1. Description of plan

The following description of M-E Engineers, Inc. (Company) 401(K) Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan. With the exception of interns, all employees of the Company are covered by the Plan beginning on the date they attain age 21 and complete 3 months of service, at which time they are eligible to make elective deferral contributions and receive employer matching contributions. Employees are eligible for profit sharing contributions after 1 year of service and meeting the minimum work requirement of 1,000 hours. Plan entry dates are immediate following the date the eligibility requirements are met. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For 2020, participants may elect to contribute up to $19,500 of their compensation to the Plan. Participants who are the age of 50 or more may contribute an additional $6,500. The Company's discretionary employer matching contribution rate remained at 25% throughout 2020.

Additional profit sharing amounts may be contributed by the Company on a discretionary basis. The 2020 profit sharing amount, which will be contributed in 2021, is equal to 1.0429% of eligible compensation plus 1.0429% of eligible compensation which exceeds the social security tax base, up to maximum compensation of $285,000. The 2019 profit sharing amount, which was contributed in 2020, was equal to 1.0636% of eligible compensation plus 1.0636% of eligible compensation which exceeds the social security tax base, up to maximum compensation of $280,000. At December 31, 2020 and 2019, the Plan accrued a receivable from the Company of $280,214 and $280,857, respectively, representing their discretionary profit sharing contribution and matching contribution for 2020 and 2019, net of the amounts paid by forfeitures and match corrections of $20,965 and $19,778, respectively.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the portion of their accounts comprised of the Company's discretionary matching and profit sharing contributions plus actual earnings thereon is based on years of service as follows:

Total years of service	% Vested
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Investment options

All of the Plan's accounts are maintained by John Hancock Retirement Services (Hancock). The investment options consist of a variety of Hancock-managed funds and other mutual funds. Upon enrollment in the Plan, a participant may direct their contributions into any combination of the funds available through Hancock.

Loans

Participants may borrow up to 50% of their vested account balance, subject to limitations imposed by the Internal Revenue Service (IRS). The minimum loan amount is $1,000 and the maximum is $50,000. Loans incur interest at fixed rates which are set at origination based on interest rates currently being charged on similar loans.

Payment of benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or may defer distribution in accordance with the terms of the Plan agreement.

Forfeited accounts

Forfeited accounts are included as Plan assets. These funds are used to pay future Company contributions of the Plan. At December 31, 2020 and 2019, there was $20,965 and $19,778, respectively, in forfeited accounts available to reduce future contributions.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair value measurements

Accounting Standards Codification (ASC) Topic 820 defines fair value as the price that would be received to sell an asset or liability in an orderly transaction between market participants at a measurement date. It provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value; the three levels of the fair value hierarchy are described below:

> Level 1 – Valuations are based on unadjusted quoted prices in an active market for identical assets or liabilities.
>
> Level 2 – Valuations are based on quoted prices for similar assets or liabilities in active markets, or quoted prices in markets that are not active for which significant inputs are observable, either directly or indirectly.
>
> Level 3 – Valuations are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimate of what market participants would use in valuing the asset or liability at the measurement date.

Mutual funds are measured at fair value based on quoted market prices which are Level 1 observable inputs. The guaranteed income account functions like a money market fund. Funds deposited are guaranteed a pre-determined interest rate for a set period (generally six months) at which time the interest rate will reset. The fund is a stable value product that guarantees principal and accumulated interest through a rider on a group annuity contract issued by John Hancock Insurance Company. This investment is valued at the principal deposited plus accumulated interest (net asset value) and does not fall under the fair value hierarchy.

Because Hancock does not provide information to separate unrealized gains (losses), realized gains (losses), and interest and dividends, the total is presented as net appreciation (depreciation) in the fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

2. Summary of significant accounting policies (continued)

Payment of benefits

Benefits are recorded when paid.

Plan expenses

Plan administrative expenses are paid by the Company.

3. Investments

Mutual funds which include foreign holdings within its portfolio may enter into forward currency and futures contracts and options to reduce exposure to loss due to changes in foreign currency exchange rates and changes in the security price or interest rate.

4. Information certified by Trustee

5. Tax status

The IRS has determined and informed the Plan sponsor by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

6. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

7. Risks and uncertainties

The Plan's investments are comprised of various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. It is therefore reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. COVID-19 Outbreak

In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) spread throughout the World, including the United States. In March 2020, the World Health Organization characterized COVID-19 as a pandemic and declared a public health emergency. Although a vaccine for COVID-19 is available, variants of the virus and other circumstances have contributed to prolonged impacts from COVID-19. At the date the financial statements were available to be issued, there has been no immediate impact to the Plan, however the Company’s operations and administration of this Plan could be adversely affected by the continued economic impact of COVID-19. The Company continues to closely monitor the situation, though the duration and future effect of the pandemic is unknown at this time.

9. Subsequent events

The Plan did not have any subsequent events through October 7, 2021, which is the date the financial statements were available to be issued, requiring recording or disclosure in the financial statements for the year ended December 31, 2020.
