Plan Management
Axxess Consult, Inc. 401(k) Profit Sharing Plan and Trust
Dallas, Texas

We have conducted a Department of Labor (DOL) limited-scope audit of the financial statements of Axxess Consult, Inc. 401(k) Profit Sharing Plan and Trust (Plan) as of and for the year ended December 31, 2020. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 3* to those financial statements. Because of the significance of the information that we did not audit, we are unable to and have not expressed an opinion on those financial statements and supplemental schedule as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. Standards also require that we communicate to you the following information related to our audit.

AUDIT SCOPE AND RESULTS

Auditor's Responsibility Under Auditing Standards Generally Accepted in the United States of America

An audit performed in accordance with auditing standards generally accepted in the United States of America is designed to obtain reasonable, rather than absolute, assurance about the financial statements. In performing auditing procedures, we establish scopes of audit tests in relation to the financial statements taken as a whole. Our engagement does not include a detailed audit of every transaction. Our contract more specifically describes our responsibilities.

These standards require communication of significant matters related to the financial statement audit that are relevant to the responsibilities of those charged with governance in overseeing the financial reporting process. Such matters are communicated in the remainder of this letter or have previously been communicated during other phases of the audit. The standards do not require the auditor to design procedures for the purpose of identifying other matters to be communicated with those charged with governance.

An audit of the financial statements does not relieve management or those charged with governance of their responsibilities. Our contract more specifically describes your responsibilities.

Qualitative Aspects of Significant Accounting Policies and Practices

Significant Accounting Policies

The Plan's significant accounting policies are described in *Note 2* of the audited financial statements.

Alternative Accounting Treatments

We had discussions with management regarding alternative accounting treatments within accounting principles generally accepted in the United States of America for policies and practices for material items, including recognition, measurement, and disclosure considerations related to the accounting for specific transactions as well as general accounting policies, as follows:

No matters are reportable.

Management Judgments and Accounting Estimates

Accounting estimates are an integral part of financial statement preparation by management, based on its judgments. The following areas involve significant estimates for which we are prepared to discuss management's estimation process and our procedures for testing the reasonableness of those estimates:

- Valuation of investments under Accounting Standards Codification 820, *Fair Value Measurements*

Financial Statement Disclosures

The following areas involve particularly sensitive financial statement disclosures for which we are prepared to discuss the issues involved and related judgments made in formulating those disclosures:

- Determination of fair values

Audit Adjustments

No matters are reportable.

Auditor's Judgments About the Quality of the Plan's Accounting Principles

During the course of the audit, we made the following observations regarding the Plan's application of accounting principles:

No matters are reportable.

Other Information in Documents Containing Audited Financial Statements

The Plan's audited financial statements are included in the Form 5500, *Annual Return/Report of Employee Benefit Plan*, filed with the Department of Labor Employee Benefits Security Administration. As part of our procedures, we read the Form 5500 to determine if financial information discussed in sections outside the financial statements materially contradicts the audited financial statements. If we identify any such matters, we bring them to management's attention and review subsequent revisions.

Other Material Communications

Listed below are other material communications between management and us related to the audit:

- Management representation letter (*attached*)
- We orally communicated to management other deficiencies in internal control identified during our audit that are not considered material weaknesses or significant deficiencies

OTHER MATTERS

Although not considered material weaknesses, significant deficiencies, or deficiencies in internal control over financial reporting, we observed the following matters and offer these comments and suggestions with respect to matters which came to our attention during the course of the audit of the financial statements. Our audit procedures are designed primarily to enable us to form an opinion on the financial statements and, therefore, may not bring to light all weaknesses in policies and procedures that may exist. However, these matters are offered as constructive suggestions for the consideration of management as part of the ongoing process of modifying and improving financial and administrative practices and procedures. We can discuss these matters further at your convenience and may provide implementation assistance for changes or improvements.

New Auditing Standard for Employee Benefit Plans

In July 2019, the AICPA Auditing Standards Board (ASB) issued the Statement on Auditing Standards (SAS) No. 136, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA* (SAS 136). SAS 136 applies only to audits of employee benefit plans that are subject to *Employee Retirement Income Security Act of 1974* (ERISA). The new standard prescribes certain new performance requirements for an audit of financial statements of employee benefit plans subject to ERISA and changes the form and content of the related auditor's report.

New Requirements for the Auditor
SAS 136 addresses specific performance requirements in the following areas:

- Engagement acceptance
- Audit risk assessment and response, including the auditor's consideration of relevant plan provisions
- Communication of reportable findings with those charged with governance
- The auditor's responsibilities relating to the ERISA-required supplemental schedules and the Form 5500.
- The form and content of the related auditor's report

New Requirements for the Plan
SAS 136 requires plan management to provide the auditor with the following:

- Acknowledgment from plan management that the certifying entity (typically the trustee or custodian) is qualified to provide a certification for investments and related investment income.
- Plan management will be required to provide a substantially complete draft of the Form 5500 before the release of the financial statements.

ERISA Section 103(a)(3)(C) Audits

ERISA section 103(a)(3)(C) allows plan management to elect to exclude from the audit certain investment information held and certified by a qualified institution. This type of audit, previously known and referred to as a "limited-scope audit", is now referred to an "ERISA section 103(a)(3)(C) audit" in the new standard. SAS 136 does not change anything in ERISA, and therefore, plan management is able to continue electing such an audit.

SAS 136 clarifies what is expected of the auditor, including specific procedures when performing an ERISA section 103(a)(3)(C) audit. It also establishes a new form of report that provides greater transparency about the scope and nature of the audit and describes the procedures performed on the certified investment information.

SAS 136 is effective for audits of financial statements for periods ending on or after December 15, 2021. Early implementation is permitted.

Cybersecurity Guidance for Employee Benefit Plans

For the first time, the Employee Benefit Security Administration (EBSA*)* has issued cybersecurity guidance. EBSA believes that without sufficient protection, the over $9.3 trillion of assets currently invested for the participants of defined benefit and contribution plans could be at risk from both internal and external cybersecurity threats. The guidance, issued in three parts, provides plan fiduciaries and plan management tips for hiring a service provider, cybersecurity program best practices, and online security tips.

Cybersecurity program best practices, as outlined by the EBSA, include the following:

- Have a formal cybersecurity program
- Conduct prudent annual risk assessments
- Have a reliable annual third-party audit of security controls
- Maintain strong access control procedures
- Ensure sensitive data stored and in transit is encrypted
- Respond properly to cybersecurity incidents or breaches

Employee benefit plans often rely on other service providers to maintain plan and participant data records. Plan sponsors should exercise prudence when selecting and monitoring service providers. Steps that plan sponsors can take during the selection process include the following:

- Inquire about the service provider's information security standards, policies, and practices
- Evaluate the service provider's track record, including a search for public information regarding information security incidents
- Inquire whether the service provider has experienced security breaches in the past
- Check if the service provider has insurance policies covering losses caused by cybersecurity and identity theft breaches

We recommend plan fiduciaries and plan management consider the guidance issued and begin the process to implement the best practices where appropriate, which may include a cybersecurity assessment.

This communication is intended solely for the information and use of management, plan administration, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

Plan Management
Axxess Consult, Inc. 401(k) Profit Sharing Plan and Trust
Dallas, Texas

We have conducted a Department of Labor (DOL) limited-scope audit of the financial statements of Axxess Consult, Inc. 401(k) Profit Sharing Plan and Trust (Plan) as of and for the year ended December 31, 2020. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 3* to those financial statements. Because of the significance of the information that we did not audit, we are unable to and have not expressed an opinion on those financial statements and supplemental schedule as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. Standards also require that we communicate to you the following information related to our audit.

AUDIT SCOPE AND RESULTS

Auditor's Responsibility Under Auditing Standards Generally Accepted in the United States of America

An audit performed in accordance with auditing standards generally accepted in the United States of America is designed to obtain reasonable, rather than absolute, assurance about the financial statements. In performing auditing procedures, we establish scopes of audit tests in relation to the financial statements taken as a whole. Our engagement does not include a detailed audit of every transaction. Our contract more specifically describes our responsibilities.

These standards require communication of significant matters related to the financial statement audit that are relevant to the responsibilities of those charged with governance in overseeing the financial reporting process. Such matters are communicated in the remainder of this letter or have previously been communicated during other phases of the audit. The standards do not require the auditor to design procedures for the purpose of identifying other matters to be communicated with those charged with governance.

An audit of the financial statements does not relieve management or those charged with governance of their responsibilities. Our contract more specifically describes your responsibilities.

Qualitative Aspects of Significant Accounting Policies and Practices

Significant Accounting Policies

The Plan's significant accounting policies are described in *Note 2* of the audited financial statements.

Alternative Accounting Treatments

We had discussions with management regarding alternative accounting treatments within accounting principles generally accepted in the United States of America for policies and practices for material items, including recognition, measurement, and disclosure considerations related to the accounting for specific transactions as well as general accounting policies, as follows:

No matters are reportable.

Management Judgments and Accounting Estimates

Accounting estimates are an integral part of financial statement preparation by management, based on its judgments. The following areas involve significant estimates for which we are prepared to discuss management's estimation process and our procedures for testing the reasonableness of those estimates:

- Valuation of investments under Accounting Standards Codification 820, *Fair Value Measurements*

Financial Statement Disclosures

The following areas involve particularly sensitive financial statement disclosures for which we are prepared to discuss the issues involved and related judgments made in formulating those disclosures:

- Determination of fair values

Audit Adjustments

No matters are reportable.

Auditor's Judgments About the Quality of the Plan's Accounting Principles

During the course of the audit, we made the following observations regarding the Plan's application of accounting principles:

No matters are reportable.

Other Information in Documents Containing Audited Financial Statements

The Plan's audited financial statements are included in the Form 5500, *Annual Return/Report of Employee Benefit Plan*, filed with the Department of Labor Employee Benefits Security Administration. As part of our procedures, we read the Form 5500 to determine if financial information discussed in sections outside the financial statements materially contradicts the audited financial statements. If we identify any such matters, we bring them to management's attention and review subsequent revisions.

Other Material Communications

Listed below are other material communications between management and us related to the audit:

- Management representation letter (*attached*)
- We orally communicated to management other deficiencies in internal control identified during our audit that are not considered material weaknesses or significant deficiencies

OTHER MATTERS

Although not considered material weaknesses, significant deficiencies, or deficiencies in internal control over financial reporting, we observed the following matters and offer these comments and suggestions with respect to matters which came to our attention during the course of the audit of the financial statements. Our audit procedures are designed primarily to enable us to form an opinion on the financial statements and, therefore, may not bring to light all weaknesses in policies and procedures that may exist. However, these matters are offered as constructive suggestions for the consideration of management as part of the ongoing process of modifying and improving financial and administrative practices and procedures. We can discuss these matters further at your convenience and may provide implementation assistance for changes or improvements.

New Auditing Standard for Employee Benefit Plans

In July 2019, the AICPA Auditing Standards Board (ASB) issued the Statement on Auditing Standards (SAS) No. 136, *Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA* (SAS 136). SAS 136 applies only to audits of employee benefit plans that are subject to *Employee Retirement Income Security Act of 1974* (ERISA). The new standard prescribes certain new performance requirements for an audit of financial statements of employee benefit plans subject to ERISA and changes the form and content of the related auditor's report.

New Requirements for the Auditor
SAS 136 addresses specific performance requirements in the following areas:

- Engagement acceptance
- Audit risk assessment and response, including the auditor's consideration of relevant plan provisions
- Communication of reportable findings with those charged with governance
- The auditor's responsibilities relating to the ERISA-required supplemental schedules and the Form 5500.
- The form and content of the related auditor's report

New Requirements for the Plan
SAS 136 requires plan management to provide the auditor with the following:

- Acknowledgment from plan management that the certifying entity (typically the trustee or custodian) is qualified to provide a certification for investments and related investment income.
- Plan management will be required to provide a substantially complete draft of the Form 5500 before the release of the financial statements.

ERISA Section 103(a)(3)(C) Audits

ERISA section 103(a)(3)(C) allows plan management to elect to exclude from the audit certain investment information held and certified by a qualified institution. This type of audit, previously known and referred to as a "limited-scope audit", is now referred to an "ERISA section 103(a)(3)(C) audit" in the new standard. SAS 136 does not change anything in ERISA, and therefore, plan management is able to continue electing such an audit.

SAS 136 clarifies what is expected of the auditor, including specific procedures when performing an ERISA section 103(a)(3)(C) audit. It also establishes a new form of report that provides greater transparency about the scope and nature of the audit and describes the procedures performed on the certified investment information.

SAS 136 is effective for audits of financial statements for periods ending on or after December 15, 2021. Early implementation is permitted.

Cybersecurity Guidance for Employee Benefit Plans

For the first time, the Employee Benefit Security Administration (EBSA*)* has issued cybersecurity guidance. EBSA believes that without sufficient protection, the over $9.3 trillion of assets currently invested for the participants of defined benefit and contribution plans could be at risk from both internal and external cybersecurity threats. The guidance, issued in three parts, provides plan fiduciaries and plan management tips for hiring a service provider, cybersecurity program best practices, and online security tips.

Cybersecurity program best practices, as outlined by the EBSA, include the following:

- Have a formal cybersecurity program
- Conduct prudent annual risk assessments
- Have a reliable annual third-party audit of security controls
- Maintain strong access control procedures
- Ensure sensitive data stored and in transit is encrypted
- Respond properly to cybersecurity incidents or breaches

Employee benefit plans often rely on other service providers to maintain plan and participant data records. Plan sponsors should exercise prudence when selecting and monitoring service providers. Steps that plan sponsors can take during the selection process include the following:

- Inquire about the service provider's information security standards, policies, and practices
- Evaluate the service provider's track record, including a search for public information regarding information security incidents
- Inquire whether the service provider has experienced security breaches in the past
- Check if the service provider has insurance policies covering losses caused by cybersecurity and identity theft breaches

We recommend plan fiduciaries and plan management consider the guidance issued and begin the process to implement the best practices where appropriate, which may include a cybersecurity assessment.

This communication is intended solely for the information and use of management, plan administration, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.
