Report on the Financial Statements

We have audited the accompanying financial statements of the Filtran Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Filtran Pension Plan as of December 31, 2020 and 2019, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule, Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2020, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. Description of the Plan

The following description of the Filtran Pension Plan (the Plan) provides only general information. Users of these financial statements should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan established for the benefit of eligible employees of Filtran LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. An employee becomes eligible on the date they become an employee of the Company pursuant to a collective bargaining agreement between the Company and the Shopman's Local Union No. 473 of the International Association of Bridge, Structural, Ornamental and Reinforcing Iron Workers (affiliated with AFL-CIO).

Contributions and Funding Policy

All contributions under the Plan are made by the Company. Contributions are based upon actuarial calculations of amounts necessary to provide for defined pension benefit payments upon retirement or death. The calculations are made annually by Correll Company, the actuary retained by the Plan (Actuary). The funding policy is calculated as the minimum contribution required by ERISA for the applicable Plan year. It is the Company's policy to make contributions of an amount at least equal to the minimum contributions required by ERISA. The Company made contributions of \$293,148 and \$330,621 for the years ended December 31, 2020 and 2019, respectively. Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Vesting

Participants are vested after the completion of 5 years of service. A participant becomes fully vested in their accrued pension if their employment terminates because of a) total and permanent disability after 10 years of credited service, b) attainment of early retirement age after 10 years of credited service or c) attainment of normal retirement age.

Pension Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan document. The Plan provides for normal retirement at either age 65 with the completion of 5 years of service, early retirement at age 60 and completion of 10 years or disability retirement benefits after 10 years of vesting service. Effective October 1, 2020, the normal retirement benefits are calculated monthly and are equal to the product of \$34.00 and years of service completed by the participant. A participant may elect an early distribution of the retirement benefit, in which case the accrued pension benefit will be decreased by 0.3% for each complete month by which the distribution precedes the normal retirement date. Participants may elect to receive the value of their accumulated benefits as a lump-sum distribution if the actuarial equivalent of the accrued benefit is less than \$25,000. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit equal to the employee's accrued benefit as of the date of disability.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and asset custodian. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the gain and loss on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through September 22, 2021, which is the date that the financial statements were approved and available to be issued, and concluded that no additional disclosures were required.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Notes to Financial Statements

3. Actuarial Present Value of Accumulated Plan Benefits (cont.)

The actuarial present value of accumulated plan benefits is determined by the Actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2020 and 2019, were as follows:

	2020	2019
Standard Mortality	Annuity: RP-2014 Combined Annuitant/Non-annuitant Blue Collar Mortality Table; employee rates to age 64, annuitant rates age 65+, future mortality improvement according to Scale MP-2019.	Annuity: RP-2014 Combined Annuitant/Non-annuitant Blue Collar Mortality Table; employee rates to age 64, annuitant rates age 65+, future mortality improvement according to Scale MP-2018.
Discount Rate	7.5%	7.5%

The employee turnover rate assumption utilized for both 2020 and 2019 reflects reflect graded rates from age 25 to 43 and none for ages 43 and older.

The active retirement rates for participants' assumptions were the same for both 2020 and 2019. Assumptions were 20% retirement at age 62, and then ratably thereafter to 100% at age 65 with 5 years of service.

The actuarial valuation is determined using the beginning-of-the-year method. Therefore, the accumulated plan benefits as of December 31, 2020, is presented from information provided by the Actuary as of January 1, 2020. There has been no significant change in the Plan's provisions or coverage during this period.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits and its components, valued at a discount rate of 7.00% for both the 2020 and 2019 Plan year, is shown below:

<i>January 1,</i>	2020	2019
Vested benefits		
Participants currently receiving benefits	\$ 664,308	\$ 407,461
Terminated participants entitled to deferred benefits	215,062	335,424
Other participants not in pay status	1,565,232	1,515,392
Total vested benefits	2,444,602	2,258,277
Non-vested benefits	77,945	62,248
Total actuarial present value of accumulated plan benefits	\$ 2,522,547	\$ 2,320,525

Notes to Financial Statements

3. Actuarial Present Value of Accumulated Plan Benefits (cont.)

The change in the actuarial present value of accumulated plan benefits are as follows:

<i>January 1,</i>		2020		2019
Actuarial present value of accumulated plan benefits, beginning of year	\$	2,320,525	\$	2,046,019
Increase (decrease) during the year attributable to				
Interest		170,954		152,911
Benefits paid		(82,277)		(53,852)
Change in actuarial assumptions		(9,195)		(2,107)
Benefits accumulated		122,540		177,554
Net increase		202,022		274,506
Actuarial present value of accumulated plan benefits, end of year	\$	2,522,547	\$	2,320,525

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Observable inputs other than Level 1 prices, such as a quoted price for similar assets or liabilities; quoted market prices in markets that are active; or model-derived valuation or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019:

Mutual Funds (or shares of registered investment companies) are valued at the net asset value (NAV) of shares held by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of a different methodology or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

4. Fair Value Measurement (cont.)

The Plan's investments measured at fair value on a recurring basis, as of December 31, 2020 and 2019, were as follows:

<i>December 31, 2020</i>	Level 1		Total
Mutual funds	\$	3,895,894	\$ 3,895,894
Total	\$	3,895,894	\$ 3,895,894

<i>December 31, 2019</i>	Level 1		Total
Mutual funds	\$	3,074,330	\$ 3,074,330
Total	\$	3,074,330	\$ 3,074,330

5. Party-In-Interest Transactions

The Plan's investments are administered under a contract with Fidelity Investments Institutional Services Company, the custodian of the Plan (custodian). Contributions are held and managed by the custodian, who invests cash received, interest, and dividend income and makes distributions to participants. Fees incurred by the Plan for the investment manager services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain expenses of the custodian are paid by the Plan related to Plan operations and investment activity described in Note 1. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 10, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- (c) All other vested benefits (that is, vested benefits not insured by PBGC).
- (d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

8. Risk and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

In addition, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Fidelity 500 Index Fund represented approximately 42% and 43% of the total investments at December 31, 2020 and 2019, respectively.

9. COVID-19 Considerations

The COVID-19 outbreak was declared a worldwide pandemic on March 11, 2020, by the World Health Organization (WHO). The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was passed into law. The CARES Act expanded the ability of certain defined benefit plans to delay making minimum required contributions. The Plan has met the minimum funding requirements of ERISA and, therefore, the did not adopt the provisions of the CARES Act.

The age reported is the weighted average of the assumed retirement ages for all active participants as of the valuation date based on their funding target or target normal cost should the funding target of the plan be zero rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.
