**BSI 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

1. Plan description

The following description of the BSI 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of BSI Engineering, LLC (the Company), who are age eighteen or older and have one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective April 6, 2020, the Plan adopted the distribution and notes receivable from participants provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) that was signed into law on March 27, 2020.

Contributions

Each year participants may contribute a percentage of their annual compensation to the Plan, as defined in the plan document. Unless specifically instructed by the employee, participants are automatically enrolled into the Plan deferring 1% of their pre-tax compensation. Participants may also roll over amounts representing distributions from other qualified defined contribution plans. The Company, at its discretion, may make matching contributions to the Plan each year. For the plan year ended December 31, 2020, the Company elected to match 50% of the participant's contribution up to 6% of compensation, subject to IRS limitations. The Company may also make discretionary contributions. There were no discretionary contributions made in 2020.

Participants direct the investment of their contributions and the Company matching contributions and discretionary contributions into various investment options offered by the Plan. The Plan currently offers twenty-four mutual funds and one common collective trust as investment options for participants.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching and discretionary contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan and (b) decreases in investment value. Allocations of matching contributions are based on the participant's contribution, allocations of discretionary contributions are based on the ratio of eligible compensation for all eligible participants, and allocations of plan earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, and earnings thereon. Participants become fully vested in the Company matching and discretionary contributions after four years of credited service, vesting 25% per year, beginning in year one.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear an interest rate equal to the prime rate, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

As part of the CARES Act, qualified participants could borrow up to the lesser of \$100,000 or 100% of their vested account balance for the 180-day period beginning March 27, 2020. Additionally, if a qualified participant had a loan outstanding on or after March 27, 2020, the due date for any loan payment that was due between April 6, 2020 and December 31, 2020 was delayed by one year.

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Company provides other administrative services at no cost to the Plan, which are excluded from these financial statements. Investment income is stated net of investment fees.

Forfeited accounts

Participant forfeitures of Company matching and discretionary contributions are used to either reduce the Company matching contribution and discretionary contribution or to pay expenses of the Plan. At December 31, 2020 and 2019, forfeited non-vested accounts totaled approximately \$6,449 and \$14,788, respectively. During 2020, forfeited non-vested accounts of \$17,734 were used to offset Company matching contributions, and \$8,210 were used to reduce expenses of the Plan.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Payment of benefits

On termination of service due to death, disability or retirement, or any other reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account or a fixed number of installment payments. Participants may also elect to receive an in-service withdrawal upon attaining the age of 59½ or apply for a hardship withdrawal, subject to approval by the plan administrator.

As part of the CARES Act enacted on March 27, 2020, special distribution provisions were provided for retirement plans. The distribution provisions allowed a coronavirus-related distribution to be made from the Plan after January 1, 2020, and before December 31, 2020 up to \$100,000. Coronavirus-related distributions are exempt from the early payment penalty that usually applies to distributions taken by participants under the age of 59½, and can be repaid in one or more installments within the three-year period beginning on the day after the distribution was made.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2020 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan utilizes various investment instruments, including mutual funds and a common collective trust. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

In addition, the extent to which COVID-19 impacts the Plan's financial results will depend on numerous evolving factors, including, but not limited to: the magnitude and duration of COVID-19, the extent to which it will impact worldwide macroeconomic conditions, including interest rates, employment rates and health insurance coverage, the speed of the anticipated recovery, and governmental and business reactions to the pandemic. The extent of the impact on the Plan's net assets available for benefits, contributions, and participant accounts will depend on the duration and spread of COVID-19, including any further developments. While there was not a material impact to the Plan's financial statements as of and for the year ended December 31, 2020, the Plan's future assessment of the magnitude and duration of COVID-19; as well as other factors, could result in material impacts to the Plan's financial statements in future reporting periods.

Benefits

Benefit payments are recorded when paid.

3. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, certain administrative expenses of the Plan are paid for by the Company. Expenses relating to specific participant transactions (i.e., loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Certain plan investments are managed by Reliance Trust Company. Reliance Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

4. Tax status

On March 31, 2014, the IRS stated that the volume submitter adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

- Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Common collective trust:* Valued at the NAV of units of a bank collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 15,168,286	\$ -	\$ -	\$ 15,168,286
Total assets in the fair value hierarchy	15,168,286	-	-	15,168,286
Investments measured at NAV (a)	-	-	-	2,273,251
Investments at fair value	\$ 15,168,286	\$ -	\$ -	\$ 17,441,537

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 12,496,154	\$ -	\$ -	\$ 12,496,154
Total assets in the fair value hierarchy	12,496,154	-	-	12,496,154
Investments measured at NAV (a)	-	-	-	605,045
Investments at fair value	\$ 12,496,154	\$ -	\$ -	\$ 13,101,199

(a) The common collective trust fund is measured at NAV per share (or its equivalent) and has not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

For years ended December 31, 2020 and 2019, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

6. Reportable transactions

No reportable transactions were noted in 2020 and 2019.

7. Information certified by the Plan's custodian

The plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the custodian of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Cash and investments as shown in the Statement of Net Assets Available for Benefits as of December 31, 2020 and 2019
- Net investment income as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020
- Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2020

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedules.

8. Fidelity bonding requirements

The Plan was covered by a \$500,000 bond in 2020 and 2019.

9. Subsequent events

The plan administrator has evaluated subsequent events through September 23, 2021, the date the financial statements were available to be issued. The plan administrator is not aware of any subsequent events that would require recognition or disclosure in the Plan's financial statements.
