The Plan includes a savings feature designed to permit the employee and the Company to contribute to the Plan at amounts allowable under Section 401(k) of the Internal Revenue Code (IRC).

Contributions

Participant contributions consist of pre-tax and/or Roth elective contributions and are made to the Plan by electing to contribute up to 90% of eligible compensation, as defined, subject to the maximum limits allowed by law. Participants who have attained age 50 before the end of a plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from other qualified plans.

The Company may elect to make discretionary matching contributions. For the periods from January 1, 2020 through March 26, 2020 and November 5, 2020 through December 31, 2020, the Company made discretionary matching contributions equal to 25% of the employee's deferrals, not to exceed 8% of the employee's compensation per pay period. For the period from March 27, 2020 through November 4, 2020, the Company made no discretionary matching contributions.

The Company may also make additional discretionary profit-sharing contributions in accordance with the plan document. For the year ended December 31, 2020, the Company did not make any discretionary profit-sharing contributions.

Participant Accounts

Participants direct the investment of their accounts into various investment options offered by the Plan. Under the Plan, earnings and losses are allocated to the participants' accounts daily according to an allocation formula provided in the plan document.

Vesting and Forfeitures

Participants are immediately vested in their contributions, including rollover contributions, plus actual earnings thereon. Vesting in employer contributions is based on years of service. A participant is 100% vested after three years of service. Participants are also fully vested upon attainment of normal retirement age of 65, or upon death or disability, regardless of years of service.

Forfeitures may be used to pay plan expenses or to reduce future employer contributions. The forfeiture balance at December 31, 2020 and 2019 was $22. For the year ended December 31, 2020, forfeitures were utilized to offset employer matching contributions in the amount of $2,203.

Benefit Payments

Distributions may be made to participants upon termination of employment, death, disability, or retirement. In-service withdrawals may be made to participants who have reached the normal retirement age of 65. Additionally, hardship withdrawals may be made to active participants who have demonstrated financial need, subject to provisions of the Plan.

Distributions from the Plan may be paid in the form of a lump sum distribution or installment payments at the discretion of the participant. Upon termination of employment, participants with an account balance of $1,000 or less shall receive an automatic lump sum distribution from the Plan. For participants who terminate with an account balance of more than $1,000 but less than $5,000, the plan administrator shall make a direct rollover into an individual retirement account. Withdrawals from the Plan may be subject to income tax on contributions and income earned.

During 2020, the Plan adopted certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act). As part of the Cares Act, eligible plan participants were permitted to request up to $100,000 in coronavirus-related distributions, with a repayment option of up to three years. The ability to request the coronavirus-related distributions ceased on December 30, 2020. For the year ended December 31, 2020, the Plan disbursed approximately $54,652 of coronavirus-related distributions.

Note 2 - Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes realized gains and losses on investments bought and sold during the year as well as unrealized gains or losses on the investments held at the end of the year.

Benefit Payments

Benefits paid to participants or beneficiaries are recorded when paid.

Administrative Expenses

Administrative costs are paid by the Plan unless paid by the Company, at its discretion.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and may impact participants' account balances and the amounts reported in the financial statements.

Subsequent Events

Management of the Plan evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 6, 2021, which is the date the financial statements were available to be issued.

Note 3 - Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from the trustee of the Plan that all of the information provided is complete and accurate. Information included in the financial statements and accompanying notes to the financial statements as to investments, investment income, and all the related information in the supplemental schedule is presented in reliance solely upon this certification.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements, the accompanying notes and the supplemental schedule.

Note 4 - Fair Value Measurements

GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Mutual Funds: These funds are valued daily, based on their quoted market prices.

Common/Collective Trust Fund: This fund is valued at its net asset value (NAV) as determined by the issuer, based on the value of each of the underlying investments, less applicable fees charged by the issuer. The NAV is used as a practical expedient to estimate fair value. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	December 31, 2020			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 2,869,774**	**$ -**	**$ -**	**$ 2,869,774**
Investment measured at NAV (practical expedient)				**28**
Total investments at fair value				**$ 2,869,802**

	December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,406,104	$ -	$ -	$ 2,406,104
Investment measured at NAV (practical expedient)				24
Total investments at fair value				$ 2,406,128

The following table provides additional information for the common/collective trust fund which is measured using NAV as a practical expedient as of December 31, 2020 and 2019:

	Fair Value				
Investment Class	**2020**	2019	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Stable Value Fund	**$ 28**	$ 24	None	Daily	None

Note 5 - Federal Income Tax

The Company has adopted a prototype 401(k) and profit-sharing plan. The prototype plan was accepted by the Internal Revenue Service (IRS) in their opinion letter dated July 16, 2014, exempting it from federal income tax. The prototype plan has since been amended; however, the plan administrator through its adoption of the prototype plan believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, all participants become 100% vested in their participant accounts.

Note 7 - Party-in-Interest Transactions

Reliance Trust Company serves as the trustee and manager of the common/collective trust fund, and therefore, transactions related to this investment qualify as party-in-interest transactions. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.
