HOWARD J CHUDLER & ASSOCIATES INC. 401K PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2020

1. Description of the Plan:

The following description of the HOWARD J CHUDLER & ASSOCIATES INC. 401K PLAN (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is defined as a defined contribution plan under which employer contributions are based on a fixed formula that is not related to profits. The Plan covers all employees of HOWARD J CHUDLER & ASSOCIATES INC. (Company). The Plan administrator is the management of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was originally adopted January 1, 2013.

Eligibility:

All employees who have reached the age of 21 and have worked 1,000 hours in a six-month period for the Company are eligible to enroll in the Plan.

Contributions:

Each year, participants may contribute up to the legal limit of pretax annual compensation as defined in the Plan. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of their contributions in to various investment options offered by the Plan. The Plan currently offers numerous mutual funds as investment options for participants. Employees are eligible to make salary deferral contributions at the date of their hire. The participants contributions are invested directly in the participants' selected investments. The Company may make matching contributions, non-elective or discretionary contributions to the Plan in such amounts as determined by resolutions of the Board of Directors. In order to be eligible for matching contributions, a participant generally must also have completed a certain amount service as defined in the Plan. The amount of the match depends on the 401 (k) contribution. Each year, the Company may set a matching percentage that is proportionate to the amount of participant elective contributions. The Company may also designate non-elective contributions, as allocated to the Plan.

1. Description of the Plan (continued):

Participant accounts:

Each participant's account is credited with the participant's contributions and allocation of (a) the Company's matching contribution, if any, and, (b) Plan earnings, and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings. Any non-elective deferrals to the Plan made by the Company are subject to vesting restrictions over 6 years.

Participant loans:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging 5% to 10%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reason, a participant may receive the value of the vested interest in the account as a lump-sum distribution.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Accounting estimates:

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

2. Summary of significant accounting policies (continued):

Date of Management's Review:

Subsequent events were evaluated through September 28, 2021, which is the date the financial statements were available to be issued.

3. Fair value of Financial Instruments:

The Plan's investments are reported at fair value in the accompanying Statement of Net Assets Available for Benefits. The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other that quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Level I - Quoted prices are available in active markets for identical investments as of the reporting date. This category includes active exchange traded money market funds and equity securities.

Level II - Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined using models or other valuation methodologies.

Level III - Pricing inputs are unobservable and include situations where there is little, if any, market activity for the investment. Investments that are included in this category generally include privately held investments and securities held in partnership format. Reported valuations of Level III securities may differ materially from the values that would have been used had a ready market for these investments existed.

3. Fair value of Financial Instruments (continued):

The fair value measurements and levels within the fair value hierarchy of those measurements for the assets reported at fair value at December 31, 2019:

	Total	Level 1	Level 2	Level 3
Money market, cert. of deposit	$	$ 0	$ -	$ -
Mutual funds	1,016,782	1,016,782	-	-
Totals	$1,016,782	$1,016,782	$ 0	$ 0

The following methods and assumptions were used to estimate the fair value for each class of financial instrument measured at fair value:

Mutual funds - Mutual funds are classified as Level 1 if they are traded in an active market for which closing prices are readily available.

While the plan sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

4. Participant loans:

As of December 31, 2020, participants had $44,453 of outstanding loans, which were collateralized with participants' account balances. Participant loans charge interest at commensurate with the prevailing interest rate charged on similar commercial loans. Interest received on loans is recognized as interest income on the statement of changed in net assets available for benefits. During 2020, participants did not default on any loans. All outstanding loans are considered collectible at December 31, 2020.

Balance December 31, 2019	$ 4,883
Loan repayments made in 2020	(7,052)
New loans issued in 2020	46,622
Balance December 31, 2020	$ 44,453

5. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

6. Tax status:

The Plan has obtained a favorable determination letter from the Internal Revenue Service. The Plan Administrator Committee/Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level or risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
