MBC HOLDINGS OF OHIO, INC. 401(K) SAVINGS & RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2020 and 2019

Note 1-Description of Plan

The following description of MBC Holdings of Ohio, Inc. 401(k) Savings & Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of MBC Holdings of Ohio, Inc. (the "Company" or "Plan Sponsor") who have completed at least ninety days of continuous accredited service and are of at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute up to Internal Revenue Service maximum limits of pre-tax annual compensation to a traditional 401(k) or after-tax annual compensation to a Roth 401(k), as defined in the plan document.

The Company contributes a maximum of 4% of employee wages by matching 100% of the first 3% percent plus 50% of employee contributions over 3% up to 5%. The matching Company contribution is invested as directed by the participants. Participants become eligible to receive safe harbor matching contributions as soon as they become eligible to participate in the Plan. Additional discretionary profit sharing amounts may be contributed at the option of the Board of Directors of the Company and are also invested as directed by the participants. Participants may share in the additional discretionary profit sharing amounts provided they have completed one year of service (minimum of 1,000 hours) and are actively employed on the last day of the plan year. Contributions are subject to certain limitations. The Company made a discretionary profit sharing contribution of \$844,249 for 2020.

Rollover contributions

Participants may contribute funds previously held for their account in another qualified employee benefit plan to the Plan. A participant shall be fully vested at all times in such amounts transferred into the Plan. Rollover contributions share in income and earnings under the terms of the Plan, but no employer contributions are made with respect to any rollover contribution.

Participant accounts

Individual accounts are maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions, their allocation of the Plan Sponsor's contributions and Plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are always 100% vested in their contributions, the Company's safe harbor matching contributions, plus any earnings (losses) thereon. Vesting in the Company's discretionary profit sharing or additional discretionary matching contribution plus earnings (losses) thereon is based on years of continuous service. A participant is 20%, 40%, 60%, 80%, and 100% vested after 2, 3, 4, 5, and 6 years of credited service, respectively.

MBC HOLDINGS OF OHIO, INC. 401(K) SAVINGS & RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

Note 1-Description of Plan-continued

Participant withdrawals

In the event of retirement, attainment of age 59 ½, death, termination, total and permanent disability or other severance from employment, participants are entitled to receive an amount equal to the value of the vested interest in their accounts. Disbursement of these amounts will be made through installment payments or in a lump sum amount equal to the vested value of their account. If a participant's balance is less than \$5,000 and a distribution election is not made, the full value of the account will be distributed in a single lump-sum, either directly to the participant if the balance does not exceed \$200, or to an individual retirement account if the balance is between \$200 and \$5,000.

In the event of hardship, as defined in the plan agreement, participants may take a distribution from their accounts in an amount necessary to satisfy the financial need, subject to certain tax withholdings.

Forfeitures

At December 31, 2020 and 2019, unallocated assets of the Plan totaled \$4,775 and \$4,265, respectively. These are comprised of forfeitures of non-vested accounts. Forfeitures are used to reduce future employer matching contributions or administrative expenses of the Plan. During 2020, \$21,106 forfeited non-vested amounts were used to reduce employer contributions.

Termination of the Plan

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the plan provisions to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event such discontinuance results in the termination of the Plan, the participants shall receive their full account balance, less any administrative costs to the Plan for such distribution.

Note 2-Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Contributions

Participant salary deferrals and employer contributions are included in income during the period the related salary is earned.

Valuation of investments and income recognition

Investments held by the Plan are stated at fair value with the exception of the stable value fund. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS-CONTINUED
December 31, 2020 and 2019

Note 2-Summary of significant accounting policies-continued

Valuation of investments and income recognition

As described in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic, Plan Accounting – Defined Contribution Pension Plans, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fully benefit-responsive investment contract (FBRIC). The statements of net assets available for benefits present the contract value of the fully benefit-responsive investment contract. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses. At December 31, 2020 and 2019, the Transamerica Stable Value Core Option had a fair value that was equivalent to contract value.

Payment of benefits

Participant withdrawals are recorded upon distribution.

Administrative expenses

Transaction fees and investment consulting fees are paid by the Plan. Other administrative fees, including audit and other services, are paid by the Plan Sponsor and respective subsidiaries. Services are rendered by parties-in-interest to the Plan. Administrative expenses that were paid by Plan Sponsor were excluded from these financial statements.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated subsequent events through October 8, 2021, the date the financial statements were available to be issued, and has determined there are no subsequent events that require recognition or disclosure.

Reclassification

Certain disclosures in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year.

MBC HOLDINGS OF OHIO, INC. 401(K) SAVINGS & RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS-CONTINUED
December 31, 2020 and 2019

Note 3-Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2020 and 2019, and net appreciation (depreciation) in the value of investments for the year ended December 31, 2020, were obtained or derived from information supplied to the Plan Administrator and certified by Transamerica Life Insurance Company (the Custodian) as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors.

Note 4-Fair value measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification Topic 820, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled Separate Accounts-valued based on the net asset value at which the mutual funds shares are actively traded. The net asset value, as provided by the custodian, is used as a practical expedient to estimate fair value.

MBC HOLDINGS OF OHIO, INC. 401(K) SAVINGS & RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS-CONTINUED
December 31, 2020 and 2019

Note 4-Fair value measurements-continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Subtopic 820-10, certain investments that are measured at the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy.

The pooled separate accounts have no unfunded commitments, have a daily redemption frequency and require a 1 day redemption period. The pooled separate accounts' fair value is \$16,220,516 and \$12,329,707 at December 31, 2020 and 2019, respectively.

Note 5-Fully benefit-responsive investment contracts

The Plan includes an account called the Transamerica Stable Value Option (Stable Value Option) as an investment option available to participants. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. As of December 31, 2020 and 2019, the balance of the Stable Value Option was \$1,130,000 and \$1,008,314, respectively.

The Stable Value Option consists of depository assets with no formal underlying maturities and no unfunded commitments. The Stable Value Option is considered fairly valued at contract value because of this specific distinction. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the funds, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Stable Value Option investment choice is a non-tradable obligation of Custodian. The investment's contract or proceeds cannot nor will not be assigned or sold to another party without the consent of the Custodian. The repayment of principal and interest credited to participants holding the investment is a financial obligation of the Custodian. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable—for example, a significant decline in creditworthiness of the Custodian, the Stable Value Option investment choice may no longer be considered fully benefit-responsive. The terms of the Custodian's Group Annuity Contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans or transfers to other investment choices within the plan. Since the Stable Value Option investment choice is an obligation of the Custodian, the occurrence of an event that limits the ability of the investment to transact at contract value between the Custodian and a participant holding the investment is not probable. The Stable Value Option investment choice allows a participant reasonable access to their assets. Although participants may withdraw assets from the Stable Value Option investment choice without restrictions, the Custodian may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance.

The effective annual rate of interest is established semi-annually for the six-month period immediately following. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six-month period. There is no stated minimum or maximum interest rate for the Stable Value Option investment choices.

Note 6—Related party transactions and party in interest transactions

Certain Plan investments are managed by the custodian, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are deducted directly from participant accounts. There have been no known prohibited transactions with a party in interest. The Plan made direct payments to the custodian in the amount of \$5,376 during 2020.

Note 7—Federal income tax status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter, dated November 30, 2020, from the Internal Revenue Service (IRS) that the prototype plan as designed qualifies for federal income tax-exempt status. The Plan has not individually sought a determination from the IRS on its qualification status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.
