Report on the Financial Statements

We were engaged to audit the accompanying financial statements of ORIX Financial Services, Inc. Retirement Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 3*, which was certified by PNC Bank (PNC), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2020 and 2019, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule listed in the table of contents is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Note 1: Description of the Plan

General

The following description of ORIX Financial Services, Inc. Retirement Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the plan document and *Summary Plan Description*, which are available from the plan administrator.

The Plan was established on September 18, 1989, by ORIX Financial Services, Inc. (Company) and was amended and restated effective January 1, 2017. The Plan is a defined benefit plan and covers employees who meet the eligibility requirements of attainment of age 21 and completion of one year of service with the Company as defined. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). PNC Bank (PNC) was the trustee and custodian of the Plan for the years ended December 31, 2020 and 2019.

Prior to September 18, 1989, the Company participated in the pension plan of its former parent. Accrued benefits at September 18, 1989, under that plan remain the liability of said corporation.

The Company acts as the plan sponsor, administrator and trustee. The plan administrator oversees the administration of the Plan in accordance with its terms and has all powers necessary to carry out the provisions of the Plan. The Company has appointed a committee (collectively known as the Trustees) to act on its behalf as the plan administrator.

The Company has also designated an investment committee to act as the investment fiduciary under the Plan. This committee provides investment management services to the Plan and is responsible for directing and monitoring the investment management of the Plan's assets.

Freeze Amendment

Effective February 15, 2004, the Plan was frozen so that no additional employees would be eligible to participate in the Plan after such date, and each participant's accrued benefit under the Plan as of such date would be frozen and would not thereafter be increased.

Contributions

The Company contributes such amounts that are necessary to provide assets sufficient to meet the benefits to be paid to participants. At December 31, 2020 and 2019, the Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Employees are entitled to pension benefits after five years of service. Benefits are calculated on a life annuity basis, as defined by the Plan, and reflect total years of credited service and the employee's highest average earnings during any consecutive five-year period during the last 10 years of employment. The Plan provides for normal retirement when an employee attains age 65 and has five years of service. An employee may also retire at ages 55-64 with 10 years of service; benefits are reduced for retirements prior to age 62. An employee who terminates employment before age 55 with 10 years of service can begin receiving benefits at age 55; benefits are reduced prior to age 65. If an employee terminates employment before rendering five years of service, they forfeit the right to receive the portion of the accumulated plan benefits attributable to the Company's contributions.

Employees may elect to receive the value of their accumulated plan benefits in one of several optional forms available under the Plan including: life annuity, joint and survivor annuity and 10- or 20-years certain life annuities. If the lump-sum actuarial equivalent of the accrued benefit is \$10,000 or less, employees may elect to receive a lump-sum distribution. If the lump-sum actuarial equivalent of the accrued benefit is less than \$5,000, the trustees may automatically make a lump-sum payment in lieu of any retirement, death or disability benefits payable under the Plan.

Death and Disability Benefits

Upon the death of a retiree in receipt of benefits, a \$5,000 lump-sum death benefit is payable to the beneficiary provided that retirement benefits commenced immediately following early, normal or late retirement. This is in addition to the death benefit, if any, payable under the chosen form of retirement annuity.

If an employee suffers a disability while they are a participant in the Plan and remain disabled until the early or normal retirement date or returns to active employment immediately after they are determined to be no longer disabled, the employee will continue to be credited with years of benefit service (up to a maximum of five years of benefit service) while the employee is disabled (as determined by the Social Security Administration (SSA)) and during the waiting period preceding the employee's entitlement to disability benefits under the *Social Security Act*. The employee will also become 100% vested in their benefits. If the SSA fails to make a determination of disability, the employee will not accrue more than two years of benefit service. When the employee reaches their normal retirement age, the employee will begin to receive full benefits from the Plan if they are receiving social security disability income. The employee may also elect to receive benefits beginning at age 55 or later if the employee has 10 years of benefit service.

Revisions

Certain immaterial revisions have been made to the 2019 financial statements where the reporting of fair value leveling of certain investments have been changed from Level 1 to Level 2. The revisions did not have any impact on financial statement line items.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Preferred stock, equities, municipal and corporate obligations and are valued at the closing price reported at year-end on the active market on which the individual securities are traded. Money market funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (*Note 5*) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- Retired or terminated employees or their beneficiaries
- Present employees or their beneficiaries

ORIX Financial Services, Inc. Retirement Plan

Notes to Financial Statements

December 31, 2020 and 2019

Benefits under the Plan are based on the employees' highest average earnings during any consecutive five-year period during the last 10 years of employment. The accumulated plan benefits for active employees are based on the employee's highest average earnings during any consecutive five-year period during the last 10 years of employment ending on the date as of which the benefit information is presented (valuation date). Benefits payable under all circumstances are included to the extent they are deemed attributable to employee services rendered to the valuation date.

Note 3: Certification of Plan Trustees and Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, PNC has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019.
- Investment income as shown in the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2020 and 2019.
- Investment information included in the accompanying schedule of assets (held at year end) as of December 31, 2020, and schedule of reportable transactions for the year ended December 31, 2020.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Funding Policy

In prior years, contributions were determined by the Plan's actuary using the entry age frozen initial liability actuarial cost method and were made to provide sufficient assets with which to pay pension benefits to participants. Under this actuarial cost method, an initial accrued liability was established based on the entry age normal method relating to the past service of employees at the time of establishment and the remaining cost of all benefits was spread over the future working lifetime of the employees. The unfunded accrued liability amount was fixed, and was generally modified only for future amendments or assumption changes, as well as being reduced by amortization payments. Actuarial gains and losses were spread over the future-working lifetime of active employees.

ORIX Financial Services, Inc. Retirement Plan

Notes to Financial Statements

December 31, 2020 and 2019

As indicated in *Note 1*, the Plan was frozen, effective February 15, 2004. As a result, contributions during 2003 and later years were determined using the unit credit funding method. This is an accrued benefit funding method under which contributions required in a year are calculated as the present value of future benefits estimated to have accrued in the year. Under this method, the contribution required in a year comprises two parts: normal cost and an amount to cover any unfunded accrued liabilities. The normal cost is the present value of all future benefits accrued in the year. The unfunded accrued liability component allows for the financial effect of actual past experience being different to the actuarial assumptions. Due to the unusual market fluctuations during 2008, the Internal Revenue Service (IRS) passed a relief package in 2009 allowing plans to apply the temporary asset smoothing method, which allows plans to smooth asset values looking back up to 24 months preceding the beginning of the plan year. This method reduces the negative impact of the falling investment values at year-end and their impact on the calculation of future minimum contribution requirements.

The Plan had accumulated excess contributions of approximately \$571,000 and \$510,000 at December 31, 2020 and 2019, respectively. These credit balances are the result of Company contributions over the statutory minimum funding over the past years adjusted with interest and usage as elected by the Company.

Note 5: Accumulated Plan Benefits

The Plan's actuary determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefits information as of the most recent valuation date to the plan year-end were as follows:

	January 1	
	2021	2020
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 24,589,175	\$ 23,784,485
Other participants	<u>14,983,227</u>	<u>16,622,052</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 39,572,402</u>	<u>\$ 40,406,537</u>
Market value of investments	<u>\$ 52,740,527</u>	<u>\$ 49,310,711</u>

ORIX Financial Services, Inc. Retirement Plan

Notes to Financial Statements

December 31, 2020 and 2019

Changes in actuarial present value of accumulated plan benefits as of the most recent valuation date at the plan year-end were as follows:

	January 1	
	2021	2020
Actuarial present value of accumulated plan benefit, beginning of year	\$ 40,406,537	\$ 41,113,953
Increase (decrease) during the year attributable to:		
Interest earned due to decrease in discount period at 5%	1,960,332	1,999,846
Benefits accumulated and actuarial gains	(145,155)	28,769
Changes in actuarial assumptions	(249,507)	(501,984)
Benefits paid	<u>(2,399,805)</u>	<u>(2,234,047)</u>
Net decrease	<u>(834,135)</u>	<u>(707,416)</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 39,572,402</u>	<u>\$ 40,406,537</u>

The significant assumptions underlying the actuarial computations are:

- Life expectancy of the participants (mortality) is the SOA Pri-2012 Mortality Table with the MP-2020 Improvement Scale for 2020; and the SOA Pri-2012 Mortality Table with the MP-2019 Improvement Scale for 2019.
- Normal retirement age of 65 if terminated with less than 10 years of service for 2020 and 2019, age 62 if terminated with at least 10 years of service and who are over age 55 at termination for 2020 and 2019.
- Assumed discount rate was an effective rate of 5.00% for 2020 and 2019.
- Asset valuation method – averaging method whereby valuation assets equals the market value of assets plus non-discounted receivable contributions for 2020 and 2019.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021 and 2020. Had the valuations been performed as of December 31, there would be no material differences.

Note 6: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets and recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2020 and 2019:

		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Investments at fair value	<u>\$ 49,310,711</u>	<u>\$ 5,319,676</u>	<u>\$ 43,991,035</u>	<u>\$ -</u>

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2020 and 2019. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There were no such securities at December 31, 2020 and 2019.

Note 7: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer association, or relatives of such persons.

ORIX Financial Services, Inc. Retirement Plan

Notes to Financial Statements

December 31, 2020 and 2019

Certain plan investments are managed by PNC, the trustees and custodian as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments. The Company provides administrative services at no cost to the Plan.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of the accumulated plan benefits are reported based upon certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

The outbreak of the novel coronavirus COVID-19, which was declared a pandemic by the World Health Organization on March 11, 2020, has led to adverse impacts on the U.S. and global economies. Economic uncertainties have arisen, which have resulted in significant volatility in the investment markets and may continue to impact the value of Plan assets. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

Note 9: Tax Status

The Plan obtained its latest favorable determination letter, dated January 4, 2018, in which the IRS stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC) and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 10: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	2020	2019
Net assets available for benefits per the financial statements	\$ 53,123,540	\$ 49,673,171
Less accrued interest and dividends at end of year	(383,013)	(362,460)
Net assets available for benefits per Form 5500	<u>\$ 52,740,527</u>	<u>\$ 49,310,711</u>

The following is a reconciliation of net increase per the financial statements to the Form 5500:

	2020	2019
Net increase per the financial statements	\$ 3,450,369	\$ 5,248,001
Plus accrued interest and dividends beginning of year	362,460	465,908
Less accrued interest and dividends end of year	(383,013)	(362,460)
Net income per Form 5500	<u>\$ 3,429,816</u>	<u>\$ 5,351,449</u>

Note 11: Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits former employees, or their beneficiaries have been receiving for at least three years, or those employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- Other vested benefits insured by Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- All other vested benefits (vested benefits not insured by the PBGC)
- All nonvested benefits

ORIX Financial Services, Inc. Retirement Plan

Notes to Financial Statements

December 31, 2020 and 2019

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the amount of benefit protection under the PBGC is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination and there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 12: Subsequent Events

Subsequent events have been evaluated through October 7, 2021, which is the date the financial statements were available to be issued.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

A summary of the actuarial methods and assumptions used in the valuation is presented below:

Cost Method – The actuarial cost method used in this report for determining ERISA contributions is the unit credit method as defined by the Pension Protection Act of 2006.

Asset Method – The Actuarial Value of Assets (Valuation Assets) is equal to a 3-year averaging method as described in IRS Notice 2009-22. Under this method, the Valuation Assets is the average of the current and two preceding valuation date Market Value of Assets, where the preceding two years include expected earnings at the lesser of the third segment rate for that year or 7.50%.

Interest Rates

Funding Target Discount Rates: The assumed discount rates on benefits paid in the future are based on the January 2020 PPA Segments rates (reflecting the Funding Stabilization provisions under HATFA and its current regulations) as prescribed by the IRS:

<u>Segment</u>	<u>Rate</u>	<u>Applicable to benefit payments made:</u>
1	3.64%	During first 5 years starting from the valuation date.
2	5.21%	During years 6-20 starting from the valuation date.
3	5.94%	During years 21 and beyond starting from the valuation date.

Salary Increase Rates – Not Applicable

Administrative Expenses – No expense is expected to be paid from the invested plan assets.

Mortality – The 2020 Static Mortality Table was used as prescribed by the IRS.

Disability Rates – None assumed

Retirement from Terminated Vested Status – Age 65 in general but age 62 for the participants who terminated with at least ten years of service and who were over age 55 at termination.

Joint and Survivor form of benefit to Spouse – A 1% subsidy was assumed.

Percent Married – 80% of males and 80% of females were assumed to be married.

Age of Spouse – The female spouse is assumed to be 3 years younger than the male spouse.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Death Benefit – Half of the retirees are assumed to retire immediately after the termination of employment and hence would be eligible for a \$5,000 one-time cash benefit upon the death of the participant. Also, a Qualified Pre-Retirement Death Benefit was assumed to be paid.

Prescribed Changes since prior Valuation

The January 2020 PPA segment rates, reflecting the Funding Stabilization provisions under HATFA and its current regulations, were used to determine target liability. Previously the January 2019 PPA segment rates were used.

The mortality table was changed to the IRS 2020 Static Mortality Table. Previously, it was the IRS 2019 Static Mortality Table.

All other prescribed actuarial assumptions remained unchanged from the prior valuation.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

A summary of the actuarial methods and assumptions used in the valuation is presented below:

Cost Method – The actuarial cost method used in this report for determining ERISA contributions is the unit credit method as defined by the Pension Protection Act of 2006.

Asset Method – The Actuarial Value of Assets (Valuation Assets) is equal to a 3-year averaging method as described in IRS Notice 2009-22. Under this method, the Valuation Assets is the average of the current and two preceding valuation date Market Value of Assets, where the preceding two years include expected earnings at the lesser of the third segment rate for that year or 7.50%.

Interest Rates

Funding Target Discount Rates: The assumed discount rates on benefits paid in the future are based on the January 2020 PPA Segments rates (reflecting the Funding Stabilization provisions under HATFA and its current regulations) as prescribed by the IRS:

<u>Segment</u>	<u>Rate</u>	<u>Applicable to benefit payments made:</u>
1	3.64%	During first 5 years starting from the valuation date.
2	5.21%	During years 6-20 starting from the valuation date.
3	5.94%	During years 21 and beyond starting from the valuation date.

Salary Increase Rates – Not Applicable

Administrative Expenses – No expense is expected to be paid from the invested plan assets.

Mortality – The 2020 Static Mortality Table was used as prescribed by the IRS.

Disability Rates – None assumed

Retirement from Terminated Vested Status – Age 65 in general but age 62 for the participants who terminated with at least ten years of service and who were over age 55 at termination.

Joint and Survivor form of benefit to Spouse – A 1% subsidy was assumed.

Percent Married – 80% of males and 80% of females were assumed to be married.

Age of Spouse – The female spouse is assumed to be 3 years younger than the male spouse.

Death Benefit - Half of the retirees are assumed to retire immediately after the termination of employment and hence would be eligible for a \$5,000 one-time cash benefit upon the death of the participant. Also, a Qualified Pre-Retirement Death Benefit was assumed to be paid.

Schedule SB, Part V – Summary of Plan Provisions

A summary of the major plan provisions used in the valuation is presented below:

Definitions:

Effective Date – The Plan was established September 18, 1989. It was amended effective February 15, 2004 to freeze the plan benefits.

Employer – ORIX Financial Services, Inc.

Plan Year – The calendar year.

Vesting Service – A Year of Vesting Service is credited to each Employee for each twelve month period of employment calculated from the first day an Employee first completes an Hour of Service to each anniversary thereof. An Employee shall be credited with one month of employment for each calendar month during which he completes one Hour of Service.

Benefit Service – A Year of Benefit Service is credited to each Employee for each twelve month period of employment, where Employee shall be credited with one month of employment for each calendar month during which he completes one Hour of Service.

If the Participant was hired prior to January 1, 1976, Years of Benefit Service will be calculated from the first day of the month following the date he first provides an Hour of Service.

If a Participant was hired on or after January 1, 1976, Years of Benefit Service will be calculated from the first day of the month in which he first performs an Hour of Service.

Years of Benefit Service shall in all cases be measured through the last day of the month during which the Participant terminates employment.

Years of Benefit Service are credited from the first date the Participant performed an Hour of Service with, ORIX Financial Services, Inc, ORIX Credit Alliance Inc., ORIX Commercial Alliance Corporation or any subsidiary or predecessor subsidiary corporation thereof. Years of Benefit Service are credited for prior service with First Interstate Bancorp, or any subsidiary thereof if employed by ORIX Credit Alliance Inc., ORIX Commercial Alliance Corporation or any subsidiary or predecessor subsidiary corporation thereof on 9/18/1989.

Years of Benefit Service shall not be counted for any period of service on or after February 15, 2004.

Participation – All non-union employees of the employer are eligible to participate in the Plan on the first of the month coincident or next following attainment of age 21 and completion of 1 year of service. No employee shall become a participant on or after February 15, 2004.

Basic Monthly Compensation – The highest average monthly rate of Compensation in effect on each December 1st of the five consecutive years over the last ten years of service. Earnings paid on or after February 15, 2004 shall not be included in the Basic Monthly Compensation.

Schedule SB, Part V – Summary of Plan Provisions (continued)

Monthly Covered Compensation – 1/12th of the 35-year average of the Social Security Taxable Wage Bases in effect for each calendar year during the 35-year period ending with the year of the Member's Social Security Retirement Age. Increases in the taxable wage base effective on or after February 15, 2004 shall not be taken into account.

Contributions:

Employer – The amount necessary to fund the Plan on an actuarially sound basis as determined by the Plan's enrolled actuary.

Employee – No employee shall be permitted to contribute to the plan.

Normal Retirement

Eligibility – If the Participant was hired on or after July 1, 1988, then the later of attainment of age 65 and the fifth anniversary of the Participant's hire date. If the Participant was hired by a Predecessor Employer before July 1, 1988, then upon attainment of age 65.

Benefit – Participant's Accrued Benefit, equal to the greater of (i) and (ii), less (iii):

- i. 1.4% of Basic Monthly Compensation up to Monthly Covered Compensation; plus 1.9% of Basic Monthly Compensation in excess of Monthly Covered Compensation; multiplied by Years of Benefit Service (up to 35 years); minus the monthly benefit amount from Commercial Alliance Corporation Profit Sharing Plan prior to 1986;
- ii. 1.4% of Basic Monthly Compensation up to Monthly Covered Compensation; plus 1.9% of Basic Monthly Compensation in excess of Monthly Covered Compensation; multiplied by Years of Benefit Service after January 1, 1986, up to 35 years;
- iii. Benefit under the Retirement Plan for Employees of First Interstate Bancorp and its Affiliate (Prior Plan) as of 9/18/1989.

Effective February 14, 2004, compensation and service after February 15, 2004 will not be taken into account for benefit calculations.

Form of Payment – Life annuity. Actuarially equivalent optional forms are also available, including a lump sum option if the Present Value of the benefit is less than \$10,000.

Early Retirement:

Eligibility – The later of attainment of age 55 and completion of 10 Years of Benefit Service. However for Participants who terminate on February 25, 1998, Early Retirement is available for Participants who are either:

- a) 52 Years and 5 Months of age with 8 Years and 3 Months of Benefit Service
- b) 56 Years and 4 Months of age with 8 Years and 3 Months of Benefit Service

Schedule SB, Part V – Summary of Plan Provisions (continued)

Benefit – The Accrued Benefit reduced by 4.5% for each year the early retirement date precedes age 62 (Table I under Schedule C), adjusted to reflect reduced prior accrued benefit level. Participants eligible for early retirement having attained age 62 may receive an unreduced benefit, if commenced on or after age 62.

Form of Payment – Same as for Normal Retirement.

Deferred Retirement:

Eligibility – Retirement after Normal Retirement Date.

Benefit – The benefit is the greater of the Accrued Benefit calculated as of the Deferred Retirement Date reflecting salary and service to such date, or an amount which is the Actuarial Equivalent of the Accrued Benefit determined as of Normal Retirement Date.

Effective February 14, 2004, compensation and service after February 15, 2004 will not be taken into account for benefit calculations.

Form of Payment – Same as for Normal Retirement.

Termination Benefit:

Eligibility – Termination of employment due to plan termination, partial plan termination, or after completion of at least five years of vesting service and before early retirement eligibility.

Benefit – If termination occurs prior to completion of 10 Years of Benefit Service, benefits will commence at Normal Retirement Age. If the Participant terminates prior to age 55 but after completing 10 Years of Benefit Service, then the Participant may opt to begin receiving an Early Retirement Benefit after attaining age 55. The early retirement reduction factors in these cases are under Table II from Schedule C.

Date and Form of Payment – A deferred annuity payable at Normal Retirement Date or any Early Retirement Date. A lump sum may be provided if the Present Value of the Accrued Benefit at termination is less than \$10,000 and proper spousal consent is provided for distributions greater than \$1,000.

Pre-Retirement Death Benefit

Eligibility – The participant has 5 years of vesting service at the time of death.

Benefit – 100% of the Accrued Benefit payable as a life annuity to which the Participant would have been entitled if:

- i. he had Terminated his employment the day before his death and;
- ii. he had commenced receiving benefits under the 100% Qualified Joint and Survivor Annuity on the later of his Annuity Starting Date or his Early Retirement Date

If the Member has a surviving spouse to whom he has been married for at least the 365 day period prior to the date of his death, payments shall be guaranteed for 120 months.

If the Member is either unmarried or has a surviving spouse to whom he has been married for a period of less than 365 days prior to his date of death, the number of payments shall be limited to 120.

Schedule SB, Part V – Summary of Plan Provisions (continued)

Date and Form of Payment – The spouse may elect to receive the benefit on the first day of the month following the participant's earliest retirement date. Payments are made monthly for the spouse's life only. Lump sum option is available if the present value of the death benefit is \$10,000 or less.

Post-Retirement Death Benefit:

Upon the death of a retiree in receipt of benefits, a \$5,000 lump sum death benefit is payable to the beneficiary provided that retirement benefits commenced immediately following Early, Normal or Late retirement. This is in addition to the death benefit, if any, payable under the chosen form of retirement annuity.

Disability Benefit

Eligibility – Totally Disabled as determined by the Social Security Administration.

Benefit – The Accrued Benefit at Early or Normal Retirement Date. In the calculation of the Accrued Benefit, the disabled participant is credited with Years of Benefit Service while on disability, up to a maximum of five years.

Effective February 14, 2004, compensation and service after February 15, 2004 will not be taken into account for benefit calculations.

Date and Form of Payment – Disabled participants may retire at any Early or Normal Retirement Date, under all available forms of payment.

Changes since prior Valuation:

All remained unchanged from the prior valuation.
