Notes to Financial Statements

December 31, 2020

Note 1 - Description of Plan:

The following description of the Synack Inc. (the "Company") Retirement Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 14, 2014, amended and restated with an effective date of January 1, 2018, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides benefits for all eligible employees of the Company.

The Company is the Plan administrator and retains the services of a third party to assist in the administration of the Plan. Through December 31, 2020, the Plan's third party administrator was Human Interest, Inc. and the Plan's custodian is LT Trust Company.

Eligibility - All employees who have reached twenty-one years of age are eligible to participate in the Plan effective immediately upon hire. Eligibility requirements exclude employees who are interns, apprentices, contingent workers, non-residents and employees working less than 1,000 hours in a Plan year. A participant may elect to not contribute to the Plan.

Participant contributions - Participants may elect to contribute up to 100% of their compensation subject to the maximum allowed under section 401(k) of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make "catch up" contributions, subject to statutory limits. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers). Participants may also designate a portion or all of their contributions as Roth contributions. Roth contributions are post-tax contributions of compensation, maintained in separate accounts in the Plan. The participants direct the investment of their account balances into various investment options offered by the Plan.

Employer contributions - Employer matching contributions are not permitted under the Plan. The Company may make discretionary profit-sharing contributions equal to a discretionary percentage at the option of the Company's Board of Directors. The Company did not make any discretionary contributions in 2020.

Participant accounts - Each participant's account is credited with the participant's contribution and Company contributions and allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (continued):

Investment options - The Plan provides for investments to be directed by participants into a number of investment options held by the custodian. Participant investment options include a variety of mutual funds and money market mutual funds. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund.

Vesting - Participants are immediately vested in their contributions, including rollovers of funds from other qualified retirement plans, and any Company discretionary profit-sharing contributions.

Notes receivable from participants - Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested balance. The notes are secured by the balance in the participant's account and bear interest as defined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement, disability, death, financial hardship (as defined in the Plan), or termination of employment. In-service distributions of a participant's vested account balance are permitted providing the participant has attained the age of 59 1/2. Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. Unless otherwise instructed by the participant, participants with vested account balances of $5,000 or less upon separation will receive a lump sum cash payout.

Forfeited accounts - Forfeitures are retained in the Plan and are used to reduce employer contributions. As of December 31, 2020 and 2019 there were no forfeitures remaining in the Plan. For the year ended December 31, 2020, no forfeitures were used to reduce employer contributions.

Administrative expenses - Substantially all administrative expenses of the Plan are paid by the Plan participants. Separate fees for loan processing and certain investments as specified in the service agreement, are charged to individual participant's accounts.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted ("GAAP") in the United States of America. Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Net appreciation in fair value of investments - The earnings, expenses, realized gains and losses, and unrealized appreciation (depreciation) in registered investments companies and other investments are recorded in the accompanying financial statements as net appreciation in fair value of investments.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements were available to be issued which is the date of the independent auditors' report.

Note 3 - Fair value:

The Plan performs fair value measurement in accordance with ASC 820 which defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2020 and 2019 and have all been determined to be Level 1 by the Plan administrator:

	2020 (Audited)	2019 (Compiled)
Mutual funds	$ 5,237,168	$ 2,796,087
Money market funds	111,673	94,748
Total investments measured at fair value	$ 5,348,841	$ 2,890,835

The Plan's valuation methodology used to measure the fair value of the funds above were derived from quoted market prices as substantially all of these instruments have active markets.

Note 4 - Investments:

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by LT Trust Company, the custodian of the Plan, as complete and accurate, except for comparing such information to information included in the Plan's financial statements and supplemental schedule.

The following information included in the financial statements and supplemental schedule was provided by and certified by the Plan's custodian as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Benefits as of December 31, 2020 and 2019.

- Investment income as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020.

- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020.

Note 5 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer matching account balances.

Note 6 - Income tax status:

The prototype plan adopted by the Company obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator believes that the prototype plan, as adopted by the Company, is operating in compliance with the requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Party-in-interest transactions:

At December 31, 2020 and 2019, the Plan did not have any investments available for benefits in LT Trust Company funds, or any other party-in-interest transactions as defined by ERISA.

Note 8 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.

Impact of COVID-19 - In March 2020, the World Health Organization declared the outbreak of novel coronavirus disease ("COVID-19") as a pandemic. The COVID-19 outbreak in the United States has caused business disruption to the Plan sponsor and throughout its customer base and supply chain through mandated and voluntary closings of many businesses. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration. Therefore, while the Plan sponsor expects this matter to have a financial impact on its operating results, the financial impact to the Plan would be a possible significant depreciation of investments, due to market volatility and reduced or eliminated matching contributions from the Plan sponsor, however given the fluid nature of the outcome of the pandemic, the ultimate impact and duration cannot be reasonably estimated at this time.

In response to the COVID-19 outbreak the U.S. Congress passed, and the President signed into law the Coronavirus Aid, Relief, and Economic Security ("CARES") Act in March 2020. The CARES Act provides for additional options to participants in regards to amount of and repayment terms for loans, as well as additional options with regard to distributions and repayment of distributions up to a certain limit, defined in the law and over a defined period of time.

In December 2019, the Setting Every Community Up for Retirement Enhancement ("SECURE") Act was signed into law. The SECURE Act made changes to the required beginning date of distributions by increasing the age, to the automatic enrollment safe harbor cap, to the eligibility of long-term part-time employees to make contributions, as well as modified the rules for distributions related to childbirth or adoption.

Note 9 - Reconciliation of financial statements to Schedule H of Form 5500:

The following is a reconciliation of net assets per the financial statements to Schedule H of the Form 5500 at December 31, 2020 and 2019:
