Senox Corporation 401(k) Profit Sharing Plan

Summary of Significant Accounting Policies

Description of Plan
The following brief description of the Senox Corporation 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan established and effective on January 1, 1998. All employees of Senox Corporation (the "Company") are eligible to participate in the Plan. The Plan provides for a qualified cash or deferred arrangement described in Section 401(k) of the Internal Revenue Code (the "Code"). Principal Financial Group is the administrator and custodian of the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

On December 31, 2020, the mutual funds worth $20,247 and the total loan balance of 34,171 were held by Transamerica Financial Life Insurance Company, the new custodian and recordkeeper. The remaining assets worth $4,606,250 were held by Principal Life Insurance Company at year-end. Effective January 7, 2021, all assets were transferred to Transamerica Financial Life Insurance Company, and the account with Principal Life Insurance Company was closed.

Investments and Investment Options
The Company selects and makes available as investment options various pooled separate accounts, mutual funds and guaranteed interest accounts. The contributions related to these accounts are invested in accordance with directives from the individual participants in shares in these investment options available through the administrator as approved by the trustee.

The Plan provides for investments in numerous investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Contributions
Each year, participants may contribute a percentage of their annual compensation, up to the maximum allowable, not to exceed the limits of the applicable code sections of the Internal Revenue Code, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants may also rollover amounts representing distributions from other qualified plans.

The Company may make a matching contribution to all employees as a percentage of the employee's deferral compensation, as defined, subject to the limits provided by the Code. The Company may also elect to make a profit sharing contribution with allocation based on the participant's compensation, as defined.

Senox Corporation 401(k) Profit Sharing Plan

Summary of Significant Accounting Policies

For the years ended December 31, 2020 and 2019, the Company elected to contribute a matching contribution to all employees at an amount equal to 50% of the participant's elective deferral not to exceed 4% of the participant's compensation.

The Plan will determine the Employer Profit Sharing Contribution, if any, according to a discretionary formula in an amount determined each year by the managing body of the Employer and will be allocated to each Qualifying Participant's Individual Account. Senox did not declare any profit-sharing contributions during the years ended December 31, 2020 and 2019.

Participant Accounts
Each participant's account is credited with the participant's deferral contribution, the Company's matching and profit-sharing contributions, and earnings of the participant's individual account. The benefit to which each participant is entitled to is the benefit that can be provided from the participant's account.

Employees become eligible to participate in the contribution portion of the Plan, receive matching contributions, and profit-sharing contributions after attainment of age 21 and on the first day of the month following the completion of three months of service. One thousand hours of service shall be required to constitute a year of eligibility service. Employees may stop their plan contributions at any time.

Vesting
Participants are immediately 100% vested in their deferral contributions. The Company's matching and profit sharing contribution becomes vested based on the participant's number of years of service with the Company according to the following schedule: 2 years – 20% vested; 3 years – 40% vested; 4 years – 60% vested; 5 years – 80% vested, and 6 years or more – 100% vested. One thousand hours of service must be completed to be credited with a year of vesting.

Notes Receivable from Participants
Participants may borrow from their deferral contributions fund account from a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans must be repaid within five years unless used for the purchase of a primary residence. Loans are secured by the vested balance of the participant's account and bear interest at U.S. Government Prime Rate plus 2% that is in effect on the date of the loan application and set for the life of the loan. Current interest rates range from 5.25% to 7.50%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Benefit Payments
The Plan provides for distributions to participants upon termination of employment before the normal retirement age, disability, or upon reaching the normal retirement age but continue to work. Participants can request a distribution from the Plan of their vested interest in the Plan upon attainment of age 59 ½, even if they continue to work. Participants will receive their benefits as either a lump-sum amount, installment payments, or annuity contracts under various options equal to the value of the participant's vested interest.

Senox Corporation 401(k) Profit Sharing Plan

Summary of Significant Accounting Policies

Forfeitures
Forfeitures are used to pay administrative expenses and to reduce the next employer contribution made and are not held for discretionary contributions.

Administrative Expenses
Generally, the Company pays the expenses associated with the administration of the Plan, except for certain investments management fees, and loan fees which are deducted directly from the participant's account.

Plan Termination
The Company expects to continue the Plan indefinitely, but by resolution of its Board of Directors, reserves the right to terminate the Plan. If the Plan were terminated, the accrued benefit accounts for each participant would become fully vested and non-forfeitable. Such accrued benefit accounts will be held under the Plan to be distributed as provided in the Plan upon death, retirement or termination.

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that change in these estimates and assumptions in the near term could be material to the financial statements.

Investment Valuation and Income Recognition
The Plan's investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts (which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Shares of pooled separate accounts are stated at fair value as determined by the issuer, which represent net asset value of shares held by the plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Summary of Significant Accounting Policies

Reclassifications
Certain prior year amounts have been reclassified to conform to current year presentation.

Recently Issued Accounting Pronouncements
In August 2018, the Financial Accounting Standard Board ("FASB") issued Accounting Standard Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement.* This update modifies the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurement*, by removing, adding, and/or modifying certain disclosures related to the treatment of investments reported in the fair value hierarchy levels 1, 2 and 3. The amendments in this update are effective for all entities for fiscal years beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted upon issuance of this update. The Plan adopted the new pronouncements in 2020 with no material impact on the financial statements.

1. Information Certified by the Plan's Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

December 31,		**2020**		2019
Mutual funds	**$**	**20,247**	$	-
Pooled separate accounts		**4,391,842**		3,519,274
Guaranteed interest accounts		**214,408**		179,851
Notes receivable from participants		**34,171**		64,511

Years ended December 31,		**2020**		2019
Net appreciation in fair value of pooled separate accounts	**$**	**584,942**	$	623,385
Net investment gain from mutual funds		**111**		-
Interest income from guaranteed interest accounts		**3,361**		3,369
Interest income from participant loans		**3,413**		4,820
Other investment income		**1,222**		3,309

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

2. Fair Value Measurements

The Plan follows the provisions of FASB Accounting Standard Codification ("ASC") 820, *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020.

Money market funds: Valued at a daily calculated net asset value ("NAV") and traded at a quoted price through the National Securities Clearing Corporation.

Pooled separate accounts: Valued at the NAV of shares held by the Plan at year end. The NAV, as provided by the trustee, is issued as a practical expedient to estimate fair value. The NAV is based on fair value of the underlying investments held by the fund less its liabilities.

Guaranteed interest accounts: Contract value adjusted for current market rates only to the extent such market rates exceed crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 20,247**	**$ -**	**$ -**	**$ 20,247**
Guaranteed interest accounts	**-**	**686**	**213,722**	**214,408**

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total

Pooled separate accounts measured at net asset value *	-	-	-	3,519,274
Investments at fair value	$ -	$ -	$ 179,851	$ 3,699,125

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2020:

	Fair Value	Unfunded Commitments	Redemption Frequency (if eligible)	Redemption Notice Period
Pooled separate accounts	**$ 4,391,842**	**N/A**	**Daily**	**12 months**

3. Income Tax Status

The underlying standardized prototype profit sharing plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2005-6, the Company has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress. As of December 31, 2020, the Plan's tax years that are subject to income tax examination are 2017 through 2020.

4. Benefit Payments

As of December 31, 2020, there were no benefit payment requests that were not processed at the end of the period and were distributed in the subsequent period.

5. Forfeitures

There were $3,769 and $594 in employer matching forfeitures during 2020 and 2019, respectively. These forfeitures were used to reduce employer contributions. In addition, for the years ended December 31, 2020 and 2019, $3,974 and $1,060, respectively, were used to pay plan administrative expenses. As of December 31, 2020 and 2019, the balance of the forfeiture account was $0.

6. Related Party Transactions

Certain plan investments are shares of pooled separate accounts and mutual funds managed by Principal Financial Group and Transamerica Financial Life Insurance Company. Principal Financial Group and Transamerica Financial Life Insurance Company are the custodians and financial advisors of the Plan and therefore these transactions qualify as party-in-interest.

7. Risks and Uncertainties

The Plan provides for investments in numerous investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.

8. Reconciliation of Financial Statements to Form 5500

There were no material differences noted between the financial statements and the Form 5500 at December 31, 2020.

9. Subsequent Events

The Plan has evaluated subsequent events occurring after December 31, 2020, the date of the most recent statement of net assets available for benefits date, through October 5, 2021, the date the financial statements were issued.

The Plan does not believe any subsequent events have occurred that would require further disclosure or adjustment to the financial statements.
