LifeSafer Interlock Inc. 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the LifeSafer Interlock Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Voya Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2020 and 2019, and for the year ended December 31, 2020, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2020 and the supplemental schedule of delinquent participant contributions for the year ended December 31, 2020 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

LIFESAFER INTERLOCK INC. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. Plan description

The following description of the LifeSafer Interlock Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of LMG Holdings, Inc. and Subsidiaries (collectively, the Company) who have a minimum of six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective May 6, 2020, the Plan adopted the distribution and required minimum distribution (RMD) provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) that was signed into law on March 27, 2020. The distribution provision waived early withdrawal penalties for plan participants that took certain COVID-19 related distributions from the Plan during 2020. It also temporarily increased the amount participants could borrow as a loan from their accounts to the lesser of \$100,000 or the vested account balance. The RMD provision suspended required minimum distributions for plan participants during 2020.

Contributions

Each year participants may contribute a percentage of their annual compensation to the Plan, as defined in the plan document. Participants may also roll over amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money market fund, thirty-three pooled separate accounts, and a fully benefit-responsive investment contract as investment options for participants.

The Company makes safe harbor matching contributions to the Plan each year. The Company's safe harbor matching contribution is 100% of a participant's elective deferrals that do not exceed 3% of their compensation, plus 50% of the participant's elective deferrals that exceed 3% of their compensation but do not exceed 5% of their compensation, subject to IRS limitations. The Company elected to temporarily suspend the safe harbor matching contribution effective May 8, 2021 as a result of the financial impact of the COVID-19 pandemic. Effective January 1, 2021, the Company reinstated the safe harbor matching contribution. The Company contribution is allocated amongst investment options based on the participant's selected allocation percentages. The Company may also elect to make a profit-sharing contribution to the Plan. There were no profit-sharing contributions made for the plan year ended December 31, 2020.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's safe harbor matching and profit-sharing contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan and (b) decreases in investment value. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, the Company safe harbor matching contributions, and earnings thereon. Participants are fully vested in profit sharing contributions after six years of credited service, vesting 20% per year, beginning in year two.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, excluding safe harbor matching and profit-sharing contributions, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 6.50%, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Company provides other administrative services at no cost to the Plan, which are excluded from these financial statements. Investment income is stated net of investment fees.

Forfeited accounts

Participant forfeitures of Company profit sharing contributions may be used to pay plan expenses or offset Company profit sharing contributions. At December 31, 2020 and 2019, forfeited non-vested accounts totaled \$4,487 and \$4,475, respectively. During 2020, no forfeited non-vested accounts were used to pay plan expenses or offset Company profit sharing contributions.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Payment of benefits

On termination of service due to death, disability or retirement, or any other reason, a participant may elect to receive a lump-sum amount or substantially equal installment payments equal to the value of the participant's vested balance in his or her account. Participants may also elect to receive an in-service withdrawal upon attaining age 59½.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2020 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan utilizes various investment instruments, including a money market fund, pooled separate accounts, and a fully benefit-responsive investment contract. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. This contagious disease has adversely impacted workforces, economics and financial markets globally. The extent of the long-term impact on the Plan's net assets available for benefits, contributions, and participant accounts cannot be reasonably estimated at this time.

Benefits

Benefit payments are recorded when paid.

3. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, a portion of administrative expenses of the Plan are paid for by the Company. Expenses relating to specific participant transactions (i.e., loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Certain plan investments are managed by the Plan's trustee, Voya Retirement Insurance and Annuity Company (Voya). Voya is the trustee and record keeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

4. Tax status

On March 31, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

<i>Money market fund:</i>	Valued at the net asset value (NAV) of shares held by the Plan at year end, a quoted price in an active market. Accordingly, the fair value is established using the Level 1 input.
---------------------------	---

<i>Pooled separate accounts:</i>	Valued using the practical expedient of NAV. These accounts invest primarily in mutual funds and fixed maturity securities measured based on outside pricing data.
----------------------------------	--

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2020				
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 4,487	\$ -	\$ -	\$ 4,487
Total assets in the fair value hierarchy	4,487	-	-	4,487
Investments measured at NAV (a)	-	-	-	8,743,968
Investments at fair value	\$ 4,487	\$ -	\$ -	\$ 8,748,455

Assets at Fair Value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 4,475	\$ -	\$ -	\$ 4,475
Total assets in the fair value hierarchy	4,475	-	-	4,475
Investments measured at NAV (a)	-	-	-	7,951,783
Investments at fair value	\$ 4,475	\$ -	\$ -	\$ 7,956,258

(a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

For years ended December 31, 2020 and 2019, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2020 and 2019, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2020	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	\$ 8,743,968	n/a	Daily	12 months

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	\$ 7,951,783	n/a	Daily	12 months

6. Fully benefit-responsive investment contract

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a monthly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
- Premature termination of the contracts
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

7. Reportable transactions

No reportable transactions were noted in 2020 and 2019.

8. Information certified by the Plan's trustee

The plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya, the trustee of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, the fully benefit-responsive investment contract, and notes receivable from participants, as shown in the Statement of Net Assets Available for Benefits as of December 31, 2020 and 2019
- Net investment income and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020
- Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2020

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedules.

9. Fidelity bonding requirements

The Plan was covered by a \$1,000,000 bond in 2020 and 2019.

10. Subsequent events

The plan administrator has evaluated subsequent events through October 7, 2021, the date the financial statements were available to be issued. The plan administrator is not aware of any subsequent events that would require recognition or disclosure in the Plan's financial statements.

LIFESAFER INTERLOCK INC. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

1. Plan description

The following description of the LifeSafer Interlock Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of LMG Holdings, Inc. and Subsidiaries (collectively, the Company) who have a minimum of six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective May 6, 2020, the Plan adopted the distribution and required minimum distribution (RMD) provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) that was signed into law on March 27, 2020. The distribution provision waived early withdrawal penalties for plan participants that took certain COVID-19 related distributions from the Plan during 2020. It also temporarily increased the amount participants could borrow as a loan from their accounts to the lesser of \$100,000 or the vested account balance. The RMD provision suspended required minimum distributions for plan participants during 2020.

Contributions

Each year participants may contribute a percentage of their annual compensation to the Plan, as defined in the plan document. Participants may also roll over amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money market fund, thirty-three pooled separate accounts, and a fully benefit-responsive investment contract as investment options for participants.

The Company makes safe harbor matching contributions to the Plan each year. The Company's safe harbor matching contribution is 100% of a participant's elective deferrals that do not exceed 3% of their compensation, plus 50% of the participant's elective deferrals that exceed 3% of their compensation but do not exceed 5% of their compensation, subject to IRS limitations. The Company elected to temporarily suspend the safe harbor matching contribution effective May 8, 2021 as a result of the financial impact of the COVID-19 pandemic. Effective January 1, 2021, the Company reinstated the safe harbor matching contribution. The Company contribution is allocated amongst investment options based on the participant's selected allocation percentages. The Company may also elect to make a profit-sharing contribution to the Plan. There were no profit-sharing contributions made for the plan year ended December 31, 2020.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's safe harbor matching and profit-sharing contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan and (b) decreases in investment value. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, the Company safe harbor matching contributions, and earnings thereon. Participants are fully vested in profit sharing contributions after six years of credited service, vesting 20% per year, beginning in year two.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, excluding safe harbor matching and profit-sharing contributions, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 6.50%, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Company provides other administrative services at no cost to the Plan, which are excluded from these financial statements. Investment income is stated net of investment fees.

Forfeited accounts

Participant forfeitures of Company profit sharing contributions may be used to pay plan expenses or offset Company profit sharing contributions. At December 31, 2020 and 2019, forfeited non-vested accounts totaled \$4,487 and \$4,475, respectively. During 2020, no forfeited non-vested accounts were used to pay plan expenses or offset Company profit sharing contributions.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Payment of benefits

On termination of service due to death, disability or retirement, or any other reason, a participant may elect to receive a lump-sum amount or substantially equal installment payments equal to the value of the participant's vested balance in his or her account. Participants may also elect to receive an in-service withdrawal upon attaining age 59½.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2020 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan utilizes various investment instruments, including a money market fund, pooled separate accounts, and a fully benefit-responsive investment contract. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. This contagious disease has adversely impacted workforces, economics and financial markets globally. The extent of the long-term impact on the Plan's net assets available for benefits, contributions, and participant accounts cannot be reasonably estimated at this time.

Benefits

Benefit payments are recorded when paid.

3. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, a portion of administrative expenses of the Plan are paid for by the Company. Expenses relating to specific participant transactions (i.e., loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Certain plan investments are managed by the Plan's trustee, Voya Retirement Insurance and Annuity Company (Voya). Voya is the trustee and record keeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

4. Tax status

On March 31, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

<i>Money market fund:</i>	Valued at the net asset value (NAV) of shares held by the Plan at year end, a quoted price in an active market. Accordingly, the fair value is established using the Level 1 input.
<i>Pooled separate accounts:</i>	Valued using the practical expedient of NAV. These accounts invest primarily in mutual funds and fixed maturity securities measured based on outside pricing data.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2020				
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 4,487	\$ -	\$ -	\$ 4,487
Total assets in the fair value hierarchy	4,487	-	-	4,487
Investments measured at NAV (a)	-	-	-	8,743,968
Investments at fair value	\$ 4,487	\$ -	\$ -	\$ 8,748,455

Assets at Fair Value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 4,475	\$ -	\$ -	\$ 4,475
Total assets in the fair value hierarchy	4,475	-	-	4,475
Investments measured at NAV (a)	-	-	-	7,951,783
Investments at fair value	\$ 4,475	\$ -	\$ -	\$ 7,956,258

(a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

For years ended December 31, 2020 and 2019, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2020 and 2019, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2020	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	\$ 8,743,968	n/a	Daily	12 months

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	\$ 7,951,783	n/a	Daily	12 months

6. Fully benefit-responsive investment contract

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a monthly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
- Premature termination of the contracts
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

7. Reportable transactions

No reportable transactions were noted in 2020 and 2019.

8. Information certified by the Plan's trustee

The plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya, the trustee of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, the fully benefit-responsive investment contract, and notes receivable from participants, as shown in the Statement of Net Assets Available for Benefits as of December 31, 2020 and 2019
- Net investment income and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020
- Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2020

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedules.

9. Fidelity bonding requirements

The Plan was covered by a \$1,000,000 bond in 2020 and 2019.

10. Subsequent events

The plan administrator has evaluated subsequent events through October 7, 2021, the date the financial statements were available to be issued. The plan administrator is not aware of any subsequent events that would require recognition or disclosure in the Plan's financial statements.
