Country Pure Foods 401k Plan

Notes to the Financial Statements

December 31, 2020 and 2019

A. PLAN DESCRIPTION

The following description of the Country Pure Foods 401k Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan with an Internal Revenue Service (“IRS”) Code Section 401(k) arrangement which allows Plan participants to elect to contribute a portion of their salaries to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan covers all employees of Country Pure Foods (the “Company”), who have completed six months of service and are age eighteen or older. All newly eligible participants are automatically enrolled at a default rate of 3%, unless they opt out of participation in the Plan.

Effective May 1, 2019, the Plan was amended to cover all employees of the Company who have completed 30 days of service and are eighteen or older.

As of December 24, 2019, the Company was purchased by Blue Point Capital Partners. Management has indicated there has been no decision by the board of directors or new shareholders to terminate the Plan.

Contributions - Contributions to the Plan include both employee salary deferrals and employer contributions. The types of contributions are as follows:

Employee salary deferrals - Participants may defer up to 100% of pre-tax and post-tax (Roth) annual compensation, as defined in the Plan. Participants aged fifty years or older are eligible to make catch-up contributions. The Company, however, may be required to limit the contributions of certain employees to comply with the Internal Revenue Code (“IRC”).

Employer matching contributions - The Company may annually declare a percentage of the union and non-union employee salary deferral contributions that it will match and contribute to the Plan for each participant. Employer matching contributions were approximately \$607,000 during the year ended December 31, 2020.

Employer discretionary contributions - If the Company so elects, it may make discretionary employer contributions other than the matching contribution noted above. No discretionary contributions were made during 2020.

Employer union contributions - The contribution to the union participants is the amount required under the applicable collective bargaining agreement between the employer and union which was extended through March 31, 2024. Total union contributions were approximately \$57,000 during the year ended December 31, 2020.

The Plan also permits rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant’s account is credited with the participant’s contributions, employer contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant’s vested account.

Country Pure Foods 401k Plan

Notes to the Financial Statements

December 31, 2020 and 2019

Participants may direct their contributions to any or all of the investment options provided. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are 100% vested in their contribution and investment earnings thereon. Employer contributions for Country Pure participants are vested on a graded schedule ranging from two to six years. A year of vested service is a year in which a participant has at least 1,000 hours of service. Participants are fully vested upon their death, disability, or retirement if employed by the Company at the time of death, disability, or retirement.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon terms of the Plan document. Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their account balance, reduced by the participant's highest outstanding loan balance during the preceding twelve months. Loan terms range from one to five years unless used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined at the time the loan is taken based on Prime. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service, the participant may elect to receive his or her account balance as a lump-sum payment, in periodic installments, or as an annuity contract. The Plan administrator may automatically make a lump-sum distribution for account balances less than \$1,000. Participants terminated are entitled to receive their benefits as soon as administratively feasible. Distributions of a participant's 401(k) account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

Forfeitures - Non-vested account balances are forfeited upon termination of employment or withdrawal of the vested account balance. Forfeitures are used to reduce employer contributions. During the years ended December 31, 2020 and 2019, forfeitures used to reduce employer contributions were \$75,950 and \$92,906, respectively. Unallocated forfeitures totaled \$273 and \$82 at December 31, 2020 and 2019, respectively.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and trustees. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Country Pure Foods 401k Plan

Notes to the Financial Statements

December 31, 2020 and 2019

Administrative Expenses - Administrative expenses, including third party administrative expenses and investment management fees, are paid from the Plan. Fees attributable to loans, distributions, and deferred payouts are paid by the participants. All other expenses of maintaining the Plan are paid by the Company. Investment related expenses are included in net appreciation in fair value of investments.

C. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Principal, the custodian of the Plan.

Principal has certified as to the completeness and accuracy of the investments it holds (except notes receivable from participants) and changes in net assets arising from said investment activity as of December 31, 2020 and 2019, and for the year ended December 31, 2020.

Principal has certified as to the completeness and accuracy of the schedule of assets (held at end of year) as of December 31, 2020.

D. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board guidance in these financial statements are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Country Pure Foods 401k Plan

Notes to the Financial Statements

December 31, 2020 and 2019

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts (“PSA”): The separate account owns and holds the underlying mutual fund shares which are valued daily at their NAV. Plans and participants hold units of participation in the separate account. The accumulation unit value (“AUV”) is the value of each unit in the separate account and the separate account is valued daily as the number of accumulation units held multiplied by the AUV.

Common/collective trust: Valued at the NAV of units in an investment trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the contract value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2020 and 2019:

Assets at fair value as of December 31, 2020				
	Level 1	Level 2	Level 3	Total

E. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies managed by Principal, the custodian of the Plan. The transactions involving these investments are allowable party-in-interest transactions under ERISA.

Principal provides certain administrative services to the Plan pursuant to a Service Agreement (“SA”) between the Company and Principal. Principal receives revenue from mutual fund service providers for services Principal provides to the funds. The revenue is used to offset certain amounts owed to Principal for its administrative services to the Plan.

If the revenue received by Principal from such mutual fund service providers exceeds the amount owed under the SA, Principal remits the excess to the Plan’s trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. There were no funds in 2020 reported as other income and used to pay administrative expenses.

F. PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company’s contributions.

G. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by letter dated August 8, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended subsequent to receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Country Pure Foods 401k Plan

Notes to the Financial Statements

December 31, 2020 and 2019

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Company has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The COVID-19 pandemic during 2020 has significantly disrupted financial markets, economies, the workforce, healthcare, and other events. As noted above, investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

I. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of the Statements of Net Assets Available for Benefits to the Form 5500 for the years ended December 31, 2020 and 2019:
