Independent Auditors' Report

Plan Administrator
Kirkwood Holding Inc. Employees' Stock Ownership Trust and Plan
Cleveland, Ohio

We have audited the accompanying financial statements of Kirkwood Holding Inc. Employees' Stock Ownership Trust and Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2020 and 2019, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2020 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

KIRKWOOD HOLDING INC.
EMPLOYEES' STOCK OWNERSHIP TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles").

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Revenue and Benefit Payments Recognition

Contributions from Kirkwood Holding Inc. (the "Company") to Kirkwood Holding Inc. Employees' Stock Ownership Trust and Plan (the "Plan") are recognized during the period in which they are determined by the Board of Directors of the Company. Benefits are recognized in the financial statements during the period in which they are paid to a Plan participant.

Investment Valuation and Income Recognition

The common stock of the Company is not publicly traded. The investment in common stock of the Company is reported at the fair value of the stock as determined annually by an independent appraisal from Pendo Advisors as of the last business day of the year. See Note 5 for a discussion of fair value measurements.

The change in the difference between current value and the cost of investments is reflected in the statements of changes in net assets available for benefits as net appreciation in fair value of investments. The cost of securities sold is based on the average cost of the securities. Dividends are recorded on the ex-dividend date.

Administrative Fees

All administrative fees of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

EMPLOYEES' STOCK OWNERSHIP TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Summary of Significant Accounting Policies (Continued)

Adoption of New Accounting Standard

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement* ("ASU 2018-13"). ASU 2018-13 eliminates, amends and adds disclosure requirements and is applicable to all entities that are required under generally accepted accounting principles to disclose recurring and nonrecurring fair value measurements. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019, though early adoption is permitted for any eliminated or modified disclosure requirements. The Plan has adopted ASU 2018-13 as of January 1, 2020. The adoption did not have a material impact on the financial statements.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2021, which is the date the financial statements were available to be issued.

Note 2. Plan Description

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan provides all employees of the Company, and certain of its subsidiaries, who meet certain requirements as to length of service, with a method of acquiring a stock ownership interest in the Company and accumulating their stock until retirement or as otherwise described in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Company Contributions

Plan contributions can be made in cash or in shares of the Company's common stock. Cash received by the Trustees is used to purchase shares of common stock from the Company or its shareholders or to make principal and interest payments on outstanding debt of the Plan. If no shares are available for purchase at a price less than or equal to the estimated fair value, the Trustees may make other investments after scheduled debt payments are made.

It is generally the Company's policy to make annual contributions to the Plan as are necessary to satisfy the requirements on its outstanding collateralized notes payable (see Note 3). The number of shares to be allocated is based on principal and interest payments made by the Plan during the year.

KIRKWOOD HOLDING INC.
EMPLOYEES' STOCK OWNERSHIP TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Plan Description (Continued)

Participants' Accounts

All assets of the Plan are maintained by the Plan's Trustees. Contributions and forfeitures are allocated to the individual participants' accounts annually based upon the participants' eligible annual compensation. Plan earnings are allocated to each participant's account based on the ratio of the end of the year number of shares in the participant's account to the end of the year number of shares in all participants' accounts. The individual participants' accounts are maintained on the basis of shares of common stock equivalents at the date of allocation. Upon normal retirement, disability or death, the participant becomes fully vested and is entitled to the value of the shares credited to the participant's account. If termination occurs for reasons other than normal retirement, disability or death, the participant is entitled to the portion of his or her individual account which has been vested based upon length of service. A participant in the Plan becomes vested in his or her individual account based on a six-year graded vesting schedule. Benefits become 20% vested starting with two years of service and become fully vested after six years of service. Shares forfeited in the amount of \$64,126 and \$21,367 were allocated to participants during 2020 and 2019, respectively. Participants receive cash payments equal to the estimated fair value of their vested account upon distribution, subject to the payment provisions of the Plan. Currently, the Plan does not allow common stock of the Company to be distributed to participants. The common stock associated with the account of a participant who requests a distribution is sold by the Plan to the Company and the proceeds of this sale fund the distribution payment.

Put Option

Under Federal income tax regulations, employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. Although the Plan currently does not allow common stock of the Company to be distributed to participants, if such distributions are permitted in the future, the put option provides a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. At the participants' option, the Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Benefit Payments

Under the Plan, the normal form of payment is a qualified joint and 50% survivor annuity for married participants and a life annuity for single participants. Participants may elect (with spousal consent) to receive the benefit in a lump sum payment or under the five-year installment method. Any participant who terminates and has an account balance less than \$1,000 will receive a lump sum distribution. Prior to January 1, 2020, any participant who terminates employment and has an account balance between \$1,000 and \$5,000 and does not make an affirmative election for a distribution will have his or her account balance transferred to an individual retirement account selected by the Company. Effective January 1, 2020, the amount subject to automatic cash out was reduced to \$1,000.

KIRKWOOD HOLDING INC.
EMPLOYEES' STOCK OWNERSHIP TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Plan Description (Continued)

Benefit Payments (Continued)

As described above, the common stock associated with the account of a participant who requests a distribution is sold by the Plan to the Company and the proceeds of this sale fund the distribution payment. During 2020 and 2019, the Company repurchased 8,739 and 2,887 shares at a fair value of \$2,798,032 and \$918,578, respectively, using prices determined from the independent appraisal.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become fully vested and all unallocated assets of the Plan would be allocated to the individual participants' accounts after the repayment of debt; the cumulative assets allocated to the individual accounts would then be distributed to the Plan participants.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustees are required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their participant accounts. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. During the years ended December 31, 2020 and 2019, \$162,657 and \$150,827, respectively, was transferred from the Plan to the Kirkwood Holding Inc. Retirement Savings Trust and Plan, under elections made by participants.

Note 3. Related Party Transactions

The common stock of the Company is entirely held by the Plan. As specified in the Plan agreement, all purchases of stock by the Plan are made at a price equal to or less than the estimated fair value at the date of the transaction.

The Plan entered into an agreement on July 27, 1999 with the Company whereby the Plan borrowed \$12,455,535 from the Company. The Plan then purchased, with the loan proceeds, 52,039 shares of Class A common stock from certain shareholders of the Company for a total purchase price of \$12,455,535.

KIRKWOOD HOLDING INC.
EMPLOYEES' STOCK OWNERSHIP TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 3. Related Party Transactions (Continued)

The Plan entered into an agreement on February 28, 1996 with the Company whereby the Plan borrowed \$11,000,000 from the Company. The Plan then purchased, with the loan proceeds, 51,286 shares of Class A common stock from certain shareholders of the Company for a total purchase price of \$10,999,821.

The Plan entered into an agreement on July 14, 1994 with the Company whereby the Plan borrowed \$10,000,000 from the Company. The Plan then purchased, with the loan proceeds, 87,967 shares of Class A common stock from the Company for a total purchase price of \$10,000,089.

The three outstanding loans discussed above were refinanced effective January 1, 2008 to eliminate, or forgive, the outstanding accrued interest as of December 31, 2007, to lower the interest rate on each loan to 1% per annum and to establish a fixed amortization schedule with payments scheduled through the year 2032.

All loans from the Company are collateralized by the unallocated stock in the Plan. The Company has no right against the shares once they are allocated to participants. The Company may grant the Plan extensions on its scheduled loan payments based on the Internal Revenue Code's restrictions on the Plan and Company. Principal and interest payments are determined by the Company based on debt service requirements and are funded with a combination of cash contributions and dividend payments.

The scheduled amortization of the loans is as follows:

2021	\$ 755,803
2022	763,487
2023	771,250
2024	778,830
2025	786,923
Thereafter	<u>5,518,082</u>
	<u>\$ 9,374,375</u>

Note 4. Investments

EMPLOYEES' STOCK OWNERSHIP TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 5. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. Fair value is defined as the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for investments of the Plan measured at fair value at December 31, 2020 and 2019:

- Investment in Kirkwood Holding Inc. Class A common shares at fair value: The investment in common stock of the Company is reported at the fair value of the stock as determined by an independent appraiser. The appraiser has determined an estimate of the value of the common stock through procedures outlined in the AICPA Statement on Standards for Valuation Services using the history, general business and financial condition of the Company, along with Company prepared financial projections for the future, as compared with similar publicly held companies included in the Standard & Poor's 500 Index. The appraisal was based upon a combination of the market and income valuation approach techniques consistent with prior years. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. As such, the common stock is classified as Level 3.

The valuation process involves plan management's selection of an independent appraiser under contract with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP Trustees, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary.

The valuation methodology used for plan assets measured at fair value described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodology used from 2019 to 2020. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

KIRKWOOD HOLDING INC.
EMPLOYEES' STOCK OWNERSHIP TRUST AND PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 6. Income Tax Status

The Plan obtained its latest determination letter on March 19, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

The plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements.

Note 7. Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the Trustees of the Plan.

Company contributions are held and managed by the Trustees, which invest cash received and make distributions to participants. The Trustees also administer the payment of interest and principal on the loan.

Certain administrative and trustee functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 8. Risks and Uncertainties

The Plan's investments consist of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the Company's common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the Company's common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 9. COVID-19 Global Pandemic

On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease 2019 ("COVID-19") a global health emergency and subsequently declared the COVID-19 outbreak a global pandemic in March 2020. The pandemic has adversely affected domestic and global economic activity and the full impact continues to evolve as of the date of this report.
