document is retroactively amended on or before December 31, 2022. Plan management elected the provision whereby for qualified individuals with outstanding loans, loan repayments during the period March 27, 2020 through December 31, 2020, may be deferred for up to one year. The term of the loan will be extended by the length of the deferment period and adjusted for accrued interest.

2. Contributions: Each year, participants may elect to contribute up to the maximum compensation permitted by the Internal Revenue Code ("IRC") in the form of pre-tax contributions to the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make additional catch-up contributions. The Plan provides for a Mandatory Employee Contribution ("MEC") equal to 5% of eligible pre-tax compensation upon the completion of 3 years of eligibility service. For those participants making a MEC, the College makes a matching contribution to the Plan equal to 7% those participants' eligible compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations.
3. Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and College matching contributions, as well as an allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, specific transactions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting: Participants are immediately vested in their account balances.
5. Investment Options: Upon enrollment in the Plan, participants may direct the investment of their accounts into various investment options offered by the Plan. They may change their investment options among those investments provided at any time during the Plan year.
6. Payment of Benefits: Upon termination of service or attaining normal retirement age, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments not exceeding the participant's life expectancy. In-service and hardship withdrawals are also allowed as defined in the Plan agreement.

Note A - Description of Plan (Continued)

7. Notes Receivable from Participants: During 2019, the Plan was amended to allow participants to borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is repaid through payroll deduction or monthly electronic funds transfers. This new platform of loans was implemented in October of 2019. The loans outstanding as of December 31, 2020 totaled \$46,204 (no balance at December 31, 2019). Prior to this amendment loans were available to participants through Teachers Insurance and Annuity Association ("TIAA") and College Retirement Equities Fund("CREF") (collectively "TIAA-CREF"), subject to certain limitations. Plan loans were issued directly from the funds owned by TIAA-CREF and loan proceeds were not removed from a participant's account balance. Adequate security was required; therefore, a portion of the participant's account is held as collateral to cover 110% of the outstanding loan in case of default. These loans are not considered Plan assets. The collateral is held in the TIAA Traditional Annuity. At December 31, 2020 and 2019, participants held \$95,788 and \$147,636, respectively, of collateralized loans from TIAA-CREF.

Note B - Summary of Significant Accounting Policies

1. Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Accounting Standards Codification ("ASC") as produced by the Financial Accounting Standards Board ("FASB") is the sole source of authoritative U.S. GAAP.
2. Use of Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
3. Investment Valuation and Income Recognition: The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

4. Payments of Benefits: Benefits are recorded when paid.
5. Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2020. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.
6. Administrative Expenses: Administrative expenses of the Plan are paid by the College or Plan participants, as defined in the Plan agreement.
7. Investment Management Fees and Operating Expenses: Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

Note B - Summary of Significant Accounting Policies (Continued)

8. Recent Accounting Pronouncement: In August 2018, the FASB issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The Plan has adopted ASU 2018-13 for the 2020 Plan year with no impact on the Plan's net assets or changes in net assets.
9. Subsequent Events: Subsequent events for the Plan have been considered through the date of the Independent Auditor's Report which represents the date the financial statements were available to be issued.

Note C - Certified Information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA-CREF has certified to the completeness and accuracy of substantially all investments and notes receivable from participants information reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2020 and 2019, the Schedule of Assets (Held at End of Year) at December 31, 2020, and the related investment income and interest income on notes receivable from participants information reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020.

Note D - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note D - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Fixed annuity contracts: Certain fixed annuity contracts meet the fully benefit-responsive contract criteria as described in Note E and are excluded from the fair value hierarchy table. The valuation of the Plan's investments in the TIAA Traditional Non Benefit-Responsive Annuity that are included in the fair value hierarchy table require significant judgment due to the absence of quoted market prices. They are valued using the discounted cash flow and theoretical transfer (exit value) methodologies, which approximates fair value. The value of the underlying contract assets equal the accumulated cash contributions, interest credited to the Plan's contracts, and transfer activity, if any.

Variable annuity separate accounts: Each CREF Account, except the CREF Money Market Account, is a separate portfolio with its own investment objective and strategies. Investments are valued at net asset value ("NAV") based on the value of the underlying assets as provided by the issuer. The NAV is used as a practical expedient to estimate fair value. The underlying assets consist primarily of mutual funds, equity securities, fixed income instruments and short-term investments, which are valued based on market quotations or prices obtained from independent pricing sources that may include various pricing methods to value the investments, including matrix pricing. The CREF Money Market Account is valued at amortized cost, which approximates fair value. The investments are redeemable at NAV; however, it is possible that the redemptions rights may be restricted or eliminated in the future. The CREF Accounts allow for daily redemptions at the stated NAV. There are no unfunded commitments.

Pooled separate account: The TIAA Real Estate Account is a variable annuity product valued at the NAV of units held by the Plan at year end. The NAV is used as a practical expedient to estimate fair value. The account is primarily invested in real estate properties that are valued based on third-party appraisals. Due to the nature of the investment, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the pooled separate account and, consequently, the fair value of the Plan's investments. The account allows for daily redemptions at the stated NAV. There are no unfunded commitments.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2020:

	Level 1	Level 2	Level 3	Total
Fixed annuity contracts	\$ -	\$ -	\$ 16,020,935	\$ 16,020,935

Total assets in the fair value hierarchy	<u>\$ 9,077,690</u>	<u>\$ -</u>	<u>\$ 16,020,935</u>	25,098,625
Investments measured at NAV (a)				<u>26,826,067</u>
Investments, at fair value				<u>\$ 51,924,692</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2019:

	Level 1	Level 2	Level 3	Total
Fixed annuity contracts	\$ -	\$ -	\$ 16,007,934	\$ 16,007,934
Mutual funds	<u>8,090,917</u>	<u>-</u>	<u>-</u>	<u>8,090,917</u>
Total assets in the fair value hierarchy	<u>\$ 8,090,917</u>	<u>\$ -</u>	<u>\$ 16,007,934</u>	24,098,851
Investments measured at NAV (a)				<u>24,466,858</u>
Investments, at fair value				<u>\$ 48,565,709</u>

(a) In accordance with FASB guidance, investments measured at fair value using NAV as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to investments at fair value presented in the Statements of Net Assets Available for Benefits.

During the 2020 Plan year, purchases of fixed annuity contracts totaled \$1,647,908. There were no issuance, transfers in or transfers out of these contracts during the year ended December 31, 2020.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the range of values for those inputs.

<u>Instrument</u>	<u>Fair value</u>	<u>Principal valuation technique</u>	<u>Unobservable inputs</u>	<u>Range of significant input values</u>
Fixed annuity contracts	\$ 16,020,935	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.00% - 4.45%

Note E - Fully Benefit-Responsive Investment Contracts

The Plan invests in the TIAA Traditional Benefit-Responsive Annuity which is a fully benefit-responsive contract with TIAA, the issuer. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. TIAA is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. For fixed annuity contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1% to 3% over the life of the respective contracts. Such interest rates are reviewed on an annual basis for resetting. The fixed annuity contracts do not permit the insurance company to terminate the agreement prior to 30 days written notice.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the issuer. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note F - Related Party Transactions

Certain administrative services are provided by the College at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the College.

Certain Plan investments are managed by TIAA-CREF and, therefore, these transactions qualify as party-in-interest.

Wilmington College Defined Contribution Retirement Plan
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note G - Income Tax Status

The Internal Revenue Service ruled on August 7, 2017, that the Volume Submitter 403(b) Plan document sponsored by TIAA and upon which the Plan is based, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H - Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the financial statements.
